(Stock Code: 00386)

Annual Results for the Year Ended 31 December 2025

The board of directors of China Petroleum & Chemical Corporation (“**Sinopec Corp.**” or the “**Company**”) hereby announces the audited results of Sinopec Corp. and its subsidiaries for the year ended 31 December 2025. This announcement, containing the full text of the 2025 Annual Report of Sinopec Corp., complies with the relevant requirements of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited in relation to information to accompany preliminary announcement of annual results. The full text of the 2025 Annual Report of Sinopec Corp. is published on the websites of The Stock Exchange of Hong Kong Limited (www.hkexnews.hk) and of Sinopec Corp. (www.sinopec.com/listco/).

PUBLICATION OF RESULTS ANNOUNCEMENT

Both the Chinese and English versions of this results announcement are available on the websites of Sinopec Corp. (www.sinopec.com/listco/) and The Stock Exchange of Hong Kong Limited (www.hkexnews.hk). In the event of any discrepancies in interpretations between the English version and Chinese version, the Chinese version shall prevail.

By Order of the Board

China Petroleum & Chemical Corporation

Huang Wensheng

Vice President and Secretary to the Board

Beijing, the PRC,

This annual report includes forward-looking statements. All statements, other than statements of historical facts, that address activities, events or developments that the Company expects or anticipates will or may occur in the future (including but not limited to projections, targets, reserve and other estimates and business plans) are forward-looking statements. The Company's actual results or developments in the future may differ materially from those indicated by these forward-looking statements as a result of various factors and uncertainties. The Company makes the forward-looking statements referred to herein as at 20 March 2026 and unless required by regulatory authorities, the Company undertakes no obligation to update these forward-looking statements.

IMPORTANT NOTICE: THE BOARD OF DIRECTORS, DIRECTORS AND SENIOR MANAGEMENT OF SINOPEC CORP. WARRANT THAT THERE ARE NO FALSE REPRESENTATIONS, MISLEADING STATEMENTS OR MATERIAL OMISSIONS IN THIS ANNUAL REPORT, AND JOINTLY AND SEVERALLY ACCEPT FULL RESPONSIBILITY FOR THE AUTHENTICITY, ACCURACY AND COMPLETENESS OF THE INFORMATION CONTAINED IN THIS ANNUAL REPORT. THERE IS NO OCCUPANCY OF NON-OPERATING FUNDS BY THE CONTROLLING SHAREHOLDERS OF SINOPEC CORP. ALL DIRECTORS ATTENDED THE 11TH MEETING OF THE NINTH SESSION OF THE BOARD. MR. HOU QIJUN, CHAIRMAN OF THE BOARD, MR. ZHAO DONG, VICE CHAIRMAN OF THE BOARD AND PRESIDENT, MS. SHOU DONGHUA, CHIEF FINANCIAL OFFICER AND HEAD OF THE FINANCIAL DEPARTMENT OF SINOPEC CORP. WARRANT THE AUTHENTICITY, ACCURACY AND COMPLETENESS OF THE FINANCIAL STATEMENTS CONTAINED IN THIS ANNUAL REPORT. THE AUDIT COMMITTEE OF SINOPEC CORP. HAS REVIEWED THE ANNUAL REPORT OF SINOPEC CORP. FOR THE YEAR ENDED 31 DECEMBER 2025.

THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2025 OF THE COMPANY PREPARED IN ACCORDANCE WITH THE PRC ACCOUNTING STANDARDS FOR BUSINESS ENTERPRISES (CASs) AND IFRS ACCOUNTING STANDARDS HAVE BEEN AUDITED BY KPMG HUAZHEN LLP AND KPMG RESPECTIVELY. BOTH FIRMS HAVE ISSUED STANDARD UNQUALIFIED AUDITOR'S REPORTS.

AS APPROVED AT THE 11TH MEETING OF THE NINTH SESSION OF THE BOARD OF DIRECTORS OF SINOPEC CORP., THE BOARD PROPOSED A FINAL CASH DIVIDEND OF RMB0.112 (TAX INCLUSIVE) PER SHARE FOR 2025, COMBINING WITH THE INTERIM CASH DIVIDEND OF RMB0.088 (TAX INCLUSIVE) PER SHARE, THE TOTAL CASH DIVIDEND FOR 2025 WILL BE RMB0.2 (TAX INCLUSIVE) PER SHARE. THE FINAL DIVIDEND PROPOSAL IS SUBJECT TO THE SHAREHOLDERS' APPROVAL AT THE ANNUAL GENERAL MEETING FOR THE YEAR 2025.

COMPANY PROFILE

Sinopec Corp.'s H shares were listed in Hong Kong Stock Exchange on 18 October 2000 and A shares were listed in the SSE on 8 August 2001. Sinopec Corp. is one of the largest integrated energy and chemical companies in China. Its principal operations include the exploration and production, pipeline transportation and sale of petroleum and natural gas; the production, sale, storage and transportation of refinery products, petrochemical products, coal chemical products, synthetic fibre, and other chemical products; the import and export, including import and export agency business, of petroleum, natural gas, petroleum products, petrochemical, other chemical products, other commodities and technologies; research, development and application of technologies and information; hydrogen energy business and related services such as hydrogen production, storage, transportation and sales; battery charging and swapping, solar energy, wind energy and other new energy business and related services.

DEFINITIONS:

In this report, unless the context otherwise requires, the following terms shall have the meaning as set out below:

Sinopec Corp.: China Petroleum & Chemical Corporation

Company: Sinopec Corp. and its subsidiaries

China Petrochemical Corporation: the controlling shareholder of Sinopec Corp., China Petrochemical Corporation

Sinopec Group: China Petrochemical Corporation and its subsidiaries

NDRC: China National Development and Reform Commission

SSE: Shanghai Stock Exchange

RMC: Oil and Natural Gas Reserves Management Committee of the Company

Sinopec Finance Co.: Sinopec Finance Co., Ltd.

Century Bright: Sinopec Century Bright Capital Investment, Ltd.

CSRC: China Securities Regulatory Commission.

Hong Kong Stock Exchange: The Stock Exchange of Hong Kong Limited

Hong Kong Listing Rules: Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited

CONVERSION:

For domestic production of crude oil, 1 tonne is about 7.1 barrels;

For overseas production of crude oil: 1 tonne is about 7.25 barrels in 2025, 1 tonne is about 7.25 barrels in 2024, 1 tonne is about 7.26 barrels in 2023;

For production of natural gas, 1 cubic meter = 35.31 cubic feet;

1 FINANCIAL DATA AND INDICATORS PREPARED IN ACCORDANCE WITH CASS

(1) Principal financial data

Items	For the year ended 31 December			
	2025 RMB million	2024 RMB million	Change (%)	2023 RMB million
Operating income	2,783,583	3,074,562	(9.5)	3,212,215

(4) Items measured by fair values

Unit: RMB million

Items	Beginning of the year	End of the year	Changes	Influence on the profit of the year
Other equity instruments investment	416	7,156	6,740	40
Receivables financing	2,613	5,340	2,727	–
Derivative financial instruments and cash flow hedging	(858)	(4,314)	(3,456)	4,093
Financial assets held for trading	4	4	–	1
Total	2,175	8,186	6,011	4,134

(5) Significant changes of items in the financial statements

The table below sets forth reasons for those changes where the fluctuation was more than 30% during the reporting period:

Items of Consolidated Balance Sheet	As of 31 December 2025 RMB million	As of 31 December 2024 RMB million	Increase/(Decrease) Amount RMB million	Percentage (%)	Main reasons for changes
Receivables financing	5,340	2,613	2,727	104.4	Increase in bill-settled transactions.
Bills payable	66,457	47,740	18,717	39.2	Increase in bill-settled transactions.
Other equity instrument investments	7,156	416	6,740	1,620.2	Strategic investment in the equity of Contemporary Amperex Technology Co., Limited (CATL).
Short-term loans	29,455	48,231	(18,776)	(38.9)	Repayment of maturing short-term loans.
Derivative financial assets	1,362	2,554	(1,192)	(46.7)	Impact of changes in fair value of hedging business.
Derivative financial liabilities	5,676	3,412	2,264	66.4	Impact of changes in fair value of hedging business.
Non-current liabilities due within one year	110,557	64,602	45,955	71.1	Certain long-term loans being reclassified to non-current liabilities due within one year.
Debentures payable	52,296	25,562	26,734	104.6	Impact of debentures such as medium-term notes and sci-tech innovation bonds for financing during the reporting period.
Other current liabilities	17,134	12,849	4,285	33.3	Impact of exchange rate fluctuations on the increase in long-term payables and other items.
Other comprehensive income	6,726	(987)	7,713	–	Changes in fair value of equity of CATL and foreign currency translation differences.

Items of Consolidated Income Statement	For 12-month period ended 31 December 2025 RMB Million	For 12-month period ended 31 December 2024 RMB Million	Increase/(Decrease) Amount RMB Million	Percentage (%)	Main reasons for changes
Financial expenses	14,654	11,174	3,480	31.1	Increase in scale of interest-bearing debt and net exchange loss on certain foreign currency loans.
Other income	8,277	12,253	(3,976)	(32.4)	Cash received from disposal of Hunan Petrochemical assets in the first half of previous year, which did not happen during the reporting period and decrease in VAT refunds of imported LNG year-on-year with decrease in LNG price.
Investment income	10,671	15,889	(5,218)	(32.8)	Changes in performance of hedging business and decrease in profit of certain chemical joint ventures.
Gains/(losses) from changes in fair value	63	(4,147)	4,210	–	Increase in floating gain of hedging business.
Credit impairment reversals/(losses)	258	(108)	366	–	Increase in bad debt reversal of accounts receivables year-on-year.
Impairment losses	(12,953)	(6,702)	(6,251)	93.3	Increase in impairment of refining and chemical facilities, long-term equity investments and other items year-on-year.
Asset disposal gains	1,040	1,967	(927)	(47.1)	Decrease in the disposal gains of service station assets year-on-year.
Non-operating income	6,697	2,226	4,471	200.9	Increase in income from participation in joint venture projects.

Items of Consolidated Cash Flow Statement	For 12-month period ended 31 December 2025 RMB Million	For 12-month period ended 31 December 2024 RMB Million	Increase/(Decrease) Amount RMB Million	Percentage (%)	Main reasons for changes
Cash received from disposal of investments	91	475	(384)	(80.8)	Decrease in recovery of investments from associates and joint ventures.
Net cash received from disposal of fixed assets, intangible assets and other long-term assets	1,241	1,864	(623)	(33.4)	Cash received from disposal of Hunan Petrochemical assets in previous year, which did not happen during the reporting period.
Cash received from capital contributions	7,702	15,458	(7,756)	(50.2)	Cash received from the issuance of shares to the target subscriber in previous year, which did not happen during the reporting period.
Cash received from borrowings	417,594	672,450	(254,856)	(37.9)	Decrease in new borrowings year-on-year.
Other cash received relating to financing activities	112	1,290	(1,178)	(91.3)	Carrying out the finance leasing business in previous year, which did not happen during the reporting period.
Cash repayments of borrowings	(386,252)	(628,052)	241,800	(38.5)	Decrease in repayments of maturing borrowings year-on-year.

3 MAJOR DIFFERENCES BETWEEN THE AUDITED FINANCIAL STATEMENTS PREPARED UNDER CASS AND IFRS ACCOUNTING STANDARDS
PLEASE REFER TO PAGE 213 OF THE REPORT.

Dear Shareholders and Friends,

On behalf of the Board, the management and our entire staff, I would like to extend my sincere gratitude to our shareholders and all sectors of society for your care and support for Sinopec Corp.

In 2025, facing profound and complex changes at home and abroad with increasingly fierce market competition, the Board remained steadfastly committed to the new development philosophy and promoted the high-quality development. Under the leadership of our management and supported by our entire staff, the Company overcame headwind challenges and achieved new progress and results in various aspects. Affected by factors including the sharp declining international crude oil prices and weak chemical margins, the Company's performance declined substantially compared with the same period last year. Nevertheless, we maintained an ample operating cash flow and a stable financial position. With an overall consideration of the Company's profitability, shareholders' returns and sustainable development, the Board proposed to distribute a final cash dividend of RMB0.112 per share (RMB, tax inclusive, hereinafter the same). The total annual cash dividends amounted to RMB0.2 per share and the annual payout ratio stood at 81% when combined with the aggregate amount of the share repurchases.

Over the past year, the Company's corporate governance was further enhanced. The internal control system including the Articles of Association was amended and improved. Pursuant to the regulatory requirements, the Supervisory Committee was reformed and the Audit Committee resumed the Supervisory Committee's functions and responsibilities in an orderly manner. The Company elected a new member of the Board and adjusted the composition of the Board committees, thereby further enhancing the diversity of the Board. Meanwhile, the Board reinforced strategic analysis, optimized investment decisions and conducted in-depth research on the Company's business development and strategic plan for the "15th Five-Year Plan" period. Our independent directors conducted thematic research covering the whole industry chain, providing valuable insights and suggestions for the Company's reform and development. Their roles of participating in decision-making, exercising oversight and checks and balances, and offering professional consultation have been effectively fulfilled. We have given full play to the leading and supporting role of Party building, and motivated our staff's enthusiasm for work and dedication. The Company attached great importance to shareholders' return and implemented both A shares and H shares repurchases for the forth consecutive year to enhance our corporate value and shareholders' equity. In addition, we have maintained high-quality information disclosure and investor

relations management, and were consecutively granted with Grade A rating for our information disclosure practice by the Shanghai Stock Exchange.

Over the past year, the Company maintained steady progress in pursuit of high operation and development quality. As for upstream business, major breakthroughs were achieved in deep, unconventional and offshore explorations. Our domestic oil and gas equivalent output and the profitability of the natural gas industrial chain hit record high, exhibiting the remarkable results in our reserve and production growth. As for refining segment, we optimized the product mix, expanded profitable processing volume, and steadily advanced the low-cost "refined oil products to chemical feedstocks" transition and high-value "refined oil products to refining specialties" strategy. The profitability of refining by-products thus significantly improved. As for marketing segment, we emphasised on consolidating and expanding the market, maintained a stable domestic market share in refined oil products, achieved top position in domestic automotive LNG refueling and low-sulfur bunker fuel market, and realised steady development in non-fuel business. As for the chemical segments, we focused on business optimization, cost control and market expansion. The development of new materials was accelerated and the overall sales volume of chemical products grew steadily.

Over the past year, the Company has achieved fruitful results in technological innovation. With greater emphasis on innovation-driven development, the Company vigorously promoted the transition of technological achievements into real productivity, nurtured our development of both advantageous business and emerging businesses, and maintained a leading position among domestic enterprises in terms of patent quality. Remarkable progress has been made in research and development of major science and technology projects, including new types oil and gas exploration and development and new materials. The wider application of RTC (residue-to-chemicals) catalytic cracking technology and the commercialization of new materials such as polyolefin elastomers, liquid rubber and high-performance carbon fibers have been accelerated. We implemented the "AI+" initiative and advanced the application of The Great Wall large AI models and the development of smart factories, thereby accelerating digital and intelligent empowerment.

Over the past year, the Company has built momentum and accumulated strengths for business transition and upgrading. Committed to our direction of high-end, intelligent and green development, we completed the construction of our first 40-million-tonne refining base, and implemented a number of transition, upgrading, and quality improvement projects, including the ethylene project in Maoming and the aromatic project in Jiujiang in an orderly manner. We strive to develop the Company into an integrated energy service provider, maintained the largest market share in domestic hydrogen refueling business and established more than 13,000 EV charging and battery swapping stations. Along with the large-scale development of green electricity business, the Company integrated carbon trading with electricity business. Meanwhile, the Easy Joy services have been further enriched, and the launch of “vehicle ecosystem” and “home life” program has created a new paradigm for energy station, which contributed to a better life for the people.

Over the past year, the Company has achieved remarkable results in our ESG performance. We carried out the Action for Fundamental Improvement in Safety Production and maintained a safe and stable operation. Proactively addressing the global climate change, we refined our medium and long-term carbon reduction targets and steadily advanced The “Eight Actions for Carbon Peaking”. We continue to enhance energy efficiency, advance the Green Enterprise Initiative, strengthen the pollution prevention and control, and attached importance to biodiversity protection and supporting the ecological civilization. We promoted rural revitalization through consumption promotion, business development and education support programs and continued our signature public welfare projects including the “Sinopec Lifeline Express” and “Spring Bud Service Station”, enabling more people to benefit from the Company's development. With enhanced ESG disclosure and communication, the stakeholders' satisfaction was further improved.

2025 marked the concluded year of China's “14th Five-Year Plan”. Over the past five years, facing the external challenges and a severe and complex operating environment that far exceeded expectation, the Company responded proactively and successfully achieved our key operational targets for the “14th Five-Year Plan”. We achieved steadily yet rapidly progress in business transition and upgrading, further strengthened our technological innovation capabilities, enhanced our modern enterprise system with Chinese characteristics, improved corporate governance efficiency and comprehensively promoted high-quality development. The Company's market capitalization increased by more than RMB240 billion with cumulative dividends reaching RMB208.5 billion over the past five years, thereby delivering sound return to shareholders. On behalf of the Board, I would like to express my sincere gratitude to all shareholders and all sectors of society in the community for your strong support and to all directors, supervisors and the management team for their dedication and outstanding contributions.

Looking ahead, the energy transition and technological revolution are unfolding in tandem and the green transition in China's economy and society is accelerating. Resource and environmental constraints are exerting a far-reaching impact on the development of the energy and chemical industries, profoundly reshaping the industry landscape and development paradigm. China's economy boasts strong resilient, great potential and abundant vitality and its long-term positive trend remains unchanged. This provides a favorable development opportunity and enabling conditions for the Company to gather momentum, break through constraints, pursue reform and strive for excellence. During “15th Five-Year Plan” period, Sinopec Corp. will continue to inherit and

uphold the glorious tradition of hard working and entrepreneurship forged in petroleum and petrochemical industry. We will broaden our vision and fully embark on a new journey of Entrepreneurship 2.0. The Company will advance high-quality development by implementing six major strategies — innovation-driven development, business transition and upgrading, resources security, market expansion, cost effectiveness and open cooperation. We will accelerate the establishment of new industrial pattern characterized by “One foundation, Two wings, Three chains, and Four new growth drivers”—where energy resources serve as the foundation, refining and chemical segments serve as the two wings, three marketing value chains of refined oil products, natural gas, and chemicals serve as the driving force, and new energy, new materials, new business models and new tracks as the strategic emerging growth engines. We will continuously enhance our modern corporate governance system in a scientific, standardized and efficient manner, and committed to develop the Company into a world-leading modern energy and chemical company.

2026 marks the opening year of the “15th Five-Year Plan”. Sinopec Corp. will adhere to a full, accurate and comprehensive implementation of new development philosophy, stay focused on our targets and missions, strengthen the value leadership, and coordinate the effective improvement of quality and reasonable growth of business scale. We plan for promoting all initiatives in a well-organized manner and strive to achieve a sound start.

We will focus on energy security, striving to safeguard the “one foundation”. We will coordinate the development of oil and gas exploration, production, storage, marketing and trading system, thereby strengthening our capability to ensure an economic, reliable and sustainable resource supply. We will intensify high-quality oil and gas explorations, pursue the parallel development of conventional and unconventional resources as well as onshore and offshore operations, and the realization of high yields with fewer new wells. We will vigorously promote low-cost development and profitable large-scale production, boost crude oil reserves and output and achieve robust growth in natural gas business. Leveraging our strength in international trade and centralized procurement, we will proactively secure diversified and cost-effective resources.

We will focus on quality and profitability enhancement, striving to strengthen the “two wings”. In adherence to the directions of high-end, intelligent and green development, the Company will push for the structure adjustment of refining and chemicals sector. We will fully leverage our integrated advantages to optimize production and operation strategy covering feedstock, facilities and product mix, strengthen cost reduction across all staff, factors, process and business cycles, and further enhance the intensive and efficient operation of the industrial chain. To maximize the overall profitability, we will make solid progress in stabilizing refining throughput while improving efficiency, and reducing loss and increasing profit in chemical sector.

We will focus on market expansion and sales growth, striving to optimize the “three chains”. We will innovative our marketing mindset, adhere to customer-focus approach and empower our business through digital intelligence to upgrade the marketing sector toward the “provision of integrated solutions”. We will make robust efforts to consolidate our retail market share in refined oil products,

expand our natural gas sales network and enhance the quality and efficiency of the EV charging, battery swapping and hydrogen energy businesses. At the same time, we will improve the competitiveness of refining by-products and enhance the differentiated marketing models and service strategy for chemical products, elevate the marketing capabilities, sales volume and profitability of refined oil products, natural gas and chemical products, and drive an overall improvement in the competitiveness of entire industrial chain.

We will focus on the continuity of growth momentum, striving to develop the “four new growth drivers”. We will foster and expand strategic emerging businesses, layout and develop future businesses and accelerate the expansion of “second growth curve”. Adhering to large-scale and profitable development, we will proactively develop wind power, photovoltaic, hydrogen energy and biomass energy, further advance the construction of a green power system covering generation, grid, load and storage, and promote the commercialization and large-scale application of CCUS technology. We will speed up the construction of key projects such as high-performance carbon fibers and vigorously foster new business forms including smart e-commerce. Moreover, we will closely monitor business sectors including low-carbon circular economy, bio-manufacturing, artificial intelligence to explore new entry points for industrial development.

We will focus on strengthening the performance of technological support, striving to promote the integration and innovation of technology and industry. We will deepen the integration of innovation chain, industrial chain, capital chain and talent chain, improve the appraisal and incentive mechanism, and drive the integrated innovation between technology and industry. As for oil and gas exploration and development sector, we will make solid progress in tackling major projects such as the cost-effective development of continental shale oil and the

development of CCUS industrial chain. As for refining and chemical sector, we will accelerate the development and industrial demonstration of low-cost leading-edge production technologies, enhance the high-value utilization of refining by-products, and accelerate the development and application of high-performance metallocene polyolefin technology. As for strategic emerging sector, we will press forward with key projects including sustainable aviation fuel.

We will focus on enhancing governance effectiveness, strive to promote reform and strengthen management. We will continue improving our modern enterprise system with Chinese characteristics and elevate our corporate governance standards. We will deepen our ESG governance and improve ESG performance. We will steadily implement the Action for Carbon Peaking and promote the coordination of carbon reduction, pollution mitigation, green expansion and corporate growth. We will comprehensively deepen reform, optimize the management system and mechanism, build a lean management system covering the entire value chain, so as to improve our profitability through reform and management. We will strengthen risk prevention and control in key areas. Adhering to the principle of prudent, precise and effective investment, we will strengthen the whole-process management of decision-making so as to reinforce the Company’s overall competitive advantages.

Our Entrepreneurship 2.0 has set sail and embarked on a new voyage. The Board will lead and together with the management and the entire staff to forge ahead on this new journey with the spirit of innovation and entrepreneurship and dedicated efforts to achieve the annual targets with high quality so as to deliver greater value to our shareholders, customers, employees and the society at large.

Hou Qijun
Chairman

Beijing, China
20 March 2026

BUSINESS REVIEW

In 2025, China's economy maintained stable growth, registering a GDP growth of 5.0% year-on-year. International crude oil prices fluctuated with a downward trend. The domestic demand for natural gas and chemical products continued to increase, while the demand for refined oil products declined.

1 MARKET REVIEW

(1) Crude Oil & Natural Gas Market

In 2025, international crude oil prices fluctuated with a downward trend. The spot price of Platts Brent for the year averaged USD69.1 per barrel, down by 14.5% year-on-year. The domestic demand for natural gas kept growing. Based on our statistics, domestic consumption of natural gas increased by 2.9% year-on-year.

(2) Refined Oil Products Market

In 2025, the domestic demand for refined oil products decreased. According to our statistics, the domestic consumption of refined oil products (including gasoline, diesel and kerosene) decreased by 4.1% from the previous year, with gasoline down by 4.5% year-on-year, diesel down by 5.6% year-on-year and kerosene up by 4.4% year-on-year.

(3) Chemical Products Market

In 2025, the domestic demand for chemicals went up steadily. Based on our statistics, the domestic consumption of ethylene equivalent and the apparent consumption of PX increased by 8.5% and 1.3% respectively from the previous year, and the apparent consumption of synthetic resin, synthetic fibre and synthetic rubber rose by 5.4%, 4.2%, and 4.8% respectively from the previous year. However, the production capacity for basic petrochemical products was up by 10.2% from the previous year. As the incremental consumption was insufficient to offset the additional supply, overall chemical margin continued to decline.

2 PRODUCTION & OPERATIONS REVIEW

(1) Exploration and Production

In 2025, the Company strengthened high-quality exploration and profitable development, and achieved new progress in reserve and production growth with oil and gas equivalent output reaching a record high. In terms of exploration, we spared no effort to expand mining rights and increase reserves. Significant breakthroughs were made in the exploration of shale oil in the Bohai Bay Basin, new area in the Sichuan

Basin and offshore natural gas etc. The construction of the Shengli Jiyang Shale Oil National Demonstration Zone was completed with high quality. In terms of oil development, we accelerated the construction of key projects such as Tahe, West Junggar, and offshore fields, implemented differentiated reservoir management, and shale oil production reached a million-tonne scale. In natural gas development, we pushed ahead the build-up of key projects such as marine facies gas in West Sichuan, offshore blocks, and Xujiache Formation in the

Sichuan Basin. At the same time, we further boosted the synergy of production, supply, storage and sales, with the profit for the natural gas business chain hitting a record high. The Company's production of oil and gas in 2025 was 525.28 million barrels of oil equivalent, up by 1.9% year-on-year, among which, the domestic crude oil production totaled 255.75 million barrels, and the natural gas production reached 1,456.6 billion cubic feet, up by 4.0% year-on-year.

Summary of Operations for the Exploration and Production Segment

	2025	2024	2023	Change from 2024 to 2025(%)
Oil and gas production (mmbbls)	525.28	515.35	504.09	1.9

(2) Refining

In 2025, the Company actively addressed the challenges brought by fluctuation with downward trend in crude oil prices and decline in demand for gasoline and diesel, optimized the integration of production and marketing, maximized profitable processing volume and maintained a relatively high utilisation

rate. We optimized the pace for crude oil procurement to lower cost and freight. We optimised utilization rate and product mix and produced more market-favored products such as jet fuel, lubricant and grease close to market need. Efforts were made to carry forward low-cost “refined oil products to chemical feedstocks” and high-value “refined oil products to refining specialties” strategy in an

orderly manner. We consolidated our leading position nationwide in high-end carbon materials. In 2025, the Company processed 250 million tonnes of crude and produced 44.22 million tonnes of light chemical feedstock, up by 8.4% year-on-year. Refined oil products output was 149 million tonnes, with jet fuel production up by 7.3% year-on-year.

Summary of Operations for the Refining Segment

Unit: million tonnes

	2025	2024	2023	Change from 2024 to 2025(%)
Refinery throughput	250.33	252.30	257.52	(0.8)
Gasoline, diesel and kerosene production	148.95	153.49	156.00	(3.0)
Gasoline	62.61	64.15	62.51	(2.4)
Diesel	52.64	57.91	64.54	(9.1)
Jet fuel	33.71	31.43	28.95	7.3
Light chemical feedstock production	44.22	40.78	43.29	8.4

Note: Includes 100% of the production from domestic joint ventures.

(3) Marketing and Distribution

In 2025, amid the challenges by intense competition in gasoline and diesel markets and rapid penetration of new energy vehicles, the Company fully leveraged its integration and network advantages, coordinated the expansion of sales and transition development, strived to develop itself as an integrated energy service provider of petro, gas, hydrogen, power and service. We carried forward

targeted marketing tactics, expanded strategic clients and boosted the sales volume of high-grade gasoline. We stepped up efforts in expanding network for gas refueling, EV charging and battery swapping, proactively promoted hydrogen mobility, and achieved significant volume growth in automotive LNG refueling, EV charging and hydrogen refueling, with maintaining top position in domestic LNG and hydrogen refueling businesses. The

“vehicle ecosystem” network and “home lifestyle” model were further developed to improve Easy Joy service quality. We accelerated development of international layout, with the Company remaining the world’s largest supplier of low-sulfur bunker fuel. Annual total sales volume of refined oil products reached 229 million tonnes.

Summary of Operations for the Marketing and Distribution Segment

	2025	2024	2023	Change from 2024 to 2025 (%)
Total sales volume of oil products (million tonnes)*	229.02	239.33	239.05	(4.3)
Domestic sales volume of oil products (million tonnes)	177.56	182.82	188.17	(2.9)
Retail sales (million tonnes)	110.16	113.45	120.12	(2.9)
Direct sales and distribution (million tonnes)	67.40	69.38	68.05	(2.9)

	31 December 2025	31 December 2024	31 December 2023	Change from the end of the previous year to the end of the reporting period (%)
Total number of service stations under the Sinopec brand	31,195	30,987	30,958	0.7
Number of company-operated stations	31,195	30,987	30,958	0.7

Note: The total sales volume of refined oil products includes the amount of refined oil sales and trading volume.

(4) Chemicals

In 2025, facing the severe condition of the rapid expansion in domestic chemicals capacity and narrowing chemical margin, the Company closely followed market demand to optimize production and operation, leveraged refining-chemical integration, and gave full play to the potential of profitable

facilities. We optimised facilities and product mix and achieved a record high in PX production. We reinforced cost control and adjusted chemical feedstock to reduce costs of raw materials and processing. With further coordination of production, sales, R&D and application, we sped up the development of new materials such as POE. Annual ethylene

production was 15.28 million tonnes. We strived to expand emerging and niche markets, seek strategic partnerships and explore overseas market. Total chemical sales volume for the year reached 87.12 million tonnes, up by 3.6% year-on-year, with export volume up by 29.8% year-on-year.

Summary of Operations for the Chemicals Segment

Unit: thousand tonnes

	2025	2024	2023	Change from 2024 to 2025 (%)
Ethylene	15,279	13,467	14,314	13.5
Synthetic resin	22,037	20,087	20,574	9.7
Synthetic rubber	1,578	1,429	1,424	10.4
Synthetic fiber monomer and polymer	11,967	10,033	7,866	19.3
Synthetic fiber	1,229	1,248	1,113	(1.5)

Note: Includes 100% of the production of domestic joint ventures.

(5) Innovation in R&D and Digital Intelligence

In 2025, the Company intensified efforts in innovation with breakthroughs achieved in R&D and digital intelligence. In terms of R&D, The differential cube development technology for shale oil in continental rift basins supported the cost-effective development of shale oil. Heterogeneous composite flooding technology was applied to various reservoirs with high salinity and high calcium-magnesium content. Breakthroughs were achieved in

high-end polypropylene cable insulation materials. We also achieved industrial production of 60K large tow carbon fiber. Our independently developed seawater electrolysis hydrogen production unit became China's first demonstration facility with long-term stable operation, while 100 KW-scale iron-chromium flow battery system was successfully deployed for "solar-storage-charging" integration at photovoltaic power stations. In terms of digital intelligence, we made steady moves to implement "AI+". The

Great Wall series of large AI models became operational while the intelligent operation centers were further promoted for application. We accelerated the construction of smart factories, with 3 subsidiaries recognized as National Excellence-level Smart Factories, and 1 subsidiary included in the first National Pilot-level Smart Factory Cultivation List. In 2025, the Company filed 9,953 patent applications at home and abroad with 5,768 granted. We won 1 Gold Award, 1 Silver Award, and 3 Excellence Awards in the China Patent Awards.

(6) HSE

In 2025, the Company continued to improve its HSE management system, enhancing the HSE awareness of responsibility and capabilities of all employees. We carried forward the 2025 Action for Fundamental Improvement in Safety Production. Measures were taken to advance the control of major risks, conduct comprehensive inspections and rectifications of safety hazards, implement specialized campaign for the entire hazardous chemicals supply chain and achieve overall safe and stable production. We strengthened employee health management, further improved working conditions, actively promoted the “Healthy Enterprise” initiative, and safeguarded the occupational, physical, and mental health of employees both domestically and internationally. 43 cases were selected as outstanding examples in the national “Healthy Enterprise” program.

(7) Capital Expenditure

In 2025, the Company continued to optimise investment in projects, with a capital expenditure of RMB147.2 billion for the whole year. The capital expenditure of the E&P segment was RMB70.9 billion, mainly for the crude capacity building in Jiyang and Tahe, natural gas capacity building in Dingshan-Dongxi as well as the oil and gas storage and transportation facilities. The capital expenditure of the refining segment was RMB22 billion, mainly for

Guangzhou Petrochemical revamping and Maoming Refining upgrading projects, etc. The capital expenditure of the marketing and distribution segment was RMB13.8 billion, mainly for the development of the petro, gas, hydrogen, power and service integrated energy station network. The capital expenditure of the chemical segment was RMB35.9 billion, mainly for the ethylene projects in Maoming and aromatics project in Jiujiang, etc. The capital expenditure of corporate and others was RMB4.6 billion, mainly for R&D and digital intelligent projects, etc.

BUSINESS OUTLOOK

1 MARKET OUTLOOK

Looking forward to 2026, as China's economy continues to recover and improve, domestic demand for natural gas and chemical products is expected to maintain growth, and that for refined oil products will remain influenced by alternative energy. Taking into account the impact of changes in global supply and demand, geopolitics and inventory levels, the uncertainty surrounding the trend of international crude oil prices has increased.

2 PRODUCTION & OPERATION

In 2026, the Company shall vigorously advance high-quality development in all fronts, focusing on safety and environmental protection, energy security, marketing, profitability enhancement and

efficiency improvement, integration of R&D innovation with industry and finance, and reform-driven empowerment. We shall pursue the following key initiatives:

Exploration and Production: The Company will advance efforts to increase reserves, stabilise oil production, boost gas output and reduce costs, accelerate the profitable development of new energy business, and strengthen the integrated oil and gas exploration, production, supply, storage, sales and trading system. In exploration, we will actively expand high-quality mining rights, intensify high-quality exploration activities, strive to secure substantial, high-quality reserves, and lower finding costs. In development, efforts will be made to accelerate crude capacity expansion in Tahe, offshore areas, and western Junggar, alongside natural gas capacity growth for offshore, the marine facies in western Sichuan, and the Xujiahe reservoir in Sichuan. We will drive large-scale, profitable production in new areas while proceeding with the fine development in mature oil and gas fields. For natural gas sales, the Company will optimise resource portfolio and reduce costs, accelerate targeted development of high-end, high-value-added markets, so as to improve the scale and profitability of natural gas business. The annual plan is to produce 280.91 million barrels crude oil, including 25.31 million barrels from overseas operations, and 1,471.7 billion cubic feet natural gas.

Refining: The Company will focus on stabilising processing volumes and enhancing efficiency, strengthening synergies with marketing and chemical business, and improving intensive and efficient operations. We will insist the coordination across trading, storage, transportation and production, optimise resource procurement and reduce procurement costs. We shall thoroughly assess the marginal benefits of resources, maximise profitable processing volumes, and flexibly adjust product mix. We will persistently advance the strategy of reducing refined oil products output while increasing chemical feedstock and refining specialties output, enhance the market competitiveness of refining by-products such as liquefied petroleum gas, petroleum coke, and asphalt, and accelerate to develop growth drivers including refining specialties and high-end carbon materials. We will expedite the construction of key projects to concentrate our advantageous capacity. The annual plan is to process 250 million tonnes of crude oil and produce 148 million tonnes of refined oil products.

Marketing and Distribution: The Company shall remain market-oriented and customer-focus and fully leverage strengths of its integrated business to enhance overall competitiveness. We shall promote coordination between procurement and sales activities, volume and price and develop a differentiated and more precise marketing system. We will increase the portion of premium gasoline sales, expand the jet fuel market, and steadfastly consolidate sales volume of refined oil products. We will continuously optimise network layout, advance the integrated development of all business models, expand the scale of automotive LNG refueling, and grow the quality and profitability of EV charging and battery swapping, as well as hydrogen energy services. The Company will accelerate the profitable

development of the “vehicle ecosystem” and “home lifestyle” model, expand the comprehensive service scenarios of Easy Joy, and build proprietary brands. We will consolidate and enhance the integrated advantages in bunker fuel and actively expand the scale of domestic and international operations. The annual plan for domestic refined oil product sales volume is 170 million tonnes.

Chemicals: The Company shall adhere to the strategy of “basic + high-end, chemicals + materials”, strive to reduce costs, expand markets and minimise losses and increase profits. We will promote projects in an orderly manner, scientifically arrange schedule of new capacity deployment and phase out of outdated capacity. We will leverage the advantages of the entire industrial chain and implement multiple measures to reduce raw material costs. Close to market changes, we will conduct dynamic valuation of the marginal benefits of different grades, facilities and product chains to precisely drive product structure optimisation and efficient resource allocation. We will intensify the development of new and high value-added products to improve profit. In chemical sales, we will establish an efficient product-service interaction system to meet differentiated and personalised customer needs, enhance product innovation, increase sales to strategic clients, and strengthen international market expansion. The annual ethylene production is planned at 15.8 million tonnes.

Innovation and Digital Intelligence: The Company shall pursue the deep integration of technological and industrial innovation, focusing on breakthroughs in key technologies to develop new quality productive forces. Collaborative research will advance projects including natural gas reserve expansion and production enhancement, profitable development

of continental facies shale oil, and the CCUS/CCS industrial chain. Accelerated development and industrial demonstration of low-cost, cutting-edge refining technologies will be pursued, alongside intensified efforts to maximise the value of intermediate and by-products. We shall expedite the development and application of high-performance metallocene polyolefin technology and establish a comprehensive collaborative system spanning production, sales, research, and application. We will advance integrated research in strategic emerging fields including SAF and key materials and applications for solid-state batteries. We will coordinate digital and intelligent transformation, deepen the “AI+” initiative, enhance overall smart manufacturing maturity, cultivate flagship and exemplary smart factories with significant industry influence, create more high-value application scenarios, and empower digital and intelligent upgrading across all business segments.

Capex: In 2026, the Company plans to invest RMB131.6 to RMB148.6 billion. Capex for E&P will be RMB72.3 billion, primarily for the crude capacity building in Jiyang and Tahe, natural gas capacity building in West and South Sichuan, and oil and gas storage and transportation facilities. Capex for refining will be RMB17.3 billion, mainly for Guangzhou Petrochemical revamping and Maoming Refining upgrading projects, etc. Capex for marketing and distribution will be RMB9 billion, primarily for developing the integrated energy station network. Capex for chemical will be RMB28.2 billion, mainly for projects including Maoming and Qilu ethylene, and Jiujiang aromatics. Capex for corporate and others will be RMB4.8 billion, primarily for R&D and digital intelligence initiatives, etc. The Company will also flexibly arrange Capex of RMB17 billion in light of market conditions.

THE FOLLOWING DISCUSSION AND ANALYSIS SHOULD BE READ IN CONJUNCTION WITH THE COMPANY'S AUDITED FINANCIAL STATEMENTS AND THE ACCOMPANYING NOTES. PARTS OF THE FOLLOWING FINANCIAL DATA WERE ABSTRACTED FROM THE COMPANY'S AUDITED FINANCIAL STATEMENTS THAT HAVE BEEN PREPARED ACCORDING TO THE IFRS ACCOUNTING STANDARDS. THE PRICES IN THE FOLLOWING DISCUSSION DO NOT INCLUDE VALUE-ADDED TAX.

1 CONSOLIDATED RESULTS OF OPERATIONS

In 2025, international crude oil price fluctuated with downward trend, new energy substitution increased, and production capacity in the chemical market continued to release. The Company focused on improving quality and profitability, made every effort to expand the market and sales, dynamically optimised production and operation, continued to strengthen cost and expense control, and took multiple measures to cope with the impact of market changes. The Company realised revenue of RMB2,783.6 billion, decreased by 9.5% year-on-year and operating profit of RMB48.6 billion, decreased by 31.2% year-on-year.

The following table sets forth the main revenue and expenses from the Company's consolidated financial statements:

	Year ended 31 December		Change (%)
	2025 RMB million	2024 RMB million	
Revenue	2,783,583	3,074,562	(9.5)
Revenue from primary business	2,726,460	3,015,321	(9.6)
Other operating revenues	57,123	59,241	(3.6)
Operating expenses	(2,734,975)	(3,003,876)	(9.0)

Investment income and share of profits less losses from associates and joint ventures	9,790	9,630	1.7
Profit before taxation	43,744	69,142	(36.7)
Income tax expense	(7,934)	(12,966)	(38.8)
Profit for the year	35,810	56,176	(36.3)
Attributable to:			
Shareholders of the Company	32,476	48,939	(33.6)
Non-controlling interests	3,334	7,237	(53.9)

(1) Revenue

In 2025, the Company's revenue from primary business was RMB2,726.5 billion, representing a decrease of 9.6% year-on-year. This was mainly due to the decreased prices of petroleum and petrochemical products and decreased sales volumes of refined oil products.

The following table sets forth the external sales volume, average realised prices and respective rates of change of the Company's major products in 2025 and 2024:

	Sales volume (thousand tonnes)			Average realised price (RMB/tonne, RMB/thousand cubic meters)		
	Year ended 31 December		Change (%)	Year ended 31 December		Change (%)
	2025	2024		2025	2024	
Crude oil	7,078	7,728	(8.4)	3,448	3,896	(11.5)
Natural gas (million cubic meters)	64,342	63,750	0.9	2,273	2,387	(4.8)
Gasoline	88,153	91,832	(4.0)	8,275	8,858	(6.6)
Diesel	76,528	82,678	(7.4)	6,312	6,790	(7.0)
Kerosene	25,153	27,856	(9.7)	5,028	5,497	(8.5)
Basic chemical feedstock	38,141	37,667	1.3	4,845	5,830	(16.9)
Monomer and polymer for synthetic fibre	8,313	7,545	10.2	5,127	5,683	(9.8)
Synthetic resin	17,726	16,699	6.2	6,946	7,472	(7.0)
Synthetic fibre	1,256	1,289	(2.6)	7,235	7,685	(5.9)
Synthetic rubber	1,518	1,407	7.9	11,077	12,438	(10.9)
Chemical fertiliser	549	397	38.3	2,049	2,168	(5.5)

Note: Natural gas includes the natural gas, LNG and others sold by the exploration and production segment and marketing and distribution segment to external customers.

Most crude oil and a small portion of natural gas produced by the Company were internally used for refining and chemical production and automotive natural gas business, with the remaining sold to external customers. In 2025, the revenue from crude oil, natural gas and other upstream products sold externally amounted to RMB157.9 billion (accounting for 5.7% of the Company's revenue), down by 10.2% year-on-year. The change was mainly due to decreases in price and sales volume of crude oil sold externally.

In 2025, petroleum products (mainly consisting of refined oil products and other refined petroleum products) sold by Refining Segment and Marketing and Distribution Segment achieved external sales revenues of RMB1,616.9 billion (accounting for 58.1% of the Company's revenue), representing a decrease of 11.7% year-on-year, mainly due to the decreased sales volumes and prices of products including gasoline and diesel. The sales revenue of gasoline, diesel and kerosene was RMB1,339.0 billion (accounting for 82.8% of the total sales revenue of petroleum products), representing a decrease of 12.4% year-on-year. Sales revenue of other refined petroleum products was RMB277.9 billion (accounting for 17.2% of the total sales revenue of petroleum products), representing a decrease of 8.4% year-on-year.

The Company's external sales revenue of chemical products was RMB378.0 billion (accounting for 13.6% of the Company's revenue), representing an decrease of 9.6% year-on-year, mainly due to decrease in prices of chemical products.

(2) Operating expenses

In 2025, the Company's operating expenses was RMB2,735.0 billion, decreased by 9.0% year-on-year, mainly due to the decreased external procurement costs of crude oil and refined oil products. The operating expenses mainly consisted of the following:

Purchased crude oil, products and operating supplies and expenses was RMB2,186.0 billion, representing a decrease of 10.8% year-on-year, accounting for 79.9% of the total operating expenses, of which:

Crude oil purchasing expenses was RMB790.4 billion, representing a decrease of 13.1% year-on-year. Crude oil purchased externally used for processing in 2025 was 203.04 million tonnes (excluding the volume processed for third parties), representing a decrease of 2.2% year-on-year. The average cost of processing crude oil purchased externally was RMB3,893 per tonne, representing a decrease by 11.1% year-on-year.

The Company's purchasing expense of refined oil products was RMB355.2 billion, representing a decrease of 13.0% year-on-year. This change was mainly due to decline in the volume and price of refined oil products purchased externally.

The Company's purchasing expense related to trading activities was RMB519.3 billion, representing a decrease of 3.7% year-on-year, mainly due to the decreased procurement costs of crude oil and refined oil products.

Other purchasing expenses were RMB521.1 billion, down by 12.1% year-on-year.

Selling, general and administrative expenses was RMB57.2 billion, representing a decrease of 0.6% year-on-year, mainly because the Company strengthened the control of non-productive expenditures, and reduced the selling and administrative expenses.

Depreciation, depletion and amortisation was RMB127.2 billion, representing an increase of 5.3% year-on-year. This was mainly due to the increase in fixed assets.

Exploration expenses were RMB11.4 billion, representing an increase of 21.1% year-on-year. This change was mainly because the Company intensified the efforts in shale oil and ultra-deep stratum oil and gas exploration.

Personnel expenses were RMB106.6 billion, representing a decrease of 3.2% year-on-year.

Taxes other than income tax were RMB252.4 billion, representing a decrease of 5.6% year-on-year. This change was mainly because the consumption tax decreased by RMB9.7 billion resulting from the decreased production volumes of refined oil products, and the special oil gain levy and resource tax decreased by RMB4.1 billion resulting from the decreased crude oil prices.

Other operating income/(expenses), net was RMB5.6 billion, representing a decrease of 49.4% year-on-year, mainly due to the increased impairment loss in refining and chemical facilities.

(3) Operating profit was RMB48.6 billion, representing a decrease of 31.2% over the same period of 2024. This change was mainly due to the inventory loss resulting from the continuously decreased prices of crude oil and petrochemical products of the Company along with decrease in international crude oil prices, a decline in domestic sales volumes and margins of gasoline and diesel, and a decrease in gross margin of chemical products.

(4) **Investment income and share of profits less losses from associates and joint ventures** was RMB9.8 billion, up by 1.7% year-on-year.

(5) **Profit before taxation** was RMB43.7 billion, representing a decrease of 36.7% year-on-year.

(6) **Income tax expense** was RMB7.9 billion, representing a decrease of 38.8% year-on-year.

(7) **Profit attributable to non-controlling shareholders** was RMB3.3 billion, representing a decrease of 53.9% year-on-year.

(8) **Profit attributable to shareholders of the Company** was RMB32.5 billion, representing a decrease of 33.6% year-on-year.

2 RESULTS OF SEGMENT OPERATIONS

The Company manages its operations through four business segments, namely exploration and production segment, refining segment, marketing and distribution segment and chemicals segment, and corporate and others. Unless otherwise specified, the inter-segment transactions have not been eliminated from financial data discussed in this section. In addition, the operating revenue data of each segment includes other operating revenues.

The following table shows the operating revenues by each segment, the contribution of external sales and inter-segment sales as a percentage of operating revenues before elimination of inter-segment sales, and the contribution of external sales as a percentage of consolidated operating revenues (i.e. after elimination of inter-segment sales) for the periods indicated.

	Operating revenues Year ended 31 December		As a percentage of consolidated operating revenue before elimination of inter-segment sales Year ended 31 December		As a percentage of consolidated operating revenue after elimination of inter-segment sales Year ended 31 December	
	2025 RMB million	2024 RMB million	2025 (%)	2024 (%)	2025 (%)	2024 (%)
Exploration and Production Segment						
External sales*	161,836	179,952	3.3	3.3	5.8	5.9
Inter-segment sales	124,156	117,297	2.5	2.1		
Operating revenues	285,992	297,249	5.8	5.4		
Refining Segment						
External sales*	163,010	168,774	3.3	3.1	5.9	5.5
Inter-segment sales	1,165,499	1,312,728	23.7	24.0		
Operating revenues	1,328,509	1,481,502	27.0	27.1		
Marketing and Distribution Segment						
External sales*	1,497,618	1,707,021	30.6	31.2	53.8	55.5
Inter-segment sales	7,657	7,337	0.2	0.1		
Operating revenues	1,505,275	1,714,358	30.8	31.3		
Chemicals Segment						
External sales*	384,792	425,937	7.9	7.8	13.8	13.8
Inter-segment sales	79,316	97,925	1.6	1.8		
Operating revenues	464,108	523,862	9.5	9.6		
Corporate and Others						
External sales*	576,327	592,878	11.8	10.8	20.7	19.3
Inter-segment sales	739,273	864,348	15.1	15.8		
Operating revenues	1,315,600	1,457,226	26.9	26.6		
Operating revenue before elimination of inter-segment sales	4,899,484	5,474,197	100.0	100.0		
Elimination of inter-segment sales	(2,115,901)	(2,399,635)				
Revenue	2,783,583	3,074,562			100.0	100.0

* Other operating revenues are included.

The following table sets forth the operating revenues, operating expenses and operating profit by each segment before elimination of the inter-segment transactions for the periods indicated, and the percentage change of 2025 compared to 2024.

	Year ended 31 December		
	2025	2024	Change
	RMB million	RMB million	(%)
Exploration and Production Segment			
Operating revenues	285,992	297,249	(3.8)
Operating expenses	240,461	240,864	(0.2)
Operating profit	45,531	56,385	(19.2)
Refining Segment			
Operating revenues	1,328,509	1,481,502	(10.3)
Operating expenses	1,319,061	1,474,788	(10.6)

Marketing and Distribution Segment			
Operating revenues	1,505,275	1,714,358	(12.2)
Operating expenses	1,495,305	1,695,712	(11.8)
Operating profit	9,970	18,646	(46.5)
Chemicals Segment			
Operating revenues	464,108	523,862	(11.4)
Operating expenses	478,686	533,859	(10.3)
Operating loss	(14,578)	(9,997)	-
Corporate and Others			
Operating revenues	1,315,600	1,457,226	(9.7)
Operating expenses	1,318,333	1,457,658	(9.6)
Operating loss	(2,733)	(432)	-
Elimination of inter-segment profit/(loss)	970	(630)	-

(1) Exploration and Production Segment

Most of the crude oil and a small portion of the natural gas produced by the exploration and production segment were used for the Company's refining and chemical production and automotive natural gas business. Most of the natural gas and a small portion of the crude oil were sold externally to other customers.

In 2025, the operating revenue of this segment was RMB286.0 billion, representing a decrease of 3.8% year-on-year. This was mainly due to the decrease in crude oil prices.

In 2025, the segment sold 34.68 million tonnes of crude oil, representing an increase of 0.5% year-on-year, average realised price was RMB3,279 per tonne, representing a decrease of 13.0% year-on-year. Natural gas (including self-produced natural gas and LNG) sales volume was 60.6 bcm, representing a decrease of 0.1% year-on-year, average realised price was RMB2,112 per

thousand cubic meters, representing a decrease of 6.5% year-on-year.

In 2025, the operating expenses of the segment were RMB240.5 billion, representing a decrease of 0.2% year-on-year. This change was mainly due to the following: Taxes including special oil gain levy and resource tax decreased by RMB4.6 billion year-on-year. Imported LNG procurement cost decreased by RMB4.5 billion year-on-year. Depreciation, depletion and amortization increased by RMB4.8 billion year-on-year. Exploration expenses increased by RMB2.0 billion year-on-year.

In 2025, the oil and gas lifting cost was RMB734.2 per tonne, representing a decrease of 1.5% year-on-year.

In 2025, the segment made efforts to increase reserves, boost production and cut costs, strived to improve the profitability of the whole natural gas industrial chain, but impacted by decrease in crude oil prices, the segment

realised an operating profit of RMB45.5 billion, representing a decrease of RMB10.9 billion or 19.2% year-on-year.

(2) Refining Segment

Business activities of the refining segment include purchasing crude oil from third parties and the exploration and production segment of the Company, as well as processing crude oil into refined petroleum products. Most of gasoline, diesel and kerosene were sold internally to the marketing and distribution segment of the Company; part of the chemical feedstock was sold internally to the chemicals segment of the Company; and other refined petroleum products were sold externally to both domestic and overseas customers.

In 2025, the operating revenue of this segment was RMB1,328.5 billion, representing a decrease of 10.3% year-on-year. This change was mainly due to the decreased production and prices of refined oil products and others year-on-year.

The following table sets forth the sales volumes, average realised prices and the respective changes of the refined oil products of the segment in 2025 and 2024.

	Sales volume (thousand tonnes)			Average realised price (RMB/tonne)		
	Year ended 31 December		Change (%)	Year ended 31 December		Change (%)
	2025	2024		2025	2024	
Gasoline	61,097	62,642	(2.5)	7,764	8,409	(7.7)
Diesel	51,163	56,310	(9.1)	6,189	6,725	(8.0)
Kerosene	24,208	23,834	1.6	4,957	5,501	(9.9)
Chemical feedstock	41,951	40,353	4.0	4,136	4,692	(11.9)
Other refined petroleum products	63,302	64,986	(2.6)	3,802	3,880	(2.0)

In 2025, sales revenue of gasoline was RMB474.4 billion, representing a decrease of 10.0% year-on-year.

The sales revenue of diesel was RMB316.7 billion, representing a decrease of 16.4% year-on-year.

The sales revenue of kerosene was RMB120.0 billion, representing a decrease of 8.5% year-on-year.

The sales revenue of chemical feedstock was RMB173.5 billion, representing a decrease of 8.4% year-on-year.

The sales revenue of refined petroleum products other than gasoline, diesel, kerosene and chemical feedstock was RMB240.7 billion, representing a decrease of 4.6% year-on-year.

In 2025, the segment's operating expense was RMB1,319.1 billion, representing a decrease of 10.6% year-on-year, mainly due to a decrease in the crude oil and refining feedstock procurement cost.

In 2025, the average processing cost for crude oil and refining feedstock was RMB3,914 per tonne, representing a decrease of 11.2% year-on-year. Total crude oil and refining feedstock processed was 252.46 million tonnes (excluding volume processed for third parties), representing a decrease of 1.7% year-on-year. The total cost of crude oil and refining feedstock processed was RMB988.1 billion, representing a decrease of 12.8% year-on-year.

In 2025, refining margin was RMB330 per tonne, representing an increase of RMB27 per tonne year-on-year. This was mainly attributable to the significant improved margins of refining by-products such as sulfur, petroleum coke and etc., offsetting the impact of procurement premium of imported crude oil and freight cost at high level.

In 2025, the refining unit cash operating cost (defined as operating expenses less the processing cost of crude oil and refining feedstock, depreciation and amortisation, taxes other than income tax and other operating expenses, then divided by the throughput of crude oil and refining feedstock) was RMB214.4 per tonne, representing an increase of 2.6% year-on-year. This change was mainly because unit costs increased resulting from the decreased refining throughput and concentrated maintenance of certain companies.

In 2025, the segment coordinated the procurement pace of crude oil by closely following the international crude oil prices, continued to intensify efforts to improve synergy, flexibly adjusted utilization rate, and optimized products slate. The segment realised an operating profit of RMB9.4 billion, increased by RMB2.7 billion or 40.7% year-on-year.

(3) Marketing and Distribution Segment

The business activities of the marketing and distribution segment include purchasing refined oil products from the refining segment and the third parties, conducting direct sales and wholesale to domestic customers and retailing, distributing oil products through the segment's retail and distribution network as well as providing related services and selling convenience store products, new energy products and providing related services.

In 2025, the operating revenues of this segment were RMB1,505.3 billion, down by 12.2% year-on-year. This was mainly due to decrease in demand for refined oil products and prices of refined oil products. The sales revenues of gasoline totalled RMB729.7 billion, down by 10.4% year-on-year; the sales revenues of diesel were RMB484.1 billion, down by 14.0% year-on-year; the sales revenues of kerosene were RMB126.2 billion, down by 17.6% year-on-year; the sales revenues of automotive natural gas were RMB37.8 billion, up by 28.3% year-on-year.

The following table sets forth the sales volumes, average realised prices and respective percentage changes of the segment's five major refined oil products in 2025 and 2024, including detailed information about retail, direct sales and distribution of gasoline and diesel:

	Sales volume (thousand tonnes)			Average realised price (RMB/tonne)		
	Year ended 31 December		Change (%)	Year ended 31 December		Change (%)
	2025	2024		2025	2024	
Gasoline	88,185	91,877	(4.0)	8,275	8,857	(6.6)
Retail	61,724	64,271	(4.0)	8,736	9,402	(7.1)
Direct sales and distribution	26,460	27,606	(4.3)	7,198	7,588	(5.1)
Diesel	76,693	82,890	(7.5)	6,312	6,789	(7.0)
Retail	31,370	32,474	(3.4)	6,731	7,366	(8.6)
Direct sales and distribution	45,322	50,415	(10.1)	6,022	6,418	(6.2)
Kerosene	25,091	27,842	(9.9)	5,028	5,496	(8.5)
Fuel oil	22,722	26,716	(14.9)	3,521	3,972	(11.3)
Automotive natural gas	9,061	6,609	37.1	4,174	4,460	(6.4)

In 2025, the operating expenses of the segment were RMB1,495.3 billion, down by 11.8% year-on-year. This was mainly due to a year-on-year decreased procurement cost of refined oil products.

In 2025, the segment's marketing expense (defined as the operating expenses less the purchase costs, taxes other than income tax, depreciation and amortization, divided by sales volume) was RMB190.1 per tonne, down by 2.1% year-on-year. This was mainly due to strengthened control over logistics and administrative expenses, and efforts to mitigate the cost.

In 2025, the gross profit of non-fuel business was RMB4.53 billion, representing a decrease of RMB0.19

billion or 3.9% year-on-year, among which, the profit of selling convenience store products and providing related services was RMB4.25 billion, the profit of power business was RMB0.29 billion.

In 2025, the segment adhered to integrated and synergistic profit creation, made great effort to expand market and increase sales volume, proactively developed EV charging and battery swapping, automotive natural gas and other businesses, strengthened cost and expense control, but impacted by fast development of alternative energy and the inventory loss caused by the decreased crude oil prices, the segment realised an operating profit of RMB10.0 billion, representing a decrease of RMB8.7 billion or 46.5% year-on-year.

(4) Chemicals segment

The business activities of the chemicals segment include purchasing chemical feedstock from the refining segment and the third parties and producing, marketing and distributing petrochemical and inorganic chemical products.

In 2025, the operating revenue of this segment was RMB464.1 billion, down by 11.4% year-on-year. This was mainly due to the decrease by 14.5% in prices of chemical products resulted from decrease in international crude oil prices year-on-year.

In 2025, the sales revenue generated by the segment's six major categories of chemical products (namely basic organic chemicals, synthetic resin, synthetic fibre monomer and polymer, synthetic fibre, synthetic rubber, and chemical fertiliser) was RMB445.4 billion, down by 8.3% year-on-year, accounting for 96.0% of the operating revenues of the segment.

The following table sets forth the sales volume, average realised prices and respective changes of each of the segment's six categories of chemical products in 2025 and 2024.

	Sales volume (thousand tonnes)			Average realised price (RMB/tonne)		
	Year ended 31 December		Change (%)	Year ended 31 December		Change (%)
	2025	2024		2025	2024	
Basic organic chemicals	52,079	50,274	3.6	4,844	5,752	(15.8)
Synthetic fibre monomer and polymer	8,348	7,582	10.1	5,124	5,682	(9.8)
Synthetic resin	17,738	16,705	6.2	6,946	7,472	(7.0)
Synthetic fibre	1,256	1,289	(2.6)	7,242	7,688	(5.8)
Synthetic rubber	1,520	1,410	7.9	11,081	12,443	(11.0)
Chemical fertiliser	585	442	32.4	2,027	2,130	(4.8)

In 2025, the operating expenses of the chemicals segment were RMB478.7 billion, representing a decrease of 10.3% over 2024, mainly due to decreased procurement cost of naphtha and coal, etc.

In 2025, the segment spared no effort to reduce feedstock cost, optimised the structure of products and operation of facilities, closely followed the market changes, promoted the utilization rate of profitable facilities, implemented precision marketing, but impacted by the

quick release of new capacities, shrank chemical margins and impairment loss of certain facilities, the segment realised an operating loss of RMB14.6 billion, representing an increase in loss of RMB4.6 billion year-on-year.

(5) Corporate and Others

The business activities of corporate and others mainly consist of import and export business activities of the Company's subsidiaries, R&D activities of the Company, and managerial activities of headquarters.

In 2025, the operating revenue generated from corporate and others was approximately RMB1,315.6 billion, representing a decrease of 9.7% over 2024. This was mainly due to the decrease in the trading prices of crude oil.

In 2025, the operating expense of corporate and others was RMB1,318.3 billion, representing a decrease of 9.6% over 2024.

In 2025, the operating loss from corporate and others was RMB2.7 billion.

3 ASSETS, LIABILITIES, EQUITY AND CASH FLOWS

The major funding sources of the Company are its operating activities and short-term and long-term loans. The major use of funds includes operating expenses, capital expenditures, and repayment of the short-term and long-term debts.

(1) Assets, liabilities and equity

Unit: RMB million

	As of 31 December 2025	As of 31 December 2024	Change
Total assets	2,153,485	2,081,440	72,045
Current assets	522,741	524,515	(1,774)
Non-current assets	1,630,744	1,556,925	73,819
Total liabilities	1,166,609	1,109,293	57,316
Current liabilities	698,553	673,237	25,316
Non-current liabilities	468,056	436,056	32,000
Total equity attributable to shareholders of the Company	827,463	815,815	11,648
Share capital	120,926	121,282	(356)
Reserves	706,537	694,533	12,004
Non-controlling interests	159,413	156,332	3,081
Total equity	986,876	972,147	14,729

As of 31 December 2025, the Company's total assets were RMB2,153.5 billion, representing an increase of RMB72.0 billion compared with that of the end of 2024, of which:

Current assets were RMB522.7 billion, representing a decrease of RMB1.8 billion compared with that of the end of 2024. This was mainly because inventories decreased by RMB25.8 billion due to decrease in crude oil prices coupled with decrease in crude oil inventories, accounts receivable increased by RMB6.8 billion due to an increase in the operating volume of the overseas trade such as crude oil trade, other receivables increased by RMB5.9 billion due to an increase in the margin deposits of hedging business, cash and cash equivalents and time deposits with financial institutions increased by RMB5.3 billion, receivables financing increased by RMB2.7 billion due to a decrease in cash expenditures coupled with an increase in bill-settled transactions.

Non-current assets were RMB1,630.7 billion, representing an increase of RMB73.8 billion compared with that of the end of 2024. This was mainly because that the Company continuously made efforts in increasing reserves and boosting production in upstream business as well as transition and upgrading of midstream and downstream businesses, and increased investments in gas capacity building, refining and chemical clusters construction, "refined oil products to chemical feedstocks", "refined oil products to refining specialties" and new chemical materials, thus, property, plant and equipment increased by RMB53.1 billion, as well as land and other right-of-use assets increased by RMB9.2 billion. In addition, an increase of RMB6.7 billion was because of the strategic investment in the equity of Contemporary Amperex Technology Co., Limited (CATL), and equity in associates and joint ventures increased by RMB6.5 billion due to exchange rate fluctuations.

The Company's total liabilities were RMB1,166.6 billion, representing an increase of RMB57.3 billion compared with that of the end of 2024, of which:

Current liabilities were RMB698.6 billion, representing an increase of RMB25.3 billion as compared with that of the end of 2024. This was mainly due to certain long-term loans being reclassified to non-current liabilities due within one year.

Non-current liabilities were RMB468.1 billion, representing an increase of RMB32.0 billion compared with that of the end of 2024. This was mainly due to an increase in low-cost bond financing, driven by the issuance of medium-term notes and sci-tech innovation bonds.

Total equity attributable to owners of the Company was RMB827.5 billion, representing an increase of RMB11.6 billion compared with that of the end of 2024.

(2) Cash Flow

The following table sets forth the major items in the consolidated cash flow statements for 2025 and 2024.

Unit: RMB million

Major items of cash flows	Year ended 31 December	
	2025	2024
Net cash generated from operating activities	162,496	149,360
Net cash used in investing activities	(146,472)	(161,240)
Net cash used in financing activities	(26,074)	(19,237)

In 2025, the net cash generated from operating activities of the Company was RMB162.5 billion, representing an increase of RMB13.1 billion year-on-year. This was mainly due to the decrease in net changes from working capital as a result of enhanced management.

In 2025, the Company's net cash used in investing activities was RMB146.5 billion, representing a decrease of RMB14.8 billion year-on-year. This was mainly because investment expenditure decreased by RMB5.6 billion, and net increase in time deposits with maturities over three months decreased by RMB5.9 billion.

In 2025, the Company's net cash used in financing activities was RMB26.1 billion, representing an increase of RMB6.8 billion year-on-year. This was mainly due to a cash inflow from the issuance of

shares to the target subscriber in the last year, which did not happen during this period.

At the end of 2025, the cash and cash equivalents were RMB81.1 billion.

(3) Contingent Liabilities

Please refer to "Material Guarantee Contracts and their Performance" in the Chapter "Significant Events" of this report.

(4) Capital Expenditure

Please refer to "Capital Expenditure" in the Chapter "Business Review and Prospects" of this report.

(5) Research & Development and Environmental Expenditures

R&D expenditures include related expenses and investment expenditure occurred in the period. In 2025, the

expenditures for R&D were RMB25.0 billion, of which expense was RMB15.9 billion, and investment expenditure was RMB9.1 billion.

Environmental expenditures refer to the normal pollutant discharge fees paid by the Company, excluding capitalised cost of pollutant treatment properties. In 2025, the Company paid environmental expenditures of RMB16.5 billion.

(6) Measurement of fair values of derivatives and relevant system

The Company has established sound decision-making mechanism, business process and internal control systems relevant to financial instrument accounting and information disclosure. The following table sets out the items relevant to measurement of fair values.

Main items relevant to measurement of fair values

Unit: RMB million

Items	Beginning of the year	End of the year	Profits and losses from variation of fair values in the current year	Accumulated variation of fair values recorded as equity	Impairment loss provision of the current year	Funding source	Purchase amount in the current year	Sell and redemption amount in the current year	Other changes
Financial assets held for trading	4	4	-	-	-	-	-	-	-
Fund	4	4	-	-	-	-	-	-	-
Derivative financial instruments and cash flow hedges	(858)	(4,314)	2,148	16,386	-	-	-	(21,990)	-
Receivables financing	2,613	5,340	-	-	-	-	67,449	(64,722)	-
Other equity instrument investments	416	7,156	-	3,250	-	-	3,608	-	(118)
Total	2,175	8,186	2,148	19,636	-	-	71,057	(86,712)	(118)

Securities investment

Unit: RMB million

Securities type	Securities code	Security Abbreviation	Initial investment cost	Funding source	Book value at the beginning of the period	Profits and losses from variation of fair values in the current period	Accumulated variation of fair values recorded as equity	Purchase amount in the current period	Sell amount in the current period	Investment gains and losses in the current period	Other variation	Book value at the end of the period	Chart of Accounts
Stock	03750.HK	CATL	3,570	Self-owned Funds	-	-	3,233	3,570	-	15	(93)	6,710	Other equity instrument investments
Total	None	None	3,570	None	-	-	3,233	3,570	-	15	(93)	6,710	None

Derivatives investment:

In 2025, the Company traded in commodity and currency derivatives according to the Annual Business Plan for Financial Derivatives approved by the Board. Such business met the regulatory requirements of financial derivatives, operated in a standardized manner, and achieved the goals of suppressing price fluctuation, stabilising operating profit, and preventing market risks.

4 ANALYSIS OF FINANCIAL STATEMENTS PREPARED UNDER CASS

The major differences between the Company's financial statements prepared under CASS and IFRS Accounting Standards are set out in Section C of the financial statements of the Company on page 213 of this report.

(1) Under CASS, the operating income and operating profit or loss by reportable segments were as follows:

	For the year ended 31 December	
	2025	2024
	RMB million	RMB million
Operating income		
Exploration and Production Segment	285,992	297,249
Refining Segment	1,328,509	1,481,502
Marketing and Distribution Segment	1,505,275	1,714,358
Chemicals Segment	464,108	523,862
Corporate and Others	1,315,600	1,457,226
Elimination of inter-segment sales	(2,115,901)	(2,399,635)
Consolidated operating income	2,783,583	3,074,562
Operating profit/(loss)		
Exploration and Production Segment	40,687	49,058
Refining Segment	9,095	6,303
Marketing and Distribution Segment	9,190	17,698
Chemicals Segment	(19,874)	(14,046)
Corporate and Others	(4,995)	(914)
Elimination	970	(630)
Financial expenses, investment income and losses/gains from changes in fair value	5,397	14,788
Consolidated operating profit	40,470	72,257
Net profit attributable to equity shareholders of the Company	31,809	50,313

Operating profit: In 2025, the operating profit of the Company was RMB40.5 billion, representing a decrease of RMB31.8 billion as compared with that of 2024.

Net profit: In 2025, the net profit attributable to the equity shareholders of the Company was RMB31.8 billion, representing a decrease of RMB18.5 billion or 36.8% compared with 2024.

(2) Financial data prepared under CASs

	As of 31 December 2025 RMB million	As of 31 December 2024 RMB million	Change
Total assets	2,155,617	2,084,771	70,846
Non-current liabilities	467,292	435,241	32,051
Shareholder's equity	989,772	976,293	13,479

Change analysis:

At the end of 2025, the Company's total assets were RMB2,155.6 billion, representing an increase of RMB70.8 billion compared with that of the end of 2024. This was mainly because that the Company continuously made efforts in increasing reserves and boosting production of upstream business combined with transition and upgrading of midstream and downstream businesses, and increased investments in gas capacity building, refining and chemical clusters construction, "refined oil products to chemical feedstocks", "refined oil products to refining specialties" and new chemical materials, thus, fixed assets and intangible assets increased by RMB63.4 billion. In addition, an increase of RMB6.7 billion was because of the strategic investment in the equity of CATL.

At the end of 2025, the Company's non-current liabilities were RMB467.3 billion, representing an increase of RMB32.1 billion compared with that of the end of 2024. This was mainly due to an increase in low-cost bond financing, driven by the issuance of medium-term notes and sci-tech innovation bonds.

At the end of 2025, total shareholders' equity of the Company was RMB989.8 billion, representing an increase of RMB13.5 billion compared with that of the end of 2024.

(3) The results of the principal operations by segments

Segments	Operation income RMB million	Operation cost RMB million	Gross profit margin* (%)	Increase/ (decrease) of operation income on a year-on-year basis (%)	Increase/ (decrease) of operation cost on a year-on-year basis (%)	Increase/ (decrease) of gross profit margin on a year-on-year basis (percentage point)
Exploration and Production	285,992	201,833	24.1	(3.8)	(0.3)	(1.1)
Refining	1,328,509	1,070,616	1.9	(10.3)	(12.0)	0.3
Marketing and Distribution	1,505,275	1,426,774	5.0	(12.2)	(12.2)	(0.1)
Chemicals	464,108	460,886	0.4	(11.4)	(10.9)	(0.5)
Corporate and Others	1,315,600	1,298,145	1.3	(9.7)	(9.7)	(0.0)
Elimination of inter-segment sales	(2,115,901)	(2,116,871)	–	–	–	–
Total	2,783,583	2,341,383	6.8	(9.5)	(9.9)	0.0

*: Gross profit margin = (operation income – operation cost, tax and surcharges)/operation income.

5 THE CAUSE AND IMPACT OF THE CHANGE IN THE COMPANY'S ACCOUNTING POLICY, ACCOUNTING ESTIMATES AND ACCOUNTING METHODS

For details, please refer to Note 1 to the financial statement prepared in accordance with IFRS Accounting Standards.

1 IMPROVEMENTS IN CORPORATE GOVERNANCE DURING THE REPORTING PERIOD

During the reporting period, Sinopec Corp. complied with domestic and overseas laws and regulations as well as the Articles of Association, adhered to the standard operation, operated in compliance with laws and continuously improved the level of corporate governance. It strengthened strategic analysis and conducted in-depth research on its business development and strategic planning for the 15th Five-Year Plan period. In accordance with the latest regulatory requirements and in combination with the actual situation of the Company, the Company amended the Articles of Association, the Rules of Procedure for the General Meetings and the Rules of Procedure for the Board Meetings. Upon the completion of the amendments, the Company no longer had the Supervisory Committee. The functions and powers of the Supervisory Committee were assumed by the Audit Committee of the Board. The Company elected Chairman of the Board, Directors and Independent Non-executive Directors, adjusted the members composition of the Board Committees, thereby further enhancing the diversity of the Board. Sinopec Corp. attached great importance to shareholder returns, and repurchased A share and H share for the fourth consecutive year to increase the corporate value and shareholders' equity. Our Independent Directors conscientiously fulfilled their duties, played a positive role in "participating in decision-making, exercising oversight and checks and balances, and offering professional consultation". They reviewed proposals with due care, conducted thematic research covering the whole upstream, midstream, and downstream industry chain, and provided valuable insights and suggestions for the Company's reform and development. Sinopec Corp. improved the internal control system and promoted the effectiveness of the implementation of internal control system continuously. We improved the Company's transparency by focusing on value orientation and high-quality information disclosure, and continuously obtained A-level rating of SSE for information disclosure. We expanded the breadth and depth of investor communication, improved communication effectiveness and received

favorable market feedback. We strengthened ESG management, enhanced the ecological environmental protection, steadily advanced the Action for Carbon Peaking, and steadily advanced the second phase of the Green Enterprise Action plan. We continuously improved the effectiveness of the HSE management system and consolidated the favorable trend of safe and stable operation. We motivated the enthusiasm and creativity of employees and enhanced the inspection and supervision by giving full play to the leading and supporting role of Party building, which contributed to the effective implementation of the Board resolutions and the high-quality development of the Company.

During the reporting period, there was no material inconsistency between Sinopec Corp.'s corporate governance and the requirements of the PRC Company Law and relevant regulations of the CSRC. The Supervisory Committee or the Audit Committee of Sinopec Corp. had no objection to any of the supervised matters. None of Sinopec Corp., the Board, the Directors, the Supervisors, the Senior Management, the controlling shareholder or de facto controller of Sinopec Corp. was under the investigation by the CSRC or received any regulatory sanction or was criticised publicly by the CSRC, the Hong Kong Securities and Futures Commission or received any public censure from SSE or the Hong Kong Stock Exchange.

2 EQUITY INTERESTS HELD BY DIRECTORS AND OTHER SENIOR MANAGEMENT

As of 31 December 2025, none of the Directors and Senior Management of Sinopec Corp. and their respective associates had any interests or short positions (including any interests or short positions that are regarded or treated as being held in accordance with the Securities and Futures Ordinance (SFO)) in any shares, underlying shares or debentures of Sinopec Corp. or any associated corporations (as defined in Part XV of the SFO), as recorded in the registry pursuant to Section 352 of the SFO or as otherwise notified to Sinopec Corp. and the Hong Kong Stock Exchange pursuant to the Model Code for Securities Transactions by Directors of Listed Issuers (Model Code) contained in the Hong Kong Listing Rules.

As required under the Hong Kong Listing Rules, Sinopec Corp. has formulated Rules Governing Shares and Changes in Shares of the Company Held by Directors and Senior Management and Rules on Insider Registration and Management (collectively, Rules) to regulate securities transactions by relevant personnel. The standards of the Rules above-mentioned are no less strict than those set out in the Model Code. Upon the specific inquiries made by Sinopec Corp., all the Directors confirmed that they had complied with the required standards in the Model Code as well as those set out in the Rules during the reporting period.

3 COMPANY'S INDEPENDENCE FROM CONTROLLING SHAREHOLDER

The Company is independent from its controlling shareholder in terms of, among other matters, business, assets and finances. The controlling shareholder of the Company exercised shareholder's rights through the general meeting according to applicable laws and didn't overstep the authority of the general meeting or directly or indirectly interfere with the Company's operating decisions and operating activities. The Company has well-integrated independent businesses and independent operating capabilities. During the reporting period, the Company did not identify the controlling shareholder taking advantage of its special position to misappropriate and damage the interests of the Company or other shareholders.

4 COMPETITION BETWEEN SINOPEC CORP. AND ITS CONTROLLING SHAREHOLDER

Please refer to "Performance of the Undertakings by Relevant Entities" under the Chapter "Significant Events" for details.

5 IMPROVEMENT AND IMPLEMENTATION OF THE INTERNAL CONTROL SYSTEM

For details of internal control self-assessment and internal control auditing, please refer to the internal control evaluation report and the internal control auditing report disclosed by Sinopec Corp. on the same date of this annual report.

6 MANAGEMENT CONTROL OF SUBSIDIARIES

The Company implements standardized control over different types of subsidiaries in accordance with laws and regulations, the Articles of Association and the internal control system. During the reporting period, the Company did not acquire any subsidiaries that met material criteria, and there were no abnormalities in the management and control of subsidiaries.

7 SENIOR MANAGEMENT APPRAISAL AND INCENTIVE SCHEMES

According to incentive policies including the Measures of Sinopec Corp. for the Performance Evaluations and Remuneration Management, Sinopec Corp. has established and is continuously improving the fairness and transparency of its performance appraisal standards, incentive and restrictive mechanisms for Directors and other Senior Management.

8 CORPORATE GOVERNANCE REPORT (IN ACCORDANCE WITH THE HONG KONG LISTING RULES)

(1) Compliance with the Corporate Governance Code

During the reporting period, Sinopec Corp. complied with all code provisions of the Corporate Governance Code set out in Appendix C1 of the Hong Kong Listing Rules.

A. CORPORATE PURPOSE, STRATEGY AND GOVERNANCE

A.1 Corporate Strategy, Business Model and Culture

- The Board of Sinopec Corp. has always adhered to the underlying principle of pursuing progress while ensuring stability, applied the new development philosophy fully, accurately and comprehensively, scientifically formulated the medium-term and long-term development strategy, facilitated the implementation of the strategy, actively promoted the high-quality development, and continuously created value for the stakeholders.
- Sinopec Corp. attaches great importance to the construction of corporate culture. In the long process of reform and development, the Company has cultivated and formed its corporate culture, comprising the enterprise spirit of “loving China,

strengthening the petrochemical industry”, as well as such fine traditions as being hardworking. The Company strives to provide more cutting-edge technologies, premium products and quality services. The relevant content is published on Sinopec Corp.’s website at <http://www.sinopec.com>.

A.2 Corporate Governance Functions

- The Board of Sinopec Corp. is responsible for performing duties of corporate governance, formulating and approving relevant corporate governance rules, adhering to the standard operation, improving the corporate governance, ensuring that the Company complies with laws, regulations and domestic and overseas regulatory rules, and disclosing the Company’s compliance with the Corporate Governance Code in the Corporate Governance Report.
- During the reporting period, the Board arranged training sessions for Directors, Supervisors and Senior Management, and kept relevant records. The Directors, Supervisors and Senior Management of Sinopec Corp. actively participated in the trainings and attached great importance to continuing professional development to ensure that they can contribute to Sinopec Corp. with informed and relevant information.

The Directors’ attendance to the trainings is as follows:

Name	Positions	Laws and regulations update		Accounting/finance/operational management	
		Reading materials	Training and lectures	Reading materials	Research
Hou Qijun	Chairman, Non-executive Director	√	√	√	√
Zhao Dong	Vice Chairman, Executive Director, President	√	√	√	√
Zhong Ren	Non-executive Director	√	√	√	√
Lv Lianggong	Executive Director, Senior Vice President	√	√	√	√
Niu Shuanwen	Executive Director, Senior Vice President	√	√	√	√
Wan Tao	Executive Director, Senior Vice President	√	√	√	√
Cai Yong	Non-executive Director	√	√	√	√
Xu Lin	Independent Non-executive Director	√	√	√	√
Zhang Liying	Independent Non-executive Director	√	√	√	√
Liu Tsz Bun Bennett	Independent Non-executive Director	√	√	√	√
Zhang Xiliang	Independent Non-executive Director	√	√	√	√
Li Wei	Independent Non-executive Director	√	√	√	–
Wang Shijie	Employee Representative Director	–	–	–	–

Note: Mr. Li Yonglin, has ceased to be Director and Senior Vice President, and he participated in the aforesaid trainings during his tenure in the reporting period. Mr. Li Wei was elected as Independent Non-executive Director of Sinopec Corp. on 18 December 2025. Mr. Wang Shijie was elected as Employee Representative Director of Sinopec Corp. on 19 March 2026.

B. BOARD COMPOSITION AND NOMINATION**B.1 Board Composition, Succession and Evaluation**

- a. The Board of Sinopec Corp. is the decision-making body of Sinopec Corp. and abides by sound corporate governance practices and procedures. All decisions made by the Board are implemented by the Management of Sinopec Corp.
- b. The Board of Sinopec Corp. consists of thirteen members, among whom there are four Executive Directors and nine Non-executive Directors. Among the Non-executive Directors, there are five Independent Non-executive Directors, accounting for approximately 38% of the total number of the Board.
- c. Each of the Independent Non-executive Directors has conducted independence self-examination and submitted a letter of annual confirmation to the Company, regarding their compliance with relevant independence requirements set out in Rule 3.13 of the Hong Kong Listing Rules. The Board of Sinopec Corp. considers that each of the Independent Non-executive Directors is independent. The composition and operational mechanism of the Board of Sinopec Corp. ensure that independent and objective views and input are available to the Board. The Board reviews and evaluates the effectiveness of such operational mechanism on an annual basis.

- d. The Board of Sinopec Corp. established the Board Diversity Policy and amended it on 9 January 2026, which stipulates that the Board shall fully consider the goals and requirements regarding the diversity of its members. The size and composition of the Board shall comply with the requirements of laws, regulations, and the securities regulatory rules of the place where the shares are listed, and shall maintain a reasonable professional structure. When deciding the composition of the Board, Sinopec Corp. shall consider factors in relation to the diversity of the Board, including but not limited to gender, age, cultural and educational background, regions, ethnicity, professional experience, skills, knowledge, term of office, and any other factors that the Board deems relevant and applicable from time to time, in order to achieve the overall good functioning of the Board. The provisions of the Articles of Association concerning the term of office of Directors help to ensure that the Board has a proper balance between continuous experience and fresh perspective, and enhance the level of diversity. Sinopec Corp. annually reviews the implementation of the Board Diversity Policy. Currently, the Board achieved the diversity in terms of gender, culture, educational background and professional expertise. The Directors come from different industries domestically and abroad with rich professional experience, including petroleum and petrochemical corporate management, as well

as industrial policy, energy and environmental economics, carbon trading and carbon management, new energy and electricity, artificial intelligence and new chemical materials industry investment, finance, accounting, internal control and risk management, etc., which are conducive to strategic planning and scientific decision-making. The Board and the Nomination Committee endeavor to look for potential female Director candidates matching development needs of the Company through self-regulatory organisations, professional recommendation and other channels to ensure gender diversity of the Board. Currently, female Director accounts for approximately 8% of the Board members, and has achieved the numerical targets of at least one female Director.

Sinopec Corp. has always devoted to establishing a workplace with diversity and equal opportunities, recruited female employees actively to increase the diversity of the team, and provided equal employment opportunities and environment for all employees, so as to offer them career development spaces to give full play to their personal characteristics and values. In 2025, female employees in the Company account for 29.8% of the total employees. The Company adheres to the doctrine of gender equality, ensuring female employees have equal labor and social security rights as male employees. For details, please refer to the 2025 Sustainability Report of Sinopec Corp.

B.2 Appointment, Re-election and Removal

- a. The term of office for each Director is three years, and the consecutive terms of office of any Independent Non-executive Director cannot exceed six years. In July 2025, Mr. Hou Qijun and Mr. Cai Yong, nominated by the Board as the candidates for the ninth session of the Board based on the actual needs of the Company, were elected as Directors of the Company by the first extraordinary general meeting for the year 2025 (the “First EGM”) held in August 2025. In November 2025, Mr. Li Wei, nominated by the China Petrochemical Corporation as the Independent Non-executive Director candidate for the ninth session of the Board, was elected as Independent Non-executive Director of the Company by the second extraordinary general meeting for the year 2025 (the “Second EGM”) held in December 2025. In March 2026, Mr. Wang Shijie was elected as Employee Representative Director of Sinopec Corp. through democratic procedures in March 2026. For details about the tenure of each Director, please refer to Section 10 under this chapter.
- b. During the reporting period, all Directors of Sinopec Corp. must be elected at the general meeting. The Board has no power to appoint temporary Directors.
- c. Each of the Directors was able to devote sufficient time and energy to handling the affairs of Sinopec Corp.

B.3 Nomination Committee

- a. The Board of Sinopec Corp. established the Nomination Committee, consisting of the Independent Non-executive Director, Ms. Zhang Liying, who serves as the Chairwoman, and the Chairman of the Board, Mr. Hou Qijun, and the Independent Non-executive Director, Mr. Liu Tsz Bun Bennett, who serve as members. The Nomination Committee shall be responsible for drawing up the selection criteria and procedures for Directors and Senior Management, vetting and reviewing candidates for Directors and Senior Management and their qualifications for the positions, and making recommendations to the Board on the nomination or removal of Directors and the appointment or removal of Senior Management. When recommending candidates for Directors, the Nomination Committee mainly considers the skills, knowledge, experience and qualifications of the candidates, and also evaluates the time and energy they can devote as well as the Board Diversity Policy. The Articles of Association, Procedures to Propose a Person for Election as a Director and Terms of Reference of the Nomination Committee of Sinopec Corp. stipulate the procedures for nomination of Directors, and are published on Sinopec Corp.’s website at <http://www.sinopec.com>.
- b. The Nomination Committee can engage a professional institution to provide professional advice when performing its duties, and the reasonable fees incurred in connection therewith shall be borne by Sinopec Corp. In the meantime, the Nomination Committee has also appointed consultant members and can require such members to provide advice. The working expenses of the Nomination Committee are included in the budget of Sinopec Corp.
- c. During the reporting period, the Nomination Committee held two meetings (please refer to “The Board Committees Meetings and the Special Meeting of Independent Directors” under the Chapter “Report of the Board of Directors” in this annual report).

C. DIRECTORS' RESPONSIBILITIES, DELEGATION AND BOARD PROCEEDINGS**C.1 Responsibility of Directors**

- a. Sinopec Corp. engages professional consultants to prepare detailed materials for newly elected Directors, to notify them of the regulations of each listing place of Sinopec Corp. and to remind them of their rights, responsibilities, and obligations as Directors. Each newly elected Director has received legal opinions from a qualified law firm on 21 August 2025, 18 December 2025, and 19 March 2026, respectively, and is aware of all the provisions in the Hong Kong Listing Rules applicable to the Directors of Sinopec Corp., as well as the potential consequences of making false statements or providing false information to the Hong Kong Stock Exchange. Sinopec Corp. has purchased liability insurance for all Directors to minimize the potential risks that might arise from the adequate performance of their duties.
- b. All Non-executive Directors have the same duties and powers as the Executive Directors. In addition, the Independent Non-executive Directors are entitled to certain specific powers. The Articles of Association, the Rules of Procedure for the Board Meetings and Terms of Reference of the Independent Directors clearly prescribe the duties and powers of Directors and Non-executive Directors including Independent Non-executive Directors, which are published on Sinopec Corp.'s website at <http://www.sinopec.com>.
- c. Each of the Directors confirmed that he/she has complied with the Model Code during the reporting period. Meanwhile, Sinopec Corp. formulated the Rules Governing Shares and Changes in Shares of the Company held by Directors and Senior Management and the Rules on Insider Registration and Management, which are no less exacting than the Model Code, to further regulate the dealings of Sinopec Corp.'s securities by relevant personnel.
- d. All the Independent Non-executive Directors and other Non-executive Directors of the Sinopec Corp. regularly attended the Board meetings and the meetings held by the Board Committees they served, closely followed the production and operational status of the Company, and offered constructive suggestions on the Company's reforms and development based on their skills and professional knowledge. For details about each Director's attendance at the relevant meetings, please refer to the Chapter "Report of the Board of Directors" in this annual report.
- b. The Chairman of the Board ensures that all the Directors could receive full, clear and complete information in time, and be informed of proposals of the Board meetings.
- c. The Chairman of the Board places great emphasis on communication with the Independent Non-executive Directors. The Chairman independently communicated with the Independent Non-executive Directors in respect of development strategy, medium-term and long-term development plans, corporate governance, and operational management, etc.
- d. The Chairman of the Board encourages open and active discussions. The Directors fully and deeply participated in the discussions of significant decisions in the Board meetings.

C.2 Chairman and President

- a. Mr. Hou Qijun, elected by all Directors, serves as Chairman of the Board. Mr. Zhao Dong, appointed by the Board, serves as President of Sinopec Corp. The respective main duties and responsibilities of the Chairman of the Board and the President are clearly distinguished from each other, and the scope of their respective duties and responsibilities is set out in the Articles of Association.

C.3 Management Functions

- a. The Board and the Management have clear duties and responsibilities under written rules. The Articles of Association clearly set forth the scope of duties, powers, and delegation of power of the Board and Management, which is published on the website of Sinopec Corp. at <http://www.sinopec.com>.

C.4 Board Committees

- a. In addition to the Audit Committee, the Remuneration and Appraisal Committee and the Nomination Committee, the Board of Sinopec Corp. has established the Strategy Committee and the Sustainable Development Committee. The Strategy Committee is responsible for studying long-term development strategies and significant investment decisions of the Company. The Strategy Committee consists of five Directors, including the Chairman of the Board, Mr. Hou Qijun, who serves as the Chairman, Vice Chairman, Executive Director, Mr. Zhao Dong, and Independent Non-executive Directors, Mr. Xu Lin, Ms. Zhang Liying and Mr. Li Wei, who serve as members. The Sustainable Development Committee is responsible for researching, supervising and inspecting the Company's sustainable development-related work (including health and safety, environmental protection, social responsibility, etc.), and make recommendation to the Board. The Sustainable Development Committee consists of five Directors, including the Vice Chairman, Executive Director, Mr. Zhao Dong, who serves as the Chairman, the Non-executive Director, Mr. Zhong Ren, the Executive Director, Mr. Wan Tao, and Independent Non-executive Directors, Mr. Zhang Xiliang and Mr. Li Wei, who serve as members.

- b. Each Board Committee shall report its decisions and recommendations to the Board and has formulated its terms of references. Terms of Reference of the Strategy Committee, Terms of Reference of the Audit Committee, Terms of Reference of the Sustainable Development Committee, Terms of Reference of the Remuneration and Appraisal Committee and Terms of Reference of the Nomination Committee are published on the website of Sinopec Corp. at <http://www.sinopec.com>.

C.5 Special Meeting of Independent Directors

- a. Sinopec Corp. has established the mechanism of the Special Meeting of Independent Directors, and stipulates that matters such as connected transactions subject to disclosure, shall be submitted to the Board for consideration after approval by a majority of all the Independent Directors.
- b. During the reporting period, Sinopec Corp. held two Special Meetings of Independent Directors (please refer to "The Board Committees Meetings and the Special Meeting of Independent Directors" under the Chapter "Report of the Board of Directors" in this annual report).

C.6 Board Proceedings and Supply of and Access to Information

- a. The Articles of Association and the Rules of Procedure for the Board Meetings of Sinopec Corp. clearly prescribe the proceedings of Board meetings, which are published on the website of Sinopec Corp. at <http://www.sinopec.com>.
- b. The Board of Sinopec Corp. held its meetings at least once a quarter. The Board will usually communicate the time and proposals of the Board meeting 14 days before convening the meeting. The relevant documents and materials for Board meetings and for the Board Committees are usually delivered to each Director 10 days in advance. Before the meetings were held, assigned persons were responsible for answering the possible questions raised by the Directors, ensuring the Directors could participate in the Board meetings effectively and positively, and fully understand the proposals to make decisions. In 2025, Sinopec Corp. held six Board meetings. For details about each Director's attendance at the meetings, please refer to the Chapter "Report of the Board of Directors" in this annual report.

- c. Each Director of the Board can submit proposals to be included in the agenda of Board meetings, and each Director is entitled to request other related information. The agenda and other documents for reference for meetings of the Board and Board Committees are distributed prior to the meetings to allow each Director sufficient time to review the materials so that Directors can make informed decisions.
- d. Each Director can obtain all related information in a comprehensive and timely manner. The Secretary to the Board is responsible for organising and preparing the materials for the Board meetings, including preparation of explanations for each proposal to ensure full understanding by the Directors. The Management is responsible for providing the Directors with necessary information and materials. The Directors can require the Management, or require relevant departments via the Management to provide necessary information or explanations. The Directors can seek advice from professional consultants when necessary, and the relevant fees shall be included in Sinopec Corp.'s budget.
- e. Resolutions and minutes of Board meetings and the meetings held by the Board Committees were recorded and archived by designated recorders, and were reviewed and confirmed by the Directors attending the relevant meetings. All the discussion matters and final decisions were recorded fully and accurately in the meeting minutes, which are open for inspection at any reasonable time on reasonable notice by any Director.
- f. During the reporting period, the Board has reviewed and evaluated its performance in 2025 and is of the view that the Board operated in compliance with domestic and overseas regulatory authorities' requirements and the Company's internal rules; that the Board has fully communicated, and considered the suggestions from the Party organisation, Supervisory Committee and Management during its decision-making process; and that the Board safeguarded the legitimate rights and interests of Sinopec Corp. and its shareholders.

C.7 Company Secretary

- a. The Hong Kong Stock Exchange recognised the Secretary to the Board of Sinopec Corp. as having the relevant qualifications as Company Secretary. The Secretary to the Board, nominated by the Chairman of the Board and appointed by the Board, is a senior management officer of Sinopec Corp. He reports to the Chairman of the Board and the President and is responsible to Sinopec Corp. and the Board. The Secretary to the Board gives opinions on corporate governance to the Board and arranges orientation training and professional development for the Directors.
- b. The Secretary to the Board of Sinopec Corp. assists the Directors in handling the day-to-day work of the Board, continuously informs the Directors of the regulations, policies or other requirements of domestic or overseas regulatory authorities in relation to corporate governance and ensures that the Directors comply with domestic and overseas laws and regulations when performing their duties and responsibilities.
- c. During the reporting period, the Secretary to the Board of Sinopec Corp. actively participated in career development training for more than 15 training hours.

D. AUDIT, INTERNAL CONTROL AND RISK MANAGEMENT

D.1 Financial Reporting

- a. Directors are responsible for supervising the preparation of accounts for each fiscal period to ensure that the accounts truly and fairly reflect the condition of the business, the performance, and the cash flow of the Company during the period. The Board approved the financial report for 2025 and warranted that the annual report contained no false representations, misleading statements or material omissions and jointly and severally accepted full responsibility for the authenticity, accuracy, and completeness of the content.
- b. The Management of Sinopec Corp. provides Directors with information about the financial, production and operating data of the Company, capital market updates, and securities regulatory developments every month to ensure that the Directors have access to the latest developments of the Company and regulatory changes in a timely manner.
- c. Sinopec Corp. has adopted an internal control mechanism to ensure that the Management and relevant departments will provide the Board and the Audit Committee with sufficient financial data and related explanations and materials.
- d. The external auditors of Sinopec Corp. made a statement on their audit responsibilities in the auditor's report contained in the financial report.

D.2 Internal Control and Risk Management

- a. Sinopec Corp. has formulated and implemented its internal control and risk management system. The Board as a decision-making body for internal control and risk management, is responsible for evaluating and reviewing the effectiveness of internal control and risk management of Sinopec Corp. The Board and the Audit Committee periodically (at least annually) receive reports of the Company regarding internal control and risk management information from the Management. All major internal control and risk management issues are reported to the Board and the Audit Committee. Sinopec Corp. has set up its internal control and risk management department and internal auditing department, which are equipped with sufficient staff, and these departments periodically (at least twice per year) report to the Audit Committee. The internal control and risk management system of the Company is designed to manage rather than eliminate all the risks of the Company.
- b. In terms of internal control, Sinopec Corp. adopted the internal control framework prescribed in the internationally accepted report of Committee of Sponsoring Organisations of the Treadway Commission (COSO). Based upon the Articles of Association and the management policies currently in effect, as well as in accordance with domestic and overseas regulations, Sinopec Corp. formulates and continuously improves the Internal Control Manual to achieve internal control of all factors of internal

environment, risk assessment, controlling activities, information and communication, and internal supervision. At the same time, Sinopec Corp. has constantly supervised and evaluated its internal control, and conducted comprehensive and multi-level inspections including regular test, enterprise self-examination and auditing check, and included headquarters, branches and subsidiaries into the scope of internal control evaluation, with an internal control evaluation report being produced. The Board annually reviews the Company's internal control evaluation report. For detailed information about the internal control during the reporting period, please refer to the internal control evaluation report prepared by Sinopec Corp.

Sinopec Corp. has formulated and implemented its information disclosure policy and insider registration policy. The Company regularly evaluates the policy implementation and makes disclosure in accordance with relevant regulations. Please refer to the website of Sinopec Corp. (<http://www.sinopec.com>) for the details of the information disclosure policy.

- c. In terms of risk management, Sinopec Corp. adopted the enterprise risk management framework provided by COSO, and established its risk management policy and risk management organisation system. The Company annually conducts risk evaluation to identify major and important risks and perform risk management duties. It has designed

major and important risks tackling strategies and measures combined with its internal control system and periodically monitors their implementation to ensure adequate care, monitoring and tackling of major risks.

The Board attaches great importance to the ESG management approach and strategy, optimises ESG mechanism, strengthens the Board's role in supervising and participation in ESG related issues, and integrates ESG considerations into the Company's development strategy, major decision-making processes and production and operation. The Company keeps strictly to the anti-corruption laws and regulations of China, as well as anti-corruption and anti-bribery laws applicable in the country (region) where the business is conducted. The Company fully supports the UN Convention against Corruption, the UN Global Compact and other relevant initiatives, abides by the rules and commitments of the Company and business partners on clean practices and anti-corruption, and strengthens the construction of a culture of integrity. The Company has continuously improved the organisational and institutional systems of anti-corruption, organised and carried out anti-corruption trainings, and attached importance to risk assessment of anti-corruption. The Board has reviewed and evaluated the adequacy of resources, staff qualifications and experience, training programmes and budget of ESG performance and reporting during the reporting period. For details, please refer to the 2025 Sustainability Report of Sinopec Corp.

- d. Based upon the review and evaluation of internal control and risk management in the reporting period, the Board is of the view that the internal control and risk management of the Company is effective.

D.3 Audit Committee

- a. The Board of Sinopec Corp. has established an Audit Committee, formulated the Terms of Reference of the Audit Committee, which stipulates the scope of responsibility of the Audit Committee. The Audit Committee exercises the functions and powers of the Supervisory Committee as stipulated in the Company Law, and is responsible for examining the Company's financial policies, internal audit system, internal control system and risk management system, reviewing the Company's financial information and its disclosure, and supervising and evaluating the effectiveness of internal and external audit work, risk management and internal control systems, etc. The Audit Committee consists of Independent Non-executive Director, Mr. Liu Tsz Bun Bennett, who serves as the Chairman, Non-executive Director, Mr. Cai Yong, and Independent Non-executive Directors, Mr. Xu Lin, Ms. Zhang Liying, Mr. Zhang Xiliang and Mr. Li Wei, who serve as members.
- b. During the reporting period, the Audit Committee held five meetings (please refer to "The Board Committees Meetings and the Special Meeting of Independent Directors" under the Chapter "Report of the Board of Directors" in this annual report). The review opinions were issued at each meeting and submitted to the Board. During the reporting period, the Board of Sinopec Corp. and the Audit Committee had no disagreement.
- c. The Audit Committee has the right to engage intermediaries, legal counsels, certified public accountants, practicing auditors and other professional parties to provide professional advice when performing its duties, and the reasonable cost incurred shall be borne by Sinopec Corp. In the meantime, the Audit Committee has appointed consultant members and can request such members to provide advice. The working expenses of the Audit Committee are included in the budget of Sinopec Corp. In accordance with the policies of Sinopec Corp., the Senior Management and relevant departments of Sinopec Corp. shall actively support and cooperate with the Audit Committee.
- d. The Audit Committee has reviewed the adequacy and sufficiency of the resources for accounting, internal audit, financial reporting functions and the qualifications and experience of the relevant employees as well as the sufficiency of the training courses and the budget thereof. The Audit Committee is of the view that the Management has fulfilled the duties to establish an effective internal control system. The Company established a whistle-blowing policy in its internal control system reviewed and approved by the Audit Committee, providing several channels, including online reporting, reporting by letters, appeals and complaint mailbox, etc., to employees and others who have dealings with the Company (such as suppliers and customers) to raise concerns on improper matters of the Company secretly and anonymously. The Audit Committee has established an internal procedure, which covers receiving, retaining and handling complaints or anonymous reports concerning accounting, internal control or audit matters.

E. REMUNERATION

E.1 The Level and Make-up of Remuneration and Disclosure

- a. The remuneration policy of the Director is stipulated in Director's service contracts approved at the general meeting of Sinopec Corp. Remuneration of Executive Directors is determined according to the relevant national regulations and the relevant rules of performance evaluation and remuneration management of Sinopec Corp.; Non-executive Directors do not receive remuneration in the Company. Remuneration of Independent Non-executive Directors is approved at the general meeting, and is determined with comprehensive consideration of industry conditions, company size and other factors. For details about the annual remuneration of Directors and other Senior Management, please refer to page 178 in this annual report.
- b. The Board of Sinopec Corp. established the Remuneration and Appraisal Committee, consisting of Independent Non-executive Director, Mr. Xu Lin, who serves as the Chairman, and the Non-executive Director, Mr. Zhong Ren and the Independent Non-executive Director, Mr. Liu Tsz Bun Bennett, who serve as the members. The Remuneration and Appraisal Committee is responsible for formulating the appraisal standards for Directors and Senior Management and conducting appraisals, formulating and reviewing remuneration policies and plans such as the mechanism for determining and decision-making process of the remuneration of Directors and Senior Management, supervising the implementation of the remuneration system, and making recommendations to the Board.

- c. The Remuneration and Appraisal Committee always consults the Chairman of the Board and the President about the remuneration plans for other Executive Directors. After the Remuneration and Appraisal Committee's review, it is of the view that all the Executive Directors of Sinopec Corp. have fulfilled their duties according to their service contracts in 2025.
- d. The Remuneration and Appraisal Committee has the right to engage professional institutions to provide professional advice, and the reasonable fees incurred in connection therewith shall be borne by Sinopec Corp. In the meantime, the Remuneration and Appraisal Committee has also appointed consultant members and can require such members to provide advice. The working expenses of the Remuneration and Appraisal Committee are included in the budget of Sinopec Corp. According to the policies of Sinopec Corp., the Senior Management and relevant departments of Sinopec Corp. shall actively support and cooperate with the Remuneration and Appraisal Committee.
- e. During the reporting period, the Remuneration and Appraisal Committee held one meeting (please refer to "The Board Committees Meetings and the Special Meeting of Independent Directors" under the Chapter "Report of the Board of Directors" in this annual report).

F. SHAREHOLDERS ENGAGEMENT

F.1 Effective Communication

- a. Sinopec Corp. revised the relevant provisions of equity structure and registered capital in the Articles of Association in accordance with the actual situation on shares repurchase and cancellation of the repurchased shares which were reviewed and approved by the annual general meeting for 2024 (AGM). For details, please refer to the announcements published by Sinopec Corp. on China Securities Journal, Shanghai Securities News, Securities Times, and on the website of SSE on 24 March and 29 May 2025, respectively, and on the website of Hong Kong Stock Exchange on 23 March and 28 May 2025, respectively. In order to fully implement the requirements of laws, regulations and regulatory rules, and further enhance the level of corporate governance, Sinopec Corp. amended the Articles of Association, the Rules of Procedure for the General Meetings and the Rules of Procedure for the Board Meetings, and further revised the relevant provisions of equity structure and registered capital in the Articles of Association in accordance with the actual situation on shares repurchase and cancellation of those shares which were reviewed and approved by the Second EGM. For details, please refer to the announcements published by Sinopec Corp. on China Securities Journal, Shanghai Securities News, Securities Times, and on the website of SSE on 30 October and 19 December 2025, respectively, and on the website of Hong Kong Stock Exchange on 29 October and 18 December 2025, respectively.

- b. The policy on payment of dividends of Sinopec Corp. is disclosed in the Report of the Board of Directors in this annual report, please refer to page 66 to page 68 in this annual report.
 - c. Sinopec Corp. attaches considerable significance to investor relations. The Chairman of the Board attended annual and interim results conferences, and the Management attended road shows to answer questions on subjects of concern to investors, such as introducing the development strategies and the production and business performance of the Company. The Independent Non-executive Director, Ms. Zhang Liying, attended the annual and interim online performance meetings. The Board Secretariat of Sinopec Corp. is responsible for organising the communication with investors. In compliance with regulatory provisions, Sinopec Corp. enhances communication with investors by holding meetings with institutional investors, reverse roadshow, setting up an investor hotline, and communicating through internet platform, etc.
 - d. According to relevant rules of Sinopec Corp., the Secretary to the Board is responsible for establishing an effective communication channel between Sinopec Corp. and its shareholders, for setting up special departments to communicate with the shareholders and for passing the opinions and proposals of the shareholders to the Board and Management in a timely manner. Contact details of Sinopec Corp. can be found in the “Investor Center” on Sinopec Corp.’s website, ensuring that shareholders can get in touch with the Company at any time. During this year, Sinopec Corp. kept on monitoring and evaluating the implementation and effectiveness of the Shareholders’ Communication Policy, in order to ensure its effectiveness.
- F.2 General Meeting**
- a. During the reporting period, separate resolutions were proposed for each substantially separate issue at the general meeting. All resolutions were voted by poll in protection of the interest of all shareholders. Notices of the general meeting were dispatched to shareholders 45 days (excluding the date of the general meeting) in advance.
 - b. The Chairman of the Board of Sinopec Corp. hosted the AGM, the First A Shareholders Class Meeting for 2025, the First H Shareholders Class Meeting for 2025, and the Second EGM. The Vice Chairman of the Board hosted the First EGM. Several members of the Board, the Supervisory Committee, and Senior Management attended the meetings and conducted in-depth communication with the investors. Certain members of the Strategy Committee, the Audit Committee, the Sustainable Development Committee, the Remuneration and Appraisal Committee and the Nomination Committee attended the meetings. The external auditors of the Company attended the meetings. During the AGM and the Company assigned working staff to record questions raised by investors as well as the feedback in relation to each Board Committee. In the meetings, investors did not raise questions that need to be answered or matters that need to be paid attention to by each Board Committee. After the AGM and the EGMs, the Company communicated separately with investors.

- c. Shareholders who individually or collectively hold 10% of the total voting shares of Sinopec Corp. may request the Board in writing to hold the extraordinary general meeting. If the Board fails to approve the request to convene the meeting according to the Rules of Procedure for the General Meetings, the shareholders can request the Audit Committee in writing to hold the extraordinary general meeting. If the Audit Committee fails to convene the meeting according to the Rules of Procedure for the General Meetings, the shareholders can convene the meeting at their discretion according to applicable laws, and reasonable expenses incurred will be borne by Sinopec Corp. These aforementioned provisions are subject to the following conditions: the proposals at the general meeting must fall within the functions and powers of the general meeting, with specific proposals and resolutions and in compliance with relevant laws, administrative regulations and the Articles of Association. When Sinopec Corp. holds the general meeting, shareholders who individually or collectively hold 1% of the total voting shares of Sinopec Corp. can propose a supplemental proposal within the time limit specified in the Rules of Procedure for the General Meetings.
- d. The eligibility for attending the general meeting, the rights of shareholders, the resolutions at the meeting and the voting procedures are clearly set out in the notice and circular of the general meeting of Sinopec Corp. dispatched to the shareholders.

- e. Sinopec Corp. has established a special department for communication with shareholders and published relevant contact details to facilitate shareholders to make enquiries to the Company and the Board in accordance with Articles of Association.

G. AUDITORS

The re-appointment of KPMG Huazhen LLP and KPMG as the external auditors of Sinopec Corp. for the year 2025 and the authorisation of the Board to determine their remunerations were approved at Sinopec Corp.'s AGM on 28 May 2025. The audit fee for 2025 was RMB39.862 million (including audit fee of internal control), which was approved at the 11th meeting of the ninth session of the Board. The annual financial statements of the year ended 31 December 2025 have been audited by KPMG Huazhen LLP and KPMG. The Chinese certified public accountants signing the report are Yang Jie and He Shu from KPMG Huazhen LLP. KPMG Huazhen LLP and KPMG have provided audit services to Sinopec Corp. since 2021. For details of the period of the current engagement partners and certified public accountants for providing audit service to the Company, please refer to the announcement on re-appointment of the external auditors published on China Securities Journal, Shanghai Securities News, Securities Times and the website of SSE on 24 March 2025, and on the website of Hong Kong Stock Exchange on 23 March 2025. During the reporting period, KPMG Huazhen LLP, KPMG and their affiliates firms provided non-audit service, such as tax consulting and due diligence investigation to the Company, and the fee charged was RMB6.194 million.

(2) Other information about Sinopec Corp.'s corporate governance

Except for their working relationships in the Company, none of the Directors or other Senior Management has any financial, business or family relationship or any relationship in other material aspects with one another. For information about changes in share capital and shareholdings of principal shareholders, please refer to page 74; for information about meetings of the Board, please refer to page 64; for information about meetings held by Board Committees, please refer to page 65; for information about tenure of Non-executive Directors, please refer to page 45; for information about equity interests of Directors and other Senior Management, please refer to page 28; for biographies of Directors and other Senior Management, please refer to page 40.

9 DETAILED IMPLEMENTATION OF THE SHARE INCENTIVE SCHEME

The Company did not implement any share incentive scheme during the reporting period.

25 DONATION AND INVESTMENT IN RURAL REVITALIZATION AND PUBLIC WELFARE PROJECT

During the reporting period, Sinopec contributed its strengths to support the needs of rural revitalization and promoted high-quality rural revitalization. Throughout the year, the Company implemented a total of 290 external donation, rural revitalization and public welfare projects, with an expenditure of RMB0.29 billion. The funds were mainly used for rural revitalization initiatives in industries, education and consumption, as well as social public welfare projects such as the “Spring Bud Gas Station” and emergency disaster relief. For relevant information, please refer to the 2025 Sustainability Report of Sinopec Corp.

1 MAJOR CONSTRUCTION PROJECTS

(1) Shengli Shale Oil Project

The project mainly launches shale oil exploration and development in Jiyang depression, with the target of 1 million tpa capacity in the 14th Five Year Plan. The project started in 2019. It has drilled 201 wells and generated capacity of 1.259 million tpa. The project investment consists of the self-owned fund and bank loan. As of 31 December 2025, the aggregate amount invested was RMB17.2 billion.

(2) Longkou LNG Project

The project mainly consists of building wharf, terminal and power plant warm drainage and water intake. The designed LNG capacity in the first phase is 6 million tpa. One LNG berth with 0.266 million cubic meters will be modified and four 0.22 million cubic meters storage tanks will be newly built. The project started in November 2021. The project investment consists of the self-owned fund and bank loan. As of 31 December 2025, the aggregate amount invested was RMB6.7 billion.

(3) Maoming Refining Transition and Upgrading and Ethylene Quality Revamping Project

The project mainly consists of building 3 million tpa catalytic cracking united plant, 1 million tpa ethylene unit, supporting utilities and auxiliary facilities, etc. The project started in June 2023. The project investment consists of the self-owned fund and bank loan. As of 31 December 2025, the aggregate amount invested was RMB13.5 billion.

(4) Qilu Refining of Local Crude Oil Upgrading and Technical Transformation Project

The project mainly consists of building 10 million tpa crude oil distillation unit, renovating 1 million tpa ethylene unit, construction of supporting utilities and auxiliary facilities, etc. The project started in December 2024. The project investment consists of the self-owned fund and bank loan. As of 31 December 2025, the aggregate amount invested was RMB0.7 billion.

(5) Jiujiang 1.5 million tpa Aromatic and Supporting Refinery Renovation Project

The project mainly consists of building 1.5 million tpa aromatic united plant, 2.6 million tpa hydrocracking unit, 2.6 million tpa continuous catalytic reforming unit, supporting utilities and auxiliary facilities, etc. The project started in July 2024. The project investment consists of the self-owned fund and bank loan. As of 31 December 2025, the aggregate amount invested was RMB4.1 billion.

(6) Zhenhai 1.5 million tpa Ethylene and Downstream High-End New Material Industry Cluster Project

The project mainly consists of building 1.5 million tpa ethylene units, downstream processing units, supporting utilities and auxiliary facilities, etc. The project started in November 2023. The project investment consists of the self-owned fund and bank loan. As of 31 December 2025, the aggregate amount invested was RMB4.6 billion.

(7) Henan 1 million tpa Ethylene Project

The project mainly consists of building 1 million tpa ethylene units, downstream processing units, supporting utilities and auxiliary facilities, etc. The project started in May 2023. The project investment consists of the self-owned fund and bank loan. As of 31 December 2025, the aggregate amount invested was RMB2.7 billion.

(8) Phase II Project of Fujian Gulei Refining and Petrochemical Integration Project

The project mainly consists of building 16 million tpa refining plant, 2 million tpa aromatic united plant, 1.5 million tpa ethylene cracking unit and downstream derivative unit and supporting utilities including 300,000-ton crude oil terminal. The project investment consists of the self-owned fund and bank loan. As of 31 December 2025, the aggregate amount invested in equity was RMB1.08 billion.

(9) Kazakhstan Natural Gas Chemical Project

The project uses ethane separated from the Tengiz Field in Kazakhstan as feedstock. It mainly consists of one 1.3 million tpa ethane cracker unit, two 625,000 tpa polyethylene plants, as well as supporting utility facilities. The project started in September 2024. The project investment consists of the self-owned fund and bank loan. As of 31 December 2025, the aggregate amount invested in equity was RMB2.818 billion.

2 ACTUAL DAILY RELATED TRANSACTIONS ENTERED INTO BY THE COMPANY AND CHINA OIL & GAS PIPELINE NETWORK CORPORATION DURING THE REPORTING PERIOD

On 17 January 2025, the Board of Sinopec Corp. considered and approved the daily related transaction cap in relation to refined oil pipeline transportation services between Sinopec Marketing Company Limited and China Oil & Gas Pipeline Network Corporation for the period from 1 January 2025 to 31 December 2025. For details, please refer to the announcements published by Sinopec Corp. on China Securities Journal, Shanghai Securities News, Securities Times, and on the website of SSE on 18 January 2025 and on the website of Hong Kong Stock Exchange on 17 January 2025.

The actual amount of the daily related transactions of Sinopec Marketing Company Limited and China Oil & Gas Pipeline Network Corporation regarding refined oil pipeline transportation services from 1 January 2025 to 31 December 2025 was RMB5.145 billion.

3 CAPITAL INCREASE IN SINOPEC CAPITAL

On 28 April 2025, Sinopec Corp., Sinopec Group and Sinopec Capital Co., Ltd. (Sinopec Capital) entered into the Capital Increase Agreement. The capital increase in Sinopec Capital will be contributed by Sinopec Corp. and Sinopec Group with an aggregate amount of RMB1.99 billion, of which, Sinopec Corp. will contribute RMB0.9751 billion in cash, and Sinopec Group will contribute RMB1.0149 billion in cash. The registered capital of Sinopec Capital will be increased from RMB10 billion to RMB11.99 billion. Upon completion of the Capital Increase, the respective equity interests held by Sinopec Corp. and Sinopec Group in Sinopec Capital remained unchanged, being 49% and 51%.

By increasing the registered capital of Sinopec Capital on a pro-rata basis, Sinopec Corp. will further indirectly enhance its layout in the fields such as new energy, new materials and high-end intelligent manufacturing, supporting the transition and upgrading of Sinopec Corp.'s industrial chain.

Sinopec Group is the controlling shareholder of Sinopec Corp. and constitutes a connected

person of Sinopec Corp. As certain applicable percentage ratio of the Capital Increase is more than 0.1% but less than 5%, thus, the Capital Increase is subject to the reporting and announcement requirements, but exempt from independent shareholders' approval requirement under Chapter 14A of the Listing Rules.

For details and definitions, please refer to the announcement on China Securities Journal, Shanghai Securities News, Securities Times and the website of SSE on 29 April 2025, and on the website of Hong Kong Stock Exchange on 28 April 2025.

4 THE ISSUANCE OF A SHARES BY SINOPEC CORP. TO THE TARGET SUBSCRIBER

In 2024, Sinopec Corp. completed the issuance of 2,390,438,247 A shares to China Petrochemical Corporation (Issuance). For details, please refer to announcements published by Sinopec Corp. on China Securities Journal, Shanghai Securities News, Securities Times and the website of the SSE on 16 March 2024 and 20 March 2024 and the circular and announcement published on the website of Hong Kong Stock Exchange on 13 April 2023 and 19 March 2024, respectively. *: For details, please refer to the Special Report on the Deposit and Actual Use of Proceeds from Fund Raising for 2025 of China Petroleum & Chemical Corporation, disclosed by Sinopec Corp. on the website of the Shanghai Stock Exchange on March 20, 2026.

(3) In the reporting period, there were no changes or terminations of investment projects.

(4) Pre-investment of investment projects and replacement of self-raised funds

On 28 April 2024, the 22nd meeting of the eighth session of the Board considered and approved Proposal on Replacing Pre-invested Self-raised Funds with Proceeds, approving the Company to use the proceeds of RMB1,215,422,591.73 to replace the pre-invested self-raised funds. For details, please refer to announcements published by Sinopec Corp. on China Securities Journal, Shanghai Securities News, Securities Times and the website of the SSE on 29 April 2024 and 26 August 2024, respectively.

(5) Other situations regarding the use of proceeds

The Company convened the 9th meeting of the 9th Board of Directors on 29 October 2025, which considered and approved the Proposal on the Temporary Use of Part of the Raised Funds to Supplement Working Capital. The Company agreed to use raised funds of no more than RMB6 billion (inclusive) for the temporary supplement of working capital. Such funds shall only be used for production and operation related to the principal business, with a term of no more than 12 months (inclusive) from the date of approval by the Board of Directors. For details, please refer to the relevant announcement disclosed by the Company on the website of the Shanghai Stock Exchange on October 30, 2025.

Other than the above, during the reporting period, the Company did not use idle proceeds to carry out cash management or invest in related products.

(6) Conclusive opinions of intermediary agency on the special verification and authentication of the storage and use of proceeds

In the opinion of KPMG Huazhen LLP, the accounting firm, the Company's Special Report on the Deposit and Utilization of Raised Funds for the year 2025 was prepared, in all material respects, in accordance with the requirements of Rules on the Supervision of Raised Funds of Listed Companies (Announcement [2025] No. 10 of the China Securities Regulatory Commission) and the "Self-regulatory Guidelines for Listed Companies on the SSE No. 1 – Standardized Operation" issued by the SSE, as well as relevant format guidelines. It also faithfully reflected the deposit and utilization of raised funds for the year 2025 in all material respects.

In the opinion of GF Securities Co., Ltd., the sponsor, the Company's deposit and utilization of raised funds for the year 2025 complied with the requirements of Rules on the Supervision of Raised Funds of Listed Companies (Announcement [2025] No. 10 of the China Securities Regulatory Commission) and the "Self-regulatory Guidelines for Listed Companies on the SSE No. 1 – Standardized Operation" issued by the SSE, as well as relevant laws, regulations, and normative documents. The Company deposited the proceeds in dedicated accounts and used them for approved projects, without any change in the usage or prejudice to the shareholders' interests, nor any illegal use of proceeds.

5 IMPLEMENTATION OF THE COMPANY'S CORPORATE VALUE AND RETURN ENHANCEMENT ACTION PLAN

To further promote the corporate value, enhance value recognition, and improve investor returns, the Company actively responded to the SSE Initiative on Carrying Out the Corporate Value and Return enhancement Action Plan for Shanghai-listed Companies and formulated Corporate Value and Return Enhancement Action Plan for 2024 and Dividend Distribution and Return Plan for Shareholders for the Next Three Years (2024-2026). For details, please refer to announcement published by Sinopec Corp. on the website of the SSE on 26 August 2024.

In 2025, Sinopec Corp. maintained the continuity and stability of dividend and continued to implement share repurchases. The Company formulated cash dividend plan in accordance with the Articles of Association and the Dividend Distribution and Return Plan for Shareholders for the Next Three Years (2024-2026), emphasizing on investor return and sharing development achievements with shareholders.

6 ESTABLISHMENT OF A JOINT VENTURE BY THE COMPANY, FPCL AND AAS

On 28 April 2025, Sinopec Corp., Fujian Petrochemical Company Limited (FPCL) and Aramco Asia Singapore Pte. Ltd. (AAS) entered into the Joint Venture Agreement. Pursuant to the Joint Venture Agreement, Sinopec Corp., FPCL and AAS will jointly establish the Joint Venture through capital contribution. The registered capital of the Joint Venture is RMB28,800,906,667, of which, the Company and FPCL shall each contribute RMB7,200,226,667 and RMB14,400,453,334 in cash, accounting

for 25% and 50% of the registered capital of the Joint Venture, respectively; AAS shall contribute RMB7,200,226,667 in cash, accounting for 25% of the registered capital of the Joint Venture. The financial support provided by Sinopec Corp. to the FPCL, in accordance with its shareholding of 50% in FPCL, covering FPCL's capital contribution obligations, possible cost overrun liabilities, option interest purchase obligations and other liabilities under the Joint Venture Agreement. In addition to the establishment of the Joint Venture, Sinopec Corp. and FPCL are granted a call option to acquire the equity interest held by AAS in the Joint Venture, and AAS is granted a put option to sell its equity interest in the Joint Venture under the Joint Venture Agreement. For details and definition, please refer to the announcements published by Sinopec Corp. on China Securities Journal, Shanghai Securities News, Securities Times, and on the website of SSE on 29 April 2025 and on the website of Hong Kong Stock Exchange on 28 April 2025, respectively.

In order to regulate connected transactions between the Company and Sinopec Finance Co. (Sinopec Corp.'s domestic settlement center) and to ensure the safety and liquidity of the deposits of the Company at Sinopec Finance Co., Sinopec Corp. and the Finance Company formulated the Risk Control System on Connected Transactions between China Petroleum & Chemical Corporation and Sinopec Finance Co., Ltd., which covers the risk control system and the risk management plan of the Company to prevent financial risks, ensuring the Company's discretion to use and control its deposits with Sinopec Finance Co.. At the same time, as the controlling shareholder of Sinopec Finance Co., China Petrochemical Corporation undertook that in case of an emergency when Sinopec Finance Co. has difficulty in making payments, China Petrochemical Corporation would increase the capital of Sinopec Finance Co. to meet the payment needs.

In order to regulate connected transactions between the Company and Century Bright (Sinopec Corp.'s overseas settlement center), Century Bright ensures the safety of the deposits of the Company at Century Bright by strengthening internal risk controls and obtaining support from China Petrochemical Corporation. China Petrochemical Corporation has formulated a number of internal rules, including the Rules for the Internal Control System, the Rules for Implementation of Overseas Capital Management Methods, and the Provisional Methods for Overseas Fund Platform Management, to impose strict restrictions on Century Bright regarding the provision of overseas financial services. Century Bright has also established the Rules for the Implementation of the Internal Control System, which ensures the standardisation and safety of its corporate deposits business. At the same time, as the wholly controlling shareholder of Century Bright, China Petrochemical Corporation entered into a

keep-well agreement with Century Bright in 2013, in which China Petrochemical Corporation undertakes that when Century Bright has difficulty in making payments, China Petrochemical Corporation will ensure that Century Bright will fulfill its repayment obligation through various channels.

Sinopec Corp. has formulated the Risk Disposal Plan of China Petroleum & Chemical Corporation for Conducting Financial Business with Sinopec Finance Co. and Century Bright and agreed on the corresponding risk control measures to ensure the safety of the Company's funds in Sinopec Finance Co. and Century Bright to effectively prevent, timely control and resolve financial business risks. At the same time, Sinopec Finance Co. and Century Bright undertake that the deposits obtained from Sinopec Corp. will be primarily used for the Company's capital needs and ensure the safety of the deposits. In the event that Sinopec Corp. has a need for funds in excess of those deposited with Sinopec Finance Co. and/or Century Bright, Sinopec Finance Co. and/or Century Bright will use their best endeavours to satisfy the aforesaid needs of the Company in accordance with the relevant provisions under the financial services agreement.

The deposits of the Company at Sinopec Finance Co. and Century Bright during the reporting period are in strict compliance with the relevant caps as approved at the general meeting of Sinopec Corp. During daily operations, the Company can withdraw the full amount of its deposits at the Sinopec Finance Co. and Century Bright.

20 MAJOR INFLUENCES ON THE INDUSTRY FROM NEWLY-ENFORCED LAWS, ADMINISTRATIVE RULES, REGULATIONS AND INDUSTRY POLICIES

On 27 January 2025, the General Office of the State Council issued and implemented the Opinions on Promoting High-Quality Development of Refined Oil Product Circulation (Opinions). Through measures such as building a full-chain digital supervision system, implementing credit-based hierarchical management, and cracking down on illegal operations, the Opinions drive the industry to shift from scale expansion to quality priority, accelerate the green and low-carbon transition, and provide institutional support for safeguarding energy security and regulating market order. On 28 October 2025, the Standing Committee of the National People's Congress promulgated and put into effect the Environmental Protection Tax Law of the People's Republic of China (2025 Amendment). The core of this amendment is to bring all Volatile Organic Compounds (VOCs) into the scope of environmental protection tax collection, marking a comprehensive upgrade of China's green taxation system.

In addition, relevant government authorities have issued a series of important policies and regulations concerning emergency response management for unexpected incidents, transportation of dangerous goods, work safety, construction and operation of oil and gas infrastructure, and data security in the energy sector. These documents emphasize the need to continuously strengthen compliance management in improving emergency response systems, enhancing safety management for road transportation of dangerous goods, establishing a rigorous accountability mechanism for work safety, upgrading planning, construction and operation of oil and gas infrastructure, and strengthening data security protection in the energy industry. At the same time, efforts will be focused on enhancing national emergency response capabilities and energy security safeguards, maintaining market order and public interests, and promoting high-quality development of relevant industries.

1 AGREEMENTS ON CONTINUING CONNECTED TRANSACTIONS BETWEEN SINOPEC CORP. AND SINOPEC GROUP

Prior to Sinopec Corp.'s overseas listing, in order to ensure the smooth continuation of production and business conducted by the Company and Sinopec Group, the two parties entered into the agreements on continuing connected transactions.

On 23 August 2024, Sinopec Corp. entered into the seventh supplemental agreement on continuing connected transactions with its controlling shareholder, China Petrochemical Corporation, and the Financial Services Agreement with the Sinopec Finance Co. and Century Bright. The resolution in relation to the continuing connected transactions for the three years from 2025 to 2027 and the resolution in relation to the Financial Services Agreement signed with Sinopec Finance Co. and Century Bright were approved at the extraordinary general meeting of Sinopec Corp. held on 22 October 2024. For details of agreements on the above continuing connected transactions, please refer to relevant announcements and circular of Sinopec Corp. published on 26 August 2024 in China Securities Journal, Shanghai Securities News and Securities Times and on the website of the SSE and on 25 August 2024, 1 September 2024 and 22 October 2024 on the website of the Hong Kong Stock Exchange. The capitalised terms used in this paragraph shall have the same meaning as that used in the above-mentioned announcements.

2 COMPLIANCE OF DISCLOSURE AND APPROVALS OF CONTINUING CONNECTED TRANSACTIONS BETWEEN THE COMPANY AND SINOPEC GROUP WITH THE HONG KONG LISTING RULES AND THE SHANGHAI LISTING RULES

Pursuant to the Hong Kong Listing Rules and the Shanghai Listing Rules, the continuing connected transactions between the Company and Sinopec Group are subject to disclosure, independent directors committee meeting's approval and/or independent shareholders' approval (if needed) based on the nature and the value of the transactions. Sinopec Corp. has fully complied with the above requirements of the rules in relation to the continuing connected transactions between the Company and Sinopec Group.

The aggregated amount of the continuing connected transactions for 2025 of the Company is in compliance with the relevant requirements of the Hong Kong Listing Rules and the Shanghai Listing Rules. For actual performance details of continuing connected transaction agreements, please refer to section 3.

3 ACTUAL PERFORMANCE OF CONTINUING CONNECTED TRANSACTIONS OF THE COMPANY DURING THE YEAR

In the reporting period, actual purchase expenses of the continuing connected transactions of the Company were RMB275.832 billion, representing 9.69% of the total amount of this type of transactions for the reporting period, including purchases

of products and services (procurement, storage, transportation, exploration and development services, and production-related services) of RMB262.502 billion, payment of property rent of RMB1.184 billion (annual value of right-of-use assets for property leasing of RMB3.263 billion), payment of land rent of RMB11.171 billion (annual value of right-of-use assets for lands leasing of RMB30.797 billion), and interest expenses of RMB0.975 billion. The sales income of the continuing connected transactions of the Company during the reporting period was RMB167.351 billion, representing 5.81% of the total amount of this type of transactions for the reporting period, including sales of products of RMB164.433 billion, agency commission income of RMB95 million, and interest income of RMB2.823 billion. In addition, entrusted loan provided by the Company to the Connected Subsidiaries was RMB1 million. For definitions, please refer to relevant announcements and circular published on 26 August 2024 in China Securities Journal, Shanghai Securities News and Securities Times and on the website of the SSE, and the website of the Hong Kong Stock Exchange on 25 August 2024 and 1 September 2024.

The amounts of the above continuing connected transactions between the Company and Sinopec Group did not exceed the relevant caps for the continuing connected transactions as approved by the general meeting and the Board.

The pricing principles for the continuing connected transactions are as follows:

- (a) the government-prescribed price;
- (b) where there is no government-prescribed price but where there is a government-guidance price, the government-guidance price will apply;
- (c) where there is neither a government-prescribed price nor a government-guidance price, the market price will apply; or
- (d) where none of the above is applicable, the price for the provision of the products or services is to be agreed between the relevant parties, which shall be the reasonable cost incurred in providing the same plus 6% or less of such cost.

Sinopec Corp. confirmed that the prices and terms of continuing connected transactions in the reporting period complied with their pricing principles. For details of the pricing principle, please refer to relevant announcements published on 26 August 2024 in China Securities Journal, Shanghai Securities News and Securities Times and on the website of the SSE and on 25 August 2024 on the website of the Hong Kong Stock Exchange.

Decision-making procedures: The continuing connected transaction agreements were entered into in the ordinary course of the Company's business and in accordance with normal commercial terms and principles that are fair and reasonable to the Company and its shareholders. The Company, according to its internal control procedures, adjusts the scope and the relevant caps of continuing connected transactions

every three years, and will announce and implement upon the approval of the Board and/or independent shareholders. For the other non-continuing connected transactions, Sinopec Corp., in strict compliance with domestic and overseas regulatory rules, will publish the announcement and implement the transactions only after submitting the relevant proposals of connected transactions to the Board and/or the general meeting for consideration and approval according to internal control procedures.

Related party transactions between the Company and Sinopec Group that occurred during the year, as set out in Note 39 to the financial statements prepared under the IFRS Accounting Standards in this annual report, also fall under the definition of connected transactions under Chapter 14A of the Hong Kong Listing Rules.

The above-mentioned connected transactions between the Company and Sinopec Group were approved at the 2nd meeting of the ninth session of the Board and have complied with the requirements under Chapter 14A of the Hong Kong Listing Rules.

The external auditor of Sinopec Corp. was engaged to report on the Company's continuing connected transactions in accordance with the Hong Kong Standard on Assurance Engagements 3000, Assurance Engagement other than Audits or Reviews of Historical Financial Information, and with reference to Practice Note 740, Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules, issued by the Hong Kong Institute of Certified Public Accountants. The auditor has issued its unqualified letter containing its conclusions in respect of the above-mentioned continuing connected transactions in accordance with Rule 14A.56 of the Hong Kong Listing Rules.

After reviewing the above-mentioned connected transactions, the independent directors committee meeting of Sinopec Corp. has confirmed the following:

- (a) the transactions have been conducted in the ordinary course of the Company's business;
- (b) the transactions have been entered into based on either of the following terms:
 - i normal commercial terms; or
 - ii terms not less favorable than those available from or to independent third parties, where there is no available comparison to determine whether such terms are on normal commercial terms; and
- (c) the transactions were conducted pursuant to the terms of relevant agreements, and the terms were fair and reasonable and in the interests of Sinopec Corp. and its shareholders as a whole.

4 OTHER SIGNIFICANT CONNECTED TRANSACTIONS OCCURRED THIS YEAR

For details, please refer to section 2 "Actual Daily Related Transactions Entered into by the Company and China Oil & Gas Pipeline Network Corporation During the Reporting Period" and section 3 "Capital Increase in Sinopec Capital" in the Chapter "Significant Events".

- (13) The 3rd meeting of the ninth session of the Nomination Committee was held through electronic means of communication on 28 November 2025, whereby the proposal in relation to the Review of the Qualifications of the Independent Non-executive Director Candidate of Sinopec Corp. was approved.

4 BOARD COMMITTEES ISSUED REVIEW OPINIONS TO THE BOARD WHEN PERFORMING THEIR DUTIES DURING THE REPORTING PERIOD, WITHOUT OBJECTION.

5 PERFORMANCE OF THE DIRECTORS

During the reporting period, the Directors of Sinopec Corp. fulfilled their duties diligently in accordance with the Articles of Association, and the newly appointed Chairman led the Board in strengthening strategic analysis and conducting in-depth research on the

Company's business development and strategic planning for the 15th Five-Year Plan period. The Directors attended Board meetings and meetings of the relevant Board committees on time, reviewed proposals with due care, utilized their professional expertise to provide suggestions on the Company's development strategy, production and operations, reform and development and other significant matters, thus continuously improving scientific decision-making capacity of the Board, and maintained timely and effective communication with the management, external auditors and internal audit department to continuously strengthen internal control and risk prevention. The Directors participated in securities regulatory training as required, continuously enhancing their performance abilities of compliance. During the reporting period, the Independent Directors conducted three thematic research visits to subsidiaries, inspected the Company's upstream, midstream, and downstream industrial chain on site, deepened their understanding of the business development of various segments, and held two special meetings to review and approve connected transactions, protecting the minority shareholders' legitimate interests. None of the Directors had any objection to the Company's resolutions, and the suggestions of Directors relevant to reform and development were accepted.

Pursuant to requirements of the securities regulatory authority of China, Independent Directors of Sinopec Corp. reviewed the performance of the senior management of Sinopec Corp. in 2025 who concurrently serve as senior management in China Petrochemical Corporation, and issued a special opinion as follows: the senior management of Sinopec Corp. including Mr. Zhao Dong, Mr. Li Yonglin, Mr. Lv Lianggong, Mr. Niu Shuanwen and Mr. Wan Tao, each of whom concurrently held position as senior management of China Petrochemical Corporation, have obtained the exemptions for holding concurrent positions in Sinopec Corp. from CSRC. In 2025, Mr. Zhao Dong, Mr. Li Yonglin, Mr. Lv Lianggong, Mr. Niu Shuanwen and Mr. Wan Tao strictly abided by the provisions of laws and regulations, the Articles of Association and the service contracts, conscientiously fulfilled their duties of loyalty and diligence, implemented the resolutions of the Board, and devoted sufficient time and energy to organizing production and operation. They protected the interests of Sinopec Corp. and its

shareholders and have not prejudiced the legitimate interests of Sinopec Corp. and its shareholders due to holding aforesaid concurrent positions in China Petrochemical Corporation.

6 BUSINESS PERFORMANCE

The financial results of the Company for the year ended 31 December 2025, which were prepared in accordance with IFRS Accounting Standards and the financial position as at that date and the accompanying analysis are set out from page 156 to page 212 in this annual report. A fair review of the Company's business, a discussion and analysis on the material factors underlying our business performance, results and financial position during the reporting period, particulars of significant events affecting the Company and the outlook of the Company's business are discussed in the Chapters "Chairman's Address", "Business Review and Prospects", "Management's Discussion and Analysis" and "Significant Events" of this annual report. All of the above discussions constitute parts of the report of the Board of Directors.

7 DIVIDEND

The profit distribution policy of Sinopec Corp. maintains consistency and steadiness and considers the long-term interests of the Company, overall interests of all the shareholders and the sustainable development of the Company. Sinopec Corp. gives priority to adopting cash dividends for profit distribution and is allowed to distribute an interim profit. If the net profit of the parent company for the current year is positive, the retained earnings are positive and the Company's cash flow can satisfy the normal operation and sustainable development of the Company, Sinopec Corp. shall distribute cash dividends and the profit of the Company to be distributed by cash in each year shall not be less than 65% of the net profit attributable to equity shareholders of the Company under CASs or the profit attributable to shareholders of the Company under IFRS Accounting Standards (whichever is lower).

The profit distribution plan of the Company for the corresponding year shall be carried out in accordance with the policy and procedures stipulated in the Articles of Association and Dividend Distribution and Return Plan for Shareholders for Three Years (2024 to 2026), taking into account the advice from the minority shareholders.

Proposals for dividend distribution

At the 11th meeting of the ninth session of the Board, the Board approved the proposal to distribute a final cash dividend of RMB0.112 (tax inclusive) per share for 2025. Taking into account the distributed interim dividend of RMB0.088 (tax inclusive) per share for the first half of 2025, the total dividend for the whole year is RMB0.2 (tax inclusive) per share.

The final cash dividend will be distributed on or before Friday, 26 June 2026 to all shareholders whose names appear on the register of members of Sinopec Corp. on the record date of Tuesday, 16 June 2026. In order to qualify for the final dividend for H shares, the holders of H shares must lodge all share certificates accompanied by the transfer documents with Computershare Hong Kong Investor Services Limited located at Shops 1712-1716, 17th Floor Hopewell Centre, 183 Queen's Road East, Wan Chai, Hong Kong before 4:30 p.m. on Tuesday, 9 June 2026 for registration. The H shares register and transfer of members of Sinopec Corp. will be closed from Wednesday, 10 June 2026 to Tuesday, 16 June 2026 (both dates inclusive). The dividend will be denominated and declared in RMB, and distributed to the domestic shareholders and investors participating in the Shanghai-Hong Kong and Shenzhen-Hong Kong Stock Connect Programmes in RMB and to the overseas shareholders in Hong Kong Dollar. The exchange rate for the dividend calculated in Hong Kong Dollar is based on the average of the last published daily reference exchange rates by the China Foreign Exchange Trade System during the 5 working days prior to the announcement of payment of dividend.

In accordance with the Enterprise Income Tax Law of the People's Republic of China and its implementation regulations which came into effect on 1 January 2008, Sinopec Corp. is required to withhold and pay enterprise income tax at the rate of 10% on behalf of the non-resident enterprise shareholders whose names appear on the register of members for H Shares of Sinopec Corp. when distributing the cash dividends or issuing bonus shares by way of capitalisation from retained earnings. Any Shares of the Sinopec Corp. which are not registered under the name of an individual shareholder, including those registered under HKSCC Nominees Limited, other nominees,

agents or trustees, or other organisations or groups, shall be deemed as shares held by non-resident enterprise shareholders. On such basis, enterprise income tax shall be withheld from dividends payable to such shareholders. If holders of H Shares intend to change their shareholder status, please enquire about the relevant procedures with your agents or trustees. Sinopec Corp. will strictly comply with the law or the requirements of the relevant government authority to withhold and pay enterprise income tax on behalf of the relevant shareholders based on the registration of members for H shares of Sinopec Corp. as at the record date.

If the individual holders of H shares are residents of Hong Kong, Macau or countries which had an agreed tax rate of 10% for cash dividends or bonus shares by way of capitalisation from retained earnings with China under the relevant tax agreement, Sinopec Corp. should withhold and pay individual income tax on behalf of the relevant shareholders at a rate of 10%. If the individual holders of H Shares are residents of countries which had an agreed tax rate of less than 10% with China under relevant tax agreement, Sinopec Corp. shall withhold and pay individual income tax on behalf of the relevant shareholders at a rate of 10%. In that case, if the relevant individual holders of H Shares wish to reclaim the extra amount

withheld due to the application of 10% tax rate, Sinopec Corp. would apply for the relevant agreed preferential tax treatment pursuant to the relevant tax agreement provided that the relevant shareholders submit the evidence required by the notice of the tax agreement to the share register of H Shares of Sinopec Corp. in a timely manner. Sinopec Corp. will assist with the tax refund after the approval of the competent tax authority.

If the individual holders of H Shares are residents of countries which had an agreed tax rate of over 10% but less than 20% with China under the tax agreement, Sinopec Corp. shall withhold and pay the individual income tax at the agreed actual rate in accordance with the relevant tax agreements. If the individual holders of H Shares are residents of countries which had an agreed tax rate of 20% with China, or which had not entered into any tax agreement with China, or otherwise, Sinopec Corp. shall withhold and pay the individual income tax at a rate of 20%.

Pursuant to the Notice on the Tax Policies Related to the Pilot Program of the Shanghai-Hong Kong Stock Connect (關於滬港股票市場交易互聯互通機制試點有關稅收政策的通知) (Caishui [2014] No. 81) and the Notice on the Tax Policies Related to the Pilot Program of the Shenzhen-Hong Kong

Stock Connect (《關於深港股票市場交易互聯互通機制試點有關稅收政策的通知》) (Caishui [2016] No.127): For dividends of domestic investors investing in the H Shares of Sinopec Corp. through Shanghai-Hong Kong and Shenzhen-Hong Kong Stock Connect Program, the Company shall withhold and pay income tax at the rate of 20% on behalf of individual investors and securities investment funds. The Company will not withhold or pay the income tax of dividends for domestic enterprise investors and those domestic enterprise investors shall report and pay the relevant tax by themselves. For dividends of investors of the Hong Kong Stock Exchange (including enterprises and individuals) investing in the A Shares of Sinopec Corp. through Shanghai-Hong Kong Stock Connect Program, the Company will withhold and pay income taxes at the rate of 10% on behalf of those investors and will report to the competent tax authorities for the withholding. For investors who are tax residents of other countries which have entered into a tax treaty with the PRC stipulating a dividend tax rate of lower than 10%, the enterprises and individuals may, or may entrust a withholding agent to, apply to the competent tax authorities for the entitlement of the rate under such tax treaty. Upon approval by the tax authorities, the amount paid in excess of the tax payable based on the tax rate according to such tax treaty will be refunded.

The dividend distribution and capital reserve capitalization declared by Sinopec Corp. in the past three years are as follows (in accordance with CASS):

	2025	2024	2023
Cash dividends (RMB/Share, tax inclusive)	0.200	0.286	0.345
Cash dividends paid in other ways (such as repurchase of shares) (RMB million, tax inclusive)	1,554	2,131	2,325
Total amount of cash dividends (including dividends paid in other ways) (RMB million, tax inclusive)	25,760	36,878	43,575
Net profits attributed to the shareholders of the listed company shown in the consolidated statement for the dividend year (RMB million)	31,809	50,313	60,463
Ratio of the dividends to the net profit attributed to the shareholders of the listed company in the consolidated statement (%)	81.0	73.3	72.1

Note: The final cash dividend for 2025 is subject to the approval at the 2025 annual general meeting.

The aggregate cash dividend declared by Sinopec Corp. during three years from 2023 to 2025 is RMB0.831 per share, with a total amount of RMB100.203 billion, the total paid amount for repurchase of shares was RMB6.010 billion, and the aggregate amount with cash dividend was RMB106.213 billion. The average net profit attributed to the shareholders of the Company in the three years was RMB47.528 billion. The total cash dividend and repurchase amount from 2023 to 2025 as a percentage of average net profit attributed to the shareholders was 223.47%. At the end of 2025, the retained earnings of the parent company were RMB110.483 billion.

8 RESPONSIBILITIES FOR THE COMPANY'S INTERNAL CONTROL

The Board is fully responsible for establishing and maintaining the internal control system related to the financial statements as well as ensuring its effective implementation. In 2025, the Board assessed and evaluated the internal control of Sinopec Corp. according to the Basic Standard for Enterprise Internal Control, Application Guidelines for Enterprise Internal Control and Assessment Guidelines for Enterprise Internal Control. There was no important and material defect in relation to the internal control system as of 31 December 2025. The internal control system of Sinopec Corp. related to the financial statements is sound and effective.

2025 Internal Control Evaluation Report of Sinopec Corp. was reviewed and approved at the 11th meeting of the ninth session of the Board on 20 March 2026, and all members of the Board warrant that the contents of the report are true, accurate and complete, and there are no false representations, misleading statements or material omissions contained in the report.

9 DURING THE REPORTING PERIOD, THE COMPLIANCE OF ENVIRONMENTAL POLICIES BY THE COMPANY

During the reporting period, the Company complied with the environmental policy in all material aspects. Details with regard to the Company's environmental policies and performances are provided in the Chapter "Corporate Governance, Environment and Society" in this annual report as well as the 2025 Sustainability Report of Sinopec Corp.

10 DURING THE REPORTING PERIOD, THE COMPANY DID NOT VIOLATE LAWS OR REGULATIONS WHICH HAVE A MATERIAL IMPACT ON THE COMPANY.

11 MAJOR SUPPLIERS AND CUSTOMERS

The Company maintained a stable cooperation relationship with major suppliers and customers. During the reporting period, the total value of the purchasing from the top five suppliers accounted for 44.57% of the total value of purchasing by the Company, among which, the purchasing value of the largest supplier accounted for 16.19% of the total annual purchasing value and the total value of the purchasing from the connected party Sinopec Group among the five largest suppliers was RMB379.104 billion, accounted for 16.19% of the total value of purchasing by the Company.

The total revenue from the five largest customers of the Company was RMB218.959 billion, accounting for 7.87% of the total revenue of the Company for the year, among which the sales value to the connected party Sinopec Group among the five largest customers was RMB107.767 billion, accounting for 3.87% of the total revenue for the year.

During the reporting period, other than disclosed above, to the best knowledge of the Board of the Directors of the Company, none of the Directors of the Company, their close associates, and shareholders holding more than 5% of the shares of the Company had any interest in the top five suppliers or the top five customers of the Company. There were no suppliers, customers, employees or others on which the Company's success depends.

12 BANK LOANS AND OTHER BORROWINGS

Details of bank loans and other borrowings of the Company as of 31 December 2025 are set out in Note 30 to the financial statements prepared in accordance with IFRS Accounting Standards in this annual report.

13 FIXED ASSETS

During the reporting period, changes to the fixed assets of the Company are set out in Note 17 to the financial statements prepared in accordance with IFRS Accounting Standards in this annual report.

14 RESERVES

During the reporting period, the changes to the reserves of the Company are set out in the consolidated statement of changes in shareholders' equity in the financial statements prepared in accordance with IFRS Accounting Standards in this annual report.

15 DONATIONS

During the reporting period, the amount of charity donations made by the Company amounted to approximately RMB293 million.

16 PRE-EMPTIVE RIGHTS

Pursuant to the Articles of Association and the laws of the PRC, the shareholders of Sinopec Corp. are not entitled to any pre-emptive rights. Therefore, the existing shareholders cannot request Sinopec Corp. to issue shares to them on a preferential basis in proportion to their shareholdings.

17 REPURCHASE, SALES AND REDEMPTION OF SHARES

(1) Progress in the share repurchase

On 28 June 2024 and 28 May 2025, the annual general meetings and shareholders class meetings of Sinopec Corp. considered and approved the Resolution to Grant to the Board a Mandate to Buy Back Domestic Shares and/or Overseas-listed Foreign Shares of Sinopec Corp., authorizing the Board (or the director authorised by the Board) to repurchase A shares or H shares not exceeding 10% of the issued number of A shares or H shares of Sinopec Corp. in issue.

The Board considered and approved the Plan on Repurchasing the Company's Shares by Centralized Bidding Transactions. For details, please refer to the announcements published by Sinopec Corp. on the website of the SSE on 26 August 2024 and 22 August 2025, respectively.

During the reporting period, Sinopec Corp. has repurchased 89,349,476 A shares, accounting for 0.07% of the total issued shares of Sinopec Corp. on 31 December 2025, the highest and lowest repurchase prices were RMB6.10 and RMB5.27 per share respectively, and the total amount paid was RMB500,000,213.01 (exclusive of transaction fees). For details, please refer to the Announcement on the Results of the Implementation of Share Repurchase published by Sinopec Corp. on the website of the SSE on 24 November 2025. The Company completed A shares repurchase on 20 November 2025, and cancelled all repurchased A shares on 24 November 2025. For details, please refer to the announcements published by Sinopec Corp. on the website of the SSE on 24 November 2025.

During the reporting period, Sinopec Corp. has repurchased 266,554,000 H Shares, accounting for approximately 0.22% of the total issued shares of Sinopec Corp. on 31 December 2025, and the total amount paid was HK\$1,152,829,082.00 (exclusive of transaction fees), among which 36,180,000 H shares were repurchased in March 2025, and were cancelled on 3 June 2025. For details, please refer to the announcement published by Sinopec Corp. on the website of the Hong Kong Stock Exchange on 3 June 2025. 67,624,000 H shares were repurchased in August 2025, and were cancelled on 4 September 2025. For details, please refer to the announcement published by Sinopec Corp. on the website of the Hong Kong Stock Exchange on 4 September 2025. 162,750,000 H shares were repurchased from September to December 2025, and were cancelled on 30 December 2025. For details, please refer to the announcement published by Sinopec Corp. on the website of the Hong Kong Stock Exchange on 30 December 2025.

A Share Repurchase

Month	Repurchase Amount	Price per share		Total Amount (RMB)
		Highest (RMB/share)	Lowest (RMB/share)	
8	17,200,000	5.86	5.77	99,806,035.67
9	14,963,200	5.40	5.28	79,562,980.00
10	16,658,070	5.50	5.27	90,232,835.10
11	40,528,206	6.10	5.53	230,398,362.24

H Share Repurchase

Month	Repurchase Amount	Price per share		Total Amount (HK\$)
		Highest (HK\$/share)	Lowest (HK\$/share)	
3	36,180,000	4.17	4.09	149,221,546.00
8	67,624,000	4.43	4.34	297,721,422.40
9	29,346,000	4.12	4.05	119,603,870.00
10	8,428,000	4.22	4.10	34,847,727.60
11	105,382,000	4.64	4.15	464,928,086.60
12	19,594,000	4.59	4.28	86,506,429.40

(2) Progress in the share repurchase of controlled subsidiaries

During the reporting period, Sinopec Shanghai Petrochemical Company Limited and Sinopec Shandong Taishan Petroleum Company Limited, the Company's controlled subsidiaries, implemented the repurchase of H shares and A shares respectively. For details, please refer to the interim report disclosed by Sinopec Shanghai Petrochemical Company Limited on the website of the Shanghai Stock Exchange on 21 August 2025, the interim results announcement disclosed on the website of the Hong Kong Stock Exchange on 20 August 2025, as well as the announcement on the initial repurchase of the Company's shares disclosed by Sinopec Shandong Taishan Petroleum Company Limited on the website of the Shenzhen Stock Exchange and CNINFO on 17 December 2025.

Save as disclosed above, during the reporting period, neither Sinopec Corp. nor any of its subsidiaries repurchased, sold or redeemed any listed shares of Sinopec Corp. or its subsidiaries.

18 DIRECTORS' INTERESTS IN COMPETING BUSINESS

As at the end of the reporting period, the Company has resolved its competition with Sinopec Group in the chemical business. For details for the positions held by the Directors (excluding Independent Non-executive Directors) of Sinopec Corp. in the Sinopec Group during the reporting period, please refer to the Chapter "Corporate Governance, Environment and Society" in this annual report.

19 DIRECTORS' INTERESTS IN CONTRACTS

No Directors or entities connected with Directors had a material interest, either directly or indirectly, in any contract of significance to the business of the Company to which Sinopec Corp. or any of its holding companies, subsidiaries or fellow subsidiaries was a party during the reporting period.

20 MANAGEMENT CONTRACTS

No contracts concerning management or administration of the whole or any substantial part of the business of the Company were entered into or existed during the reporting period.

21 PERMITTED INDEMNITY PROVISIONS

During the reporting period, Sinopec Corp. has purchased liability insurance for all Directors to minimise their risks arising from the performance of their duties. The permitted indemnity provisions are stipulated in such Directors' liability insurance in respect of the liabilities and costs associated with the potential legal proceedings that may be brought against such Directors.

22 EQUITY-LINKED AGREEMENTS

As of 31 December 2025, the Company has not entered into any equity-linked agreement.

23 OIL & GAS RESERVE APPRAISAL PRINCIPLES

The Company managed the estimation of crude oil and natural gas reserves through a two-tier management system. The RMC, at the corporate level, is responsible for organizing, coordinating and monitoring the reserves estimation and management work, and making decisions on major matters related to reserves estimation and approving the reserves estimation results of the Company. Each of our oilfield branches has a reserves management committee that manages and coordinates the reserves estimation, organises the estimation process and reviews the reserve estimation report and results at the branch level, being responsible to the RMC of the Company.

The RMC consists of the members of the President's team of the Company, senior management of the related departments of corporate, Sinopec International Petroleum Exploration and Production Corporation and Sinopec Petroleum Exploration and Production Research Institute. Mr. Niu Shuanwen, Senior Vice President of Sinopec Corp., is the Chairman of RMC. A majority of our RMC members hold master's or Ph.D. degrees, and have an average of more than 20 years of technical experience in relevant professional fields, such as geology, engineering and economics.

The reserves estimation of the Company was conducted in reference to the rules of the U.S. Securities and Exchange Commission, and is guided by procedural manuals and technical guidance formulated by ourselves. A number of working divisions at the production bureau level, including the exploration, development and financial divisions, are responsible for initial collection and compilation of information about reserves. Experts from exploration, development and economic

divisions prepare the initial report on the reserves estimate which is then reviewed by the reserves management committee at the oilfield branch level to ensure the qualitative and quantitative compliance with technical guidance as well as its accuracy and reasonableness. Professional supporting agency for reserves estimation of the Company has reviewed the estimates rules and parameter selection of our oilfield branches, and the final results have been approved by the RMC. The reserves estimation process is further facilitated by a specialised reserves database, which is improved and updated periodically.

24 CORE COMPETITIVENESS ANALYSIS

The Company is a large-scale integrated energy and petrochemical company with upstream, mid-stream and downstream operations, and has strong overall scale strength. The Company is the largest supplier of refined oil and chemical products, and a major oil and gas producer in China. The Company is the world's largest refining company and second-largest chemical company, and ranks second globally in terms of the number of service stations.

The integrated business structure of the Company carries strong advantages in synergy among its various business segments, contributing to the Company by tapping onto potentials in attaining an efficient and comprehensive utilisation of its resources, and endows the Company with relatively strong capabilities in risk resistance and sustaining profitability.

The Company enjoys a favourable positioning with its operations located close to the consumer markets. The steady growth in the Chinese economy is helpful to the development of both refined oil business and chemical business of the Company; through continuously promoting specialized marketing, the Company's capability in international operations and market expansion has been further enhanced.

The Company owns a team of professionals with expertise in the production of oil and gas, operation of refineries and chemical facilities, as well as marketing activities. The Company applies outstanding lean management measures in production and operation with its remarkable capabilities in management of operations and enjoys an operational cost advantage in its downstream businesses.

The Company has formulated a well-established technology system and mechanism, and owns competent teams specialised in R&D covering a wide range of subjects. The Company establishes technological systems for exploration and development of oil and gas, refining, petrochemicals and utility. With its overall technologies reaching at the world's advanced level, and certain technologies taking the lead globally, the Company enjoys a strong technical strength.

The Company always attaches great importance to the fulfilment of corporate social responsibilities and carries out the green and clean development strategy to pursue a sustainable development. Moreover, the Company enjoys an outstanding "Sinopec" brand name, plays an important role in the national economy and is a renowned and reputable company in China.

The Company formulated a strategy for future green transition and development, accelerating the development of new energy and high-end chemical materials, and focusing on building a world-leading modern energy and chemical company.

25 RISK FACTORS

In the course of its production and operations, Sinopec Corp. will actively take various measures to circumvent operational risks. However, in practice, it may not be possible to prevent the occurrence of all risks and uncertainties described below.

Risks with regard to the variations from macroeconomic situation: The business results of the Company are closely related to macroeconomic situation. The global economy experienced insufficient driving force and more uncertainty. The development of economy is increasingly constrained by climate change and environmental issues. In addition, the Company's business may be adversely affected by other factors such as carbon tariffs and trade protectionism from certain countries influencing the export, and impact on the investment return of domestic and overseas upstream projects as well as refining and storage projects which results from the uncertainty of geopolitics, international crude oil price, etc.

Risks with regard to the cyclical effects from the industry: The majority of the Company's operating income comes from the sales of refined oil products and petroleum and petrochemical products. Part of those businesses and their related products are cyclic and are sensitive to macro-economy, cyclic changes of regional and global economy, industry policies, the changes of the production capacity and output, consumer demand, prices and supply of the raw materials, as well as prices and supply of the alternative products etc. Although the Company is an integrated company with upstream, midstream and downstream operations, it can only counteract the adverse influences of industry cycle to a certain extent.

Risks from the macro policies and government regulation: Although the Chinese government is gradually liberalizing the market entry to petroleum and petrochemicals sector and strengthening regulatory supervision, the petroleum and petrochemical industries in China are still subject to entry regulations to a certain degree, which include: issuing exploration and mining permits in relation to crude oil and natural gas, issuing business licenses for retail of refined oil products, issuing business licenses for trading hazardous chemicals, setting caps for retail prices of gasoline, diesel and other refined oil products, the imposition of the special oil income levy, the determination of refined oil, the formulation of export quotas and procedures, the formulation of safety, environmental protection and quality standards, the formulation of energy conservation policies, and restrictions on high energy consumption and high pollution projects, etc. In addition, the changes which have occurred or might occur in macro and industry policies such as further opening up of import operating and usage licenses for crude oil and the tightening control of refined oil products export quota; deepening the reform and improvement in pricing mechanism of natural gas, accelerating the exploration of upstream and downstream price linkage mechanisms, cost supervision of gas pipeline and equal access to third party and accelerating the establishment of a uniform gas energy metering and

pricing system; the development of the new energy industry actively supported by the government; national pilot program for levying environmental protection tax on volatile organic compounds (VOCs); the introduction of measures for energy conservation and carbon reduction in key areas to improve energy efficiency strictly constrained by the government; and the transforming policy from dual control over the amount and intensity of energy consumption to dual control over the amount and intensity of carbon emissions, etc. Such factors might further impact the industry development and market environment, as well as the operations and profitability of the Company.

Risks with regard to the changes from environmental legislation requirements:

The Company's production activities generate waste water, gases, solids and noise. The Company has built up the ancillary pollution prevention and risk control facilities to prevent and reduce the pollution. However, the relevant government authorities may issue and implement much stricter environmental protection laws and regulations, and adopt much stricter environment protection standards. Under such circumstance, the Company may increase expenses in relation to the environment protection accordingly.

Risks from the uncertainties of obtaining additional oil and gas resources: The future sustainable development of the Company is dependent on our abilities in continuously discovering or acquiring additional oil and natural gas resources to a certain extent. To obtain oil and natural gas resources, the Company faces some inherent risks associated with exploration and development and/or with acquisition activities of oil and gas resources, and the Company has to invest a large amount of money with no guarantee of certainty. If the Company fails to increase the reserves of crude oil and natural gas through further exploration, development and acquisition, the oil and natural gas reserves and production of the Company may decline over time which may adversely affect the Company's financial situation and operation performance.

Risks with regard to the external purchase of crude oil:

A significant amount of crude oil as needed by the Company is satisfied through external purchases. In recent years, especially influenced by mismatch between supply and demand of crude oil, volatile geopolitics, slow global economic recovery and other factors, the prices of crude oil fluctuate sharply. Additionally, the supply of crude oil may even be interrupted due to some extreme major incidents in certain regions. Although the Company has taken flexible countermeasures, it may not fully avoid risks associated with any significant fluctuation of international crude oil prices and sudden disruption of supply of crude oil from certain regions.

Risks with regard to the production operation and natural disasters:

The petroleum and petrochemical industry is exposed to the high risks of inflammation, explosion, toxicity, harm and environmental pollution and is vulnerable to natural disasters such as extreme weather. Such emergencies may cause impacts to the society, economic losses to the Company and grievous injuries to personal safety and health. The Company has always been laying great emphasis on the safety production, and has implemented a strict HSE management system. The Company has continuously carried out special safety risk control and HSE supervision and endeavour every effort to avoid such risks. Meanwhile, the main assets and inventories of the Company as well as the possibility of damage to a third party have been insured. However, such measures may not shield the Company from economic losses or adverse impacts resulting from such emergencies.

Investment risks: Petroleum and petrochemical sector is a capital-intensive industry. Although the Company has adopted a prudent investment strategy, executed the investment management rules and negative investment lists effectively, conducted rigorous feasibility study and risk evaluation on each investment project, and organized multi-dimensional specialized rectification in raw material market, technical scheme, profitability, safety and environmental protection, legal compliance,

etc. on major structural adjustment and layout projects to ensure making decision rigorously and scientifically. Nevertheless, certain investment risks will still exist due to major changes in factors such as market environment, industrial policies, prices of commodities during the implementation of the projects.

Risks with regard to overseas business development and management:

The Company engages in oil and gas exploration, refining and chemical, warehouse logistics and international trading businesses in some regions and countries overseas. The Company's overseas operations and assets are subject to the jurisdiction of the host country's laws and regulations. In light of the complicated factors such as changes in international geopolitics, uncertainty of economic recovery, uneven economic development across countries and regions, competitiveness of industry and trade structure, exclusivity of regional trading blocs, polarization of benefits distribution in trade, and politicisation of economic and trade issues, together with political society, economic finance, macro market, business environment, legal compliance, HSE and other risks in the country where overseas business and assets are located, including sanctions, barriers to entry, instability in the financial and taxation policies, contract defaults, tax dispute, the above factors will impose challenges to overseas business development and management of the Company.

Currency risks: At present, China implements an administered floating exchange rate regime based on market supply and demand which is regulated with reference to a basket of currencies in terms of the exchange rate of Renminbi. As the Company purchases a significant portion of crude oil in foreign currency which is based on US dollar-denominated prices, the realized price of crude oil is based on international crude oil price. Despite the fact that the price of the domestic refined oil products will change as the exchange rate of the Renminbi changes according to the pricing mechanism for the domestic refined oil products, and the price of other

domestic petrochemical products will also be influenced by the price of the imported products, which to a large extent, smooths the impact of the Renminbi exchange rate on the processing and sales of the Company's crude oil refined products, the fluctuation of the Renminbi exchange rate will still have an effect on the income of the upstream sector and the profitability of refining segment.

Cyber-security risks: The Company has a well-established network safety system. The Company establishes an emergency response mechanism in relation to network security operation and information system, builds an information platform of network security risk management and control, operated by professional network security team, and devotes significant resources to protecting the digital infrastructure and data of the Company against cyber-attacks. However, continuous attention should be paid to the coverage and efficiency of these protection measures. If our systems against cyber-security risk are proved to be insufficient or ineffective, the Company could be adversely affected by, among other things, disruptions to our business operations, and loss of key information, thus causing harm to our personnel, property, environment and reputation. As cyber-security attacks continue to evolve, the Company may be required to expend additional resources in particular to increase investment in new solutions and technologies such as data security solution, business security solution, artificial intelligence, cloud computing, and Internet of Things devices to improve the cyber-security protection level.

By Order of the Board
Hou Qijun
Chairman

Beijing, China, 20 March 2026

CHANGES IN SHARE CAPITAL AND SHAREHOLDINGS OF PRINCIPAL SHAREHOLDERS

1 CHANGES IN THE SHARE CAPITAL

Unit: share

	Before change		Change (+, -)		After change

Interest coverage ratio	3.20	4.61	(1.41)	Decrease in profit before taxation and increase in interest expense
Cash interest coverage ratio	25.05	21.90	3.15	Net cash flow from operating activities increased year-on-year.
Interest payment rate	100%	100%	–	

Note: Liability-to-asset ratio = total liabilities/total assets

During the reporting period, the Company paid in full and on time the interest accrued for the other bonds and debt financing instruments. As at 31 December 2025, the standby credit line provided by several domestic financial institutions to the Company was RMB704.8 billion in total, facilitating the Company to get such amount of unsecured loans. The Company has fulfilled all the relevant undertakings in the bond offering prospectus and had no significant matters which could influence the Company's operation and debt repayment ability.

On 18 April 2013, Sinopec Capital (2013) Limited, a wholly-owned overseas subsidiary of Sinopec Corp., issued senior notes guaranteed by the Company with four different maturities, 3 years, 5 years, 10 years and 30 years. The 3-year notes principal totalled USD750 million, with an annual interest rate of 1.250% and had been repaid and delisted; the 5-year notes principal totalled USD1 billion, with an annual interest rate of 1.875% and had been repaid and delisted; the 10-year notes principal totalled USD1.25 billion, with an annual interest rate of 3.125% and had been repaid and delisted; and the 30-year notes principal totalled USD500 million, with an annual interest rate of 4.250%. These notes were listed on the Hong Kong Stock Exchange on 25 April 2013, with interest payable semi-annually. The first payment of interest was made on 24 October 2013. During the reporting period, the Company has paid in full the current-period interests of notes with 30 years.

AUDITOR'S REPORT

畢馬威華振審字第2603847號

The Shareholders of China Petroleum & Chemical Corporation:

OPINION

We have audited the accompanying financial statements of China Petroleum & Chemical Corporation ("the Company"), which comprise the consolidated and company balance sheets as at 31 December 2025, the consolidated and company income statements, the consolidated and company cash flow statements, the consolidated and company statements of changes in shareholders' equity for the year then ended, and notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the consolidated and company financial position of the Company as at 31 December 2025, and the consolidated and company financial performance and cash flows of the Company for the year then ended in accordance with Accounting Standards for Business Enterprises issued by the Ministry of Finance of the People's Republic of China.

BASIS FOR OPINION

We conducted our audit in accordance with China Standards on Auditing for Certified Public Accountants ("CSAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Independence Standards for Chinese Certified Public Accountants No. 1 – Independence Requirements for Audit and Review Engagements, as applicable to audits of financial statements of public interest entities and the China Code of Ethics for Certified Public Accountants ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Assessment of impairment of fixed assets relating to oil and gas producing activities

Refer to Note 3 (8) Oil and gas properties, (12) Impairment of other non-financial long-term assets, Note 14 Fixed assets, and Note 60 Principal accounting estimates and judgements to the financial statements

The Key Audit Matter

The Company reported fixed assets of Renminbi ("RMB") 770,264 million as at 31 December 2025, a portion of which related to oil and gas producing activities. The Company reported impairment losses of RMB1,206 million for the fixed assets relating to oil and gas producing activities for the year ended 31 December 2025.

The Company groups fixed assets relating to oil and gas producing activities into cash-generating units ("CGUs") for impairment assessment. The Company compares the carrying amount of individual CGU with its value in use, using a discounted cash flow forecast, which was prepared based on the future production profiles included in the oil and gas reserves reports, to determine the impairment loss to be recognised.

We identified assessment of impairment of fixed assets relating to oil and gas producing activities as a key audit matter. The value in use amounts of these CGUs are sensitive to the changes to future selling prices and production costs for crude oil and natural gas, future production profiles, and discount rates. Therefore a higher degree of subjective management judgment was required to evaluate the Company's impairment assessment of fixed assets relating to oil and gas producing activities.

How the matter was addressed in our audit

The following are the primary procedures we performed to address this key audit matter:

- we evaluated the design and tested the operating effectiveness of certain internal controls related to the process for impairment assessment of fixed assets relating to oil and gas producing activities;
- we assessed the competence, capabilities and objectivity of the Company's reserves specialists and evaluated the methodology adopted by them in estimating the oil and gas reserves against the recognised industry standards;
- we compared future selling prices for crude oil and natural gas used in the discounted cash flow forecasts with the Company's business plans and forecasts by external analysts;
- we compared future production costs and future production profiles used in the discounted cash flow forecasts with oil and gas reserves reports issued by the reserves specialists; and
- we involved valuation professionals with specialised skills and knowledge, who assisted in assessing the discount rates applied in the discounted cash flow forecasts against a discount rate range that was independently developed using publicly available market data for comparable companies in the same industry.

OTHER INFORMATION

The Company's management is responsible for the other information. The other information comprises all the information included in 2025 annual report of the Company, other than the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the Accounting Standards for Business Enterprises, and for the design, implementation and maintenance of such internal control necessary to enable that the financial statements are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with CSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with CSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

AUDITOR’S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS (Continued)

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor’s report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Shou Donghua
Chief Financial Officer

The accompanying notes form part of these financial statements.

1 STATUS OF THE COMPANY

China Petroleum & Chemical Corporation (the “Company”) was established on 25 February 2000 as a joint stock limited company. The company is registered in Beijing, the People’s Republic of China, and the headquarter is located in Beijing, the People’s Republic of China. The approval date of the financial report is 20 March 2026.

According to the State Council’s approval to the “Preliminary Plan for the Reorganisation of China Petrochemical Corporation” (the “Reorganisation”), the Company was established by China Petrochemical Corporation, which transferred its core businesses together with the related assets and liabilities at 30 September 1999 to the Company. Such assets and liabilities had been valued jointly by China United Assets Appraisal Corporation, Beijing Zhong Zheng Appraisal Company, CIECC Assets Appraisal Corporation and Zhong Fa International Properties Valuation Corporation. The net asset value was determined at RMB98,249,084,000. The valuation was reviewed and approved by the Ministry of Finance (the “MOF”) (Cai Ping Zi [2000] No. 20 “Comments on the Review of the Valuation Regarding the Formation of a Joint Stock Limited Company by China Petrochemical Corporation”).

In addition, pursuant to the notice Cai Guan Zi [2000] No. 34 “Reply to the Issue Regarding Management of State-Owned Equity by China Petroleum and Chemical Corporation” issued by the MOF, 68.8 billion domestic state-owned shares with a par value of RMB1.00 each were issued to Sinopec Group Company, the amount of which is equivalent to 70% of the above net asset value transferred from Sinopec Group Company to the Company in connection with the reorganisation.

Pursuant to the notice Guo Jing Mao Qi Gai [2000] No. 154 “Reply on the Formation of China Petroleum and Chemical Corporation”, the Company obtained the approval from the State Economic and Trade Commission on 21 February 2000 for the formation of a joint stock limited company.

The Company took over the exploration, development and production of crude oil and natural gas, refining, chemicals and related sales and marketing business of Sinopec Group Company after the establishment of the Company.

The Company and its subsidiaries (the “Group”) engage in the oil and gas and chemical operations and businesses, including:

- (1) the exploration, development and production of crude oil and natural gas;
- (2) the refining, transportation, storage and marketing of crude oil and petroleum product; and
- (3) the production and sale of chemical.

Details of the Company’s principal subsidiaries are set out in Note 61.

2 BASIS OF PREPARATION

(1) Statement of compliance of China Accounting Standards for Business Enterprises (“CASs”)

The financial statements have been prepared in accordance with the requirements of Accounting Standards for Business Enterprises – Basic Standards, specific standards and relevant regulations (hereafter referred as CASs collectively) issued by the MOF on or after 15 February 2006. These financial statements also comply with the disclosure requirements of “Regulation on the Preparation of Information Disclosures of Companies Issuing Public Shares, No.15: General Requirements for Financial Reports” revised in 2023 by the China Securities Regulatory Commission (“CSRC”). These financial statements present truly and completely the consolidated and company financial position as at 31 December 2025, and the consolidated and company financial performance and the consolidated and company cash flows for the year ended 31 December 2025.

These financial statements are prepared on a basis of going concern.

(2) Accounting period

The accounting year of the Group is from 1 January to 31 December.

(3) Measurement basis

The financial statements of the Group have been prepared under the historical cost convention, except for the assets and liabilities set out below:

- Financial assets held for trading (see Note 3(11))
- Other equity instrument investments (see Note 3(11))
- Derivative financial instruments (see Note 3(11))
- Receivables financing (see Note 3(11))

(4) Functional currency and presentation currency

The functional currency of the Company’s and most of its subsidiaries are Renminbi. The Company and its subsidiaries determine their functional currency according to the main economic environment in where they operate. The Group’s consolidated financial statements are presented in Renminbi. Some of subsidiaries use other currency as the functional currency. The Company translates the financial statements of subsidiaries from their respective functional currencies into Renminbi (see Note 3(2)) if the subsidiaries’ functional currencies are not Renminbi.

2 BASIS OF PREPARATION (Continued)

(5) Materiality criteria: Determination method and selection basis

Item	Materiality criteria
Principal joint ventures and associates	The carrying amount of long-term equity investments $\geq$ RMB4,000 million
Principal construction in progress	The carrying amount of construction in progress $\geq$ RMB4,000 million
Goodwill	The carrying amount of goodwill $\geq$ RMB4,000 million
Principal non-wholly-owned subsidiary	The amount of non-controlling interests $\geq$ RMB4,000 million

3 MATERIAL ACCOUNTING POLICIES

The Group determines specific accounting policies and accounting estimates based on the characteristics of production and operational activities, mainly reflected in the accounting for allowance for financial assets (Note 3(11)), valuation of inventories (Note 3(4)), depreciation of fixed assets and depletion of oil and gas properties (Notes 3(7), (8)), measurement of provisions (Note 3(16)), etc.

Principal accounting estimates and judgements of the Group are set out in Note 60.

(1) Accounting treatment of business combination involving entities under common control and not under common control

(a) Business combination involving entities under common control

A business combination involving entities or businesses under common control is a business combination in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination, and that control is not transitory. The assets and liabilities that the acquirer receives in the acquisition are accounted for at the acquiree's carrying amount on the acquisition date. The difference between the carrying amount of the acquired net assets and the carrying amount of the consideration paid for the acquisition (or the total nominal value of shares issued) is recognised in the share premium of capital reserve, or the retained earnings in case of any shortfall in the share premium of capital reserve. Any costs directly attributable to the combination shall be recognised in profit or loss for the current period when occurred. The expense incurred for equity securities and debt securities issued as the consideration of the combination is recognised in the initial cost of the securities. The combination date is the date on which the acquirer effectively obtains control of the acquiree.

(b) Business combination involving entities not under common control

A business combination involving entities or businesses not under common control is a business combination in which all of the combining entities or businesses are not ultimately controlled by the same party or parties both before and after the business combination. Difference between the consideration paid by the Group as the acquirer, comprises of the aggregate of the fair value at the acquisition date of assets given, liabilities incurred or assumed, and equity securities issued by the acquirer in exchange for control of the acquiree, and the Group's interest in the fair value of the identifiable net assets of the acquiree, is recognised as goodwill (Note 3(10)) if it is an excess, otherwise in the profit or loss. The expense incurred for equity securities and debt securities issued as the consideration of the combination is recognised in the initial cost of the securities. Any other expense directly attributable to the business combination is recognised in the profit or loss for the year. The difference between the fair value and the book value of the assets given is recognised in profit or loss. The acquiree's identifiable assets, liabilities and contingent liabilities, if satisfying the recognition criteria, are recognised by the Group at their fair value at the acquisition date. The acquisition date is the date on which the acquirer effectively obtains control of the acquiree.

(c) Criteria for determining control and method for the preparation of consolidated financial statements

The scope of consolidated financial statements is based on control and the consolidated financial statements comprise the Company and its subsidiaries. Control means an entity is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Where the Company combines a subsidiary during the reporting period through a business combination involving entities under common control, the financial statements of the subsidiary are included in the consolidated financial statements as if the combination had occurred at the beginning of the earliest comparative year presented or, if later, at the date that common control was established. Therefore the opening balances and the comparative figures of the consolidated financial statements are restated. In the preparation of the consolidated financial statements, the subsidiary's assets, liabilities and results of operations are included in the consolidated balance sheet and the consolidated income statement, respectively, based on their carrying amounts in the subsidiary's financial statements, from the date that common control was established.

Where the Company acquires a subsidiary during the reporting year through a business combination involving entities not under common control, the identifiable assets, liabilities and results of operations of the subsidiaries are consolidated into consolidated financial statements from the date that control commences, based on the fair value of those identifiable assets and liabilities at the acquisition date.

Where the Company acquired a non-controlling interest from a subsidiary's non-controlling shareholders, the difference between the investment cost and the newly acquired interest into the subsidiary's identifiable net assets at the acquisition date is adjusted to the capital reserve (capital surplus) in the consolidated balance sheet. Where the Company partially disposed an investment of a subsidiary that do not result in a loss of control, the difference between the proceeds and the corresponding share of the interest into the subsidiary is adjusted to the capital reserve (capital surplus) in the consolidated balance sheet. If the credit balance of capital reserve (capital surplus) is insufficient, any excess is adjusted to the share premium of capital reserve, or the retained earnings.

3 MATERIAL ACCOUNTING POLICIES *(Continued)***(1) Accounting treatment of business combination involving entities under common control and not under common control** *(Continued)***(c) Criteria for determining control and method for the preparation of consolidated financial statements** *(Continued)*

In a business combination involving entities not under common control achieved in stages, the Group remeasures its previously held equity interest in the acquiree on the acquisition date. The difference between the fair value and the net book value is recognised as investment income for the year. If other comprehensive income was recognised regarding the equity interest previously held in the acquiree before the acquisition date, the relevant other comprehensive income is transferred to investment income in the period in which the acquisition occurs.

Where control of a subsidiary is lost due to partial disposal of the equity investment held in a subsidiary, or any other reasons, the Group derecognises assets, liabilities, non-controlling interests and other equity items related to the subsidiary. The remaining equity investment is remeasured to fair value at the date in which control is lost. The sum of consideration received from disposal of equity investment and the fair value of the remaining equity investment, net of the fair value of the Group's previous share of the subsidiary's identifiable net assets recorded from the acquisition date, is recognised in investment income in the period in which control is lost. Other comprehensive income related to the previous equity investment in the subsidiary, is transferred to investment income when control is lost. Other comprehensive income related to the equity investment of the original subsidiary shall be converted into the current investment income in the event of loss of control.

Non-controlling interest is presented separately in the consolidated balance sheet within shareholders' equity. Net profit or loss attributable to non-controlling shareholders is presented separately in the consolidated income statement below the net profit line item.

The excess of the loss attributable to the non-controlling interests during the period over the non-controlling interests' share of the equity at the beginning of the reporting period is deducted from non-controlling interests.

Where the accounting policies and accounting period adopted by the subsidiaries are different from those adopted by the Company, adjustments are made to the subsidiaries' financial statements according to the Company's accounting policies and accounting period. Intra-group balances and transactions, and any unrealised profit or loss arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

The unrealised profit or loss arising from the sale of assets by the Company to its subsidiaries is eliminated in full against the net profit attributed to shareholders; the unrealised profit or loss from the sale of assets by subsidiaries to the Company is eliminated according to the distribution ratio between shareholders of the parent company and non-controlling interests. For sale of assets that occurred between subsidiaries, the unrealised gains and losses is eliminated according to the distribution ratio for its subsidiaries seller between net profit attributable to shareholders of the parent company and non-controlling interests.

(2) Transactions in foreign currencies and translation of financial statements in foreign currencies

Foreign currency transactions are, on initial recognition, translated into Renminbi at the spot exchange rates quoted by the People's Bank of China ("PBOC rates") at the transaction dates.

Foreign currency monetary items are translated at the PBOC rates at the balance sheet date. Exchange differences, except for those directly related to the acquisition, construction or production of qualified assets, are recognised as income or expenses in the income statement. Non-monetary items denominated in foreign currency measured at historical cost are not translated. Non-monetary items denominated in foreign currency that are measured at fair value are translated using the exchange rates at the date when the fair value was determined. The difference between the translated amount and the original currency amount is recognised as other comprehensive income, if it is classified as other equity instrument investments; or charged to the income statement if it is measured at fair value through profit or loss.

The assets and liabilities of foreign operation are translated into Renminbi at the spot exchange rates at the balance sheet date. The equity items, excluding "Retained earnings", are translated into Renminbi at the spot exchange rates at the transaction dates. The income and expenses of foreign operation are translated into Renminbi at the spot exchange rates or an exchange rate that approximates the spot exchange rates on the transaction dates. The resulting exchange differences are separately presented as other comprehensive income in the balance sheet within equity. Upon disposal of a foreign operation, the cumulative amount of the exchange differences recognised in which relate to that foreign operation is transferred to profit or loss in the year in which the disposal occurs.

3 MATERIAL ACCOUNTING POLICIES (Continued)

(3) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits, short-term and highly liquid investments which are readily convertible into known amounts of cash and are subject to an insignificant risk of change in value.

(4) Inventories

(a) Inventories categories

Inventories include raw materials, work in progress, semi-finished goods, finished goods and reusable materials. Reusable materials include low-value consumables, packaging materials and other materials, which can be used repeatedly but do not meet the definition of fixed assets. Reusable materials are amortised in full when received for use. The amounts of the amortisation are included in the cost of the related assets or profit or loss.

Inventories are initially measured at cost. Cost includes the cost of purchase and processing, and other expenditures incurred in bringing the inventories to their present location and condition. The cost of inventories is mainly calculated using the weighted average method. In addition to the cost of purchase of raw material, work in progress and finished goods include direct labour and an appropriate allocation of manufacturing overhead costs.

(b) Criteria for recognition and method of provision for diminution in value of inventories

At the balance sheet date, inventories are stated at the lower of cost and net realisable value.

Any excess of the cost over the net realisable value of each item of inventories is recognised as a provision for diminution in the value of inventories and included in the current period profit and loss. Net realisable value is the estimated selling price in the normal course of business less the estimated costs of completion and the estimated costs necessary to make the sale and relevant taxes. The net realisable value of materials held for use in the production is measured based on the net realisable value of the finished goods in which they will be incorporated. The net realisable value of the quantity of inventory held to satisfy sales or service contracts is measured based on the contract price. If the quantities held by the Group are more than the quantities of inventories specified in sales contracts, the net realisable value of the excess portion of inventories is measured based on general selling prices.

(c) Inventory system

Inventories are recorded by perpetual method.

(5) Long-term equity investments

(a) Investment in subsidiaries

In the Company's separate financial statements, long-term equity investments in subsidiaries are accounted for using the cost method. Except for cash dividends or profits distributions declared but not yet distributed that have been included in the price or consideration paid in obtaining the investments, the Company recognises its share of the cash dividends or profit distributions declared by the investee as investment income irrespective of whether these represent the net profit realised by the investee before or after the investment. Investments in subsidiaries are stated at cost less impairment losses (see Note 3(12)) in the balance sheet. At initial recognition, such investments are measured as follows:

The initial investment cost of a long-term equity investment obtained through a business combination involving entities under common control is the Company's share of the carrying amount of the subsidiary's equity at the combination date. The difference between the initial investment cost and the carrying amounts of the consideration given is adjusted to share premium in capital reserve. If the balance of the share premium is insufficient, any excess is adjusted to the share premium of capital reserve, or the retained earnings.

For a long-term equity investment obtained through a business combination not involving enterprises under common control, the initial investment cost comprises the aggregate of the fair values of assets transferred, liabilities incurred or assumed, and equity securities issued by the Company, in exchange for control of the acquiree. For a long-term equity investment obtained through a business combination not involving enterprises under common control, if it is achieved in stages, the initial cost comprises the carrying value of previously-held equity investment in the acquiree immediately before the acquisition date, and the additional investment cost at the acquisition date.

An investment in a subsidiary acquired otherwise than through a business combination is initially recognised at actual purchase cost if the Group acquires the investment by cash, or at the fair value of the equity securities issued if an investment is acquired by issuing equity securities, or at the value stipulated in the investment contract or agreement if an investment is contributed by investors.

3 MATERIAL ACCOUNTING POLICIES *(Continued)***(5) Long-term equity investments** *(Continued)***(b) Investment in joint ventures and associates**

A joint venture is an incorporated entity over which the Group, based on legal form, contractual terms and other facts and circumstances, has joint control with the other parties to the joint venture and rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the Group and the parties sharing control.

An associate is the investee that the Group has significant influence on their financial and operating policies. Significant influence represents the right to participate in the financial and operating policy decisions of the investee but is not control or joint control over the establishment of these policies. The Group generally considers the following circumstances in determining whether it can exercise significant influence over the investee: whether there is representative appointed to the board of directors or equivalent governing body of the investee; whether to participate in the investee's policy-making process; whether there are significant transactions with the investees; whether there is management personnel sent to the investee; whether to provide critical technical information to the investee.

An investment in a joint ventures or an associate is accounted for using the equity method, unless the investment is classified as held for sale.

The initial cost of investment in joint ventures and associates is stated at the consideration paid except for cash dividends or profits distributions declared but unpaid at the time of acquisition and therefore included in the consideration paid should be deducted if the investment is made in cash. Under the circumstances that the long-term investment is obtained through non-monetary asset exchange, the initial cost of the investment is stated at the fair value of the assets exchanged if the transaction has commercial substance, the difference between the fair value of the assets exchanged and its carrying amount is charged to profit or loss; or stated at the carrying amount of the assets exchanged if the transaction lacks commercial substance.

The Group's accounting treatments when adopting the equity method include:

Where the initial investment cost of a long-term equity investment exceeds the Group's interest in the fair value of the investee's identifiable net assets at the date of acquisition, the investment is initially recognised at the initial investment cost. Where the initial investment cost is less than the Group's interest in the fair value of the investee's identifiable net assets at the time of acquisition, the investment is initially recognised at the investor's share of the fair value of the investee's identifiable net assets, and the difference is charged to profit or loss.

After the acquisition of the investment, the Group recognises its share of the investee's net profits or losses and other comprehensive income as investment income or losses and other comprehensive income, and adjusts the carrying amount of the investment accordingly. Once the investee declares any cash dividends or profits distributions, the carrying amount of the investment is reduced by that attributable to the Group.

The Group recognises its share of the investee's net profits or losses after making appropriate adjustments to align the accounting policies or accounting periods with those of the Group based on the fair values of the investee's net identifiable assets at the time of acquisition. Under the equity accounting method, unrealised profits and losses resulting from transactions between the Group and its associates or joint ventures are eliminated to the extent of the Group's interest in the associates or joint ventures. Unrealised losses resulting from transactions between the Group and its associates or joint ventures are fully recognised in the event that there is an evidence of impairment.

The Group discontinues recognising its share of net losses of the investee after the carrying amount of the long-term equity investment and any long-term interest that is in substance forms part of the Group's net investment in the associate or the joint venture is reduced to zero, except to the extent that the Group has an obligation to assume additional losses. However, if the Group has incurred obligations for additional losses and the conditions on recognition of provision are satisfied in accordance with the accounting standard on contingencies, the Group continues recognising the investment losses and the provision. Where net profits are subsequently made by the associate or joint venture, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The Group adjusts the carrying amount of the long-term equity investment for changes in owners' equity of the investee other than those arising from net profits or losses and other comprehensive income, and recognises the corresponding adjustment in capital reserve.

(c) The impairment assessment method and provision accrual on investment

The impairment assessment and provision accrual on investments in subsidiaries, associates and joint ventures are stated in Note 3(12).

3 MATERIAL ACCOUNTING POLICIES (Continued)

(6) Leases

A lease is a contract that a lessor transfers the right to use an identified asset for a period of time to a lessee in exchange for consideration.

(a) As Lessee

The Group recognises a right-of-use asset at the commencement date, and recognises the lease liability at the present value of the lease payments that are not paid at that date. The lease payments include fixed payments, the exercise price of a purchase option if the Group is reasonably certain to exercise that option, and payments of penalties for terminating the lease if the lease term reflects the Group exercising that option, etc. Variable payments that are based on a percentage of sales are not included in the lease payments, and should be recognised in profit or loss when incurred. Lease liabilities to be paid within one year (including one year) from balance sheet date is presented in non-current liabilities due within one year.

Right-of-use assets of the Group mainly comprise land. Right-of-use assets are measured at cost which comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the commencement date, any initial direct costs incurred by the lessee, less any lease incentives received. The Group depreciates the right-of-use assets over the shorter of the asset's useful life and the lease term on a straight-line basis. When the recoverable amount of a right-of-use asset is less than its carrying amount, the carrying amount is reduced to the recoverable amount.

Payments associated with short-term leases with lease terms within 12 months and leases for which the underlying assets are individually of low value when it is new (the individual lease asset has a relatively low value when brand new) are recognised on a straight-line basis over the lease term as an expense in profit or loss or as cost of relevant assets, instead of recognising right-of-use assets and lease liabilities.

(b) As Lessor

A lease that transfers substantially all the risks and rewards incidental to ownership of an asset is a finance lease. An operating lease is a lease other than a finance lease.

When the Group leases self-owned plants and buildings, equipment and machinery, lease income from an operating lease is recognised on a straight-line basis over the period of the lease. The Group recognises variable lease income which is based on a certain percentage of sales as rental income when occurred.

(7) Fixed assets and construction in progress

Fixed assets represent the tangible assets held by the Group using in the production of goods, rendering of services and for operation and administrative purposes with useful life over one year.

Fixed assets are stated in the balance sheet at cost less accumulated depreciation and impairment losses (see Note 3(12)). Construction in progress is stated in the balance sheet at cost less impairment losses (see Note 3(12)).

The cost of a purchased fixed asset comprises the purchase price, related taxes, and any directly attributable expenditure for bringing the asset to working condition for its intended use. The cost of self-constructed assets includes the cost of materials, direct labour, capitalised borrowing costs (see Note 3(20)), and any other costs directly attributable to bringing the asset to working condition for its intended use. According to legal or contractual obligations, costs of dismantling and removing the items and restoring the site on which the related assets located are included in the initial cost.

Construction in progress is transferred to fixed assets when the asset is ready for its intended use. No depreciation is provided against construction in progress.

The criteria and timing for each type of construction in progress to be transferred to fixed assets are as follows:

Category	Criteria and time point for transfer to fixed assets
Plants and buildings	Asset management relevant departments complete on-site inspection and acceptance with conditions for use.
Equipment, machinery and others	(1) A single set of equipment can be put into operation separately and produce qualified products independently of other equipment or processes, and the relevant departments have issued a commissioning report; (2) Combined devices can be successfully commissioned jointly and produce qualified products normally, and the relevant departments will issue a commissioning report; (3) The supporting facilities are completed with the joint device as a whole and reach the point of the intended usable state; (4) The petrol station has completed on-site acceptance by the relevant management department; (5) The petrol filling station has completed on-site acceptance by the relevant departments and passed the relevant special acceptance by the local law enforcement authorities; (6) Fixed assets not required to be installed have passed acceptance by relevant departments; (7) The long-distance pipeline reaches the conditions for oil injection or section oil injection operation, and the relevant management departments of the enterprise complete the on-site acceptance and pass the relevant special acceptance by the local law enforcement departments.

When an enterprise sells products or by-products produced before a fixed asset is available for its intended use, the proceeds and related cost are accounted for in accordance with CAS 14 – Revenue and CAS 1 – Inventories respectively, and recognised in profit or loss for the current period.

3 MATERIAL ACCOUNTING POLICIES (Continued)**(7) Fixed assets and construction in progress** (Continued)

Where the individual component parts of an item of fixed asset have different useful lives or provide benefits to the Group in different patterns thus necessitating use of different depreciation rates or methods, each part is recognised as a separate fixed asset.

The subsequent costs including the cost of replacing part of an item of fixed assets are recognised in the carrying amount of the item if the recognition criteria are satisfied, and the carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of fixed assets are recognised in profit or loss as incurred.

The Group terminates the recognition of an item of fixed asset when it is in a state of disposal or it is estimated that it is unable to generate any economic benefits through use or disposal. Gains or losses arising from the retirement or disposal of an item of fixed asset are determined as the difference between the net disposal proceeds and the carrying amount of the item and are recognised in profit or loss on the date of retirement or disposal.

Other than oil and gas properties, the cost of fixed assets less residual value and accumulated impairment losses is depreciated using the straight-line method over their estimated useful lives, unless the fixed asset is classified as held for sale. The estimated useful lives and the estimated rate of residual values adopted for respective classes of fixed assets are as follows:

	Estimated useful life	Estimated rate of residual value
Plants and buildings	12-50 years	3%
Equipment, machinery and others	4-30 years	3%

Useful lives, residual values and depreciation methods are reviewed at least each year end.

(8) Oil and gas properties

Oil and gas assets refer to the ownership or control of mining interests and the formation of oil and gas wells and related auxiliary equipment through oil and gas exploration and development activities.

For mining rights and interests, if proven economically recoverable reserves are discovered in the mining area within the year, the expenses incurred in the current period should be capitalized. If no proven economically recoverable reserves are found in the mining area within the year, the expenses incurred in the current period should be temporarily capitalized; When reserves are subsequently discovered, they should be transferred within the oil and gas assets.

For completed exploration wells that have completed exploration tasks, obtained industrial oil and gas flow, and can be economically and effectively included in oil and gas production management, the actual expenses for drilling the well, production costs, and disposal fees determined according to the disposal plan will be converted into oil and gas assets when it is put into production (reaching a usable state), and an estimated liability for oil and gas asset disposal fees will be calculated; Exploration tasks have been completed, and exploration wells that have not obtained industrial oil and gas flow have been identified. If they are economically and effectively utilized for other purposes (co associated resources, injection wells, etc.), the actual expenses and production costs of drilling the well will be converted into corresponding assets when it is put into production (reaching a usable state); Exploration tasks have been completed, and exploration wells that have not obtained industrial oil and gas flow, or exploration wells that have obtained industrial oil and gas flow but do not have the conditions for oil and gas production and cannot be economically and effectively included in oil and gas production management (including other economically and effectively utilized methods), shall be written off. The actual drilling and exploration expenses of the well shall be included in the current period's profit and loss. For unfinished exploration wells, the drilling support of the well shall be listed as under construction within one year after completion; After one year of completion, it is still uncertain whether the well has obtained industrial oil and gas flow. If further exploration activities of the well are already in progress or have clear plans and are about to be implemented, the expenditure of the well will continue to be included in the construction project. Otherwise, the actual expenditure of the well will be recognized in the current profit and loss.

For the development well, if it is determined to obtain industrial oil and gas flow and can be economically and effectively included in oil and gas production management, the actual expenses, production costs, and disposal fees determined according to the disposal plan of the well will be converted into oil and gas assets when it is put into production (reaching a usable state), and an estimated liability for oil and gas asset disposal fees will be calculated.

For auxiliary equipment related to oil and gas assets, they will be converted into oil and gas assets when the project is completed and reaches the predetermined usable state.

The estimation of the future demolition costs of oil and gas assets by our group is based on current industry practices, taking into account expected demolition methods and referring to the estimates of engineers. The relevant demolition costs are discounted to present value based on the pre tax risk-free rate of return and capitalized as part of the value of oil and gas assets, which are subsequently amortized.

The capitalization cost of proven oil and gas assets is amortized based on production and oil and gas reserves using the production method.

3 MATERIAL ACCOUNTING POLICIES (Continued)

(9) Intangible assets

Intangible assets, where the estimated useful life is finite, are stated in the balance sheet at cost less accumulated amortisation and provision for impairment losses (see Note 3(12)). For an intangible asset with finite useful life, its cost less estimated residual value and accumulated impairment losses is amortised on a straight-line basis over the expected useful lives, unless the intangible assets are classified as held for sale.

The useful life, basis of determination and amortization method of each intangible asset are as follows:

Item	Useful life Basis of determination	Amortization method
Land use rights	Title registration period	Straight-line method
Patents	Expected years of economic benefits	Straight-line method
Non-patented technology	Expected years of economic benefits	Straight-line method
Operating rights	Contractual period	Straight-line method
Others	Expected years of economic benefits	Straight-line method

An intangible asset is regarded as having an indefinite useful life and is not amortised when there is no foreseeable limit to the year over which the asset is expected to generate economic benefits for the Group.

Useful lives and amortisation methods are reviewed at least each year end.

For the sales of products or by-products produced during the research and development process, the group shall conduct accounting treatment for the relevant income and costs in accordance with the *Accounting Standards for Business Enterprises No. 14 – Revenue*, *Accounting Standards for Business Enterprises No. 1 – Inventory*, and include in the current profit and loss.

(10) Goodwill

The initial cost of goodwill represents the excess of cost of acquisition over the acquirer's interest in the fair value of the identifiable net assets of the acquiree under the business combination involving entities not under common control.

Goodwill is not amortised and is stated at cost less accumulated impairment losses (see Note 3(12)). On disposal of an asset group or a set of asset groups, any attributable amount of purchased goodwill is written off and included in the calculation of the profit or loss on disposal.

(11) Financial Instruments

Financial instruments, refer to the contracts that form one party's financial assets and form the financial liabilities or equity instruments of the other party. The Group recognises a financial asset or a financial liability when the Group enters into and becomes a party to the underlining contract of the financial instrument.

(a) Financial assets

(i) Classification and measurement

The Group classifies financial assets into different categories depending on the business model for managing the financial assets and the contractual terms of cash flows of the financial assets: (1) financial assets measured at amortised cost, (2) financial assets measured at fair value through other comprehensive income, (3) financial assets measured at fair value through profit or loss. A contractual cash flow characteristic which could have only a de minimis effect, or could have an effect that is more than de minimis but is not genuine, does not affect the classification of the financial asset.

Financial assets are initially recognised at fair value. For financial assets measured at fair value through profit or loss, the relevant transaction costs are recognised in profit or loss. The transaction costs for other financial assets are included in the initially recognised amount. However, accounts receivable arising from sales of goods or rendering services, without significant financing component, are initially recognised based on the transaction price expected to be entitled by the Group.

Debt instruments

The debt instruments held by the Group refer to the instruments that meet the definition of financial liabilities from the perspective of the issuer, and are measured in the following ways:

– Measured at amortised cost:

The business model for managing such financial assets by the Group are held for collection of contractual cash flows. The contractual cash flow characteristics are to give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Interest income from these financial assets is recognised using the effective interest rate method. The financial assets include cash at bank and on hand and receivables.

– Measured at fair value through other comprehensive income:

The business model for managing such financial assets by the Group are held for collection of contractual cash flows and for selling the financial assets, the contractual cash flow characteristics of such financial assets are consistent with the basic lending arrangements. Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment gains or losses, foreign exchange gains and losses and interest income calculated using the effective interest rate method, which are recognised in profit or loss. The financial assets include receivables financing.

3 MATERIAL ACCOUNTING POLICIES (Continued)

(11) Financial Instruments (Continued)

(a) Financial assets (Continued)

(i) Classification and measurement (Continued)

Equity instruments

Equity instruments that the Group has no power to control, jointly control or exercise significant influence over, are measured at fair value through profit or loss and presented as financial assets held for trading.

In addition, the Group designates some equity instruments that are not held for trading as financial assets at fair value through other comprehensive income, and presented in other equity instrument investments. The relevant dividends of these financial assets are recognised in profit or loss. When derecognised, the cumulative gain or loss previously recognised in other comprehensive income is transferred to retained earnings.

(ii) Impairment

• Expected credit losses measurement

The Group recognises a loss allowance for expected credit losses on financial assets measured at amortised cost and receivables financing measured at fair value through other comprehensive income.

The Group measures and recognises expected credit losses, considering reasonable and supportable information about the relevant past events, current conditions and forecasts of future economic conditions.

The Group measures the expected credit losses of financial instruments on different stages at each balance sheet date. For financial instruments that have no significant increase in credit risk since the initial recognition, on first stage, the Group measures the loss allowance at an amount equal to 12-month expected credit losses. If there has been a significant increase in credit risk since the initial recognition of a financial instrument but credit impairment has not occurred, on second stage, the Group recognises a loss allowance at an amount equal to lifetime expected credit losses. If credit impairment has occurred since the initial recognition of a financial instrument, on third stage, the Group recognises a loss allowance at an amount equal to lifetime expected credit losses.

For financial instruments that have low credit risk at the balance sheet date, the Group assumes that there is no significant increase in credit risk since the initial recognition, and measures the loss allowance at an amount equal to 12-month expected credit losses.

For financial instruments on the first stage and the second stage, and that have low credit risk, the Group calculates interest income according to carrying amount without deducting the impairment allowance and effective interest rate. For financial instruments on the third stage, interest income is calculated according to the carrying amount minus amortised cost after the provision of impairment allowance and effective interest rate.

For accounts receivable and receivables financing arising from ordinary business activities such as sales of goods and rendering of services, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.

The Group recognises the loss allowance accrued or written back in profit or loss.

• Allowance for doubtful accounts on receivables

(a) The type of portfolio for which provision for bad debts is made according to the credit risk characteristics and the basis for its determination

Receivables items	Basis of determination
Accounts receivable	Based on the historical experience of the Group, there are significant differences in losses across different operating segments. Therefore the Group estimates the allowance for doubtful accounts of the accounts receivable of each operating segment as a separate portfolio respectively.
Other receivables	The Group's other receivables mainly include security deposits and deposits receivable, receivables from related parties, dividends receivable, etc. Based on their credit risk, the Group estimates the allowance for doubtful accounts of the other receivables for different ages as a separate portfolio respectively.
Receivables financing	The Group's receivables financing consists of bank acceptance bills held for dual purposes. Due to the high credit ratings of the accepting banks, the Group treats all receivables financing as a single portfolio.

(b) According to the criteria for judging the individual provision for bad debts

For accounts receivable, other receivables and receivables financing, the Group usually measures its loss allowance according to the combination of credit risk characteristics. If the credit risk characteristics of a counterparty are significantly different from those of other counterparties in the portfolio, or if the credit risk characteristics of the counterparty change significantly, the amount receivable from the counterparty shall be exposed to provision measurement and/or recognition on a separate basis.

3 MATERIAL ACCOUNTING POLICIES (Continued)

(11) Financial Instruments (Continued)

(a) Financial assets (Continued)

(iii) Derecognition

The Group derecognises a financial asset when a) the contractual right to receive cash flows from the financial asset expires; b) the Group transfers the financial asset and substantially all the risks and rewards of ownership of the financial asset; c) the financial assets have been transferred and the Group neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset, but the Group has not retained control.

On derecognition of other equity instrument investments, the difference between the carrying amounts and the sum of the consideration received and any cumulative gain or loss previously recognised in other comprehensive income, is recognised in retained earnings. While on derecognition of other financial assets, this difference is recognised in profit or loss.

(b) Financial liabilities

The Group, at initial recognition, classifies financial liabilities as either financial liabilities subsequently measured at amortised cost or financial liabilities at fair value through profit or loss.

The Group's financial liabilities are mainly financial liabilities measured at amortised cost, including bills payable, accounts payable, other payables, loans and debentures payable, etc. These financial liabilities are initially measured at the amount of their fair value after deducting transaction costs and use the effective interest rate method for subsequent measurement.

Where the present obligations of financial liabilities are completely or partially discharged, the Group derecognises these financial liabilities or discharged parts of obligations. The differences between the carrying amounts and the consideration received are recognised in profit or loss.

Financial guarantee liabilities

Financial guarantees are contracts that requires the Group to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

Financial guarantees issued are initially recognised at fair value, which is determined by reference to fees charged in an arm's length transaction for similar services, when such information is obtainable, or to interest rate differentials, by comparing the actual rates charged by lenders when the guarantee is made available with the estimated rates that lenders would have charged, had the guarantees not been available, where reliable estimates of such information can be made. Where consideration is received or receivable for the issuance of the guarantee, the consideration is recognised in accordance with the Group's policies applicable to that category of asset. Where no such consideration is received or receivable, an immediate expense is recognised in profit or loss.

Subsequent to initial recognition, the amount initially recognised as deferred income is amortised in profit or loss over the term of the guarantee as income from financial guarantees issued.

(c) Determination of fair value

If there is an active market for financial instruments, the quoted price in the active market is used to measure fair values of the financial instruments. If no active market exists for financial instruments, valuation techniques are used to measure fair values. In valuation, the Group adopts valuation techniques that are applicable in the current situation and have sufficient available data and other information to support it, and selects input values that are consistent with the asset or liability characteristics considered by market participants in the transaction of relevant assets or liabilities, and gives priority to relevant observable input values. Use of unobservable input values where relevant observable input values cannot be obtained or are not practicable.

(d) Derivative financial instruments and hedge accounting

Derivative financial instruments are recognised initially at fair value. At each balance sheet date, the fair value is remeasured. The gain or loss on remeasurement to fair value is recognised immediately in profit or loss, except where the derivatives qualify for hedge accounting.

Hedge accounting is a method which recognises the offsetting effects on profit or loss of changes in the fair values of the hedging instrument and the hedged item in the same accounting period, to represent the effect of risk management activities.

Hedged items are the items that expose the Group to risks of changes in future cash flows and that are designated as being hedged and that must be reliably measurable. The Group's hedged items include a forecast transaction that is settled with an undetermined future market price and exposes the Group to risk of variability in cash flows, etc.

A hedging instrument is a designated derivative whose changes in cash flows are expected to offset changes in the cash flows of the hedged item.

3 MATERIAL ACCOUNTING POLICIES (Continued)**(11) Financial Instruments** (Continued)**(d) Derivative financial instruments and hedge accounting** (Continued)

The hedging relationship meets all of the following hedge effectiveness requirements:

- (1) There is an economic relationship between the hedged item and the hedging instrument, which share a risk and that gives rise to opposite changes in fair value that tend to offset each other.
- (2) The effect of credit risk does not dominate the value changes that result from that economic relationship.
- (3) The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the entity actually hedges and the quantity of the hedging instrument that the entity actually uses to hedge that quantity of hedged item. However, that designation shall not reflect an imbalance between the weightings of the hedged item and the hedging instrument.

– Cash flow hedges

Cash flow hedge is a hedge of the exposure to variability in cash flows that is attributable to a particular risk associated with all, or a component of, a recognised asset or liability (such as all or some future interest payments on variable-rate debt) or a highly probable forecast transaction, and could affect profit or loss. As long as a cash flow hedge meets the qualifying criteria for hedge accounting, the hedging relationship shall be accounted for as follows. The cash flow hedge reserve is adjusted to the lower of the following in absolute amounts:

- The cumulative gain or loss on the hedging instrument from inception of the hedge;
- The cumulative change in present value of the expected future cash flows on the hedged item from inception of the hedge.

The gain or loss on the hedging instrument that is determined to be an effective hedge is recognised in other comprehensive income.

The portion of the gain or loss on the hedging instrument that is determined to be an ineffective hedge is recognised in profit or loss.

If a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability, or a hedged forecast transaction for a non-financial asset or a non-financial liability becomes a firm commitment for which fair value hedge accounting is applied, the entity shall remove that amount from the cash flow hedge reserve and include it directly in the initial cost or other carrying amount of the asset or the liability. This is not a reclassification adjustment and hence it does not affect other comprehensive income.

For cash flow hedges, other than those covered by the preceding two policy statements, that amount shall be reclassified from the cash flow hedge reserve to profit or loss as a reclassification adjustment in the same period or periods during which the hedged expected future cash flows affect profit or loss.

If the amount that has been accumulated in the cash flow hedge reserve is a loss and the Group expects that all or a portion of that loss will not be recovered in one or more future periods, the Group immediately reclassify the amount that is not expected to be recovered into profit or loss.

When the hedging relationship no longer meets the risk management objective on the basis of which it qualified for hedge accounting (ie the entity no longer pursues that risk management objective), or when a hedging instrument expires or is sold, terminated, exercised, or there is no longer an economic relationship between the hedged item and the hedging instrument or the effect of credit risk starts to dominate the value changes that result from that economic relationship or no longer meets the criteria for hedge accounting, the Group discontinues prospectively the hedge accounting treatments. If the hedged future cash flows are still expected to occur, that amount shall remain in the cash flow hedge reserve and shall be accounted for as cash flow hedges. If the hedged future cash flows are no longer expected to occur, that amount shall be immediately reclassified from the cash flow hedge reserve to profit or loss as a reclassification adjustment. A hedged future cash flow that is no longer highly probable to occur may still be expected to occur, if the hedged future cash flows are still expected to occur, that amount shall remain in the cash flow hedge reserve and shall be accounted for as cash flow hedges.

– Fair value hedges

A fair value hedge is a hedge of the exposure to changes in the fair value of a recognized asset or liability or an unrecognised firm commitment, or a portion of such an asset, liability or firm commitment.

The gain or loss from remeasuring the hedging instrument is recognised in profit or loss. The gain or loss on the hedged item attributable to the hedged risk adjusts the carrying amount of the recognised hedged item not measured at fair value and is recognised in profit or loss.

Any adjustment to the carrying amount of a hedged item is amortised to profit or loss if the hedged item is a financial instrument (or a component thereof) measured at amortised cost. The amortisation is based on a recalculated effective interest rate at the date that amortisation begins.

3 MATERIAL ACCOUNTING POLICIES (Continued)

(12) Impairment of other non-financial long-term assets

Internal and external sources of information are reviewed at each balance sheet date for indications that the following assets, including fixed assets, construction in progress, right-of-use assets, goodwill, intangible assets, long-term deferred expenses and investments in subsidiaries, associates and joint ventures may be impaired.

Assets are tested for impairment whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. The recoverable amounts of goodwill and intangible assets with uncertain useful lives are estimated annually no matter there are any indications of impairment. Goodwill is tested for impairment together with related asset units or groups of asset units.

An asset unit is the smallest identifiable group of assets that generates cash inflows largely independent of the cash inflows from other assets or groups of assets. An asset unit comprises related assets that generate associated cash inflows. In identifying an asset unit, the Group primarily considers whether the asset unit is able to generate cash inflows independently as well as the management style of production and operational activities, and the decision for the use or disposal of asset.

The recoverable amount is the greater of the fair value less costs to sell and the present value of expected future cash flows generated by the asset (or asset unit, set of asset units).

Fair value less costs to sell of an asset is based on its selling price in an arm's length transaction less any direct costs attributable to the disposal. Present value of expected future cash flows is the estimation of future cash flows to be generated from the use of and upon disposal of the asset, discounted at an appropriate pre-tax discount rate over the asset's remaining useful life.

If the recoverable amount of an asset is less than its carrying amount, the carrying amount is reduced to the recoverable amount. The amount by which the carrying amount is reduced is recognised as an impairment loss in profit or loss. A provision for impairment loss of the asset is recognised accordingly. Impairment losses related to an asset unit or a set of asset units first reduce the carrying amount of any goodwill allocated to the asset unit or set of asset units, and then reduce the carrying amount of the other assets in the asset unit or set of asset units on a pro rata basis. However, the carrying amount of an impaired asset will not be reduced below the highest of its individual fair value less costs to sell (if determinable), the present value of expected future cash flows (if determinable) and zero.

Once an impairment loss is recognised, it is not reversed in a subsequent period.

(13) Long-term deferred expenses

Long-term deferred expenses are amortised on a straight-line basis over their beneficial periods

(14) Employee benefits

Employee benefits are all forms of considerations and compensation given in exchange for services rendered by employees, including short-term compensation, post-employment benefits, termination benefits and other long term employee benefits.

(a) Short-term compensation

Short term compensation includes salaries, bonuses, allowances and subsidies, employee benefits, medical insurance premiums, work-related injury insurance premium, maternity insurance premium, contributions to housing fund, unions and education fund and short-term absence with payment etc. When an employee has rendered service to the Group during an accounting period, the Group shall recognise the short-term compensation actually incurred as a liability and charge to the cost of an asset or to profit or loss in the same period, and non-monetary benefits are valued with the fair value.

(b) Post-employment benefits

The Group classifies post-employment benefits into either Defined Contribution Plan (DC plan) or Defined Benefit Plan (DB plan). DC plan means the Group only contributes a fixed amount to an independent fund and no longer bears other payment obligation; DB plan is post-employment benefits other than DC plan. In this reporting period, the post-employment benefits of the Group primarily comprise basic pension insurance and unemployment insurance and both of them are DC plans.

Basic pension insurance

Employees of the Group participate in the social insurance system established and managed by local labor and social security department. The Group makes basic pension insurance to the local social insurance agencies every month, at the applicable benchmarks and rates stipulated by the government for the benefits of its employees. After the employees retire, the local labor and social security department has obligations to pay them the basic pension. When an employee has rendered service to the Group during an accounting period, the Group shall recognise the accrued amount according to the above social security provisions as a liability and charge to the cost of an asset or to profit or loss in the same period.

(c) Termination benefits

When the Group terminates the employment relationship with employees before the employment contracts expire, or provides compensation as an offer to encourage employees to accept voluntary redundancy, a provision for the termination benefits provided is recognised in profit or loss under the conditions of both the Group has a formal plan for the termination of employment or has made an offer to employees for voluntary redundancy, which will be implemented shortly; and the Group is not allowed to withdraw from termination plan or redundancy offer unilaterally.

3 MATERIAL ACCOUNTING POLICIES *(Continued)***(15) Income tax**

Current tax and deferred tax are recognised in profit or loss except to the extent that they relate to business combinations and items recognised directly in equity (including other comprehensive income).

Current tax is the expected tax payable calculated at the applicable tax rate on taxable income for the year, plus any adjustment to tax payable in respect of previous years.

At the balance sheet date, current tax assets and liabilities are offset if the Group has a legally enforceable right to set them off and also intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Deferred tax assets and deferred tax liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases, which include deductible losses and tax credits carried forward to subsequent periods. Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which deductible temporary differences can be utilised.

Deferred tax is not recognised for temporary differences arising from the initial recognition of assets or liabilities in a single transaction that is not a business combination, affects neither accounting profit nor taxable profit (or deductible loss) and does not give rise to equal taxable and deductible temporary differences. Deferred tax is also not recognised for taxable temporary differences arising from the initial recognition of goodwill.

At the balance sheet date, deferred tax is measured based on the tax consequences that would follow from the expected manner of recovery or settlement of the carrying amounts of the assets and liabilities, using tax rates enacted at the balance sheet date that are expected to be applied in the period when the asset is recovered or the liability is settled.

The carrying amount of a deferred tax asset is reviewed at each balance sheet date, and is reduced to the extent that it is no longer probable that the related tax benefits will be utilised. Such reductions are reversed to the extent that it becomes probable that sufficient taxable profits will be available.

At the balance sheet date, deferred tax assets and liabilities are offset if all the following conditions are met:

- the same taxable entity; or
- different taxable entities which intend either to settle the current tax liabilities and current tax assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or deferred tax assets are expected to be settled or recovered.

(16) Provisions

Provisions are recognised when the Group has a present obligation as a result of a contingent event, it is probable that an outflow of economic benefits will be required to settle the obligations and a reliable estimate can be made. Where the effect of time value of money is material, provisions are determined by discounting the expected future cash flows.

Provisions for future dismantlement costs are initially recognised based on the present value of the future costs expected to be incurred in respect of the Group's expected dismantlement and abandonment costs at the end of related oil and gas exploration and development activities. Any subsequent change in the present value of the estimated costs, other than the change due to passage of time which is regarded as interest costs, is reflected as an adjustment to the provision of oil and gas properties.

Loss-making contracts exist when the costs of performing contractual obligations inevitably exceed the expected economic benefits in the contracts entered into by the Group. The projected liability for loss-making contracts is calculated at the present value of the lesser of the expected cost of termination and the net cost of continuing to perform the contract. The cost of performing a contract includes the allocation of incremental costs for the performance of the contract and other costs directly related to the performance of the contract.

(17) Specific reserve

The Group recognises a safety fund in the specific reserve pursuant to relevant government regulations, with a corresponding increase in the costs of the related products or expenses.

When the safety fund is subsequently used for revenue expenditure, the specific reserve is reduced accordingly. When the safety fund is subsequently used for the construction or acquisition of fixed assets, the Group recognises the capitalised expenditure incurred as the cost of the fixed assets when the related assets are ready for their intended use. In such cases, the specific reserve is reduced by the amount that corresponds to the cost of the fixed assets and the credit side is recognised in the accumulated depreciation with respect to the related fixed assets. Consequently, such fixed assets are not depreciated in subsequent periods.

3 MATERIAL ACCOUNTING POLICIES *(Continued)*

(18) Revenue recognition

Revenue arises in the course of the Group's ordinary activities, and increases in economic benefits in the form of inflows that result in an increase in equity, other than those relating to contributions from equity participants.

The Group sells crude oil, natural gas, petroleum and chemical products, etc. Revenue is recognised according to the expected consideration amount, when a customer obtains control over the relevant goods or services. To determine whether a customer obtains control of a promised asset, the Group shall consider indicators of the transfer of control, which include, but are not limited to:

- the Group has a present right to payment for the asset;
- the Group has transferred physical possession of the asset to the customer;
- the customer has the significant risks and rewards of ownership of the asset;
- the customer has accepted the asset.

The Group determines whether it is a principal or an agent, based on whether it obtains control of the specified good or service before that good or service is transferred to a customer. The Group is a principal if it controls the specified good or service before that good or service is transferred to a customer, and recognises revenue in the gross amount of consideration which it has received (or which is receivable). Otherwise, the Group is an agent, and recognises revenue in the amount of any fee or commission to which it expects to be entitled. The fee or commission is the net amount of consideration that the Group retains after paying the other party the consideration, or is determined according to the established amount or proportion.

The circumstances in which the Group is able to control the goods before transferring them to customers include:

- The Group acquires control of the goods or other assets from a third party and then transfers them to the customer;
- The Group is able to lead third parties to provide services to customers on behalf of the Group;
- After the Group acquires control of a product from a third party, it transfers the product to a customer by integrating the product with other products into a combination of products through the provision of significant services;

In determining whether the Group has control over the Goods before the transfer of the Goods to the Customer, the Group takes into account all relevant facts and circumstances, including:

- The Group bears the primary responsibility for the transfer of goods to customers;
- The Group assumes the inventory risk of the goods before or after the transfer of the goods;
- The Group reserves the right to determine the price of the products it trades at its own discretion.

(19) Government grants

Government grants are non-reciprocal transfers of monetary or non-monetary assets from the government to the Group except for capital contributions from the government in the capacity as an investor in the Group.

Government grants are recognised when there is reasonable assurance that the grants will be received and the Group is able to comply with the conditions attaching to them. Government grants in the form of monetary assets are recorded based on the amount received or receivable, whereas non-monetary assets are measured at fair value.

Government grants received in relation to assets are recorded as deferred income, and recognised evenly in profit or loss over the assets' useful lives. Government grants received in relation to revenue are recorded as deferred income, and recognised as income in future periods as compensation when the associated future expenses or losses arise; or directly recognised as income in the current period as compensation for past expenses or losses.

(20) Borrowing costs

Borrowing costs incurred on borrowings for the acquisition, construction or production of qualified assets are capitalised into the cost of the related assets in the capitalisable period.

Except for the above, other borrowing costs are recognised as financial expenses in the income statement when incurred.

(21) Repairs and maintenance expenses

Repairs and maintenance (including overhauling expenses) expenses are recognised in profit or loss when incurred.

3 MATERIAL ACCOUNTING POLICIES *(Continued)***(22) Environmental expenditures**

Environmental expenditures that relate to current ongoing operations or to conditions caused by past operations is expensed as incurred. Liabilities related to future remediation costs are recorded when environmental assessments and/or cleanups are probable and the costs can be reliably estimated. As facts concerning environmental contingencies become known to the Group, the Group reassesses its position both with respect to accrued liabilities and other potential exposures.

(23) Research and development costs

Research costs and development costs that cannot meet the capitalisation criteria are recognised in profit or loss when incurred.

(24) Dividends

Dividends and distributions of profits proposed in the profit appropriation plan which will be authorised and declared after the balance sheet date, are not recognised as a liability at the balance sheet date and are separately disclosed in the notes to the financial statements. Dividends are recognised as a liability in the period in which they are declared.

(25) Related parties

If a party has the power to control, jointly control or exercise significant influence over another party, or vice versa, or where two or more parties are subject to common control, joint control from another party, they are considered to be related parties, except for the two parties significantly influenced by a party. Related parties may be individuals or enterprises. Where enterprises are subject to state control but are otherwise unrelated, they are not related parties.

In addition to the related parties stated above, the Company determines related parties based on the disclosure requirements of Administrative Procedures on the Information Disclosures of Listed Companies issued by the CSRC.

(26) Segment reporting

Reportable segments are identified based on operating segments which are determined based on the structure of the Group's internal organisation, management requirements and internal reporting system. An operating segment is a component of the Group that meets the following respective conditions:

- engage in business activities from which it may earn revenues and incur expenses;
- whose operating results are regularly reviewed by the Group's management to make decisions about resource to be allocated to the segment and assess its performance; and
- for which financial information regarding financial position, results of operations and cash flows are available.

Inter-segment revenues are measured on the basis of actual transaction price for such transactions for segment reporting, and segment accounting policies are consistent with those for the consolidated financial statements.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2025

4 TAXATION

Major types of tax applicable to the Group are value-added tax, resources tax, consumption tax, income tax, crude oil special gain levy, Levy for mineral rights concessions, city construction tax, education surcharge and local education surcharge etc.

Tax rate of products is presented as below:

Type of taxes	Tax rate	Tax basis and method
Value Added Tax (the "VAT")	13%, 9%, 6%	Based on taxable value added amount. Tax payable is calculated using the taxable sales amount multiplied by the applicable tax rate less current period's deductible VAT input.
Resource Tax	6%	Based on the revenue from sales of crude oil and natural gas.
Consumption Tax	RMB 2,109.76 per tonnage for Gasoline, RMB1,411.20 per tonnage for Diesel, RMB2,105.20 per tonnage for Naphtha, RMB1,948.64 per tonnage for Solvent oil, RMB1,711.52 per tonnage for Lubricant oil, RMB1,218.00 per tonnage for Fuel oil, and RMB1,495.20 per tonnage for Jet fuel oil.	Based on quantities
Corporate Income Tax	5% to 50%	Based on taxable income.
Crude Oil Special Gain Levy	20% to 40%	Based on the sales of domestic crude oil at prices higher than a specific level.
Levy for mineral rights concessions	Oil, gas, shale gas, Natural gas hydrates 0.8% onshore, 0.6% offshore, coal bed methane 0.3%, mineral salts (rock salt) 2.8%	Based on revenue from sales of mineral products
City Maintenance and Construction Tax	1%, 5% or 7%	Based on the actual paid VAT and consumption tax.
Education surcharges	3%	Based on the actual paid VAT and consumption tax.
Local Education surcharges	2%	Based on the actual paid VAT and consumption tax.

As at 31 December 2025 and 31 December 2024, the total amounts of the top five accounts receivable of the Group are set out below:

	At 31 December 2025	At 31 December 2024
Total amount (RMB million)	15,532	8,304
Percentage to the total balance of accounts receivable	28.2%	17.1%
Allowance for doubtful accounts	–	2,238

As at 31 December 2025, the carrying amount of accounts receivable under factoring arrangement that are derecognised is RMB16,367 million (31 December 2024: RMB13,527 million).

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2025

7 ACCOUNTS RECEIVABLE (Continued)

Sales are generally on a cash term. Credit is generally only available for major customers with well-established trading records. Amounts due from China Petrochemical Corporation ("Sinopec Group Company") and fellow subsidiaries are repayable under the same terms.

Accounts receivables relate to a wide range of customers for whom there is no recent history of default. Information about the impairment of accounts receivable and the Group exposure to credit risk can be found in Note 65.

During 2025 and 2024, the Group and the Company had no individually significant accounts receivable been fully or substantially provided allowance for doubtful accounts.

During 2025 and 2024, the Group and the Company had no individually significant write-off or recovery of doubtful debts which had been fully or substantially provided for in prior years.

Ageing started from the overdue date of accounts receivable. The Group always measured the provision for impairment of accounts receivable based on the amount equivalent to the expected credit loss during the entire duration. The ECLs were calculated based on historical actual credit loss experience. The rates were considered the differences between economic conditions during the period over which the historical data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables. The Group performed the calculation of ECL rates by the operating segment and geographical location.

31 December 2025	Gross carrying amount RMB million	Impairment provision on individual basis		Impairment provision on provision matrix basis		
		Carrying amount RMB million	Impairment provision on individual basis RMB million	Weighted – average loss rate	Impairment provision RMB million	Loss allowance RMB million

Total	48,515	10,137	3,574		608	4,182

8 RECEIVABLES FINANCING

Receivables financing represents mainly the bills of acceptance issued by banks for sales of goods and products and certain trade accounts receivable. The business model of financial assets is achieved both by collecting contractual cash flows and selling of these assets.

At 31 December 2025, the Group considers that its bills of acceptance issued by banks do not pose a significant credit risk and will not cause any significant loss due to the default of drawers.

At 31 December 2025, the Group's derecognised but outstanding bills due to endorsement or discount amounted to RMB64,722 million (At 31 December 2024: RMB71,762 million).

As at 31 December 2025, the carrying amount of all individually immaterial associates accounted for using equity method in aggregate was RMB51,247 million (2024: RMB48,913 million).

(d) Long-term equity investment impairment assessment

As at 31 December 2025, there are indicators of impairment in the long-term equity investment in Shanghai SECCO. The recoverable amount of this long-term equity investment is estimated based on a value-in-use calculation. The projected future cash flows primarily take into account the five-year profit forecast for Shanghai SECCO approved by the management, which is adjusted based on the historical performance of Shanghai SECCO and relevant industry trends, with cash flows remaining stable after five years. The pre-tax discount rate of 10.36% (2024: 11.08%) is calculated based on the weighted average cost of capital. The result of value-in-use calculation indicates that there is no impairment loss in this long-term equity investment as at 31 December 2025. According to the impairment assessment results, the Group has accrued impairment losses of RMB1,643 million for this long-term equity investments in 2025.

13 OTHER EQUITY INSTRUMENT INVESTMENTS

As at 31 December 2025, the other equity instrument investments held by the Group primarily consisted of an equity investment in Contemporary Amperex Technology Co., Ltd. (CATL), with a carrying amount of RMB6,710 million.

Balance at 31 December 2025	15,648	154,249	129,448	299,345
Balance at 31 December 2024	19,685	142,154	148,957	310,796

The additions to oil and gas properties of the Group and the Company for the year ended 31 December 2025 included RMB2,968 million (2024: RMB1,989 million) and RMB2,300 million (2024: RMB1,548 million), respectively of the estimated dismantlement costs for site restoration.

In 2025, the impairment loss on fixed assets was mainly due to the impairment loss of the exploration and development segment of RMB1,225 million (2024: RMB211 million), the impairment loss of the chemical segment of RMB4,004 million (2024: RMB1,547 million), the impairment loss of the refining segment of RMB522 million (2024: RMB230 million), and the impairment loss of marketing and distribution segment of RMB125 million (2024: RMB218 million).

Among them, oil and gas properties and other fixed assets provided impairment losses of RMB1,206 million and RMB19 million respectively, which were mainly related to the decline in oil and gas reserves of individual oilfields and the high extraction costs. The recoverable amount used for impairment assessment of fixed assets in the E&P segment is determined based on the present value of the expected future cash flows of the relevant asset group. The duration of the prediction period and the production of crude oil and natural gas during the prediction period are determined based on the results of proven reserves; The sales prices of crude oil and natural gas during the forecast period are determined based on a comprehensive analysis of the energy supply and demand relationship, China's low-carbon transformation development requirements, and the domestic and international economic situation. The recoverable amounts were determined based on the present values of the expected future cash flows of the assets using a pre-tax discount rate 7.07%-15.88% (2024: 7.06%-15.82%). Further future downward revisions to the Group's oil or nature gas price outlook would lead to further impairments which, in aggregate, are likely to be material. It is estimated that a general decrease of 5% in oil price, with all other variables held constant, would result in additional impairment loss on the Group's properties, plant and equipment relating to oil and nature gas producing activities by approximately RMB4,472 million (2024: RMB1,552 million). It is estimated that a general increase of 5% in operating cost, with all other variables held constant, would result in additional impairment loss on the Group's properties, plant and equipment relating to oil and gas producing activities by approximately RMB2,544 million (2024: RMB782 million). It is estimated that a general increase of 5% in discount rate, with all other variables held constant, would result in additional impairment loss on the Group's properties, plant and equipment relating to oil and gas producing activities by approximately RMB133 million (2024: RMB1 million).

The impairment provisions for the chemical and refining divisions are related to the refining and chemical production equipment, mainly due to individual production units being shut down due to sustained lower than expected economic performance or having a clear shutdown plan in place, resulting in their book value being written down to their recoverable amount. The impairment provisions for the marketing and distribution segment is mainly due to the sustained lower than expected economic performance of individual production units or the clear development of shutdown plans, resulting in their book value being written down to their recoverable amount. The recoverable amount mainly considers the profit forecast approved by the management for a five-year period, which refers to the historical operating performance of relevant refining and chemical production facilities and is adjusted according to the development trends of the refining and chemical industry. The predicted cash flow after five years will remain stable, and the pre tax discount rate is calculated based on the weighted average cost of capital, which is 8.34% to 14.29% (2024: 8.00%-16.76%).

At 31 December 2025 and 31 December 2024, the Group and the Company had no individually significant fixed assets which were temporarily idle or pending for disposal, or individually significant fully depreciated fixed assets which were still in use.

Details of the determination method for impairment of fixed assets are set out in Note 60.

15 CONSTRUCTION IN PROGRESS

	The Group RMB million	The Company RMB million
Cost:

Net book value:						
Balance at 31 December 2025	100,784	1,275	1,839	24,192	20,170	148,260
Balance at 31 December 2024	91,474	766	1,653	24,078	20,012	137,983

Amortisation of the intangible assets of the Group charged for the year ended 31 December 2025 is RMB7,118 million (2024: RMB6,730 million).

18 GOODWILL

Goodwill is allocated to the following Group's cash-generating units:

Name of investees	Principal activities	At 31 December 2025 RMB million	At 31 December 2024 RMB million
Sinopec Zhenhai Refining and Chemical Branch	Manufacturing of intermediate petrochemical products and petroleum products	4,043	4,043
Other units allocated		1,433	2,450
Total		5,476	6,493

The Group's goodwill impairment assessment is carried out in conjunction with its related asset group or combination of asset groups, and the recoverable amounts of goodwill are estimated annually based on value in use calculations, which is consistent with prior years. These calculations use cash flow projections based on five-year financial budgets approved by management for a goodwill-related asset group or a combination of asset groups, with cash flow remaining stable after five years. The cash flow forecasts use sales volumes, selling price and discount rates as key assumptions, with sales volumes based on production capacity and/or actual sales volumes for periods prior to the budget period, selling prices based on management's expectations of future international crude oil and petrochemical price trends, and pre-tax discount rates based on weighted average cost of capital, which ranged from 10.8% to 12.6% (2024: 10.7% to 11.8%). According to the impairment assessment results of goodwill, the Group has made a total impairment loss of RMB1,006 million for some of the goodwill, mainly due to the unsatisfactory future performance expectation of this asset group of Beijing Yanshan Branch of China Petroleum and Chemical Corporation in the impairment test.

19 LONG-TERM DEFERRED EXPENSES

Long-term deferred expenses primarily represent catalysts expenditures and improvement expenditures of leased fixed assets.

20 DEFERRED TAX ASSETS AND LIABILITIES

Deferred tax assets and liabilities before the consolidated elimination adjustments are as follows:

	Deferred tax assets		Deferred tax liabilities	
	At 31 December 2025	At 31 December 2024	At 31 December 2025	At 31 December 2024
	RMB million	RMB million	RMB million	RMB million
Receivables and inventories	3,592	4,294	(9)	(49)
Payables	2,294	2,649	–	–
Cash flow hedges	40	41	(1,055)	(667)
Fixed assets	19,484	17,529	(29,326)	(31,560)
Tax value of losses carried forward	10,494	12,256	–	–
Other equity instrument investments	133	139	(4)	(4)
Intangible assets	2,419	1,296	(140)	(93)
Lease liabilities and Right-of-use assets	41,978	40,876	(36,160)	(36,594)
Others	2,641	2,457	(2,700)	(1,117)
Deferred tax assets/(liabilities)	83,075	81,537	(69,394)	(70,084)

The consolidated elimination amount between deferred tax assets and liabilities are as follows:

	At 31 December 2025	At 31 December 2024
	RMB million	RMB million
Deferred tax assets	62,993	62,760
Deferred tax liabilities	62,993	62,760

Deferred tax assets and liabilities after the offsetting adjustments are as follows:

	At 31 December 2025	At 31 December 2024
	RMB million	RMB million
Deferred tax assets	20,082	18,777
Deferred tax liabilities	6,401	7,324

At 31 December 2025, certain subsidiaries of the Company did not recognise deferred tax of deductible loss carried forward of RMB31,327 million (2024: RMB28,197 million), of which RMB6,479 million (2024: RMB5,070 million) was incurred for the year ended 31 December 2025, because it was not probable that the related tax benefit will be realised. These deductible losses carried forward of RMB5,310 million, RMB8,972 million, RMB5,496 million, RMB5,070 million and RMB6,479 million will expire in 2026, 2027, 2028, 2029, 2030 and after, respectively.

Periodically, management performed assessment on the probability that future taxable profit will be available over the period which the deferred tax assets can be realised or utilised. In assessing the probability, both positive and negative evidence was considered, including whether it is probable that the operations will have sufficient future taxable profits over the periods which the deferred tax assets are deductible or utilised and whether the tax losses result from identifiable causes which are unlikely to recur.

21 OTHER NON-CURRENT ASSETS

Other non-current assets mainly represent long-term receivables, prepayments for construction projects, prepayments for purchases of equipment and time deposits with maturities over one year.

22 DETAILS OF IMPAIRMENT LOSSES

At 31 December 2025, impairment losses of the Group are analysed as follows:

	Note	Balance at 1 January 2025 RMB million	Provision for the year RMB million	Written back for the year RMB million	Written off for the year RMB million	Other increase/ (decrease) RMB million	Balance at 31 December 2025 RMB million
Allowance for doubtful accounts							
Included: Accounts receivable	7	4,182	86	(259)	(16)	(72)	3,921
Prepayments	9	68	5	(13)	–	15	75
Other receivables	10	1,589	65	(50)	(24)	(1)	1,579
Other non-current assets		904	5	(105)	–	(25)	779
Total		6,743	161	(427)	(40)	(83)	6,354
Inventories	11	5,265	4,430	(46)	(4,405)	17	5,261
Long-term equity investments	12	3,944	1,680	–	(10)	(180)	5,434
Fixed assets	14	99,888	5,876	–	(2,261)	(72)	103,431
Construction in progress	15	2,858	12	–	(22)	(42)	2,806
Intangible assets	17	1,133	10	–	(32)	14	1,125
Goodwill	18	7,861	1,006	–	–	–	8,867
Others		55	3	(10)	–	–	48
Total		127,747	13,178	(483)	(6,770)	(346)	133,326

The reasons for recognising impairment losses are set out in the respective notes of respective assets.

23 SHORT-TERM LOANS

The Group's short-term loans represent:

	At 31 December 2025			At 31 December 2024		
	Original currency million	Exchange rates	RMB million	Original currency million	Exchange rates	RMB million
Short-term bank loans			23,155			44,369
– RMB loans			23,155			44,369
Short-term loans from Sinopec Group Company and fellow subsidiaries			6,300			3,862
– RMB loans			4,552			1,459
– US Dollar loans	249	7.0288	1,748	334	7.1884	2,403
Total			29,455			48,231

At 31 December 2025, the Group's interest rates on short-term loans were from interest 1.00% to 4.89%(2024: 1.45% to 5.42%) per annum. The majority of the above loans are by credit.

At 31 December 2025 and 31 December 2024, the Group had no significant overdue short-term loans.

24 BILLS PAYABLE

Bills payable primarily represented bank accepted bills for the purchase of material, goods and products. Bills payable were due within one year.

At 31 December 2025 and 31 December 2024, the Group had no overdue unpaid bills.

25 ACCOUNTS PAYABLE

Accounts payable primarily represent goods payable or material payable.

26 CONTRACT LIABILITIES

As at 31 December 2025 and 31 December 2024, the Group's contract liabilities primarily represent advances from customers. Related performance obligations are expected to be satisfied and revenue is recognised within one year.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2025

27 EMPLOYEE BENEFITS PAYABLE

(1) Employee benefits payable:

	Balance at the beginning of the year	Accrued during the year	Decreased during the year	Balance at the end of the year
Short-term employee benefits	14,113	97,995	(100,645)	11,463

Other short-term employee benefits	29	2,367	(2,385)	11
Total	14,113	97,995	(100,645)	11,463

(3) Post-employment benefits – defined contribution plans

	Balance at the beginning of the year	Accrued during the year	Decreased during the year	Balance at the end of the year
Basic pension insurance	39	10,175	(10,179)	35
Unemployment insurance	1	390	(390)	1
Annuity	7	4,634	(4,635)	6
Total	47	15,199	(15,204)	42

28 TAXES PAYABLE

The Group

	At 31 December 2025 RMB million	At 31 December 2024 RMB million
Value-added tax payable	2,515	2,535
Consumption tax payable	17,806	18,860
Income tax payable	1,607	1,706
Levy for mineral rights concessions	5,842	7,114
Other taxes	7,526	8,282
Total	35,296	38,497

29 OTHER PAYABLES

At 31 December 2025 and 31 December 2024, other payables of the Group over one year primarily represented payables for constructions.

30 NON-CURRENT LIABILITIES DUE WITHIN ONE YEAR

The Group's non-current liabilities due within one year represent:

	At 31 December 2025			At 31 December 2024		
	Original currency million	Exchange rates	RMB million	Original currency million	Exchange rates	RMB million
Long-term bank loans						
– RMB loans			73,528			43,246
– USD loans	–	7.0288	1	–	7.1884	–
Long-term loans from Sinopec Group Company and fellow subsidiaries						
– RMB loans			5,621			822
Long-term loans due within one year			79,150			44,068
Debentures payable due within one year						
– RMB debentures			11,651			165
Lease liabilities due within one year			18,079			17,831
Others			1,677			2,538
Non-current liabilities due within one year			110,557			64,602

At 31 December 2025 and 31 December 2024, the Group had no significant overdue long-term loans.

31 OTHER CURRENT LIABILITIES

As at 31 December 2025, other current liabilities mainly represent RMB12,049 million (31 December 2024: RMB13,351 million) output VAT to be transferred.

32 LONG-TERM LOANS

The Group's long-term loans represent:

	Interest rate and final maturity	At 31 December 2025			At 31 December 2024		
		Original currency million	Exchange rates	RMB million	Original currency million	Exchange rates	RMB million
Long-term bank loans							
– RMB loans	Interest rates ranging from interest 1.08% to 3.90% per annum at 31 December 2025 (2024: 1.08% to 3.90%) with maturities through 2040			236,339			204,840
– USD loans	Interest rates at 0.00% per annum at 31 December 2025(2024:0.00%) with maturities through 2031	6	7.0288	42	6	7.1884	46
Less: Portion with one year (note 30)				(73,529)			(43,246)
Long-term bank loans				162,852			161,640
Long-term loans from Sinopec Group Company and fellow subsidiaries							
– RMB loans	Interest rates ranging from interest 2.10% to 4.20% per annum at 31 December 2025 (2024: 2.20% to 4.50%) with maturities through 2040			25,737			24,116
Less: Portion with one year (note 30)				(5,621)			(822)
Long-term loans from Sinopec Group Company and fellow subsidiaries				20,116			23,294
Total				182,968			184,934

The maturity analysis of the Group's long-term loans is as follows:

	At 31 December 2025	At 31 December 2024
	RMB million	RMB million
Between one and two years	56,709	81,436
Between two and five years	80,125	67,514
After five years	46,134	35,984
Total	182,968	184,934

Long-term loans are carried at amortised costs.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2025

33 DEBENTURES PAYABLE

The Group

	At 31 December 2025 RMB million	At 31 December 2024 RMB million
Debentures payable:		
– Corporate Bonds	63,947	25,727
Less: Portion within one year (Note 30)	11,651	165
Total	52,296	25,562

These corporate bonds are carried at amortised cost. At 31 December 2025, USD denominated corporate bonds were equivalent to RMB3,529 million, and RMB denominated corporate bonds were RMB60,418 million (31 December 2024: USD denominated corporate bonds of RMB3,607 million, and RMB denominated corporate bonds of RMB22,120 million).

34 LEASE LIABILITY

The Group

	At 31 December 2025 RMB million	At 31 December 2024 RMB million
Lease liabilities	175,486	172,735
Deduct: Portion of lease liabilities within one year (Note 30)	18,079	17,831
Total	157,407	154,904

35 PROVISIONS

Provisions primarily represent provision for future dismantlement costs of oil and gas properties. The Group has established certain standardised measures for the dismantlement of its retired oil and gas properties by making reference to the industry practices and is thereafter constructively obligated to take dismantlement measures of its retired oil and gas properties. Movement of provision of the Group's obligations for the dismantlement of its retired oil and gas properties is as follows:

	The Group RMB million
Balance at 1 January 2025	46,528
Provision for the year	2,968
Accretion expenses	833
Decrease for the year	(2,274)
Foreign currency translation differences	(51)
Balance at 31 December 2025	48,004

36 OTHER NON-CURRENT LIABILITIES

Other non-current liabilities primarily represent long-term payables, special payables and deferred income.

37 SHARE CAPITAL

The Group

	At 31 December 2025 RMB million	At 31 December 2024 RMB million
Registered, issued and fully paid:		
97,142,913,622 listed A shares (2024: 97,232,263,098) of RMB1.00 each	97,143	97,233
23,782,600,600 listed H shares (2024: 24,049,292,600) of RMB1.00 each	23,783	24,049
Total	120,926	121,282

The Company was established on 25 February 2000 with a registered capital of 68.8 billion domestic state-owned shares with a par value of RMB1.00 each. Such shares were issued to Sinopec Group Company in consideration for the assets and liabilities transferred to the Company (Note 1).

Pursuant to the resolutions passed at an Extraordinary General Meeting held on 25 July 2000 and approvals from relevant government authorities, the Company is authorised to increase its share capital to a maximum of 88.3 billion shares with a par value of RMB1.00 each and offer not more than 19.5 billion shares with a par value of RMB1.00 each to investors outside the PRC. Sinopec Group Company is authorised to offer not more than 3.5 billion shares of its shareholdings in the Company to investors outside the PRC. The shares sold by Sinopec Group Company to investors outside the PRC would be converted into H shares.

In October 2000, the Company issued 15,102,439,000 H shares with a par value of RMB1.00 each, representing 12,521,864,000 H shares and 25,805,750 American Depositary Shares ("ADSs", each representing 100 H shares), at prices of HKD1.59 per H share and USD20.645 per ADS, respectively, by way of a global initial public offering to Hong Kong SAR and overseas investors. As part of the global initial public offering, 1,678,049,000 state-owned ordinary shares of RMB1.00 each owned by Sinopec Group Company were converted into H shares and sold to Hong Kong SAR and overseas investors.

In July 2001, the Company issued 2.8 billion listed A shares with a par value of RMB1.00 each at RMB4.22 by way of a public offering to natural persons and institutional investors in the PRC.

During the year ended 31 December 2010, the Company issued 88,774 listed A shares with a par value of RMB1.00 each, as a result of exercise of 188,292 warrants entitled to the Bonds with Warrants.

During the year ended 31 December 2011, the Company issued 34,662 listed A shares with a par value of RMB1.00 each, as a result of conversion by the holders of the 2011 Convertible Bonds.

During the year ended 31 December 2012, the Company issued 117,724,450 listed A shares with a par value of RMB1.00 each, as a result of conversion by the holders of the 2011 Convertible Bonds.

On 14 February 2013, the Company issued 2,845,234,000 listed H shares ("the Placing") with a par value of RMB1.00 each at the Placing Price of HKD8.45 per share. The aggregate gross proceeds from the Placing amounted to approximately HKD24,042,227,300.00 and the aggregate net proceeds (after deduction of the commissions and estimated expenses) amounted to approximately HKD23,970,100,618.00.

In June 2013, the Company issued 21,011,962,225 listed A shares and 5,887,716,600 listed H shares as a result of bonus issues of 2 shares converted from the retained earnings, and 1 share transferred from capital reserve for every 10 existing shares.

During the year ended 31 December 2013, the Company issued 114,076 listed A shares with a par value of RMB1.00 each, as a result of exercise of conversion by the holders of the 2011 Convertible Bonds.

During the year ended 31 December 2014, the Company issued 1,715,081,853 listed A shares with a par value of RMB1.00 each, as a result of exercise of conversion by the holders of the 2011 Convertible Bonds.

During the year ended 31 December 2015, the Company issued 2,790,814,006 listed A shares with a par value of RMB1.00 each, as a result of conversion by the holders of the 2011 Convertible Bonds.

During the year ended 31 December 2022, the Company repurchased 442,300,000 listed A shares and 732,502,000 listed H shares respectively at a price of RMB4.06 per share to RMB4.50 per share for the repurchase of listed A shares, with a total amount of RMB1,888,163,981.61, and a price of HKD3.06 per share to HKD3.75 per share for the repurchase of listed H shares, with a total amount of HKD2,499,261,860.00, which had been cancelled in the year ended 31 December 2022.

During the year ended 31 December 2023, the Company repurchased 143,500,000 listed A shares and 403,656,000 listed H shares respectively at a price of RMB5.29 per share to RMB6.17 per share for the repurchase of listed A shares, with a total amount of RMB816,009,269.44, and a price of HKD3.78 per share to HKD4.56 per share for the repurchase of listed H shares, with a total amount of HKD1,646,392,242.20, which had been cancelled in the year ended 31 December 2023.

37 SHARE CAPITAL (Continued)**The Group** (Continued)

Pursuant to the resolutions of the 15th meeting of the 8th session of the board of directors held on 24 March 2023 and the 2022 Annual General Meeting of Shareholders held on 30 May 2023, and with the approval for registration by the China Securities Regulatory Commission in the Reply on Agreeing to the Registration of China Petroleum & Chemical Corporation to Issue Shares to Specific Targets (Zheng Jian Xu Ke [2024] No. 110(證監許可[2024]110 號)), the Company was approved to issued 2,390,438,247 listed A shares (par value of RMB1.00 per share at an issue price of RMB5.02 per share) to Sinopec Group Company on 18 March 2024. The total amount of raised funds is RMB11,999,999,999.94. After deducting the total amount of RMB12,671,221.04 (excluding VAT) of recommendation and underwriting expenses and other issuance expenses, the net amount of raised funds is RMB11,987,328,778.90, which is included in the share capital of RMB2,390,438,247.00 and capital reserve of RMB9,596,890,531.90.

During the year ended 31 December 2024, the Company repurchased 130,146,195 listed A shares and 328,126,000 listed H shares respectively at a price of RMB6.16 per share to RMB6.43 per share for the repurchase of listed A shares, with a total amount of RMB816,001,427.20, and a price of HKD4.09 per share to HKD4.89 per share for the repurchase of listed H shares, with a total amount of HKD1,436,267,366.40. The 138,000 listed H shares repurchased on 30 December 2024 had not been canceled in the year ended 31 December 2024.

During the year ended 31 December 2025, the Company repurchased 89,349,476 listed A shares and 266,554,000 listed H shares respectively at a price of RMB5.27 per share to RMB6.10 per share for the repurchase of listed A shares, with a total amount of RMB500,000,213.01, and a price of HKD4.05 per share to HKD4.64 per share for the repurchase of listed H shares, with a total amount of HKD1,152,829,082.00. The 138,000 listed H shares repurchased on 30 December 2024 had been canceled in the year ended 31 December 2025.

All A shares and H shares rank pari passu in all material aspects.

Capital management

Management optimises the structure of the Group's capital, which comprises of equity, debts and bonds. In order to maintain and adjust the capital structure of the Group, management may cause the Group to issue new shares, adjust the capital expenditure plan, sell assets to reduce debt, or adjust the proportion of short-term and long-term loans and bonds. Management monitors capital on the basis of the debt-to-capital ratio, which is calculated by dividing long-term loans (excluding current portion) and debentures payable, by the total of equity attributable to shareholders of the Company and long-term loans (excluding current portion) and debentures payable, and liability-to-asset ratio, which is calculated by dividing total liabilities by total assets. Management's strategy is to make appropriate adjustments according to the Group's operating and investment needs and the changes of market conditions, and to maintain the debt-to-capital ratio and the liability-to-asset ratio of the Group at a range considered reasonable. As at 31 December 2025, the debt-to-capital ratio and the liability-to-asset ratio of the Group were 22.1%(2024: 20.4%) and 54.1%(2024: 53.2%), respectively.

The schedule of the contractual maturities of loans and commitments are disclosed in Notes 32, 33 and 62, respectively.

There were no changes in the management's approach to capital management of the Group during the year. Neither the Company nor any of its subsidiaries is subject to externally imposed capital requirements.

38 CAPITAL RESERVE

The movements in capital reserve of the Group are as follows:

	RMB million
Balance at 1 January 2025	125,368
Cancellation of treasury shares	(1,199)
Contributions to subsidiaries from non-controlling interests	877
Transactions with minority shareholders	(25)
Other equity movements under the equity method	(329)
Others	126
Balance at 31 December 2025	124,818

Capital reserve represents mainly: (a) the difference between the total amount of the par value of shares issued and the amount of the net assets transferred from Sinopec Group Company in connection with the Reorganisation; (b) share premiums derived from issuances of H shares and A shares by the Company and excess of cash paid by investors over their proportionate shares in share capital, the proportionate shares of unexercised portion of the Bond with Warrants at the expiration date, and the amount transferred from the proportionate liability component and the derivative component of the converted portion of the 2011 Convertible Bonds; (c) difference between consideration paid for the combination of entities under common control and the transactions with non-controlling interests over the carrying amount of the net assets acquired.

Other comprehensive income	(3,264)	278	(2,986)

(b) The change of each item in other comprehensive income

	Other comprehensive income that can be converted into profit or loss under the equity method RMB million	Changes in fair value of other equity instrument investments RMB million	Cash flow hedges RMB million	Foreign currency translation differences RMB million	Subtotal RMB million	Non-controlling interests RMB million	Total other comprehensive income RMB million
1 January 2024	(8,442)	(91)	5,656	5,937	3,060	(3,105)	(45)
Changes in 2024	(3,058)	(21)	(2,403)	1,435	(4,047)	108	(3,939)
31 December 2024	(11,500)	(112)	3,253	7,372	(987)	(2,997)	(3,984)
1 January 2025	(11,500)	(112)	3,253	7,372	(987)	(2,997)	(3,984)
Changes in 2025	7,355	2,291	898	(2,831)	7,713	1,567	9,280
31 December 2025	(4,145)	2,179	4,151	4,541	6,726	(1,430)	5,296

As at 31 December 2025, cash flow hedge reserve amounted to a gain of RMB4,257 million (31 December 2024: a gain of RMB3,338 million), of which a gain of RMB4,151 million was attribute to shareholders of the Company (31 December 2024: a gain of RMB3,253 million).

40 SPECIFIC RESERVE

In accordance with the Administrative Measures for the Extraction and Use of Production Safety Expenses of Enterprises issued by the Ministry of Finance and the Ministry of Emergency Management of the PRC, the Group mainly extracts a certain percentage of production safety expenses from its net profit on a monthly basis based on the operating revenues of the businesses to which the Measures are applicable or the output of raw minerals mined in the PRC, which is included in the special reserve. Production safety expenses are specifically used to perfect and improve the production safety conditions of the enterprise or project, and any expenditure that is in line with the scope of use of production safety expenses shall be charged to the production safety expenses withdrawn. The assets formed by the use of production safety expenses are included in the relevant asset management. The balance of the current year's production safety expenses is carried forward for use in the following year.

41 SURPLUS RESERVES

Movements in surplus reserves are as follows:

	Statutory surplus reserve RMB million	The Group Discretionary surplus reserves RMB million	Total RMB million
Balance at 1 January 2025	110,663	117,000	227,663
Appropriation of surplus reserve	3,563	–	3,563
Balance at 31 December 2025	114,226	117,000	231,226

The PRC Company Law and Articles of Association of the Company have set out the following profit appropriation plans:

- 10% of the net profit is transferred to the statutory surplus reserve. In the event that the reserve balance reaches 50% of the registered capital, no transfer is needed;
- After the transfer to the statutory surplus reserve, a transfer to discretionary surplus reserve can be made upon the passing of a resolution at the shareholders' meeting.

42 OPERATING INCOME AND OPERATING COSTS

	The Group 2025 RMB million		The Company 2025 RMB million	
	2025 RMB million	2024 RMB million	2025 RMB million	2024 RMB million
Income from principal operations	2,726,460	3,015,321	858,235	1,035,143
Income from other operations	57,123	59,241	25,133	26,822
Operating income	2,783,583	3,074,562	883,368	1,061,965
Operating costs	2,341,383	2,598,935	693,152	850,450

The income from principal operations mainly represents revenue from the sales of refined petroleum products, chemical products, crude oil and natural gas. The income from other operations mainly represents revenue from sale of materials, services providing, rental income and others.

Operating costs primarily represent the products cost related to the principal operations. The Group's segmental information is set out in Note 64.

The Group's operating income is mainly composed of sales revenue from the products as follows:

	2025 RMB million	2024 RMB million
Income from principal operations	2,726,460	3,015,321
Included: Gasoline	763,996	847,815
Diesel	555,174	653,111
Crude oil	353,855	365,045
Chemical feedstock	38,856	41,994
Basic organic chemicals	184,796	219,608
Synthetic resin	123,127	124,780
Kerosene	209,624	231,214
Natural gas	103,185	91,015
Synthetic fiber monomers and polymers	42,621	42,880
Others (i)	351,226	397,859
Income from other operations	57,123	59,241
Included: Sale of materials and others	55,292	57,785
Rental income	1,831	1,456
Total	2,783,583	3,074,562

Notes:

- Others are primarily liquefied petroleum gas and other refinery and chemical byproducts and joint products and so on.
- The above operating incomes, except rental income, are all income from contracts.

43 TAXES AND SURCHARGES**The Group**

	2025	2024
	RMB million	RMB million
Consumption tax	205,550	215,245
City construction tax	17,560	18,010
Special oil income levy	1,462	5,112
Education surcharge	12,857	13,255
Resources tax	8,011	8,466
Levy for mineral rights concessions	1,367	1,574
Others	5,628	5,653
Total	252,435	267,315

The Group (Continued)

(f) Other cash paid relating to financing activities:

	2025 RMB million	2024 RMB million
Repayments of lease liabilities	(19,247)	(19,654)
Capital reduction by minority shareholders	(152)	(1,474)
Cash payments to repurchase own shares	(1,554)	(2,131)
Others	(978)	(960)
Total	(21,931)	(24,219)

(g) Reconciliation of liabilities (excluding lease liabilities) arising from financial activities:

	Balance at 1 January 2025 RMB million	Additions for the year		Decreases for the year		Balance at 31 December 2025 RMB million
		Cash RMB million	Non-cash RMB million	Cash RMB million	Non-cash RMB million	
Long-term and Short-term loans and debentures payable	302,960	396,227	124,500	(372,475)	(95,692)	355,520
Other non-current liabilities – loans to related parties	5,143	367	2,854	(152)	–	8,212
Other current liabilities – loans to short-term bonds payable	–	21,000	–	(21,000)	–	–
Total	308,103	417,594	123,354	(393,627)	(95,692)	363,732

The decrease in cash for the year includes interest actually paid: RMB7,375 million (2024: RMB7,912 million).

59 RELATED PARTIES AND RELATED PARTY TRANSACTIONS**(1) Related parties having the ability to exercise control over the Group**

The name of the company	:	China Petrochemical Corporation
Unified social credit identifier	:	9111000010169286X1
Registered address	:	No. 22, Chaoyangmen North Street, Chaoyang District, Beijing
Principal activities	:	Exploration, production, storage and transportation (including pipeline transportation), sales and utilisation of crude oil and natural gas; refining; wholesale and retail of gasoline, kerosene and diesel; production, sales, storage and transportation of petrochemical and other chemical products; industrial investment and investment management; exploration, construction, installation and maintenance of petroleum and petrochemical constructions and equipments; manufacturing electrical equipment; research, development, application and consulting services of information technology and alternative energy products; import & export of goods and technology.
Relationship with the Group	:	Ultimate holding company
Types of legal entity	:	Limited Liability Company (State-owned)
Authorised representative	:	Hou Qijun
Registered capital	:	RMB326,547 million

Sinopec Group Company is an enterprise controlled by the PRC government. Sinopec Group Company directly and indirectly holds 69.87% shareholding of the Company.

(2) Related parties not having the ability to exercise control over the Group

Related parties under common control of a parent company with the Company:

Sinopec Finance (Note)
 Sinopec Shengli Petroleum Administrative Bureau CO.,LTD.
 Sinopec Zhongyuan Petroleum Exploration Bureau CO.,LTD.
 Sinopec Assets Management CO.,LTD.
 Sinopec Engineering Incorporation
 Sinopec Century Bright Capital Investment Limited
 Sinopec Petroleum Storage and Reserve Limited

Associates of the Group:

PipeChina
 Sinopec Finance
 Sinopec Capital
 Zhongtian Synergetic Energy
 Aviation Fuel

Joint ventures of the Group:

FREP
 BASF-YPC
 INEOS (Ningbo)
 Sinopec SABIC Tianjin
 Shanghai SECCO

Note: Sinopec Finance is under common control of a parent company with the Company and is also the associate of the Group.

59 RELATED PARTIES AND RELATED PARTY TRANSACTIONS (Continued)

(3) The principal related party transactions with Sinopec Group Company and fellow subsidiaries, associates and joint ventures, which were carried out in the ordinary course of business, are as follows:

	Note	The Group 2025 RMB million	2024 RMB million
Sales of goods	(i)	363,144	381,571
Purchases	(ii)	207,616	176,738
Transportation and storage	(iii)	25,490	26,081
Exploration and development services	(iv)	37,215	39,208
Production related services	(v)	35,586	36,880
Agency commission income	(vi)	111	160
Interest income	(vii)	2,821	3,108
Interest expense	(viii)	954	1,291
Net deposits placed with related parties	(vii)	(8,138)	(466)
Net funds obtained from related parties	(ix)	44,133	34,093

The amounts set out in the table above in respect of the year ended 31 December 2025 and 2024 represent the relevant costs and income as determined by the corresponding contracts with the related parties.

For the year ended 31 December 2025 the Group purchases from Sinopec Group Company and fellow subsidiaries amounting to RMB191,571 million (2024: RMB159,275 million) comprising purchases of products and services (i.e. procurement, transportation and storage, exploration and development services and production related services) of RMB177,897 million (2024: RMB145,685 million), lease charges for land, buildings and others paid by the Group of RMB11,171 million, RMB1,184 million and RMB365 million (2024: RMB10,937 million, RMB1,088 million and RMB274 million), respectively and interest expenses of RMB954 million (2024: RMB1,291 million).

For the year ended 31 December 2025, the group sales to Sinopec Group Company and fellow subsidiaries amounting to RMB108,230 million (2024: RMB72,711 million), comprising RMB105,315 million (2024: RMB69,281 million) for sales of goods, RMB2,821 million (2024: RMB3,363 million) for interest income and RMB94 million (2024: RMB67 million) for agency commission income.

For the year ended 31 December 2025, the amount of rental the Group paid to Sinopec Group Company and fellow subsidiaries, associates and joint ventures for land, buildings and others are RMB11,177 million, RMB1,189 million and RMB401 million (2024: RMB10,941 million, RMB1,094 million and RMB363 million). Interest expense on lease liabilities is RMB7,482 million (2024: RMB7,434 million). Among them, according to the continuing connected transaction agreement signed in 2000, the sixth supplementary agreement for continuing connected transactions signed on 27 August, 2021, and the fourth revision memorandum of the land use right lease contract, the actual payment of land, land and land use rights between Sinopec Group and Sinopec Group The rental amount of houses was RMB11,171 million and RMB1,184 million respectively (2024: RMB10,937 million and RMB1,088 million). The Group, as the lessee, has not leased single significant right-of-use assets from Sinopec Group, subsidiaries, associated companies and joint ventures.

As of 31 December 2025 and 2024, the Group's guarantee on bank credit to associated companies and joint ventures is shown in Note 63(b). In addition, the Group has no other bank guarantee for Sinopec Group and its subsidiaries, associates and joint ventures

Notes:

- (i) Sales of goods represent the sale of crude oil, intermediate petrochemical products, petroleum products and ancillary materials.
- (ii) Purchases represent the purchase of materials and utility supplies directly related to the Group's operations such as the procurement of raw and ancillary materials and related services, supply of water, electricity and gas.
- (iii) Transportation and storage represent the cost for the use of railway, road and marine transportation services, pipelines, loading, unloading and storage facilities.
- (iv) Exploration and development services comprise direct costs incurred in the exploration and development such as geophysical, drilling, well testing and well measurement services.
- (v) Production related services represent ancillary services rendered in relation to the Group's operations such as equipment repair and general maintenance, insurance premium, technical research, communications, firefighting, security, product quality testing and analysis, information technology, design and engineering, construction of oilfield ground facilities, refineries and chemical plants, manufacture of replacement parts and machinery, installation, project management and environmental protection, and management services.
- (vi) Agency commission income represents commission earned for acting as an agent in respect of sales of products and purchase of materials for certain entities owned by Sinopec Group Company.
- (vii) Interest income represents interest received from deposits placed with Sinopec Finance and Sinopec Century Bright Capital Investment Limited, finance companies controlled by Sinopec Group Company. The applicable interest rate is determined in accordance with the prevailing saving deposit rate.
- (viii) Interest expense represents interest charges on the loans obtained from Sinopec Group Company and fellow subsidiaries.
- (ix) The Group obtained loans, discounted bills and issued the acceptance bills from Sinopec Group Company and fellow subsidiaries, etc.

59 RELATED PARTIES AND RELATED PARTY TRANSACTIONS *(Continued)*

(3) The principal related party transactions with Sinopec Group Company and fellow subsidiaries, associates and joint ventures, which were carried out in the ordinary course of business, are as follows: *(Continued)*

In connection with the Reorganisation, the Company and Sinopec Group Company entered into a number of agreements under which 1) Sinopec Group Company will provide goods and products and a range of ancillary, social and supporting services to the Group and 2) the Group will sell certain goods to Sinopec Group Company. These agreements impacted the operating results of the Group for the year ended 31 December 2025. The terms of these agreements are summarised as follows:

- (a) The Company has entered into a non-exclusive “Agreement for Mutual Provision of Products and Ancillary Services” (“Mutual Provision Agreement”) with Sinopec Group Company effective from 1 January 2000 in which Sinopec Group Company has agreed to provide the Group with certain ancillary production services, construction services, information advisory services, supply services and other services and products. While each of Sinopec Group Company and the Company is permitted to terminate the Mutual Provision Agreement upon at least six months’ notice, Sinopec Group Company has agreed not to terminate the agreement if the Group is unable to obtain comparable services from a third party. The pricing policy for these services and products provided by Sinopec Group Company to the Group is as follows:
 - the government-prescribed price;
 - where there is no government-prescribed price, the government-guidance price;
 - where there is neither a government-prescribed price nor a government-guidance price, the market price; or
 - where none of the above is applicable, the price to be agreed between the parties, which shall be based on a reasonable cost incurred in providing such services plus a profit margin not exceeding 6%.
- (b) The Company has entered into a non-exclusive “Agreement for Provision of Cultural and Educational, Health Care and Community Services” with Sinopec Group Company effective from 1 January 2000 in which Sinopec Group Company has agreed to provide the Group with certain cultural, educational, health care and community services on the same pricing terms and termination conditions as agreed to in the above Mutual Provision Agreement.
- (c) The Company has entered into a number of lease agreements with Sinopec Group Company to lease certain lands and buildings effective on 1 January 2000. The lease term is 40 or 50 years for lands and 20 years for buildings, respectively. The Company and Sinopec Group Company can renegotiate the rental amount every three years for land. The Company and Sinopec Group Company can renegotiate the rental amount for buildings every year. However such amount cannot exceed the market price as determined by an independent third party.
- (d) The Company has entered into agreements with Sinopec Group Company effective from 1 January 2000 under which the Group has been granted the right to use certain trademarks, patents, technology and computer software developed by Sinopec Group Company.
- (e) The Company has entered into a service station franchise agreement with Sinopec Group Company effective from 1 January 2000 under which its service stations and retail stores would exclusively sell the refined products supplied by the Group.
- (f) On the basis of a series of continuing connected transaction agreements signed in 2000, the Company and Sinopec Group Company have signed the Seventh Supplementary Agreement on 23 August 2024, which took effect on 1 January 2025 and made adjustment to “Mutual Supply Agreement”, “Land Leasing Contract” and “Buildings Leasing Contract”.

59 RELATED PARTIES AND RELATED PARTY TRANSACTIONS (Continued)

(4) Balances with Sinopec Group Company and fellow subsidiaries, associates and joint ventures

The balances with Sinopec Group Company and fellow subsidiaries, associates and joint ventures at 31 December 2025 and 31 December 2024 are as follows:

	The ultimate holding company		Other related companies	
	At 31 December 2025	At 31 December 2024	At 31 December 2025	At 31 December 2024
	RMB million	RMB million	RMB million	RMB million
Cash at bank and on hand	–	–	74,571	66,433
Accounts receivable	–	3	12,982	9,148
Receivables financing	–	–	41	166
Other receivables	68	71	20,517	14,804
Prepayments and other current assets	177	150	747	1,039
Other non-current assets	–	–	7,072	4,648
Bills payable	–	–	10,693	7,267
Accounts payable	28	35	12,263	19,073
Contract liabilities	12	1	4,334	5,348
Other payables and other current liabilities	21	13	28,382	30,464
Other non-current liabilities	–	–	9,536	6,415
Short-term loans	–	–	6,300	3,862
Long-term loans (including current portion)	–	–	25,737	24,116
Lease liabilities (including current portion)	58,727	62,783	92,211	83,572

Amounts due from/to Sinopec Group Company and fellow subsidiaries, associates and joint ventures, other than short-term loans and long-term loans, bear no interest, are unsecured and are repayable in accordance with normal commercial terms. The terms and conditions associated with short-term loans and long-term loans payable to Sinopec Group Company and fellow subsidiaries are set out in Note 23 and Note 32.

As at and for the year ended 31 December 2025, and as at and for the year ended 31 December 2024, no individually significant impairment losses for bad and doubtful debts were recorded in respect of amounts due from Sinopec Group Company and fellow subsidiaries, associates and joint ventures.

(5) Key management personnel emoluments

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly, including directors and supervisors of the Group. The key management personnel compensations are as follows:

	2025	2024
	RMB thousand	RMB thousand
Short-term employee benefits	7,970	8,149
Retirement scheme contributions	505	554
Total	8,475	8,703

60 PRINCIPAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The Group's financial condition and results of operations are sensitive to accounting methods, assumptions and estimates that underlie the preparation of the financial statements. The Group bases the assumptions and estimates on historical experience and on various other assumptions that it believes to be reasonable and which form the basis for making judgements about matters that are not readily apparent from other sources. On an on-going basis, management evaluates its estimates. Actual results may differ from those estimates as facts, circumstances and conditions change.

The selection of critical accounting policies, the judgements and other uncertainties affecting application of those policies and the sensitivity of reported results to changes in conditions and assumptions are factors to be considered when reviewing the financial statements. The significant accounting policies are set forth in Note 3. The Group believes the following critical accounting policies involve the most significant judgements and estimates used in the preparation of the financial statements.

60 PRINCIPAL ACCOUNTING ESTIMATES AND JUDGEMENTS *(Continued)***(a) Oil and gas properties and reserves**

The accounting for the exploration and production segment's oil and gas activities is subject to accounting rules that are unique to the oil and gas industry. The Group has used the successful efforts method to account for oil and gas business activities. The successful efforts method reflects the volatility that is inherent in exploring for mineral resources in that costs of unsuccessful exploratory efforts are charged to expense. These costs primarily include dry hole costs, seismic costs and other exploratory costs.

Engineering estimates of the Group's oil and gas reserves are inherently imprecise and represent only approximate amounts because of the subjective judgements involved in developing such information. Although there are inherent inaccuracies in engineering estimates, these estimates are used as benchmark for depreciation costs, impairment losses and future demolition costs. There are authoritative guidelines regarding the engineering criteria that have to be met before estimated oil and gas reserves can be designated as "proved". Proved and proved developed reserves estimates are updated at least annually and take into account recent production and technical information about each field. In addition, as prices and cost levels change from year to year, the estimate of proved and proved developed reserves also changes. This change is considered a change in estimate for accounting purposes and is reflected on a prospective basis in related depreciation rates. Oil and gas reserves have a direct impact on the assessment of the recoverability of the carrying amounts of oil and gas properties reported in the financial statements. If proved reserves estimates are revised downwards, the Group's earnings could be affected by changes in depreciation expense or an immediate write-down of the carrying amount of oil and properties.

Future dismantlement costs for oil and gas properties are estimated with reference to engineering estimates after taking into consideration the anticipated method of dismantlement required in accordance with industry practices in the similar geographic area, including estimation of economic life of oil and gas properties, technology and price level. The present values of these estimated future dismantlement costs are capitalised as oil and gas properties with equivalent amounts recognised as provisions for dismantlement costs.

(b) Impairment for assets

If circumstances indicate that the net book value of a long-lived asset may not be recoverable, the asset may be considered "impaired", and an impairment loss may be recognised in accordance with "CASs 8 – Impairment of Assets". The carrying amounts of long-lived assets are reviewed periodically in order to assess whether the recoverable amounts have declined below the carrying amounts. These assets are tested for impairment whenever events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. When such a decline has occurred, the carrying amount is reduced to recoverable amount. For goodwill, the recoverable amount is estimated annually. The recoverable amount is the greater of the fair value less costs to sell and the present value of expected future cash flows. It is difficult to precisely estimate the fair value because quoted market prices for the Group's assets or cash-generating units are not readily available. Therefore, the Group determines the recoverable amount based on the present value of the expected future cash flows of assets. The expected future cash flows of assets are based on the most recent financial budget or forecast data approved by management, as well as stable or decreasing growth rates for years after the budget or forecast period. If the increasing growth rate is reasonable, then it should be based on the increasing growth rate. In appropriate and reasonable circumstances, the growth rate can be zero or negative. Expected cash flows based on budgets or forecasts typically cover five years, and if a longer period is reasonable, it can cover a longer period. When estimating cash flows for years after the budget or forecast period, the growth rate used should not exceed the long-term average growth rate of the industry or market in which the products operated by the group are located, or the long-term average growth rate of the market in which the asset is located, unless it can prove that a higher growth rate is reasonable. In determining the discount rate, the weighted average cost of capital is usually used as the basis. In determining the value of expected future cash flows, expected cash flows generated by the asset or the cash-generating unit are discounted to their present value, which requires significant judgement relating to sales volume, selling price, amount of operating costs and discount rate. The Group uses all readily available information in determining an amount that is a reasonable approximation of recoverable amount, including estimates based on reasonable and supportable assumptions and projections of sales volume, selling price, amount of operating costs and discount rate.

(c) Depreciation

Fixed assets other than oil and gas properties, are depreciated on a straight-line basis over the estimated useful lives of the assets, after taking into account the estimated residual value. Management reviews the estimated useful lives of the assets at least annually in order to determine the amount of depreciation expense to be recorded during any reporting period. The useful lives are based on the Group's historical experience with similar assets and taking into account anticipated technological changes. The depreciation expense for future periods is adjusted if there are significant changes from previous estimates.

(d) Measurement of expected credit losses

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive).

The Group measures and recognises expected credit losses, considering reasonable and supportable information about the relevant past events, current conditions and forecasts of future economic conditions.

The Group regularly monitors and reviews the assumptions used for estimating expected credit losses.

60 PRINCIPAL ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued)

(e) Allowance for diminution in value of inventories

If the costs of inventories become higher than their net realisable values, an allowance for diminution in value of inventories is recognised. Net realisable value represents the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. Management bases the estimates on all available information, including the current market prices of the finished goods and raw materials, and historical operating costs. If the actual selling prices were to be lower or the costs of completion were to be higher than estimated, the actual allowance for diminution in value of inventories would be higher than estimated.

61 PRINCIPAL SUBSIDIARIES

The Company's principal subsidiaries have been consolidated into the Group's financial statements for the year ended 31 December 2025. The following list contains the particulars of subsidiaries which principally affected the results, assets and liabilities of the Group:

Full name of enterprise	Principal activities	Registered capital/paid-up capital million	Actual investment at 31 December 2025 million	Percentage of equity interest/ voting right held by the Group %	Non-controlling Interests at 31 December 2025 RMB million
(a) Subsidiaries acquired through group restructuring:					
China Petrochemical International Company Limited	Trading of petrochemical products	RMB1,400	RMB1,856	100.00	11
China International United Petroleum and Chemical Company Limited	Trading of crude oil and petrochemical products	RMB5,000	RMB6,585	100.00	6,167
Sinopec Catalyst Company Limited	Production and sale of catalyst products	RMB1,500	RMB2,981	100.00	369
Sinopec Yangzi Petrochemical Company Limited	Manufacturing of intermediate petrochemical products and petroleum products	RMB15,651	RMB15,756	100.00	-
Sinopec Lubricant Company Limited	Production and sale of refined petroleum products, lubricant base oil, and petrochemical materials	RMB3,374	RMB3,374	100.00	78
Sinopec Yizheng Chemical Fibre Limited Liability Company	Production and sale of polyester chips and polyester fibres	RMB4,000	RMB7,437	100.00	-
Sinopec (Henan) Refining and Chemical Co., Ltd.	Manufacturing of intermediate petrochemical products and petroleum products	RMB1,843	RMB2,248	100.00	-
Sinopec Marketing Company Limited	Marketing and distribution of refined petroleum products	RMB28,403	RMB20,000	70.43	83,571
Sinopec Kantons Holdings Limited ("Sinopec Kantons")	Provision of crude oil jetty and natural gas pipeline transportation services	HKD248	HKD3,952	60.33	5,953
Sinopec Shanghai Petrochemical Company Limited ("Shanghai Petrochemical")	Manufacturing of synthetic fibres, resin and plastics, intermediate petrochemical products and petroleum products	RMB10,543	RMB5,462	51.81	11,249
Fujian Petrochemical Company Limited ("Fujian Petrochemical") (i)	Manufacturing of plastics, intermediate petrochemical products and petroleum products	RMB10,492	RMB5,786	50.00	3,983
(b) Subsidiaries established by the Group:					
Sinopec International Petroleum Exploration and Production Limited ("SIPL")	Investment in exploration, production and sale of petroleum and natural gas	RMB8,250	RMB8,250	100.00	4,909
Sinopec Overseas Investment Holding Limited ("SOIHL")	Investment holding of overseas business	USD4,942	USD4,942	100.00	-
Sinopec Chemical Sales Company Limited	Marketing and distribution of petrochemical products	RMB1,000	RMB1,165	100.00	152
Sinopec Great Wall Energy & Chemical Company Limited	Coal chemical industry investment management, production and sale of coal chemical products	RMB22,761	RMB22,988	100.00	23
Sinopec Beihai Refining and Chemical Limited Liability Company	Import and processing of crude oil, production, storage and sale of petroleum products and petrochemical products	RMB5,294	RMB5,240	98.98	142
ZhongKe (Guangdong) Refinery & Petrochemical Company Limited	Crude oil processing and petroleum products manufacturing	RMB8,168	RMB6,535	90.30	2,352
Sinopec Qingdao Refining and Chemical Company Limited	Manufacturing of intermediate petrochemical products and petroleum products	RMB5,153	RMB4,380	85.00	2,217
Sinopec-SK (Wuhan) Petrochemical Company Limited ("Sinopec-SK")	Production, sale, research and development of petroleum, petrochemical and ethylene products and downstream by products	RMB7,193	RMB4,244	59.00	2,359
(c) Subsidiaries acquired through business combination under common control:					
Sinopec Hainan Refining and Chemical Company Limited	Manufacturing of intermediate petrochemical products and petroleum products	RMB9,606	RMB12,615	100.00	304
Sinopec Qingdao Petrochemical Company Limited	Manufacturing of intermediate petrochemical products and petroleum products	RMB1,595	RMB7,233	100.00	-
Sinopec Shanghai Gaoqiao Petrochemical Co., Ltd. ("Gaoqiao Petrochemical")	Manufacturing of intermediate petrochemical products and petroleum products	RMB10,000	RMB4,804	55.00	9,723
Sinopec Hunan Petrochemical Co. Ltd. ("Hunan Petrochemical")	Crude oil processing and petroleum products manufacturing	RMB7,333	RMB5,477	74.69	3,720

* The non-controlling interests of subsidiaries which the Group holds 100% of equity interests at the end of the year are the non-controlling interests of their subsidiaries.

Except for Sinopec Kantons and SOIHL, which are incorporated in Bermuda and Hong Kong SAR, respectively, all of the above principal subsidiaries are incorporated and operate their businesses principally in the PRC.

Note:

(i) The Group consolidated the financial statements of the entity because it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those return through its power over the entity.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2025

61 PRINCIPAL SUBSIDIARIES (Continued)

Summarised financial information on subsidiaries with material non-controlling interests

Set out below are the summarised financial information which the amount before inter-company eliminations for each subsidiary whose non-controlling interests that are material to the Group.

62 COMMITMENTS

Capital commitments

At 31 December 2025 and 31 December 2024, capital commitments of the Group are as follows:

	At 31 December 2025 RMB million	At 31 December 2024 RMB million
Authorised and contracted for (i)	170,368	177,173
Authorised but not contracted for	87,592	61,996
Total	257,960	239,169

These capital commitments relate to oil and gas exploration and development, refining and petrochemical production capacity expansion projects, the construction of service stations and oil depots and investment commitments.

Note:

(i) At 31 December 2025, the investment commitments of the Group is RMB21,756 million (2024: RMB13,353 million).

Commitments to joint ventures

Pursuant to certain of the joint venture agreements entered into by the Group, the Group is obliged to purchase products from the joint ventures based on market prices.

Exploration and production licenses

Exploration licenses for exploration activities are registered with the Ministry of Natural Resources. The term of the Group's exploration licenses is 5 years, and may be renewed upon expiration within 30 days prior to expiration of the original term with each renewal being for a five-year term. The Group is obligated to make progressive annual minimum exploration investment relating to the exploration blocks in respect of which the license is issued. The Ministry of Natural Resources also issues production licenses to the Group on the basis of the reserve reports approved by relevant authorities. The maximum term of a full production license is 30 years unless a special dispensation is given by the State Council. The maximum term of the production licenses is 80 years with a special dispensation given by the State Council. The Group's production license is renewable upon application by the Group 30 days prior to expiration.

The Group is required to make payments of exploration license fees and production right usage fees to the Ministry of Natural Resources annually which are expensed. Expenses recognised were approximately RMB164 million for the year ended 31 December 2025 (2024: RMB183 million).

Estimated future annual payments are as follows:

	At 31 December 2025 RMB million	At 31 December 2024 RMB million
Within one year	270	237
Between one and two years	141	179
Between two and three years	78	134
Between three and four years	79	76
Between four and five years	74	76
Thereafter	834	862
Total	1,476	1,564

The implementation of commitments in previous year and the Group's commitments did not have material discrepancy.

63 CONTINGENT LIABILITIES

(a) The Company has been advised by its PRC lawyers that, except for liabilities constituting or arising out of or relating to the business assumed by the Company in the Reorganisation, no other liabilities were assumed by the Company, and the Company is not jointly and severally liable for other debts and obligations incurred by Sinopec Group Company prior to the Reorganisation.

(b) At 31 December 2025 and 31 December 2024, the guarantees by the Group in respect of facilities granted to the parties below are as follows:

	At 31 December 2025 RMB million	At 31 December 2024 RMB million
Joint ventures (Note i)	3,522	8,193
Associates (Note ii)	1,901	–
Total	5,423	8,193

Note (i): The Group provided guarantees in respect to standby credit facilities amounting to RMB7,100 million (31 December 2024: RMB34,351 million) to certain joint ventures. As at 31 December 2025, the amount withdrawn (the portion corresponding to the shareholding ratio of the Group) from banks and guaranteed by the Group was RMB3,522 million (31 December 2024: RMB8,193 million).

The Group provided a guarantee in respect to payment obligation of a joint venture under an certain agreement amount to RMB17,080 million (31 December 2024: RMB17,468 million). As at 31 December 2025, there has not yet incurred the relevant payment obligations and therefore the Group has no guarantee amount (31 December 2024: Nil).

Note (ii): The Group provides guarantees for a joint venture company to accept loans, with a total committed guarantee amount of RMB4,307 million (December 31, 2024: none). As of December 31, 2025, the actual withdrawal amount of the guaranteed company (corresponding to the proportion of equity held by the Group) and the total guarantee amount of the Group amounted to RMB1,901 million (December 31, 2024: none).

Management monitors the risk that the specified debtor will default on the contract and recognises a provision when ECLs on the financial guarantees are determined to be higher than the carrying amount in respect of the guarantees. At 31 December 2025 and 2024, the Group estimates that there is no material liability has been accrued for ECLs related to the Group's obligation under these guarantee arrangements.

Environmental contingencies

Under existing legislation, management believes that there are no probable liabilities that will have a material adverse effect on the financial position or operating results of the Group. The PRC government, however, has moved, and may move further towards more rigorous enforcement of applicable laws, and towards the adoption of more stringent environmental standards. Environmental liabilities are subject to considerable uncertainties which affect the Group's ability to estimate the ultimate cost of remediation efforts. These uncertainties include (i) the exact nature and extent of the contamination at various sites including, but not limited to refineries, oil fields, service stations, terminals and land development areas, whether operating, closed or sold, (ii) the extent of required cleanup efforts, (iii) varying costs of alternative remediation strategies, (iv) changes in environmental remediation requirements, and (v) the identification of new remediation sites. The amount of such future cost is indeterminable due to such factors as the unknown magnitude of possible contamination and the unknown timing and extent of the corrective actions that may be required. Accordingly, the outcome of environmental liabilities under proposed or future environmental legislation cannot reasonably be estimated at present, and could be material.

The Group recognised normal routine pollutant discharge fees of approximately RMB16,474 million in the consolidated financial statements for the year ended 31 December 2025 (2024: RMB18,448 million).

Legal contingencies

The Group is defendant in certain lawsuits as well as the named party in other proceedings arising in the ordinary course of business. Management has assessed the likelihood of an unfavourable outcome of such contingencies, lawsuits or other proceedings and believes that any resulting liabilities will not have a material adverse effect on the financial position, operating results or cash flows of the Group.

64 SEGMENT REPORTING

Segment information is presented in respect of the Group's operating segments. The format is based on the Group's management and internal reporting structure.

In a manner consistent with the way in which information is reported internally to the Group's chief operating decision maker for the purposes of resource allocation and performance assessment, the Group has identified the following five reportable segments. No operating segments have been aggregated to form the following reportable segments.

- (i) Exploration and production — which explores and develops oil fields, produces crude oil and natural gas and sells such products to the refining segment of the Group and external customers.
- (ii) Refining — which processes and purifies crude oil, which is sourced from the exploration and production segment of the Group and external suppliers, and manufactures and sells petroleum products to the chemicals and marketing and distribution segments of the Group and external customers.
- (iii) Marketing and distribution — which owns and operates oil depots and service stations, and distributes and sells refined petroleum products (mainly gasoline and diesel) through wholesale and retail sales networks.
- (iv) Chemicals — which manufactures and sells petrochemical products, derivative petrochemical products and other chemical products to external customers.
- (v) Corporate and others — which largely comprise the trading activities of the import and export companies of the Group and research and development undertaken by other subsidiaries.

The segments were determined primarily because the Group manages its exploration and production, refining, marketing and distribution, chemicals, and corporate and others businesses separately. The reportable segments are each managed separately because they manufacture and/or distribute distinct products with different production processes and due to their distinct operating and gross margin characteristics.

(1) Information of reportable segmental revenues, profits or losses, assets and liabilities

The Group's chief operating decision maker evaluates the performance and allocates resources to its operating segments on an operating profit basis, without considering the effects of finance costs or investment income. Inter-segment transfer pricing is based on the market price or cost plus an appropriate margin, as specified by the Group's policy.

Assets and liabilities dedicated to a particular segment's operations are included in that segment's total assets and liabilities. Segment assets include all tangible and intangible assets, except for cash at bank and on hand, long-term equity investments, deferred tax assets and other unallocated assets. Segment liabilities exclude short-term loans, non-current liabilities due within one year, long-term loans, debentures payable, deferred tax liabilities, other non-current liabilities and other unallocated liabilities.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2025

64 SEGMENT REPORTING *(Continued)***(2) Geographical information**

The geographical information of the Group's external sales and the Group's non-current assets, excluding financial instruments and deferred tax assets are analysed by different regions. In presenting information on the basis of geographical segments, segment revenue is based on the geographical location of customers, and segment assets are based on the geographical location of the assets. The Group's external sales and non-current assets from mainland China were RMB2,240,581 million (2024: RMB2,478,160 million) and RMB1,546,733 million (2024: RMB1,491,020 million), respectively. The proportion to the total revenue from domestic transactions and the proportion to the total non-current assets are 80.5% (2024: 80.6%) and 96.5% (2024: 96.9%) respectively. In addition, there is no other single country or region with segment revenue or segment assets accounting for more than 10%.

65 FINANCIAL INSTRUMENTS**Overview**

Financial assets of the Group include cash at bank and on hand, financial assets held for trading, derivative financial assets, accounts receivable, receivables financing, other receivables and other equity instrument investments. Financial liabilities of the Group include short-term loans, derivative financial liabilities, bills payable, accounts payable, employee benefits payable, other payables, long-term loans, debentures payable and lease liabilities.

The Group has exposure to the following risks from its uses of financial instruments:

- credit risk;
- liquidity risk; and
- market risk.

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework, and developing and monitoring the Group's risk management policies.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, and set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations. Internal audit department undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Group's audit committee.

Credit risk**(i) Risk management**

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's deposits placed with financial institutions (including structured deposits) and receivables from customers. To limit exposure to credit risk relating to deposits, the Group primarily places cash deposits only with large financial institutions in the PRC with acceptable credit ratings. The majority of the Group's accounts receivable relates to sales of petroleum and chemical products to related parties and third parties operating in the petroleum and chemical industries. No single customer accounted for greater than 10% of total accounts receivable at 31 December 2025, except for the amounts due from Sinopec Group Company and fellow subsidiaries. The Group performs ongoing credit evaluations of its customers' financial condition and generally does not require collateral on accounts receivable. The Group maintains an impairment loss for doubtful accounts and actual losses have been within management's expectations.

The carrying amounts of cash at bank and on hand, financial assets held for trading, derivative financial assets, accounts receivable, receivables financing, other receivables and long-term receivables, represent the Group's maximum exposure to credit risk in relation to financial assets.

65 FINANCIAL INSTRUMENTS (Continued)

Credit risk (Continued)

(ii) Impairment of financial assets

The Group's primary type of financial assets that are subject to the expected credit loss model is accounts receivable, receivables financing and other receivables.

The Group's cash deposits are placed only with large financial institutions with acceptable credit ratings, and there is no material impairment loss identified.

For accounts receivable and receivables financing, the Group applies the "No.22 Accounting Standards for Business Enterprises – Financial instruments: recognition and measurement" simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all accounts receivable and receivables financing.

To measure the expected credit losses, accounts receivable and receivables financing have been grouped based on shared credit risk characteristics and the days past due.

The expected loss rates are based on the payment profiles of sales over a period of 36 months before 31 December 2025 or 31 December 2024, respectively, and the corresponding historical credit losses experienced within this period and calculate expected credit losses for the above financial assets using an allowance matrix. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the accounts receivable and receivables financing.

The detailed analysis of accounts receivable and receivables financing is listed in Note 7 and Note 8.

The Group's other receivables are considered to have low credit risk (Note 10), and the loss allowance recognised during the year was therefore limited to 12 months expected credit losses. The Group considers "low credit risk" for other receivables when they have a low risk of default and the issuer has a strong capacity to meet its contractual cash flow obligations in the near term.

Liquidity risk

Liquidity risk is the risk that the Group encounters short fall of capital when meeting its obligation of financial liabilities. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed capital conditions, without incurring unacceptable losses or risking damage to the Group's reputation. The Group prepares monthly cash flow budget to ensure that they will always have sufficient liquidity to meet its financial obligations as they fall due. The Group arranges and negotiates financing with financial institutions and maintains a certain level of standby credit facilities to reduce the liquidity risk.

At 31 December 2025, the Group has standby credit facilities with several PRC financial institutions which provide the Group to borrow up to RMB704,827 million (2024: RMB722,258 million) on an unsecured basis, at a weighted average interest rate of 2.20% per annum (2024: 2.31%). At 31 December 2025, the Group's outstanding borrowings under these facilities were RMB29,421 million (2024: RMB48,231 million) and were included in loans.

The following table sets out the remaining contractual maturities at the balance sheet date of the Group's financial liabilities, which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on prevailing rates at the balance sheet date) and the earliest date the Group would be required to repay:

	Carrying amount RMB million	Total contractual undiscounted cash flow RMB million	At 31 December 2025			
			Within one year or on demand RMB million	More than one year but less than two years RMB million	More than two years but less than five years RMB million	More than five years RMB million
Short-term loans	29,455	32,115	32,115	–	–	–

Total	836,709	943,524	474,368	107,881	107,560	253,715

Management believes that the Group's current cash on hand, expected cash flows from operations and available standby credit facilities from financial institutions will be sufficient to meet the Group's short-term and long-term capital requirements.

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

(a) Currency risk

Currency risk arises on financial instruments that are denominated in a currency other than the functional currency in which they are measured.

The Group does not have significant financial instruments that are denominated in foreign currencies other than the functional currencies of respective entities as at 31 December, and consequently does not have significant exposure to foreign currency risk.

(b) Interest rate risk

The Group's interest rate risk exposure arises primarily from its short-term and long-term loans. Loans carrying interest at variable interest rates and at fixed interest rates expose the Group to cash flow interest rate risk and fair value interest rate risk respectively. The interest rates and terms of repayment of short-term and long-term loans of the Group are disclosed in Note 23 and Note 32, respectively.

At 31 December 2025, it is estimated that a general increase/decrease of 100 basis points in variable interest rates, with all other variables held constant, would decrease/increase the Group's net profit for the year by approximately RMB1,533 million (2024: decrease/increase RMB1,794 million). This sensitivity analysis has been determined assuming that the change of interest rates was applied to the Group's debts outstanding at the balance sheet date with exposure to cash flow interest rate risk. The analysis is performed on the same basis for 2024.

(c) Commodity price risk and hedge accounting

The Group engages in oil and gas operations and is exposed to commodity price risk related to price volatility of crude oil, refined oil products and chemical products. The fluctuations in prices of crude oil, refined oil products and chemical products could have significant impact on the Group. The Group uses derivative financial instruments, including commodity futures and swaps contracts, to manage a portion of such risk.

Based on the dynamic study and judging of the market, combined with the resource demand and production and operation plan, the Group evaluate and monitor the market risk exposure caused by transaction positions, and continuously manage and hedge the risk of commodity price fluctuation caused by market changes.

As at 31 December 2025, the Group had certain commodity contracts of crude oil, refined oil products and chemical products designated as qualified cash flow hedges and economic hedges. At 31 December 2025, it is estimated that a general increase/decrease of USD10 per barrel in basic price of derivative financial instruments, with all other variables held constant, would impact the fair value of derivative financial instruments, which would increase/decrease the Group's net profit for the year by approximately RMB4,385 million (2024: decrease/increase RMB8,698 million), and decrease/increase the Group's other comprehensive income by approximately RMB8,812 million (2024: decrease/increase RMB5,883 million). This sensitivity analysis has been determined assuming that the change in prices had occurred at the balance sheet date and the change was applied to the Group's derivative financial instruments at that date with exposure to commodity price risk. The analysis is performed on the same basis for 2024.

65 FINANCIAL INSTRUMENTS (Continued)

Market risk (Continued)

(c) Commodity price risk and hedge accounting (Continued)

For the hedge relationship with cash flow hedge accounting applied, the corresponding changes in cash flow hedge reserves are as follows:

	The Group 2025 RMB million	2024 RMB million
Beginning of the year	3,338	5,758
Effective portion of changes in fair value of hedging instruments recognised during the year	16,386	(1,193)
Reclassification adjustments for amounts transferred to the consolidated income statement	(14,830)	(562)
Amounts transferred to initial carrying amount of hedged items	(246)	(1,157)
Related tax	(391)	492
End of the year	4,257	3,338

The ineffective portion of cash flow hedge relationship is disclosed in Note 51 and Note 52.

Fair values

(i) Financial instruments carried at fair value

The following table presents the carrying value of financial instruments measured at fair value at the balance sheet date across the three levels of the fair value hierarchy. With the fair value of each financial instrument categorised in its entirety based on the lowest level of input that is significant to that fair value measurement. The levels are defined as follows:

- Level 1 (highest level): fair values measured using quoted prices (unadjusted) in active markets for identical financial instruments.
- Level 2: fair values measured using quoted prices in active markets for similar financial instruments, or using valuation techniques in which all significant inputs are directly or indirectly based on observable market data.
- Level 3 (lowest level): fair values measured using valuation techniques in which any significant input is not based on observable market data.

At 31 December 2025

The Group

	Level 1 RMB million	Level 2 RMB million	Level 3 RMB million	Total RMB million
Assets				
Financial assets held for trading:				
– Fund Investments	4	–	–	4
Derivative financial assets:				
– Derivative financial assets	758	604	–	1,362
Receivables financing:				
– Receivables financing	–	–	5,340	5,340
Other equity instrument investments:				
– Other Investments	6,840	–	316	7,156
	7,602	604	5,656	13,862
Liabilities				
Derivative financial liabilities:				
– Derivative financial liabilities	3,796	1,880	–	5,676
	3,796	1,880	–	5,676

65 FINANCIAL INSTRUMENTS (Continued)

Fair values (Continued)

(i) Financial instruments carried at fair value (Continued)

At 31 December 2024

The Group

	Level 1 RMB million	Level 2 RMB million	Level 3 RMB million	Total RMB million
Assets				
Financial assets held for trading:				
– Fund Investments	4	–	–	4
Derivative financial assets:				
– Derivative financial assets	824	1,730	–	2,554
Receivables financing:				
– Receivables financing	–	–	2,613	2,613
Other equity instrument investments:				
– Other Investments	93	–	323	416
	921	1,730	2,936	5,587
Liabilities				
Derivative financial liabilities:				
– Derivative financial liabilities	2,496	916	–	3,412
	2,496	916	–	3,412

During the year ended 31 December 2025 and 2024, there was no transfer between instruments in Level 1 and Level 2.

Management of the Group uses discounted cash flow model with inputted interest rate and commodity index, which were influenced by the interest rate level of similar instruments to evaluate the fair value of receivables financing classified as Level 3 financial assets.

(ii) Fair values of financial instruments carried at other than fair value

The fair values of the Group's financial instruments carried at other than fair value (other than long-term indebtedness and investments in unquoted equity securities) approximate their carrying amounts due to the short-term maturity of these instruments. The fair values of long-term indebtedness are estimated by discounting future cash flows using current market interest rates offered to the Group for debt with substantially the same characteristic and maturities range from 1.8% to 3.87% (2024: from 1.74% to 4.49%). The following table presents the carrying amount and fair value of the Group's long-term indebtedness (other than loans from Sinopec Group Company and fellow subsidiaries) at 31 December 2025 and 2024:

	At 31 December 2025 RMB million	At 31 December 2024 RMB million
Carrying amount	300,328	230,613
Fair value	261,898	228,946

The Group has not developed an internal valuation model necessary to estimate the fair value of loans from Sinopec Group Company and fellow subsidiaries as it is not considered practicable to estimate their fair value because the cost of obtaining discount and borrowing rates for comparable borrowings would be excessive based on the Reorganisation of the Group, its existing capital structure and the terms of the borrowings.

Except for the above items, the financial assets and liabilities of the Group are carried at amounts not materially different from their fair values at 31 December 2025 and 2024.

66 BASIC AND DILUTED EARNINGS PER SHARE

(i) Basic earnings per share

Basic earnings per share is calculated by the net profit attributable to equity shareholders of the Company and the weighted average number of outstanding ordinary shares of the Company:

	2025	2024
Net profit attributable to equity shareholders of the Company (RMB million)	31,809	50,313
Weighted average number of outstanding ordinary shares of the Company (RMB million)	121,187	121,138
Basic earnings per share (RMB/share)	0.262	0.415

The calculation of the weighted average number of ordinary shares is as follows:

	2025	2024
Weighted average number of outstanding ordinary shares of the Company at 1 January (million)	121,282	119,349
Impact of issuing ordinary shares (million shares)	–	1,888
Impact of repurchasing shares (million shares)	(95)	(99)
Weighted average number of outstanding ordinary shares of the Company at 31 December (million)	121,187	121,138

(ii) Diluted earnings per share

There are no potential dilutive ordinary shares, and diluted earnings per share are equal to the basic earning per share.

67 RETURN ON NET ASSETS AND EARNINGS PER SHARE

In accordance with “Regulation on the Preparation of Information Disclosures of Companies Issuing Public Shares No.9 – Calculation and Disclosure of the Return on Net Assets and Earnings Per Share” (2010 revised) issued by the CSRC and relevant accounting standards, the Group’s return on net assets and earnings per share are calculated as follows:

	2025			2024		
	Weighted average return on net assets (%)	Basic earnings per share (RMB/Share)	Diluted earnings per share (RMB/Share)	Weighted average return on net assets (%)	Basic earnings per share (RMB/Share)	Diluted earnings per share (RMB/Share)
Net profit attributable to the Company’s ordinary equity shareholders	3.86	0.262	0.262	6.19	0.415	0.415
Net profit deducted extraordinary gains and losses attributable to the Company’s ordinary equity shareholders	3.58	0.244	0.244	5.91	0.397	0.397

68 EXTRAORDINARY GAINS AND LOSSES

Pursuant to “Explanatory Announcement No.1 on Information Disclosure for Companies Offering Their Securities to the Public – Extraordinary Gain and Loss” (2023), the extraordinary gains and losses of the Group are as follows:

	2025 RMB million	2024 RMB million
Extraordinary (gains)/losses for the year:		
Net gains on disposal of non-current assets	(1,040)	(1,967)
Donations	293	293
Government grants	(1,396)	(4,068)
Losses/(gains) on holding and disposal of business and various investments	723	(586)
Other non-operating (gains)/losses, net	(2,778)	1,807
Subtotal	(4,198)	(4,521)
Tax effect	1,489	1,485
Total	(2,709)	(3,036)
Attributable to:		
Equity shareholders of the Company	(2,280)	(2,256)
Non-controlling interests	(429)	(780)

**Independent auditor's report
to the shareholders of China Petroleum & Chemical Corporation**
(established in the People's Republic of China with limited liability)

OPINION

We have audited the consolidated financial statements of China Petroleum & Chemical Corporation ("the Company") and its subsidiaries ("the Group") set out on pages 156 to 212 which comprise the consolidated statement of financial position as at 31 December 2025, the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended and notes, comprising material accounting policy information and other explanatory information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2025 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") as issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* ("the Code"), as applicable to the audits of financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with these requirements and the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTER

Key audit matter is the matter that, in our professional judgment, was of most significance in our audit of the consolidated financial statements of the current period. The matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Assessment of impairment of property, plant and equipment relating to oil and gas producing activities

Refer to notes 2(g), 2(n), 8, 17 and 44 to the consolidated financial statements

The Key Audit Matter

The Company reported property, plant and equipment of Renminbi ("RMB") 770,198 million as at 31 December 2025, a portion of which related to oil and gas producing activities. The Company reported impairment losses of RMB1,206 million for the property, plant and equipment relating to oil and gas producing activities for the year ended 31 December 2025.

The Company groups property, plant and equipment relating to oil and gas producing activities into cash-generating units ("CGUs") for impairment assessment. The Company compares the carrying amount of individual CGU with its value in use, using a discounted cash flow forecast, which was prepared based on the future production profiles included in the oil and gas reserves reports, to determine the impairment loss to be recognised.

We identified assessment of impairment of property, plant and equipment relating to oil and gas producing activities as a key audit matter. The value in use amounts of these CGUs are sensitive to the changes to future selling prices and production costs for crude oil and natural gas, future production profiles, and discount rates. Therefore a higher degree of subjective management judgment was required to evaluate the Company's impairment assessment of property, plant and equipment relating to oil and gas producing activities.

How the matter was addressed in our audit

The following are the primary procedures we performed to address this key audit matter:

- we evaluated the design and tested the operating effectiveness of certain internal controls related to the process for impairment assessment of property, plant and equipment relating to oil and gas producing activities;
- we assessed the competence, capabilities and objectivity of the Company's reserves specialists and evaluated the methodology adopted by them in estimating the oil and gas reserves against the recognised industry standards;
- we compared future selling prices for crude oil and natural gas used in the discounted cash flow forecasts with the Company's business plans and forecasts by external analysts;
- we compared future production costs and future production profiles used in the discounted cash flow forecasts with oil and gas reserves reports issued by the reserves specialists; and
- we involved valuation professionals with specialised skills and knowledge, who assisted in assessing the discount rates applied in the discounted cash flow forecasts against a discount rate range that was independently developed using publicly available market data for comparable companies in the same industry.

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The directors are responsible for the other information. The other information comprises all the information included in the annual report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon as part of our engagement to audit the consolidated financial statements. We have performed an assurance engagement on the disclosed continuing connected transactions that forms part of the other information and provided a separate assurance practitioner's conclusion thereon that is included within the other information.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRS Accounting Standards as issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Ho Ying Man, Simon (practising certificate number: P04538).

Notes:

(a) According to the PRC Company Law and the Articles of Association of the Company, the Company is required to transfer 10% of its net profit determined in accordance with the accounting policies complying with China Accounting Standards for Business Enterprises ("CASs"), adopted by the Group to statutory surplus reserve. In the event that the reserve balance reaches 50% of the registered capital, no transfer is required. The transfer to this reserve must be made before distribution of a dividend to shareholders. Statutory surplus reserve can be used to make good previous years' losses, if any, and may be converted into share capital by issuing of new shares to shareholders in proportion to their existing shareholdings or by increasing the par value of the shares currently held by them, provided that the balance after such issue is not less than 25% of the registered capital.

During the year ended 31 December 2025, the Company transferred RMB3,563 million (2024: RMB4,529 million) to the statutory surplus reserve, being 10% of the current year's net profit determined in accordance with the accounting policies complying with CASs.

(b) The usage of the discretionary surplus reserve is similar to that of statutory surplus reserve.

(c) As at 31 December 2025, the amount of retained earnings available for distribution was RMB110,483 million (2024: RMB106,517 million), being the amount determined in accordance with CASs. According to the Articles of Association of the Company, the amount of retained earnings available for distribution to shareholders of the Company is lower of the amount determined in accordance with the accounting policies complying with CASs and the amount determined in accordance with the accounting policies complying with IFRS Accounting Standards.

(d) The capital reserve mainly represents (i) the difference between the total amount of the par value of shares issued and the amount of the net assets transferred from Sinopec Group Company in connection with the Reorganisation (Note 1); and (ii) the difference between the considerations paid over or received the amount of the net assets of entities and related operations acquired from or sold to Sinopec Group Company and non-controlling interests.

(e) The application of the share premium account is governed by Sections 213 and 214 of the PRC Company Law.

The notes on pages 163 to 212 form part of these consolidated financial statements.

CONSOLIDATED STATEMENT OF CASH FLOWS

for the year ended 31 December 2025

1 PRINCIPAL ACTIVITIES, ORGANISATION, BASIS OF PREPARATION AND ACCOUNTING POLICY CHANGES

Principal activities

China Petroleum & Chemical Corporation (the “Company”) is an energy and chemical company incorporated in the People’s Republic of China (the “PRC”) that, through its subsidiaries (hereinafter collectively referred to as the “Group”), engages in oil and gas and chemical operations. Oil and gas operations consist of exploring for, developing and producing crude oil and natural gas; transporting crude oil and natural gas by pipelines; refining crude oil into finished petroleum products; and marketing crude oil, natural gas and refined petroleum products. Chemical operations include the manufacture and marketing of a wide range of chemicals for industrial uses.

Organisation

The Company was established in the PRC on 25 February 2000 as a joint stock limited company as part of the reorganisation (the “Reorganisation”) of China Petrochemical Corporation (“Sinopec Group Company”), the ultimate holding company of the Group and a ministry-level enterprise under the direct supervision of the State Council of the PRC. Prior to the incorporation of the Company, the oil and gas and chemical operations of the Group were carried on by oil administration bureaux, petrochemical and refining production enterprises and sales and marketing companies of Sinopec Group Company.

As part of the Reorganisation, certain of Sinopec Group Company’s core oil and gas and chemical operations and businesses together with the related assets and liabilities were transferred to the Company. On 25 February 2000, in consideration for Sinopec Group Company transferring such oil and gas and chemical operations and businesses and the related assets and liabilities to the Company, the Company issued 68.8 billion domestic state-owned ordinary shares with a par value of RMB1.00 each to Sinopec Group Company. The shares issued to Sinopec Group Company on 25 February 2000 represented the entire registered and issued share capital of the Company on that date. The oil and gas and chemical operations and businesses transferred to the Company were related to (i) the exploration, development and production of crude oil and natural gas, (ii) the refining, transportation, storage and marketing of crude oil and petroleum products, and (iii) the production and sales of chemicals.

Basis of preparation

The accompanying consolidated financial statements have been prepared in accordance with all applicable IFRS Accounting Standards as issued by the International Accounting Standards Board (“IASB”). IFRS Accounting Standards includes International Accounting Standards (“IAS”) and related interpretations (“IFRIC”). These consolidated financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited. A summary of the material accounting policies adopted by the Group are set out in Note 2.

Accounting policy changes

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new and amended standards as set out below.

(a) New and amended standards and interpretations adopted by the Group

The Group has applied the amendments to IAS 21, *The effects of changes in foreign exchange rates-Lack of exchangeability* issued by the IASB to this final financial report for the current accounting period. The amendments do not have a material impact on these financial statements as the Group has not entered into any foreign currency transactions in which the foreign currency is not exchangeable into another currency.

The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

(b) New and amended standards and interpretations not yet adopted by the Group

A number of new accounting standards and interpretations have been issued that are not effective for the year ended 31 December 2025 and have not been adopted by the Group. These standards are not expected to have a material impact on the Group’s consolidated financial statements when adopted except for the followings:

1 PRINCIPAL ACTIVITIES, ORGANISATION, BASIS OF PREPARATION AND ACCOUNTING POLICY CHANGES *(Continued)*

(b) New and amended standards and interpretations not yet adopted by the Group *(Continued)*

IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 will replace IAS 1 *Presentation of financial statements* and aims to improve the transparency and comparability of information about an entity's financial statements. IFRS 18 is effective for annual reporting periods beginning on or after 1 January 2027 and is to be applied retrospectively.

- Among other changes, under IFRS 18, entities are required to classify all income and expenses into five categories in the statement of profit or loss, namely the operating, investing, financing, discontinued operations and income tax categories. Entities are also required to provide specific disclosures about management-defined performance measures in a single note in the financial statements.

The Group does not plan to early adopt IFRS 18 and is still in the process of assessing the impact of the adoption.

The preparation of the consolidated financial statements in accordance with IFRS Accounting Standards requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Key assumptions and estimation made by management in the application of IFRS Accounting Standards that have significant effect on the consolidated financial statements and the major sources of estimation uncertainty are disclosed in Note 44.

2 MATERIAL ACCOUNTING POLICIES

(a) Basis of consolidation

The consolidated financial statements comprise the Company and its subsidiaries, and interest in associates and joint ventures.

(i) Subsidiaries and non-controlling interests

Subsidiaries are those entities controlled by the Group. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

The financial statements of subsidiaries are included in the consolidated financial statements from the date that control effectively commences until the date that control effectively ceases.

Non-controlling interests at the date of statement of financial position, being the portion of the net assets of subsidiaries attributable to equity interests that are not owned by the Company, whether directly or indirectly through subsidiaries, are presented in the consolidated statement of financial position and consolidated statement of changes in equity within equity, separately from equity attributable to the shareholders of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated income statement and the consolidated statement of comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and the shareholders of the Company.

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

If a business combination involving entities not under common control is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognised in the consolidated income statement.

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset (Note 2(j)) or, when appropriate, the cost on initial recognition of an investment in an associate or joint venture (Note 2(a)(ii)).

In the Company's statement of financial position, investments in subsidiaries are stated at cost less impairment losses (Note 2(n)).

The particulars of the Group's principal subsidiaries are set out in Note 42.

2 MATERIAL ACCOUNTING POLICIES (Continued)

(a) Basis of consolidation (Continued)

(ii) Associates and joint ventures

An associate is an entity, not being a subsidiary, in which the Group exercises significant influence over its management. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The investments in joint arrangements are classified as either joint operations or joint ventures depending on the contractual rights and obligations each investor has rather than the legal structure of the joint arrangement. A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement.

Investments in associates and joint ventures are accounted for in the consolidated and separate financial statements using the equity method from the date that significant influence or joint control commences until the date that significant influence or joint control ceases. Under the equity method, the investment is initially recorded at cost and adjusted thereafter for the post acquisition change in the Group's share of the investee's net assets and any impairment loss relating to the investment (Note 2(n)).

The Group's share of the post-acquisition, post-tax results of the investees and any impairment losses for the year are recognised in the consolidated income statement, whereas the Group's share of the post-acquisition, post-tax items of the investees' other comprehensive income is recognised in the consolidated statement of comprehensive income.

When the Group's share of losses exceeds its interest in the associate or the joint venture, the Group's interest is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the investee. For this purpose, the Group's interest is the carrying amount of the investment under the equity method, together with any other long-term interests that in substance form part of the Group's net investment in the associate or the joint venture, after applying the expected credit losses ("ECLs") model to such other long-term interests where applicable.

When the Group ceases to have significant influence over an associate or joint control over a joint venture, it is accounted for as a disposal of the entire interest in that investee, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former investee at the date when significant influence or joint control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset (see Note 2(j)) or, when appropriate, the cost on initial recognition of an investment in an associate.

(iii) Transactions eliminated on consolidation

Inter-company balances and transactions and any unrealised gains arising from inter-company transactions are eliminated on consolidation. Unrealised gains arising from transactions with associates and joint ventures are eliminated to the extent of the Group's interest in the entity. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(iv) Merger accounting for common control combination

The consolidated financial statements incorporate the financial statements of the combining entities or businesses in which the common control combination occurs as if they had been combined from the date when the combining entities or businesses first came under the control of the controlling party. The net assets of the combining entities or businesses are combined using the existing book values from the controlling parties' perspective. No amount is recognised as consideration for goodwill or excess of acquirers' interest in the net fair value of acquiree's identifiable assets, liabilities and contingent liabilities over cost at the time of common control combination, to the extent of the continuation of the controlling party's interest.

The consolidated income statement includes the results of each of the combining entities or businesses from the earliest date presented or since the date when the combining entities or businesses first came under the common control, where there is a shorter period, regardless of the date of the common control combination. The comparative amounts in the consolidated financial statements are presented as if the entities or businesses had been combined at the beginning of the earliest period presented or when they first came under common control, whichever is shorter.

A uniform set of accounting policies is adopted by those entities. All intra-group transactions, balances and unrealised gains on transactions between combining entities or businesses are eliminated on consolidation. Transaction costs, including professional fees, registration fees, costs of furnishing information to shareholders, costs or losses incurred in combining operations of the previously separate businesses, etc., incurred in relation to the common control combination that is to be accounted for by using merger accounting is recognised as an expense in the period in which it is incurred.

2 MATERIAL ACCOUNTING POLICIES (Continued)

(b) Translation of foreign currencies

The presentation currency of the Group is Renminbi. Foreign currency transactions during the year are translated into Renminbi at the applicable rates of exchange quoted by the People's Bank of China ("PBOC") prevailing on the transaction dates. Foreign currency monetary assets and liabilities are translated into Renminbi at the PBOC's rates at the date of the statement of financial position.

Exchange differences, other than those capitalised as construction in progress, are recognised as income or expense in the "finance costs" section of the consolidated income statement.

The results of foreign operations are translated into Renminbi at the applicable rates quoted by the PBOC prevailing on the transaction dates. The statement of financial position items, including goodwill arising on consolidation of foreign operations are translated into Renminbi at the closing foreign exchange rates at the date of the statement of financial position. The income and expenses of foreign operation are translated into Renminbi at the spot exchange rates or an exchange rate that approximates the spot exchange rates on the transaction dates. The resulting exchange differences are recognised in other comprehensive income and accumulated in equity in the other reserves.

On disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation is reclassified from equity to the consolidated income statement when the profit or loss on disposal is recognised.

(c) Cash and cash equivalents

Cash equivalents consist of time deposits with financial institutions with an initial term of less than three months when purchased. Cash equivalents are stated at cost, which approximates fair value.

(d) Trade, bills and other receivables

Trade, bills and other receivables are recognised initially at their transaction price, unless they contain significant financing components when they are recognised at fair value. They are subsequently measured at amortised cost using the effective interest method, less loss allowances for ECLs (Note 2(j)). Trade, bills and other receivables are derecognised if the Group's contractual rights to the cash flows from these financial assets expire or if the Group transfers these financial assets to another party without retaining control or substantially all risks and rewards of the assets.

(e) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost mainly includes the cost of purchase computed using the weighted average method and, in the case of work in progress and finished goods, direct labour and an appropriate proportion of production overheads. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

(f) Property, plant and equipment

An item of property, plant and equipment is initially recorded at cost, less accumulated depreciation and impairment losses (Note 2(n)). The cost of an asset comprises its purchase price, any directly attributable costs of bringing the asset to working condition and location for its intended use. The Group recognises in the carrying amount of an item of property, plant and equipment the cost of replacing part of such an item when that cost is incurred, when it is probable that the future economic benefits embodied with the item will flow to the Group and the cost of the item can be measured reliably. All other expenditure is recognised as an expense in the consolidated income statement in the year in which it is incurred.

Gains or losses arising from the retirement or disposal of an item of property, plant and equipment, other than oil and gas properties, are determined as the difference between the net disposal proceeds and the carrying amount of the item and are recognised as income or expense in the consolidated income statement on the date of retirement or disposal.

Depreciation is provided to write off the cost amount of items of property, plant and equipment, other than oil and gas properties, over its estimated useful life on a straight-line basis, after taking into account its estimated residual value, as follows:

	Estimated usage period	Estimated residuals rate
Plants and buildings	12 to 50 years	3%
Equipment, machinery and others	4 to 30 years	3%

Where parts of an item of property, plant and equipment have different useful lives, the cost of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are reassessed annually.

2 MATERIAL ACCOUNTING POLICIES *(Continued)*

(g) Oil and gas properties

The Group uses the successful efforts method of accounting for its oil and gas producing activities. Under this method, costs of development wells, the related supporting equipment and proved mineral interests in properties are capitalised. The cost of exploratory wells is initially capitalised as construction in progress pending determination of whether the well has found proved reserves. The impairment of exploratory well costs occurs upon the determination that the well has not found proved reserves. The exploratory well costs are usually not carried as an asset for more than one year following completion of drilling, unless (i) the well has found a sufficient quantity of reserves to justify its completion as a producing well if the required capital expenditure is made; (ii) drilling of the additional exploratory wells is under way or firmly planned for the near future; or (iii) other activities are being undertaken to sufficiently progress the assessing of the reserves and the economic and operating viability of the project. All other exploration costs, including geological and geophysical costs, other dry hole costs and annual lease rentals to explore for or use oil and natural gas, are expensed as incurred. Capitalised costs of proved oil and gas properties are amortised on a unit-of-production method based on volumes produced and reserves.

Management estimates future dismantlement costs for oil and gas properties with reference to engineering estimates after taking into consideration the anticipated method of dismantlement required in accordance with the industry practices and the future cash flows are adjusted to reflect such risks specific to the liability, as appropriate. These estimated future dismantlement costs are discounted at pre-tax risk-free rate and are capitalised as oil and gas properties, which are subsequently amortised as part of the costs of the oil and gas properties.

(h) Construction in progress

Construction in progress represents buildings, oil and gas properties, various plant and equipment under construction and pending installation, and is stated at cost less impairment losses (Note 2(n)). Cost comprises direct costs of construction as well as interest charges, and foreign exchange differences on related borrowed funds to the extent that they are regarded as an adjustment to interest charges, during the periods of construction.

Items may be produced while bringing an item of property, plant and equipment to the location and condition necessary for it to be capable of operating in the manner intended by management. The proceeds from selling any such items and the related costs are recognised in profit or loss.

Construction in progress is transferred to property, plant and equipment when the asset is substantially ready for its intended use.

No depreciation is provided in respect of construction in progress.

(i) Goodwill

Goodwill represents amounts arising on acquisition of subsidiaries, associates or joint ventures. Goodwill represents the difference between the cost of acquisition and the fair value of the net identifiable assets acquired.

Prior to 1 January 2008, the acquisition of the non-controlling interests of a consolidated subsidiary was accounted for using the acquisition method whereby the difference between the cost of acquisition and the fair value of the net identifiable assets acquired (on a proportionate share) was recognised as goodwill. From 1 January 2008, any difference between the amount by which the non-controlling interest is adjusted (such as through an acquisition of the non-controlling interests) and the cash or other considerations paid is recognised in equity.

Goodwill is stated at cost less accumulated impairment losses. Goodwill arising on a business combination is allocated to each cash-generating unit, or groups of cash-generating units, that is expected to benefit the synergies of the combination and is tested annually for impairment (Note 2(n)). In respect of associates or joint ventures, the carrying amount of goodwill is included in the carrying amount of the interest in the associate or joint venture and the investment as a whole is tested for impairment whenever there is objective evidence of impairment (Note 2(n)).

(j) Financial assets

(i) Classification and measurement

The Group classifies financial assets into different categories depending on the business model for managing the financial assets and the contractual terms of cash flows of the financial assets: a) financial assets measured at amortised cost, b) financial assets measured at fair value through other comprehensive income ("FVOCI"), c) financial assets measured at fair value through profit or loss. A contractual cash flow characteristic which could have only a de minimis effect on the contractual cash flows of the financial assets, or could have an effect that is more than de minimis but is not genuine, does not affect the classification of the financial asset.

Financial assets are initially recognised at fair value. For financial assets measured at fair value through profit or loss, the relevant transaction costs are recognised in profit or loss. The transaction costs for other financial assets are included in the initially recognised amount. However, trade accounts receivable and bills receivable arising from sale of goods or rendering services, without significant financing component, are initially recognised based on the transaction price expected to be entitled by the Group.

2 MATERIAL ACCOUNTING POLICIES (Continued)

(j) Financial assets (Continued)

(i) Classification and measurement (Continued)

Debt instruments

Debt instruments held by the Group mainly includes cash and cash equivalents, time deposits with financial institutions, receivables. These financial assets are measured at amortised cost and FVOCI.

- **Amortised cost:** The business model for managing such financial assets by the Group are held for collection of contractual cash flows. The contractual cash flow characteristics are to give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Interest income from these financial assets is recognised using the effective interest rate method.
- **FVOCI:** The business model for managing such financial assets by the Group are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest on the principal amount outstanding. Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment gains or losses, foreign exchange gains and losses and interest income calculated using the effective interest rate method, which are recognised in profit or loss.

Equity instruments

Equity instruments that the Group has no power to control, jointly control or exercise significant influence over, are measured at fair value through profit or loss and presented in financial assets at fair value through profit or loss.

In addition, the Group designates some equity instruments that are not held for trading as financial assets at FVOCI, are presented in financial assets at FVOCI. The relevant dividends of these financial assets are recognised in profit or loss. When derecognised, the cumulative gain or loss previously recognised in other comprehensive income is transferred to retained earnings.

(ii) Impairment

The Group recognises a loss allowance for ECLs on a financial asset that is measured at amortised cost and a debt instrument that is measured at FVOCI.

The Group measures and recognises ECLs, considering reasonable and supportable information about the relevant past events, current conditions and forecasts of future economic conditions.

The Group measures the ECLs of financial instruments on different stages at each the date of the statement of financial position. For financial instruments that have no significant increase in credit risk since the initial recognition, on first stage, the Group measures the loss allowance at an amount equal to 12-month ECLs. If there has been a significant increase in credit risk since the initial recognition of a financial instrument but credit impairment has not occurred, on second stage, the Group recognises a loss allowance at an amount equal to lifetime ECLs. If credit impairment has occurred since the initial recognition of a financial instrument, on third stage, the Group recognises a loss allowance at an amount equal to lifetime ECLs.

For financial instruments that have low credit risk at the date of the statement of financial position, the Group assumes that there is no significant increase in credit risk since the initial recognition, and measures the loss allowance at an amount equal to 12-month ECLs.

For financial instruments on the first stage and the second stage, and that have low credit risk, the Group calculates interest income according to carrying amount without deducting the impairment allowance and effective interest rate. For financial instruments on the third stage, interest income is calculated according to the carrying amount minus amortised cost after the provision of impairment allowance and effective interest rate.

For trade accounts receivable and bills receivable and financial assets at FVOCI related to revenue, the Group measures the loss allowance at an amount equal to lifetime ECLs.

The Group recognises the loss allowance accrued or written back in profit or loss.

(iii) Derecognition

The Group derecognises a financial asset when: a) the contractual right to receive cash flows from the financial asset expires; b) the Group transfers the financial asset and substantially all the risks and rewards of ownership of the financial asset; c) the financial asset has been transferred and the Group neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset, but the Group has not retained control.

On derecognition of equity instruments at FVOCI, the amount accumulated in the fair value reserve is transferred to retained earnings. It is not recycled through profit or loss. While on derecognition of other financial assets, this difference is recognised in profit or loss.

2 MATERIAL ACCOUNTING POLICIES (Continued)

(j) Financial assets (Continued)

(iv) Financial guarantees issued

Financial guarantees are contracts that require the issuer (i.e. the guarantor) to make specified payments to reimburse the beneficiary of the guarantee (the “holder”) for a loss the holder incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument.

Financial guarantees issued are initially recognised at fair value, which is determined by reference to fees charged in an arm’s length transaction for similar services, when such information is obtainable, or to interest rate differentials, by comparing the actual rates charged by lenders when the guarantee is made available with the estimated rates that lenders would have charged, had the guarantees not been available, where reliable estimates of such information can be made. Where consideration is received or receivable for the issuance of the guarantee, the consideration is recognised in accordance with the Group’s policies applicable to that category of asset. Where no such consideration is received or receivable, an immediate expense is recognised in profit or loss.

Subsequent to initial recognition, the amount initially recognised as deferred income is amortised in profit or loss over the term of the guarantee as income from financial guarantees issued.

The Group monitors the risk that the specified debtor will default on the contract and recognises a provision when ECLs on the financial guarantees are determined to be higher than the carrying amount in respect of the guarantees (i.e. the amount initially recognised, less accumulated amortisation).

(k) Financial liabilities

The Group, at initial recognition, classifies financial liabilities as either financial liabilities subsequently measured at amortised cost or financial liabilities at fair value through profit or loss.

The Group’s financial liabilities are mainly financial liabilities measured at amortised cost, including trade accounts payable and bills payable, other payables, and loans, etc. These financial liabilities are initially measured at the amount of their fair value after deducting transaction costs and use the effective interest rate method for subsequent measurement.

Where the present obligations of financial liabilities are completely or partially discharged, the Group derecognises these financial liabilities or discharged parts of obligations. The differences between the carrying amounts and the consideration received are recognised in profit or loss.

(l) Determination of fair value for financial instruments

If there is an active market for financial instruments, the quoted price in the active market is used to measure fair values of the financial instruments. If no active market exists for financial instruments, valuation techniques are used to measure fair values. In valuation, the Group adopts valuation techniques that are applicable in the current situation and have sufficient available data and other information to support it, and selects input values that are consistent with the asset or liability characteristics considered by market participants in the transaction of relevant assets or liabilities, and gives priority to relevant observable input values. Use of unobservable input values where relevant observable input values cannot be obtained or are not practicable.

(m) Derivative financial instruments and hedge accounting

Derivative financial instruments are recognised initially at fair value. At each date of the statement of financial position, the fair value is remeasured. The gain or loss on remeasurement to fair value is recognised immediately in profit or loss, except where the derivatives qualify for hedge accounting.

Hedge accounting is a method which recognises the offsetting effects on profit or loss (or other comprehensive income) of changes in the fair values of the hedging instrument and the hedged item in the same accounting period, to represent the effect of risk management activities.

Hedged items are the items that expose the Group to risks of changes in future cash flows and that are designated as being hedged and that must be reliably measurable. The Group’s hedged items include a forecast transaction that is settled with an undetermined future market price and exposes the Group to risk of variability in cash flows, etc.

A hedging instrument is a designated derivative whose changes in cash flows are expected to offset changes in cash flows of the hedged item.

The hedging relationship meets all of the following hedge effectiveness requirements:

- (i) There is an economic relationship between the hedged item and the hedging instrument, which shares a risk and that gives rise to opposite changes in fair value that tend to offset each other.
- (ii) The effect of credit risk does not dominate the value changes that result from that economic relationship.
- (iii) The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the entity actually hedges and the quantity of the hedging instrument that the entity actually uses to hedge that quantity of hedged item. However, that designation does not reflect an imbalance between the weightings of the hedged item and the hedging instrument.

2 MATERIAL ACCOUNTING POLICIES (Continued)

(m) Derivative financial instruments and hedge accounting (Continued)

Cash flow hedges

Cash flow hedge is a hedge of the exposure to variability in cash flows that is attributable to a particular risk associated with all, or a component of, a recognised asset or liability (such as all or some future interest payments on variable-rate debt) or a highly probable forecast transaction, and could affect profit or loss. Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument. If the hedged future cash flows are no longer expected to occur, then the amounts that have been accumulated in the hedging reserve is immediately reclassified through OCI to profit or loss.

As long as a cash flow hedge meets the qualifying criteria for hedge accounting, the separate component of equity associated with the hedged item (cash flow hedge reserve) is adjusted to the lower of the following (in absolute amounts):

- (i) The cumulative gain or loss on the hedging instrument from inception of the hedge; and
- (ii) The cumulative change in fair value (present value) of the hedged item (i.e. the present value of the cumulative change in the hedged expected future cash flows) from inception of the hedge.

The gain or loss on the hedging instrument that is determined to be an effective hedge is recognised in other comprehensive income.

The portion of the gain or loss on the hedging instrument that is determined to be an ineffective hedge is recognised in profit or loss.

If a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability, or a hedged forecast transaction for a non-financial asset or a non-financial liability becomes a firm commitment for which fair value hedge accounting is applied, the entity removes that amount from the cash flow hedge reserve and include it directly in the initial cost or other carrying amount of the asset or the liability. This is not a reclassification adjustment and hence it does not affect other comprehensive income.

If the amount that has been accumulated in the cash flow hedge reserve is a loss and the Group expects that all or a portion of that loss will not be recovered in one or more future periods, the Group immediately reclassifies the amount that is not expected to be recovered into profit or loss.

When the hedging relationship no longer meets the risk management objective on the basis of which it qualified for hedge accounting (ie the entity no longer pursues that risk management objective), or when a hedging instrument expires or is sold, terminated, exercised, or there is no longer an economic relationship between the hedged item and the hedging instrument or the effect of credit risk starts to dominate the value changes that result from that economic relationship or no longer meets the criteria for hedge accounting, the Group discontinues prospectively the hedge accounting treatments. If the hedged future cash flows are no longer expected to occur, that amount remains in the cash flow hedge reserve and is accounted for as cash flow hedges. If the hedged future cash flows are no longer expected to occur, that amount is immediately reclassified from the cash flow hedge reserve to profit or loss as a reclassification adjustment. A hedged future cash flow that is no longer highly probable to occur may still be expected to occur, if the hedged future cash flows are still expected to occur, that amount remains in the cash flow hedge reserve and is accounted for as cash flow hedges.

Fair value hedges

A fair value hedge is a hedge of the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment, or a portion of such an asset, liability or firm commitment.

The gain or loss from remeasuring the hedging instrument is recognised in profit or loss. The gain or loss on the hedged item attributable to the hedged risk adjusts the carrying amount of the recognised hedged item not measured at fair value and is recognised in profit or loss.

Any adjustment to the carrying amount of a hedged item is amortised to profit or loss if the hedged item is a financial instrument (or a component thereof) measured at amortised cost. The amortisation is based on a recalculated effective interest rate at the date that amortisation begins.

(n) Impairment of assets

The carrying amounts of assets, including property, plant and equipment, construction in progress, right-of-use assets and other assets, are reviewed at each date of the statement of financial position to identify indicators that the assets may be impaired. These assets are tested for impairment whenever events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. When such a decline has occurred, the carrying amount is reduced to the recoverable amount. For goodwill, the recoverable amount is estimated at each date of the statement of financial position.

The recoverable amount is the greater of the fair value less costs to disposal and the value in use. In determining the value in use, expected future cash flows generated by the asset are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

2 MATERIAL ACCOUNTING POLICIES *(Continued)*

(n) Impairment of assets *(Continued)*

The amount of the reduction is recognised as an expense in the consolidated income statement. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit and then, to reduce the carrying amount of the other assets in the unit on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs to disposal, or value in use, if determinable.

Management assesses at each date of the statement of financial position whether there is any indication that an impairment loss recognised for an asset, except in the case of goodwill, in prior years may no longer exist. An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. A subsequent increase in the recoverable amount of an asset, when the circumstances and events that led to the write-down or write-off cease to exist, is recognised as an income. The reversal is reduced by the amount that would have been recognised as depreciation had the write-down or write-off not occurred. An impairment loss in respect of goodwill is not reversed.

(o) Trade, bills and other payables

Trade, bills and other payables generally are financial liabilities and are initially recognised at fair value and thereafter stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at invoice amounts.

(p) Interest-bearing borrowings

Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any difference between cost and redemption value being recognised in the consolidated income statement over the period of borrowings using the effective interest method.

(q) Provisions and contingent liability

A provision is recognised for liability of uncertain timing or amount when the Group has a legal or constructive obligation arising as a result of a past event, when it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made.

When it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, a separate asset is recognised for any expected reimbursement that would be virtually certain. The amount recognised for the reimbursement is limited to the carrying amount of the provision.

Provisions for future dismantlement costs are initially recognised based on the present value of the future costs expected to be incurred in respect of the Group's expected dismantlement and abandonment costs at the end of related oil and gas exploration and development activities. Any subsequent change in the present value of the estimated costs, other than the change due to passage of time which is regarded as interest cost, is reflected as an adjustment to the provision and oil and gas properties.

An onerous contract exists when the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract. Provisions for onerous contracts are measured at the present value of the lower of the expected cost of terminating the contract and the net cost of continuing with the fulfilling the contract. The cost of fulfilling the contract includes both the incremental costs of fulfilling that contract and an allocation of other costs that relate directly to fulfilling that contract.

(r) Revenue recognition

Revenue arises in the course of the Group's ordinary activities, and increases in economic benefits in the form of inflows that result in an increase in equity, other than those relating to contributions from equity participants.

The Group sells crude oil, natural gas, petroleum and chemical products, etc. Revenue is recognised according to the expected consideration amount, when a customer obtains control over the relevant goods or services. To determine whether a customer obtains control of a promised goods or services (assets), the Group shall consider indicators of the transfer of control, which include, but are not limited to, the Group has a present right to payment for the assets; the Group has transferred physical possession of the assets to the customer; the customer has the significant risks and rewards of ownership of the assets; the customer has accepted the assets.

2 MATERIAL ACCOUNTING POLICIES (Continued)

(r) Revenue recognition (Continued)

Sales of goods

Sales are recognised when control of the goods have transferred. Obtaining control of relevant goods means that a customer can direct the use of the goods and obtain almost all the economic benefits from it. Advance from customers but goods not yet delivered is recorded as contract liabilities and is recognised as revenues when a customer obtains control over the relevant goods.

The Group determines whether it is a principal or an agent, based on whether it obtains control of the specified good or service before that good or service is transferred to a customer. The Group is a principal if it controls the specified good or service before that good or service is transferred to a customer, and recognises revenue in the gross amount of consideration which it has received (or which is receivable). Otherwise, the Group is an agent, and recognises revenue in the amount of any fee or commission to which it expects to be entitled. The fee or commission is the net amount of consideration that the Group retains after paying the other party the consideration, or is determined according to the established amount or proportion.

The circumstances in which the Group is able to control the goods before transferring them to customers include:

- The Group acquires control of the goods or other assets from a third party and then transfers them to the customer;
- The Group is able to lead third parties to provide services to customers on behalf of the Group;
- After the Group acquires control of a product from a third party, it transfers the product to a customer by integrating the product with other products into a combination of products through the provision of significant services;

In determining whether the Group has control over the goods before the transfer of the goods to the customer, the Group takes into account all relevant facts and circumstances, including:

- The Group bears the primary responsibility for the transfer of goods to customers;
- The Group assumes the inventory risk of the goods before or after the transfer of the goods;
- The Group reserves the right to determine the price of the products it trades at its own discretion.

(s) Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to costs are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are recognised to profit or loss on a straight-line basis over the expected lives of the related assets.

(t) Borrowing costs

Borrowing costs are expensed in the consolidated income statement in the period in which they are incurred, except to the extent that they are capitalised as being attributable to the construction of an asset which necessarily takes a period of time to get ready for its intended use.

(u) Repairs and maintenance expenditure

Repairs and maintenance expenditure is expensed as incurred.

(v) Environmental expenditures

Environmental expenditures that relate to current ongoing operations or to conditions caused by past operations are expensed as incurred.

Liabilities related to future remediation costs are recorded when environmental assessments and/or cleanups are probable and the costs can be reliably estimated. As facts concerning environmental contingencies become known to the Group, the Group reassesses its position both with respect to accrued liabilities and other potential exposures.

(w) Research and development expense

Research and development expenditures that cannot be capitalised are expensed in the period in which they are incurred. Research and development expense amounted to RMB15,863 million for the year ended 31 December 2025 (2024: RMB15,215 million).

2 MATERIAL ACCOUNTING POLICIES *(Continued)*

(x) Leases

A lease is a contract that a lessor transfers the right to use an identified asset for a period of time to a lessee in exchange for consideration.

(i) As lessee

The Group recognises a right-of-use asset at the date at which the leased asset is available for use by the Group, and recognises a lease liability measured at the present value of the remaining lease payments. The lease payments include fixed payments, the exercise price of a purchase option if the Group is reasonably certain to exercise that option, and payments of penalties for terminating the lease if the lease term reflects the Group exercising that option, etc. Variable payments that are based on a percentage of sales are not included in the lease payments, and should be recognised in profit or loss when incurred. Lease liabilities to be paid within one year (including one year) from the date of the statement of financial position is presented in current liabilities.

Right-of-use assets of the Group mainly comprise land. Right-of-use assets are measured at cost which comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the commencement date, any initial direct costs incurred by the lessee, less any lease incentives received. The Group depreciates the right-of-use assets over the shorter of the asset's useful life and the lease term on a straight-line basis. When the recoverable amount of a right-of-use asset is less than its carrying amount, the carrying amount is reduced to the recoverable amount.

Payments associated with short-term leases with lease terms within 12 months and all leases of low-value assets are recognised on a straight-line basis over the lease term as an expense in profit or loss or as cost of relevant assets, instead of recognising right-of-use assets and lease liabilities.

A lessee shall account for a lease modification as a separate lease if both: (1) the modification increases the scope of the lease by adding the right to use one or more underlying assets; and (2) the consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the articular contract.

The lease liability is also remeasured when there is a lease modification, which means a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract, if such modification is not accounted for as a separate lease. In this case, the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification. The Group decrease the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease for lease modifications that decrease the scope or shorten the term of the lease, and shall recognise in profit or loss any gain or loss relating to the partial or full termination of the lease. The Group make a corresponding adjustment to the right-of-use asset for all other lease modifications.

(ii) As lessor

A lease that transfers substantially all the risks and rewards incidental to ownership of an asset is a finance lease. An operating lease is a lease other than a finance lease.

When the Group leases self-owned plants and buildings, equipment and machinery, lease income from an operating lease is recognised on a straight-line basis over the period of the lease. The Group recognises variable lease income which is based on a certain percentage of sales as rental income when occurred.

(y) Employee benefits

The contributions payable under the Group's retirement plans are recognised as an expense in the consolidated income statement as incurred and according to the contribution determined by the plans. Further information is set out in Note 40.

Termination benefits, such as employee reduction expenses, are recognised when, and only when, the Group demonstrably commits itself to terminate employment or to provide benefits as a result of voluntary redundancy by having a detailed formal plan which is without realistic possibility of withdrawal.

(z) Income tax

Income tax comprises current and deferred tax. Current tax is calculated on taxable income by applying the applicable tax rates. Deferred tax is provided using the statement of financial position liability method on all temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes only to the extent that it is probable that future taxable income will be available against which the assets can be utilised. Deferred tax is calculated on the basis of the enacted tax rates or substantially enacted tax rates that are expected to apply in the period when the asset is realised or the liability is settled. The effect on deferred tax of any changes in tax rates is charged or credited to the consolidated income statement, except for the effect of a change in tax rate on the carrying amount of deferred tax assets and liabilities which were previously charged or credited to other comprehensive income or directly in equity.

The tax value of losses expected to be available for utilisation against future taxable income is set off against the deferred tax liability within the same legal tax unit and jurisdiction to the extent appropriate, and is not available for set off against the taxable profit of another legal tax unit. The carrying amount of a deferred tax asset is reviewed at each date of statement of financial position and is reduced to the extent that it is no longer probable that the related tax benefit will be realised.

2 MATERIAL ACCOUNTING POLICIES (Continued)

(aa) Dividends

Dividends and distributions of profits proposed in the profit appropriation plan which will be authorised and declared after the date of statement of financial position, are not recognised as a liability at the date of statement of financial position and are separately disclosed in the notes to the financial statements. Dividends are recognised as a liability in the period in which they are declared.

(bb) Segment reporting

Operating segments, and the amounts of each segment item reported in the consolidated financial statements, are identified from the financial information provided regularly to the Group's chief operating decision maker for the purposes of allocating resources to, and assessing the performance of the Group's various lines of business.

3 REVENUE FROM PRIMARY BUSINESS

Revenue from primary business mainly represents revenue from the sales of refined petroleum products, chemical products, crude oil and natural gas, which are recognised at a point in time.

	2025 RMB million	2024 RMB million
Gasoline	763,996	847,815
Diesel	555,174	653,111
Crude oil	353,855	365,045
Chemical feedstock	38,856	41,994
Basic organic chemicals	184,796	219,608
Synthetic resin	123,127	124,780
Kerosene	209,624	231,214
Natural gas	103,185	91,015
Synthetic fiber monomers and polymers	42,621	42,880
Others (i)	351,226	397,859
	2,726,460	3,015,321

Note:

(i) Others are primarily liquefied petroleum gas and other refinery and chemical by-products and joint products and so on.

4 OTHER OPERATING REVENUES

	2025 RMB million	2024 RMB million
Sale of materials and others	55,292	57,785
Rental income	1,831	1,456
	57,123	59,241

5 SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

The following items are included in selling, general and administrative expenses:

	2025 RMB million	2024 RMB million
Variable lease payments, low-value and short-term lease payment	2,512	2,362
Auditor's remuneration:		
– Audit services	71	69
– Others	6	7

6 PERSONNEL EXPENSES

	2025 RMB million	2024 RMB million
Salaries, wages and other benefits	91,835	95,694
Contributions to retirement schemes (Note 40)	14,809	14,493
	106,644	110,187

7 TAXES OTHER THAN INCOME TAX

	2025 RMB million	2024 RMB million
Consumption tax (i)	205,550	215,245
City construction tax (ii)	17,560	18,010
Special oil income levy	1,462	5,112
Education surcharge (ii)	12,857	13,255
Resources tax	8,011	8,466
Levy for mineral rights concessions (礦業權出讓收益)	1,367	1,574
Others	5,628	5,653
	252,435	267,315

Notes:

(i) Consumption tax was levied based on sales quantities of taxable products, tax rates of respective products are presented as below:

Products	RMB/Ton
Gasoline	2,109.76
Diesel	1,411.20
Naphtha	2,105.20
Solvent oil	1,948.64
Lubricant oil	1,711.52
Fuel oil	1,218.00
Jet fuel oil	1,495.20

(ii) City construction tax and education surcharge is levied on an entity based on its paid amount of value-added tax and consumption tax.

8 OTHER OPERATING INCOME/(EXPENSES), NET

	2025 RMB million	2024 RMB million
Government grants (i)	8,716	12,714
Ineffective portion of change in fair value of cash flow hedges	492	918
Net realised and unrealised income/(losses) on derivative financial instruments not qualified for hedge accounting	1,657	(113)
Impairment losses on long-lived assets (ii)	(8,587)	(2,412)
(Losses)/gains on disposal of property, plant, equipment and other assets, net	(384)	810
Fines, penalties and compensations	(274)	(431)
Donations	(293)	(293)
Others (iii)	4,226	(209)
	5,553	10,984

Notes:

- (i) Government grants for the years ended 31 December 2025 and 2024 primarily represent financial appropriation income and non-income tax refunds received from respective government agencies without conditions or other contingencies attached to the receipts of the grants.
- (ii) Impairment losses on long-lived assets for the year ended 31 December 2025 primarily represent impairment losses recognised in the exploration and production ("E&P") segment of RMB1,229 million (2024: RMB211 million), the chemicals segment of RMB5,651 million (2024: RMB1,547 million), the refining segment of RMB525 million (2024: RMB230 million), the marketing and distribution segment of RMB177 million (2024: RMB424 million), and the corporate and others segment of RMB1,005 million (2024: nil). The impairment losses in the E&P segment were mainly the impairment losses of properties, plant and equipment relating to oil and gas producing activities. The primary factors resulting in the E&P segment impairment loss were downward revision of oil and gas reserve in certain fields and high lifting cost. E&P segment determines recoverable amounts of properties, plant and equipment relating to oil and gas producing activities, which include significant judgments and assumptions. The Group determines the crude oil and natural gas production for the forecast period and the number of years in the forecast period for impairment assessment based on the results of proved reserves. Meanwhile, the Group determines the sales prices of crude oil and natural gas for the forecast period, taking into account the analysis of the domestic and international economic situation as well as the relationship between energy supply and demand. The recoverable amounts were determined based on the present values of the expected future cash flows of the assets using a pre-tax discount rate 7.07% to 15.88% (2024: 7.06% to 15.82%). Further future downward revisions to the Group's oil or nature gas price outlook would lead to further impairments which, in aggregate, are likely to be material. It is estimated that a general decrease of 5% in oil price, with all other variables held constant, would result in additional impairment loss on the Group's properties, plant and equipment relating to oil and nature gas producing activities by approximately RMB4,472 million (2024: RMB1,552 million). It is estimated that a general increase of 5% in operating cost, with all other variables held constant, would result in additional impairment loss on the Group's properties, plant and equipment relating to oil and gas producing activities by approximately RMB2,544 million (2024: RMB782 million). It is estimated that a general increase of 5% in discount rate, with all other variables held constant, would result in additional impairment loss on the Group's properties, plant and equipment relating to oil and gas producing activities by approximately RMB133 million (2024: RMB1 million). The impairment provisions for the chemical and refining segments are related to the refining and chemical production facilities, mainly due to sustained lower than expected economic performance of individual production units or having a clear shutdown plan in place, resulting in their book value being written down to their recoverable amount. The recoverable amount mainly considers the profit forecast approved by the management for a five-year period, which refers to the historical operating performance of relevant refining and chemical production facilities and is adjusted according to the development trends of the refining and chemical industry. The predicted cash flow after five years will remain stable, and the pre-tax discount rate is calculated based on the weighted average cost of capital, which is 8.34% to 14.29% (2024: 8.00% to 16.76%). The impairment provisions for the marketing and distribution segment is mainly due to the fact that the gas station is closed, so its book value is written down to the recoverable amount.
- (iii) During the year ended 31 December 2025, the Group established a joint venture company with a third party to construct and operate a refining and chemical integrated project. According to the terms agreed by both parties, the Group has received project participation fees of approximately RMB4,324 million from the third party after the establishment of the joint venture company, which was recognised as other operating income and presented in others.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

for the year ended 31 December 2025

9 INTEREST EXPENSE

	2025 RMB million	2024 RMB million
Interest expense incurred	10,908	10,525
Less: Interest expense capitalised*	(1,235)	(1,470)
	9,673	9,055
Interest expense on lease liabilities	8,741	8,767
Accretion expenses (Note 36)	833	779
Interest expense	19,247	18,601
* Interest rates per annum at which borrowing costs were capitalised for construction in progress	1.85% to 3.00%	2.00% to 3.90%

10 INVESTMENT INCOME

	2025 RMB million	2024 RMB million
Investment (losses)/income from disposal of business and long-term equity investments	(865)	97
Dividend income from holding of other equity instrument investments	40	55
Others	152	517
	(673)	669

11 INCOME TAX EXPENSE

Income tax expense in the consolidated income statement represents:

	2025 RMB million	2024 RMB million
Current tax		
– Provision for the year	10,287	12,536
– Adjustment of prior years	(422)	(1,239)
Deferred taxation (Note 29)	(1,931)	1,669
	7,934	12,966

Reconciliation between actual income tax expense and the expected income tax expense at applicable statutory tax rates is as follows:

	2025 RMB million	2024 RMB million
Profit before taxation	43,744	69,142
Expected PRC income tax expense at a statutory tax rate of 25%	10,936	17,286
Tax effect of non-deductible expenses	2,907	2,503
Tax effect of non-taxable income	(5,091)	(3,917)
Tax effect of preferential tax rate (i)	(2,924)	(2,763)
Effect of income taxes at foreign operations	(654)	(253)
Tax effect of utilisation of previously unrecognised tax losses and temporary differences	(37)	(152)
Tax effect of tax losses and temporary differences not recognised	1,620	1,267
Write-down of deferred tax assets	1,599	234
Adjustment of prior years	(422)	(1,239)
Actual income tax expense	7,934	12,966

Note:

- The provision for PRC current income tax is based on a statutory income tax rate of 25% of the assessable income of the Group as determined in accordance with the relevant income tax rules and regulations of the PRC, except for certain entities of the Group in western regions in the PRC are taxed at preferential income tax rate of 15%. According to Announcement [2020] No. 23 of the MOF "Announcement of the MOF, the State Taxation Administration and the National Development and Reform Commission on continuation of the income tax policy of western development enterprises", the preferential tax rate of 15% extends from 1 January 2021 to 31 December 2030.
- In 2021, the Organisation for Economic Co-operation and Development ("OECD") published the Global AntiBase Erosion ("GloBE") Model Rules ("Pillar Two model rules") for a new global minimum tax reform applicable to large multinational enterprises. The Group is within the scope of the Pillar Two model rules published by OECD. Under the legislation, the Group is liable to pay a top-up tax for the difference between their GloBE effective tax rate per jurisdiction and the 15% minimum rate. Pillar Two legislation was enacted and came into effect in certain jurisdictions in which the subsidiaries of the Group are incorporated, the Group has provided Pillar Two income taxes of RMB235 million in the relevant jurisdictions for the year ended 31 December 2025.

The Group has applied the temporary mandatory exception to recognising and disclosing information about deferred tax assets and liabilities related to Pillar Two income taxes and accounted for the tax as current tax when incurred.

12 DIRECTORS' AND SUPERVISORS' EMOLUMENTS

(a) Directors' and supervisors' emoluments

(xv) Due to change of working arrangement, Mr. Wu Bo has tendered his resignation as supervisor on 13 May 2024.

13 SENIOR MANAGEMENT'S EMOLUMENTS

For the year ended 31 December 2025, the five highest paid individuals in the Company included one director, one supervisor and three senior management. The total salaries, wages and other benefits was RMB7,402 thousand, and the total amount of their retirement scheme contributions was RMB660 thousand. For the year ended 31 December 2024, the five highest paid individuals in the Company included one director, one supervisor and three senior management.

	Number of individuals	
	2025	2024
Emoluments		
HKD1,000,001 to HKD1,500,000	–	3
HKD1,500,001 to HKD2,000,000	4	2
HKD2,000,001 to HKD2,500,000	1	–

During 2025 and 2024, the Company did not incur any emoluments paid or receivable in respect of a person accepting office as a director, or any payments to any director for loss of office.

14 DIVIDENDS

Dividends payable to shareholders of the Company attributable to the year represent:

	2025	2024
	RMB million	RMB million
Dividends declared and paid during the year of RMB0.088 per share (2024: RMB0.146 per share)	10,662	17,768
Dividends declared after the date of the statement of financial position of RMB0.112 per share (2024: RMB0.140 per share)	13,544	16,979
	24,206	34,747

Pursuant to the approval at the director's meeting on 21 August 2025, the interim dividends for the year ended 31 December 2025 of RMB0.088 (2024: RMB0.146) per share totaling RMB10,662 million (2024: RMB17,768 million) were approved. Dividends were paid on 12 September 2025.

Pursuant to a resolution passed at the director's meeting on 20 March 2026, final dividends in respect of the year ended 31 December 2025 of RMB0.112 (2024: RMB0.140) per share, totaling RMB13,544 million based on share number at 31 December 2025 (2024: RMB16,979 million based on share number at 31 December 2024) were proposed for shareholders' approval at the Annual General Meeting. Final cash dividend proposed after the date of the statement of financial position has not been recognised as a liability at the date of the statement of financial position.

14 DIVIDENDS (Continued)

Dividends payable to shareholders of the Company attributable to the previous financial year, approved during the year represent:

	2025 RMB million	2024 RMB million
Final cash dividends in respect of the previous financial year, approved during the year of RMB0.140 per share (2024: RMB0.200 per share)	16,974	24,340

Pursuant to the shareholders' approval at the Annual General Meeting on 28 May 2025, a final dividend of RMB0.140 per share totaling RMB16,974 million according to total shares on 17 June 2025 was approved. All dividends have been paid in the year ended 31 December 2025.

Pursuant to the shareholders' approval at the Annual General Meeting on 28 June 2024, a final dividend of RMB0.200 per share totaling RMB24,340 million according to total shares on 15 July 2024 was approved. All dividends have been paid in the year ended 31 December 2024.

15 OTHER COMPREHENSIVE INCOME

	Before tax amount RMB million	2025 Tax effect RMB million	Net of tax amount RMB million	Before tax amount RMB million	2024 Tax effect RMB million	Net of tax amount RMB million
Cash flow hedges:						
Effective portion of changes in fair value of hedging instruments recognised during the year	16,386	(2,558)	13,828	(1,193)	243	(950)
Reclassification adjustments for amounts transferred to the consolidated income statement	(14,830)	2,128	(12,702)	(562)	30	(532)
Net movement during the year recognised in other comprehensive income (i)	1,556	(430)	1,126	(1,755)	273	(1,482)
Changes in the fair value of instruments at fair value through other comprehensive income	3,250	–	3,250	(8)	5	(3)
Share of other comprehensive income of associates and joint ventures	8,354	–	8,354	(3,507)	–	(3,507)
Foreign currency translation differences	(3,243)	–	(3,243)	2,006	–	2,006
Other comprehensive income	9,917	(430)	9,487	(3,264)	278	(2,986)

Note:

- (i) As at 31 December 2025, cash flow hedge reserve amounted to a gain of RMB4,257 million (31 December 2024: a gain of RMB3,338 million), of which a gain of RMB4,151 million was attributable to shareholders of the Company (31 December 2024: a gain of RMB3,253 million).

16 BASIC AND DILUTED EARNINGS PER SHARE

The calculation of basic earnings per share for the year ended 31 December 2025 is based on the profit attributable to ordinary shareholders of the Company of RMB32,476 million (2024: RMB48,939 million) and the weighted average number of shares of approximately 121,187 million (2024: approximately 121,138 million) during the year.

There are no potential dilutive ordinary shares, and diluted earnings per share are equal to the basic earning per share.

The Group compares the carrying amount of individual cash-generating units which were grouped for the property, plant and equipment related to oil and gas producing activities with its value in use, using a discounted cash flow forecast prepared based on the future production profiles included in the oil and gas reserve reports, and recorded impairment losses amounting to RMB1,206 million (2024: RMB211 million) for the year ended 31 December 2025.

The addition to oil and gas properties of the Group for the year ended 31 December 2025 included RMB2,968 million (2024: RMB1,989 million) of estimated dismantlement costs for site restoration.

At 31 December 2025 and 31 December 2024, the Group had no individual significant property, plant and equipment which were temporarily idle or pending for disposal or individually significant fully depreciated fixed assets which were still in use.

20 GOODWILL

	31 December 2025 RMB million	31 December 2024 RMB million
Cost	14,343	14,354
Less: Accumulated impairment losses	(8,867)	(7,861)
	5,476	6,493

Impairment tests for cash-generating units containing goodwill

Goodwill is allocated to the following Group's cash-generating units:

The name of the investee and the composition of the asset group	Principal activities	31 December 2025 RMB million	31 December 2024 RMB million
Sinopec Zhenhai Refining and Chemical Branch	Manufacturing of intermediate petrochemical products and petroleum products	4,043	4,043
Other units allocated		1,433	2,450
		5,476	6,493

The Group's goodwill impairment assessment is carried out in conjunction with its related asset group or combination of asset groups, and the recoverable amounts of goodwill are estimated annually based on value in use calculations, which is consistent with prior years. These calculations use cash flow projections based on five-year financial budgets approved by management for a goodwill-related asset group or a combination of asset groups, with cash flow remaining stable after five years. The cash flow forecasts use sales volumes, selling price and discount rates as key assumptions, with sales volumes based on production capacity and/or actual sales volumes for periods prior to the budget period, selling prices based on management's expectations of future international crude oil and petrochemical price trends, and pre-tax discount rates based on weighted average cost of capital, which ranged from 10.8% to 12.6% (2024: 10.7% to 11.8%). According to the impairment assessment results of goodwill, the Group has made provision for impairment losses of RMB1,006 million for part of the goodwill in 2025, mainly due to the unsatisfactory future performance expectation of this asset group of Beijing Yanshan Branch of China Petroleum and Chemical Corporation in the impairment test.

The share of profit and other comprehensive income for the year ended 31 December 2025 in all individually immaterial joint ventures accounted for using equity method in aggregate was profit RMB1,371 million (2024: loss RMB71 million) and profit RMB5,894 million (2024: loss RMB2,034 million) respectively. As at 31 December 2025, the carrying amount of all individually immaterial joint ventures accounted for using equity method in aggregate was RMB50,763 million (2024: RMB48,978 million).

22 INTEREST IN JOINT VENTURES (Continued)

Impairment test

As at 31 December 2025, there are indicators of impairment in the long-term equity investment in Shanghai SECCO. The Group estimates the recoverable amount of this long-term equity investment based on a value-in-use calculation. The projected future cash flows primarily take into account the five-year profit forecast for Shanghai SECCO approved by the management, which is adjusted based on the historical performance of Shanghai SECCO and relevant industry trends, with cash flows remaining stable after five years. The pre-tax discount rate of 10.36% (2024: 11.08%) is calculated based on the weighted average cost of capital. According to the impairment assessment results, the Group has provided impairment losses of RMB1,643 million for the interest in Shanghai SECCO in 2025.

23 LONG-TERM PREPAYMENTS AND OTHER ASSETS

	31 December 2025	31 December 2024
	RMB million	RMB million
Operating rights of service stations	24,192	24,078
Long-term receivables from and prepayment to Sinopec Group Company and fellow subsidiaries	3,759	1,727
Prepayments for construction projects to third parties	5,073	4,322
Others (i)	84,658	75,978
	117,682	106,105

Note:

(i) Others mainly comprise catalyst expenditures, improvement expenditures of property, plant and equipment and time deposits with maturities over one year.

The cost of operating rights of service stations is charged to expense on a straight-line basis over the respective periods of the rights. The movement of operating rights of service stations is as follows:

	2025	2024
	RMB million	RMB million
Operating rights of service stations		
Cost:		
Balance at 1 January	53,871	54,186
Additions	2,456	281
Decreases	(471)	(596)
Balance at 31 December	55,856	53,871
Accumulated amortisation:		
Balance at 1 January	29,793	28,002
Additions	2,218	2,205
Decreases	(347)	(414)
Balance at 31 December	31,664	29,793
Net book value at 31 December	24,192	24,078

24 DERIVATIVE FINANCIAL ASSETS AND DERIVATIVE FINANCIAL LIABILITIES

Derivative financial assets and derivative financial liabilities of the Group are primarily commodity futures and swaps contracts. See Note 43.

	31 December 2025		31 December 2024	
	RMB million		RMB million	
	Fair value of assets	Fair value of liabilities	Fair value of assets	Fair value of liabilities
Commodity derivatives	1,313	5,641	2,538	3,381
Financial derivatives	49	35	16	31
	1,362	5,676	2,554	3,412

25 TRADE ACCOUNTS RECEIVABLE

	31 December 2025	31 December 2024
	RMB million	RMB million
Amounts due from third parties	42,096	39,320
Amounts due from Sinopec Group Company and fellow subsidiaries	7,136	2,252
Amounts due from associates and joint ventures	5,861	6,943
	55,093	48,515
Less: Loss allowance for expected credit losses	(3,921)	(4,182)
	51,172	44,333

The aging analysis of trade accounts receivable (net of loss allowance for expected credit losses) is as follows:

	31 December 2025	31 December 2024
	RMB million	RMB million
Within one year	50,778	43,699
Between one and two years	80	404
Between two and three years	150	97
Over three years	164	133
	51,172	44,333

Loss allowance for expected credit losses are analysed as follows:

	2025	2024
	RMB million	RMB million
Balance at 1 January	4,182	4,016
(Reversal)/provision for the year	(173)	120
Written off for the year	(16)	(13)
Others	(72)	59
Balance at 31 December	3,921	4,182

As at 31 December 2025, the carrying amount of accounts receivable under factoring arrangement that are derecognised is RMB16,367 million (at 31 December 2024: RMB13,527 million).

Sales are generally on a cash term. Credit is generally only available for major customers with well-established trading records. Amounts due from Sinopec Group Company and fellow subsidiaries are repayable under the same terms.

These receivables relate to a wide range of customers for whom there is no recent history of default.

Information about the impairment of trade accounts receivable and the Group's exposure to credit risk can be found in Note 43.

26 FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME

	31 December 2025	31 December 2024
	RMB million	RMB million
Non-current assets		
Unlisted equity instruments	316	323
Listed equity instruments	6,840	93
Current assets		
Trade accounts receivable and bills receivable (i)	5,340	2,613
	12,496	3,029

Note:

- (i) As at 31 December 2025 and 2024, bills receivable were classified as financial assets at fair value through other comprehensive income, as relevant business model is achieved both by collecting contractual cash flows and selling of these assets.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

for the year ended 31 December 2025

27 INVENTORIES

	31 December 2025	31 December 2024
	RMB million	RMB million
Crude oil and other raw materials	118,156	134,970
Work in progress	21,927	20,282
Finished goods	92,682	103,249
Spare parts and consumables	3,307	3,359
	236,072	261,860
Less: Allowance for diminution in value of inventories	(5,261)	(5,265)
	230,811	256,595

The cost of inventories recognised as an expense in the consolidated income statement amounted to RMB2,301,855 million for the year ended 31 December 2025 (2024: RMB2,557,782 million). It includes the write-down of inventories of RMB4,430 million mainly related to finished goods and raw materials (2024: RMB4,554 million mainly related to finished goods and raw materials).

28 PREPAID EXPENSES AND OTHER CURRENT ASSETS

	31 December 2025	31 December 2024
	RMB million	RMB million
Receivables	40,178	33,896
Advances to suppliers	5,057	6,429
Value-added input tax to be deducted	26,602	26,060
Prepaid income tax	11,342	6,451
	83,179	72,836

29 DEFERRED TAX ASSETS AND LIABILITIES

Deferred tax assets and liabilities before offset are attributable to the items detailed in the table below:

	Deferred tax assets		Deferred tax liabilities	
	31 December 2025	31 December 2024	31 December 2025	31 December 2024
	RMB million	RMB million	RMB million	RMB million
Receivables and inventories	3,592	4,294	(9)	(49)
Payables	2,294	2,649	–	–
Cash flow hedges	40	41	(1,055)	(667)
Property, plant and equipment	19,484	17,529	(29,326)	(31,560)
Tax losses carried forward	10,494	12,256	–	–
Financial assets at fair value through other comprehensive income	133	139	(4)	(4)
Intangible assets	2,419	1,296	(140)	(93)
Lease liabilities and right of use assets	41,978	40,876	(36,160)	(36,594)
Others	2,641	2,457	(2,700)	(1,117)
Deferred tax assets/(liabilities)	83,075	81,537	(69,394)	(70,084)

The offsetting amount between deferred tax assets and liabilities are as follows:

	31 December 2025	31 December 2024
	RMB million	RMB million
Deferred tax assets	62,993	62,760
Deferred tax liabilities	62,993	62,760

Deferred tax assets and liabilities after the offsetting adjustments are as follows:

	31 December 2025	31 December 2024
	RMB million	RMB million
Deferred tax assets	20,082	18,777
Deferred tax liabilities	6,401	7,324

As at 31 December 2025, certain subsidiaries of the Company did not recognise deferred tax of deductible loss carried forward of RMB31,327 million (2024: RMB28,197 million), of which RMB6,479 million (2024: RMB5,070 million) was incurred for the year ended 31 December 2025, because it was not probable that the future taxable profits will be available. These deductible losses carried forward of RMB5,310 million, RMB8,972 million, RMB5,496 million, RMB5,070 million and RMB6,479 million will expire in 2026, 2027, 2028, 2029, 2030 and after, respectively.

Periodically, management performed assessment on the probability that future taxable profit will be available over the period which the deferred tax assets can be realised or utilised. In assessing the probability, both positive and negative evidence was considered, including whether it is probable that the operations will have sufficient future taxable profits over the periods which the deferred tax assets are deductible or utilised and whether the tax losses result from identifiable causes which are unlikely to recur.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

for the year ended 31 December 2025

29 DEFERRED TAX ASSETS AND LIABILITIES (Continued)

Trade accounts payable and bills payable measured at amortised cost	263,459	256,597

The ageing analysis of trade accounts payable and bills payable is as follows:

	31 December 2025 RMB million	31 December 2024 RMB million
Within 1 month or on demand	110,603	158,734
Between 1 month and 6 months	133,619	95,929
Over 6 months	19,237	1,934
	263,459	256,597

34 CONTRACT LIABILITIES

As at 31 December 2025 and 2024, the Group's contract liabilities primarily represent advances from customers. Related performance obligations are expected to be satisfied and revenue is recognised within one year.

35 OTHER PAYABLES

	31 December 2025 RMB million	31 December 2024 RMB million
Salaries and welfare payable	11,509	14,167
Payables for constructions	78,137	77,951
Other payables	39,746	44,621
Taxes other than income tax	33,689	36,791
	163,081	173,530

36 PROVISIONS

Provisions primarily represent provision for future dismantlement costs of oil and gas properties. The Group has mainly committed to the PRC government to establish certain standardised measures for the dismantlement of its oil and gas properties by making reference to the industry practices and is thereafter constructively obligated to take dismantlement measures of its oil and gas properties.

Movement of provision of the Group's obligations for the dismantlement of its oil and gas properties is as follow:

	2025 RMB million	2024 RMB million
Balance at 1 January	46,528	45,222
Provision for the year	2,968	1,989
Accretion expenses	833	779
Decrease for the year	(2,274)	(1,497)
Exchange adjustments	(51)	35
Balance at 31 December	48,004	46,528

37 SHARE CAPITAL

	31 December 2025 RMB million	31 December 2024 RMB million
Registered, issued and fully paid		
97,142,913,622 listed A shares (2024: 97,232,263,098) of RMB1.00 each	97,143	97,233
23,782,600,600 listed H shares (2024: 24,049,292,600) of RMB1.00 each	23,783	24,049
	120,926	121,282

The Company was established on 25 February 2000 with a registered capital of 68.8 billion domestic state-owned shares with a par value of RMB1.00 each. Such shares were issued to Sinopec Group Company in consideration for the assets and liabilities transferred to the Company (Note 1).

Pursuant to the resolutions passed at an Extraordinary General Meeting held on 25 July 2000 and approvals from relevant government authorities, the Company is authorised to increase its share capital to a maximum of 88.3 billion shares with a par value of RMB1.00 each and offer not more than 19.5 billion shares with a par value of RMB1.00 each to investors outside the PRC. Sinopec Group Company is authorised to offer not more than 3.5 billion shares of its shareholdings in the Company to investors outside the PRC. The shares sold by Sinopec Group Company to investors outside the PRC would be converted into H shares.

In October 2000, the Company issued 15,102,439,000 H shares with a par value of RMB1.00 each, representing 12,521,864,000 H shares and 25,805,750 American Depositary Shares ("ADSs", each representing 100 H shares), at prices of HKD1.59 per H share and USD20.645 per ADS, respectively, by way of a global initial public offering to Hong Kong and overseas investors. As part of the global initial public offering, 1,678,049,000 state-owned ordinary shares of RMB1.00 each owned by Sinopec Group Company were converted into H shares and sold to Hong Kong and overseas investors.

In July 2001, the Company issued 2.8 billion listed A shares with a par value of RMB1.00 each at RMB4.22 by way of a public offering to natural persons and institutional investors in the PRC.

During the year ended 31 December 2010, the Company issued 88,774 listed A shares with a par value of RMB1.00 each, as a result of exercise of 188,292 warrants entitled to the Bonds with Warrants.

During the year ended 31 December 2011, the Company issued 34,662 listed A shares with a par value of RMB1.00 each, as a result of conversion by the holders of the 2011 Convertible Bonds.

During the year ended 31 December 2012, the Company issued 117,724,450 listed A shares with a par value of RMB1.00 each, as a result of conversion by the holders of the 2011 Convertible Bonds.

On 14 February 2013, the Company issued 2,845,234,000 listed H shares ("the Placing") with a par value of RMB1.00 each at the Placing Price of HKD8.45 per share. The aggregate gross proceeds from the Placing amounted to approximately HKD24,042,227,300.00 and the aggregate net proceeds (after deduction of the commissions and estimated expenses) amounted to approximately HKD23,970,100,618.00.

37 SHARE CAPITAL (Continued)

In June 2013, the Company issued 21,011,962,225 listed A shares and 5,887,716,600 listed H shares as a result of bonus issues of 2 shares converted from the retained earnings, and 1 share transferred from the share premium for every 10 existing shares.

During the year ended 31 December 2013, the Company issued 114,076 listed A shares with a par value of RMB1.00 each, as a result of exercise of conversion by the holders of the 2011 Convertible Bonds.

During the year ended 31 December 2014, the Company issued 1,715,081,853 listed A shares with a par value of RMB1.00 each, as a result of exercise of conversion by the holders of the 2011 Convertible Bonds.

During the year ended 31 December 2015, the Company issued 2,790,814,006 listed A shares with a par value of RMB1.00 each, as a result of exercise of conversion by the holders of the 2011 Convertible Bonds.

During the year ended 31 December 2022, the Company repurchased 442,300,000 listed A shares and 732,502,000 listed H shares respectively at a price of RMB4.06 per share to RMB4.50 per share for the repurchase of listed A shares, with a total amount of RMB1,888,163,981.61, and a price of HKD3.06 per share to HKD3.75 per share for the repurchase of listed H shares, with a total amount of HKD2,499,261,860.00, which had been cancelled in the year ended 31 December 2022.

During the year ended 31 December 2023, the Company repurchased 143,500,000 listed A shares and 403,656,000 listed H shares respectively at a price of RMB5.29 per share to RMB6.17 per share for the repurchase of listed A shares, with a total amount of RMB816,009,269.44, and a price of HKD3.78 per share to HKD4.56 per share for the repurchase of listed H shares, with a total amount of HKD1,646,392,242.20, which had been cancelled in the year ended 31 December 2023.

Pursuant to the resolutions of the 15th meeting of the 8th session of the board of directors held on 24 March 2023 and the 2022 Annual General Meeting of Shareholders held on 30 May 2023, and with the approval for registration by the China Securities Regulatory Commission in the Reply on Agreeing to the Registration of China Petroleum & Chemical Corporation to Issue Shares to Specific Targets (Zheng Jian Xu Ke [2024] No. 110(證監許可[2024]110 號)), the Company was approved to issued 2,390,438,247 listed A shares (par value of RMB1.00 per share at an issue price of RMB5.02 per share) to Sinopec Group Company on 18 March 2024. The total amount of raised funds is RMB11,999,999,999.94. After deducting the total amount of RMB12,671,221.04 (excluding VAT) of recommendation and underwriting expenses and other issuance expenses, the net amount of raised funds is RMB11,987,328,778.90, which is included in the share capital of RMB2,390,438,247.00 and capital reserve of RMB9,596,890,531.90.

During the year ended 31 December 2024, the Company repurchased 130,146,195 listed A shares and 328,126,000 listed H shares respectively at a price of RMB6.16 per share to RMB6.43 per share for the repurchase of listed A shares, with a total amount of RMB816,001,427.20, and a price of HKD4.09 per share to HKD4.89 per share for the repurchase of listed H shares, with a total amount of HKD1,436,267,366.40. The 138,000 listed H shares repurchased on 30 December 2024 had not been canceled in the year ended 31 December 2024.

During the year ended 31 December 2025, the Company repurchased 89,349,476 listed A shares and 266,554,000 listed H shares respectively at a price of RMB5.27 per share to RMB6.10 per share for the repurchase of listed A shares, with a total amount of RMB500,000,213.01, and a price of HKD4.05 per share to HKD4.64 per share for the repurchase of listed H shares, with a total amount of HKD1,152,829,082.00. The H shares repurchased on 30 December 2024, A shares and H shares repurchased in 2025 had been canceled in the year ended 31 December 2025.

All A shares and H shares rank pari passu in all material aspects.

37 SHARE CAPITAL (Continued)**Capital management**

Management optimises the structure of the Group's capital, which comprises of equity, debts and bonds. In order to maintain or adjust the capital structure of the Group, management may cause the Group to issue new shares, adjust the capital expenditure plan, sell assets to reduce debt, or adjust the proportion of short-term and long-term loans and bonds. Management monitors capital on the basis of the debt-to-capital ratio, which is calculated by dividing long-term loans (excluding current portion) and debentures payable, including long-term debts and loans from Sinopec Group Company and fellow subsidiaries, by the total of equity attributable to shareholders of the Company and long-term loans (excluding current portion) and debentures payable, and liability-to-asset ratio, which is calculated by dividing total liabilities by total assets. Management's strategy is to make appropriate adjustments according to the Group's operating and investment needs and the changes of market conditions, and to maintain the debt-to-capital ratio and the liability-to-asset ratio of the Group at a range considered reasonable. As at 31 December 2025, the debt-to-capital ratio and the liability-to-asset ratio of the Group were 22.1% (2024: 20.5%) and 54.2%(2024: 53.3%), respectively.

The schedule of the contractual maturities of loans and commitments are disclosed in Notes 30 and 38, respectively.

There were no changes in the management's approach to capital management of the Group during the year. Neither the Company nor any of its subsidiaries is subject to externally imposed capital requirements.

38 COMMITMENTS AND CONTINGENT LIABILITIES**Capital commitments**

At 31 December 2025 and 2024, capital commitments of the Group are as follows:

	31 December 2025 RMB million	31 December 2024 RMB million
Authorised and contracted for (i)	170,368	177,173
Authorised but not contracted for	87,592	61,996
	257,960	239,169

These capital commitments relate to oil and gas exploration and development, refining and petrochemical production capacity expansion projects, the construction of service stations and oil depots and investment commitments.

Note:

(i) The investment commitments of the Group is RMB21,756 million (2024: RMB13,353 million).

Commitments to joint ventures

Pursuant to certain of the joint venture agreements entered into by the Group, the Group is obliged to purchase products from the joint ventures based on market prices.

Exploration and production licenses

Exploration licenses for exploration activities are registered with the Ministry of Natural Resources. The term of the Group's exploration licenses is 5 years, and may be renewed upon expiration within 30 days prior to expiration of the original term with each renewal being for a five-year term. The Group is obligated to make progressive annual minimum exploration investment relating to the exploration blocks in respect of which the license is issued. The Ministry of Natural Resources also issues production licenses to the Group on the basis of the reserve reports approved by relevant authorities. The maximum term of a full production license is 30 years unless a special dispensation is given by the State Council. The maximum term of production licenses is 80 years with a special dispensation given by the State Council. The Group's production license is renewable upon application by the Group 30 days prior to expiration.

The Group is required to make payments of exploration license fees and production right usage fees to the Ministry of Natural Resources annually which are expensed. Expenses recognised were approximately RMB164 million for the year ended 31 December 2025 (2024: RMB183 million).

Estimated future annual payments are as follows:

	31 December 2025 RMB million	31 December 2024 RMB million
Within one year	270	237
Between one and two years	141	179
Between two and three years	78	134
Between three and four years	79	76
Between four and five years	74	76
Thereafter	834	862
	1,476	1,564

38 COMMITMENTS AND CONTINGENT LIABILITIES (Continued)

Contingent liabilities

At 31 December 2025 and 2024, the guarantees by the Group in respect of facilities granted to the parties below are as follows:

	31 December 2025 RMB million	31 December 2024 RMB million
Joint ventures (i)	3,522	8,193
Associates (ii)	1,901	–
	5,423	8,193

Note:

(i) The Group provided guarantees in respect to standby credit facilities granted by amounting to RMB7,100 million (31 December 2024: RMB34,351 million) to certain joint ventures. As at 31 December 2025, the amount withdrawn (the portion corresponding to the shareholding ratio of the Group) and guaranteed by the Group was RMB3,522 million (31 December 2024: RMB8,193 million).

The Group provided a guarantee in respect to payment obligation of a joint venture under an certain agreement amount to RMB17,080 million (31 December 2024: RMB17,468 million). As at 31 December 2025, there has not yet incurred the relevant payment obligations and therefore the Group has no guarantee amount (31 December 2024: Nil).

(ii) The Group provides guarantees for a joint venture company to accept loans, with a total committed guarantee amount of RMB4,307 million (31 December 2024: Nil). As of December 31, 2025, the actual withdrawal amount of the guaranteed company (corresponding to the proportion of equity held by the Group) and the guarantee amount of the Group amounted to RMB1,901 million (31 December 2024: Nil).

Management monitors the risk that the specified debtor will default on the contract and recognises a provision when ECLs on the financial guarantees are determined to be higher than the carrying amount in respect of the guarantees. At 31 December 2025 and 2024, the Group estimates that there is no material liability has been accrued for ECLs related to the Group's obligation under these guarantee arrangements.

Environmental contingencies

Under existing legislation, management believes that there are no probable liabilities that will have a material adverse effect on the financial position or operating results of the Group. The PRC government, however, has moved, and may move further towards more rigorous enforcement of applicable laws, and towards the adoption of more stringent environmental standards. Environmental liabilities are subject to considerable uncertainties which affect management's ability to estimate the ultimate cost of remediation efforts. These uncertainties include (i) the exact nature and extent of the contamination at various sites including, but not limited to refineries, oil fields, service stations, terminals and land development areas, whether operating, closed or sold, (ii) the extent of required cleanup efforts, (iii) varying costs of alternative remediation strategies, (iv) changes in environmental remediation requirements, and (v) the identification of new remediation sites. The amount of such future cost is indeterminable due to such factors as the unknown magnitude of possible contamination and the unknown timing and extent of the corrective actions that may be required. Accordingly, the outcome of environmental liabilities under proposed or future environmental legislation cannot reasonably be estimated at present, and could be material.

The Group paid normal routine pollutant discharge fees of approximately RMB16,474 million in the consolidated financial statements for the year ended 31 December 2025 (2024: RMB18,448 million).

Legal contingencies

The Group is defendant in certain lawsuits as well as the named party in other proceedings arising in the ordinary course of business. Management has assessed the likelihood of an unfavourable outcome of such contingencies, lawsuits or other proceedings and believes that any resulting liabilities will not have a material adverse effect on the financial position, operating results or cash flows of the Group.

39 RELATED PARTY TRANSACTIONS

Parties are considered to be related to the Group if the Group has the ability, directly or indirectly, to control or jointly control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to control or common control. Related parties may be individuals (being members of key management personnel, significant shareholders and/or their close family members) or other entities and include entities which are under the significant influence of related parties of the Group where those parties are individuals, and post-employment benefit plans which are for the benefit of employees of the Group or of any entity that is a related party of the Group.

(a) Transactions with Sinopec Group Company and fellow subsidiaries, associates and joint ventures

The Group is part of a larger group of companies under Sinopec Group Company, which is controlled by the PRC government, and has significant transactions and relationships with Sinopec Group Company and fellow subsidiaries. Because of these relationships, it is possible that the terms of these transactions are not the same as those that would result from transactions among wholly unrelated parties.

39 RELATED PARTY TRANSACTIONS (Continued)

(a) Transactions with Sinopec Group Company and fellow subsidiaries, associates and joint ventures (Continued)

The principal related party transactions with Sinopec Group Company and fellow subsidiaries, associates and joint ventures, which were carried out in the ordinary course of business are as follows:

	Notes	2025 RMB million	2024 RMB million
Sales of goods	(i)	363,144	381,571
Purchases	(ii)	207,616	176,738
Transportation and storage	(iii)	25,490	26,081
Exploration and development services	(iv)	37,215	39,208
Production related services	(v)	35,586	36,880
Agency commission income	(vi)	111	160
Interest income	(vii)	2,821	3,108
Interest expense	(viii)	954	1,291
Net deposits placed with related parties	(vii)	(8,138)	(466)
Net funds obtained from related parties	(ix)	44,133	34,093

The amounts set out in the table above in respect of the year ended 31 December 2025 and 2024 represent the relevant costs and income as determined by the corresponding contracts with the related parties.

Included in the transactions disclosed above, for the year ended 31 December 2025 are: a) purchases by the Group from Sinopec Group Company and fellow subsidiaries amounting to RMB191,571 million (2024: RMB159,275 million) comprising purchases of products and services (i.e. procurement, transportation and storage, exploration and development services and production related services) of RMB177,897 million (2024: RMB145,685 million), lease charges for land, buildings and others paid by the Group of RMB11,171 million, RMB1,184 million and RMB365 million (2024: RMB10,937 million, RMB1,088 million and RMB274 million), respectively and interest expenses of RMB954 million (2024: RMB1,291 million); and b) sales by the Group to Sinopec Group Company and fellow subsidiaries amounting to RMB108,230 million (2024: RMB72,711 million), comprising RMB105,315 million (2024: RMB69,281 million) for sales of goods, RMB2,821 million (2024: RMB3,363 million) for interest income and RMB94 million (2024: RMB67 million) for agency commission income.

For the year ended 31 December 2025, no individually significant right-of-use assets were leased from Sinopec Group Company and fellow subsidiaries, associates and joint ventures by the Group. The interest expense recognised for the year ended 31 December 2025 on lease liabilities in respect of amounts due to Sinopec Group Company and fellow subsidiaries, associates and joint ventures was RMB7,482 million (2024: RMB7,434 million).

For the year ended 31 December 2025, the amount of rental the Group paid to Sinopec Group Company and fellow subsidiaries, associates and joint ventures for land, buildings and others are RMB11,177 million, RMB1,189 million and RMB401 million (2024: RMB10,941 million, RMB1,094 million and RMB363 million), including pursuant to the continuing connected transaction agreements signed in 2000, the Seventh Supplementary Agreement and the memorandum of the fourth amendment to the land use right lease agreement on 23 August 2024, the amount of rental the Group paid to Sinopec Group Company for land and buildings are RMB11,171 million and RMB1,184 million (2024: RMB10,937 million and RMB1,088 million). As the lessee, the Group has not obtained any single significant 'right of use assets' from Sinopec Group and its subsidiary, affiliated companies and joint ventures.

As at 31 December 2025 and 2024, the guarantees given to banks by the Group in respect of banking facilities to associates and joint ventures are disclosed in Note 38. In addition, there was no guarantee given to banks by the Group in respect of banking facilities to Sinopec Group Company and fellow subsidiaries.

The directors of the Company are of the opinion that the above transactions with related parties were conducted in the ordinary course of business and on normal commercial terms or in accordance with the agreements governing such transactions, and this has been confirmed by the independent non-executive directors.

Notes:

- (i) Sales of goods represent the sale of crude oil, intermediate petrochemical products, petroleum products and ancillary materials.
- (ii) Purchases represent the purchase of materials and utility supplies directly related to the Group's operations such as the procurement of raw and ancillary materials and related services, supply of water, electricity and gas.
- (iii) Transportation and storage represent the cost for the use of railway, road and marine transportation services, pipelines, loading, unloading and storage facilities.
- (iv) Exploration and development services comprise direct costs incurred in the exploration and development such as geophysical, drilling, well testing and well measurement services.
- (v) Production related services represent ancillary services rendered in relation to the Group's operations such as equipment repair and general maintenance, insurance premium, technical research, communications, firefighting, security, product quality testing and analysis, information technology, design and engineering, construction of oilfield ground facilities, refineries and chemical plants, manufacture of replacement parts and machinery, installation, project management, environmental protection and management services.
- (vi) Agency commission income represents commission earned for acting as an agent in respect of sales of products and purchase of materials for certain entities owned by Sinopec Group Company.
- (vii) Interest income represents interest received from deposits placed with Sinopec Finance and Sinopec Century Bright Capital Investment Limited, finance companies controlled by Sinopec Group Company. The applicable interest rate is determined in accordance with the prevailing saving deposit rate. The balance of deposits at 31 December 2025 was RMB74,571 million (2024: RMB66,433 million).
- (viii) Interest expense represents interest charges on the loans obtained from Sinopec Group Company and fellow subsidiaries.
- (ix) The Group obtained loans, discounted bills and issued the acceptance bills from Sinopec Group Company and fellow subsidiaries.

39 RELATED PARTY TRANSACTIONS (Continued)

(a) Transactions with Sinopec Group Company and fellow subsidiaries, associates and joint ventures (Continued)

In connection with the Reorganisation, the Company and Sinopec Group Company entered into a number of agreements under which 1) Sinopec Group Company will provide goods and products and a range of ancillary, social and supporting services to the Group and 2) the Group will sell certain goods to Sinopec Group Company. These agreements impacted the operating results of the Group for the year ended 31 December 2025. The terms of these agreements are summarised as follows:

- The Company has entered into a non-exclusive "Agreement for Mutual Provision of Products and Ancillary Services" ("Mutual Provision Agreement") with Sinopec Group Company effective from 1 January 2000 in which Sinopec Group Company has agreed to provide the Group with certain ancillary production services, construction services, information advisory services, supply services and other services and products. While each of Sinopec Group Company and the Company is permitted to terminate the Mutual Provision Agreement upon at least six months notice, Sinopec Group Company has agreed not to terminate the agreement if the Group is unable to obtain comparable services from a third party. The pricing policy for these services and products provided by Sinopec Group Company to the Group is as follows:
 - (1) the government-prescribed price;
 - (2) where there is no government-prescribed price, the government-guidance price;
 - (3) where there is neither a government-prescribed price nor a government-guidance price, the market price; or
 - (4) where none of the above is applicable, the price to be agreed between the parties, which shall be based on a reasonable cost incurred in providing such services plus a profit margin not exceeding 6%.
- The Company has entered into a series of lease agreements with Sinopec Group Company to lease certain lands and buildings effective on 1 January 2000. The lease term is 40 or 50 years for lands and 20 years for buildings, respectively. The Company and Sinopec Group Company can renegotiate the rental amount every three years for land. The Company and Sinopec Group Company can renegotiate the rental amount for buildings every year. However such amount cannot exceed the market price as determined by an independent third party.
- The Company has entered into agreements with Sinopec Group Company effective from 1 January 2000 under which the Group has been granted the right to use certain trademarks, patents, technology and computer software developed by Sinopec Group Company.
- The Company has entered into a service stations franchise agreement with Sinopec Group Company effective from 1 January 2000 under which its service stations and retail stores would exclusively sell the refined products supplied by the Group.
- On the basis of a series of continuing connected transaction agreements signed in 2000, the Company and Sinopec Group Company have signed the Seventh Supplementary Agreement on 23 August 2024, which took effect on 1 January 2025 and made adjustment to "Mutual Supply Agreement" and "Buildings Leasing Contract", etc.

Amounts due from/to Sinopec Group Company and fellow subsidiaries, associates and joint ventures included in the following accounts captions are summarised as follows:

	31 December 2025 RMB million	31 December 2024 RMB million
Trade accounts receivable	12,982	9,151
Financial assets at fair value through other comprehensive income	41	166
Prepaid expenses and other current assets	21,509	16,064
Long-term prepayments and other assets	7,072	4,648
Total	41,604	30,029
Trade accounts payable and bills payable	22,984	26,375
Contract liabilities	4,346	5,349
Other payables	28,403	30,477
Other long-term liabilities	9,536	6,415
Short-term loans and current portion of long-term loans from Sinopec Group Company and fellow subsidiaries	11,921	4,684
Long-term loans excluding current portion from Sinopec Group Company and fellow subsidiaries	20,116	23,294
Lease liabilities (including to be paid within one year)	150,938	146,355
Total	248,244	242,949

Amounts due from/to Sinopec Group Company and fellow subsidiaries, associates and joint ventures, other than short-term loans and long-term loans, bear no interest, are unsecured and are repayable in accordance with normal commercial terms. The terms and conditions associated with short-term loans and long-term loans payable to Sinopec Group Company and fellow subsidiaries are set out in Note 30.

As at and for the year ended 31 December 2025, and as at and for the year ended 31 December 2024, no individually significant loss allowance for expected credit losses were recognised in respect of amounts due from Sinopec Group Company and fellow subsidiaries, associates and joint ventures.

39 RELATED PARTY TRANSACTIONS (Continued)

(b) Key management personnel emoluments

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly, including directors and supervisors of the Group. The key management personnel compensation is as follows:

	2025 RMB'000	2024 RMB'000
Short-term employee benefits	7,970	8,149
Retirement scheme contributions	505	554
	8,475	8,703

(c) Contributions to defined contribution retirement plans

The Group participates in various defined contribution retirement plans organised by municipal and provincial governments for its staff. The details of the Group's employee benefits plan are disclosed in Note 40. As at 31 December 2025 and 2024, the accrual for the contribution to post-employment benefit plans was not material.

(d) Transactions with other state-controlled entities in the PRC

The Group is a state-controlled energy and chemical enterprise and operates in an economic regime currently dominated by entities directly or indirectly controlled by the PRC government through its government authorities, agencies, affiliations and other organisations (collectively referred as "state-controlled entities").

Apart from transactions with Sinopec Group Company and fellow subsidiaries, the Group has transactions with other state-controlled entities, include but not limited to the followings:

- sales and purchases of goods and ancillary materials;
- rendering and receiving services;
- lease of assets;
- depositing and borrowing money; and
- uses of public utilities.

These transactions are conducted in the ordinary course of the Group's business on terms comparable to those with other entities that are not state-controlled.

40 EMPLOYEE BENEFITS PLAN

As stipulated by the regulations of the PRC, the Group participates in various defined contribution retirement plans organised by municipal and provincial governments for its staff. The Group is required to make contributions to the retirement plans at rates ranging from 13.0% to 16.0% of the salaries, bonuses and certain allowances of its staff. In addition, the Group provides a supplementary retirement plan for its staff at rates not exceeding 8% of the salaries. The Group has no other material obligation for the payment of pension benefits associated with these plans beyond the annual contributions described above. The Group's contributions for the year ended 31 December 2025 were RMB14,809 million (2024: RMB14,493 million).

41 SEGMENT REPORTING

Segment information is presented in respect of the Group's business segments. The format is based on the Group's management and internal reporting structure.

In a manner consistent with the way in which information is reported internally to the Group's chief operating decision maker for the purposes of resource allocation and performance assessment, the Group has identified the following five reportable segments. No operating segments have been aggregated to form the following reportable segments.

- Exploration and production, which explores and develops oil fields, produces crude oil and natural gas and sells such products to the refining segment of the Group and external customers.
- Refining, which processes and purifies crude oil, that is sourced from the exploration and production segment of the Group and external suppliers, and manufactures and sells petroleum products to the chemicals and marketing and distribution segments of the Group and external customers.
- Marketing and distribution, which owns and operates oil depots and service stations, and distributes and sells refined petroleum products (mainly gasoline and diesel) through wholesale and retail sales networks.
- Chemicals, which manufactures and sells petrochemical products, derivative petrochemical products and other chemical products mainly to external customers.
- Corporate and others, which largely comprises the trading activities of the import and export companies of the Group and research and development undertaken by other subsidiaries.

The segments were determined primarily because the Group manages its exploration and production, refining, marketing and distribution, chemicals, and corporate and others businesses separately. The reportable segments are each managed separately because they manufacture and/or distribute distinct products with different production processes and due to their distinct operating and gross margin characteristics.

41 SEGMENT REPORTING (Continued)

(1) Information of reportable segmental revenues, profits or losses, assets and liabilities

The Group's chief operating decision maker evaluates the performance and allocates resources to its operating segments on an operating profit basis, without considering the effects of finance costs or investment income. Inter-segment transfer pricing is based on the market price or cost plus an appropriate margin, as specified by the Group's policy.

Assets and liabilities dedicated to a particular segment's operations are included in that segment's total assets and liabilities. Segment assets include all tangible and intangible assets, except for interest in associates and joint ventures, investments, deferred tax assets, cash and cash equivalents, time deposits with financial institutions and other unallocated assets. Segment liabilities exclude short-term debts, income tax payable, long-term debts, loans from Sinopec Group Company and fellow subsidiaries, deferred tax liabilities and other unallocated liabilities.

Information of the Group's reportable segments is as follows:

	2025 RMB million	2024 RMB million
Revenue from primary business		
Exploration and production		
External sales	157,915	175,844
Inter-segment sales	124,156	117,297

	8,587	2,412

(2) Geographical information

The geographical information of the Group's external sales and the Group's non-current assets, excluding financial instruments and deferred tax assets are analysed by different regions. In presenting information on the basis of geographical segments, segment revenue is based on the geographical location of customers, and segment assets are based on the geographical location of the assets. The Group's external sales and non-current assets from mainland China were RMB2,240,581 million (2024: RMB2,478,160 million) and RMB1,544,958 million (2024: RMB1,491,020 million). The proportion to the total revenue from domestic transactions and the proportion to the total non-current assets are 80.5% (2024: 80.6%) and 96.5% (2024: 97.1%). In addition, there is no other single country or region with segment revenue or segment assets accounting for more than 10%.

42 PRINCIPAL SUBSIDIARIES

As at 31 December 2025, the following list contains the particulars of subsidiaries which principally affected the results, assets and liabilities of the Group.

Name of company	Particulars of issued capital (million)	Interests held by the Company %	Interests held by non-controlling interests %	Principal activities
Sinopec Great Wall Energy & Chemical Company Limited	RMB22,761	100.00	–	Coal chemical industry investment management, production and sale of coal chemical products
Sinopec Yangzi Petrochemical Company Limited	RMB15,651	100.00	–	Manufacturing of intermediate petrochemical products and petroleum products
Sinopec Overseas Investment Holding Limited (“SOIHL”)	USD4,942	100.00	–	Investment holding of overseas business
Sinopec International Petroleum Exploration and Production Limited (“SIPL”)	RMB8,250	100.00	–	Investment in exploration, production and sale of petroleum and natural gas
Sinopec Yizheng Chemical Fibre Limited Liability Company	RMB4,000	100.00	–	Production and sale of polyester chips and polyester fibres
Sinopec Lubricant Company Limited	RMB3,374	100.00	–	Production and sale of refined petroleum products, lubricant base oil, and petrochemical materials
China International United Petroleum and Chemical Company Limited	RMB5,000	100.00	–	Trading of crude oil and petrochemical products
Sinopec Qingdao Petrochemical Company Limited	RMB1,595	100.00	–	Manufacturing of intermediate petrochemical products and petroleum products
Sinopec Catalyst Company Limited	RMB1,500	100.00	–	Production and sale of catalyst products
China Petrochemical International Company Limited	RMB1,400	100.00	–	Trading of petrochemical products
Sinopec Chemical Sales Company Limited	RMB1,000	100.00	–	Marketing and distribution of petrochemical products
Sinopec Hainan Refining and Chemical Company Limited	RMB9,606	100.00	–	Manufacturing of intermediate petrochemical products and petroleum products
Sinopec (Henan) Refining and Chemical Company Limited	RMB1,843	100.00	–	Manufacturing of intermediate petrochemical products and petroleum products
Sinopec Beihai Refining and Chemical Limited Liability Company	RMB5,294	98.98	1.02	Import and processing of crude oil, production, storage and sale of petroleum products and petrochemical products
ZhongKe (Guangdong) Refinery & Petrochemical Company Limited	RMB8,168	90.30	9.70	Crude oil processing and petroleum products manufacturing
Sinopec Qingdao Refining and Chemical Company Limited	RMB5,153	85.00	15.00	Manufacturing of intermediate petrochemical products and petroleum products
Sinopec Marketing Company Limited	RMB28,403	70.43	29.57	Marketing and distribution of refined petroleum products
Sinopec Kantons Holdings Limited (“Sinopec Kantons”)	HKD248	60.33	39.67	Provision of crude oil jetty and natural gas pipeline transportation services
Sinopec-SK (Wuhan) Petrochemical Company Limited (“Sinopec-SK”)	RMB7,193	59.00	41.00	Production, sale, research and development of petrochemical products, ethylene and downstream byproducts
Sinopec Shanghai Gaoqiao Petrochemical Company Limited (“Gaoqiao Petrochemical”)	RMB10,000	55.00	45.00	Manufacturing of intermediate petrochemical products and petroleum products
Sinopec Hunan Petrochemical Co., Ltd. (“Hunan Petrochemical”)	RMB7,333	74.69	25.31	Crude oil processing and petroleum products manufacturing
Sinopec Shanghai Petrochemical Company Limited (“Shanghai Petrochemical”)	RMB10,543	51.81	48.19	Manufacturing of synthetic fibres, resin and plastics, intermediate petrochemical products and petroleum products
Fujian Petrochemical Company Limited (“Fujian Petrochemical”) (i)	RMB10,492	50.00	50.00	Manufacturing of plastics, intermediate petrochemical products and petroleum products

Except for Sinopec Kantons and SOIHL, which are incorporated in Bermuda and Hong Kong SAR respectively, all of the above principal subsidiaries are incorporated and operate their businesses principally in the PRC. All of the above principal subsidiaries are limited companies.

Note:

- (i) The Group consolidated the financial statements of the entity because it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

* The non-controlling interests of subsidiaries which the Group holds 100% of equity interests at the end of the year are the non-controlling interests of their subsidiaries.

43 FINANCIAL RISK MANAGEMENT AND FAIR VALUES**Overview**

Financial assets of the Group include cash and cash equivalents, time deposits with financial institutions, financial assets at fair value through profit or loss, derivative financial assets, trade accounts receivable, amounts due from Sinopec Group Company and fellow subsidiaries, amounts due from associates and joint ventures, financial assets at FVOCI and other receivables. Financial liabilities of the Group include short-term debts, loans from Sinopec Group Company and fellow subsidiaries, derivative financial liabilities, trade accounts payable and bills payable, amounts due to Sinopec Group Company and fellow subsidiaries, amounts due to associates and joint ventures, other payables, long-term debts and lease liabilities.

The Group has exposure to the following risks from its uses of financial instruments:

- credit risk;
- liquidity risk; and
- market risk.

The Board of Directors has overall responsibility for the establishment, oversight of the Group's risk management framework, and developing and monitoring the Group's risk management policies.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, and set appropriate risk limits and controls to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management controls and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations. Internal audit department undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Group's audit committee.

Credit risk**(i) Risk management**

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's deposits placed with financial institutions (including structured deposits) and receivables from customers. To limit exposure to credit risk relating to deposits, the Group primarily places cash deposits only with large financial institutions in the PRC with acceptable credit ratings. The majority of the Group's trade accounts receivable relate to sales of petroleum and chemical products to related parties and third parties operating in the petroleum and chemical industries. No single customer accounted for greater than 10% of total trade accounts receivable at 31 December 2025, except the amounts due from Sinopec Group Company and fellow subsidiaries. Management performs ongoing credit evaluations of the Group's customers' financial condition and generally does not require collateral on trade accounts receivable. The Group maintains a loss allowance for expected credit losses and actual losses have been within management's expectations.

The carrying amounts of cash and cash equivalents, time deposits with financial institutions, financial assets at fair value through profit or loss, derivative financial assets, trade accounts receivable, financial assets at FVOCI and other receivables, represent the Group's maximum exposure to credit risk in relation to financial assets.

(ii) Impairment of financial assets

The Group's primary type of financial assets that are subject to the expected credit loss model is trade accounts receivable, financial assets at FVOCI and other receivables.

The Group's cash deposits are placed only with large financial institutions with acceptable credit ratings, and there is no material impairment loss identified.

For trade accounts receivable and financial assets at FVOCI, the Group applies the IFRS 9 simplified approach to measuring ECLs which uses a lifetime expected loss allowance for all trade accounts receivable and financial assets at FVOCI.

To measure the ECLs, trade accounts receivable and financial assets at FVOCI have been grouped based on shared credit risk characteristics and the days past due.

The ECLs were calculated based on historical actual credit loss experience. The rates were considered the differences between economic conditions during the period over which the historical data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables. The Group performed the calculation of ECL rates by the operating segment.

43 FINANCIAL RISK MANAGEMENT AND FAIR VALUES (Continued)

Credit risk (Continued)

(ii) Impairment of financial assets (Continued)

The following table provides information about the exposure to credit risk and ECLs for accounts receivable as at 31 December 2025 and 2024.

	Impairment provision on individual basis			Impairment provision on provision matrix basis		
	Gross carrying amount	Gross carrying amount	Impairment provision on individual basis	Weighted – average loss rate	Impairment provision	Loss allowance
	RMB million	RMB million	RMB million	%	RMB million	RMB million
31 December 2025						
Current and within 1 year past due	50,824	12,101	4	0.1%	42	46
1 to 2 years past due	113	20	3	32.3%	30	33
2 to 3 years past due	221	120	6	64.4%	65	71
Over 3 years past due	3,935	3,494	3,330	100.0%	441	3,771
Total	55,093	15,735	3,343		578	3,921
	Impairment provision on individual basis			Impairment provision on provision matrix basis		
	Gross carrying amount	Gross carrying amount	Impairment provision on individual basis	Weighted – average loss rate	Impairment provision	Loss allowance
	RMB million	RMB million	RMB million	%	RMB million	RMB million
31 December 2024						
Current and within 1 year past due	43,813	6,048	4	0.3%	110	114
1 to 2 years past due	466	366	32	30.0%	30	62
2 to 3 years past due	154	53	1	55.4%	56	57
Over 3 years past due	4,082	3,670	3,537	100.0%	412	3,949
Total	48,515	10,137	3,574		608	4,182

All of the entity's other receivables are considered to have low credit risk, and the loss allowance recognised during the period was therefore limited to 12 months expected losses. The Group considers there was no significant increase in credit risk for other receivables by taking into account of their past history of making payments when due and current ability to pay, and thus the impairment provision recognised during the period was limited to 12 months expected losses.

43 FINANCIAL RISK MANAGEMENT AND FAIR VALUES (Continued)

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. Management prepares monthly cash flow budget to ensure that the Group will always have sufficient liquidity to meet its payment obligations as they fall due. The Group arranges and negotiates financing with financial institutions and maintains a certain level of standby credit facilities to reduce the Group's liquidity risk.

As at 31 December 2025, the Group has standby credit facilities with several PRC financial institutions which provide borrowings up to RMB704,827 million (2024: RMB722,258 million) on an unsecured basis, at a weighted average interest rate of 2.20% per annum (2024: 2.31%). As at 31 December 2025, the Group's outstanding borrowings under these facilities were RMB29,421 million (2024: RMB48,231 million) and were included in debts.

The following table sets out the remaining contractual maturities at the date of the statement of financial position of the Group's financial liabilities, which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on prevailing rates current at the date of the statement of financial position) and the earliest date the Group would be required to repay:

	31 December 2025					
	Carrying amount RMB million	Total contractual undiscounted cash flow RMB million	Within 1 year or on demand RMB million	More than 1 year but less than 2 years RMB million	More than 2 years but less than 5 years RMB million	More than 5 years RMB million
Short-term debts	108,335	109,462	109,462	–	–	–
Long-term debts	215,148	234,112	4,453	62,444	100,760	66,455
Loans from Sinopec Group Company and fellow subsidiaries	32,037	36,550	14,486	3,106	9,934	9,024
Lease liabilities	175,486	251,746	18,865	11,313	33,384	188,184
Derivative financial liabilities	5,676	5,676	5,676	–	–	–
Trade accounts payable and bills payable	263,459	263,459	263,459	–	–	–
Other payables	101,263	101,263	101,263	–	–	–
	901,404	1,002,268	517,664	76,863	144,078	263,663

	31 December 2024					
	Carrying amount RMB million	Total contractual undiscounted cash flow RMB million	Within 1 year or on demand RMB million	More than 1 year but less than 2 years RMB million	More than 2 years but less than 5 years RMB million	More than 5 years RMB million
Short-term debts	87,780	88,186	88,186	–	–	–
Long-term debts	187,202	199,405	1,281	89,384	65,805	42,935
Loans from Sinopec Group Company and fellow subsidiaries	27,978	28,540	5,280	6,472	7,306	9,482
Lease liabilities	172,735	266,379	18,607	12,025	34,449	201,298
Derivative financial liabilities	3,412	3,412	3,412	–	–	–
Trade accounts payable and bills payable	256,597	256,597	256,597	–	–	–
Other payables	101,005	101,005	101,005	–	–	–
	836,709	943,524	474,368	107,881	107,560	253,715

Management believes that the Group's current cash on hand, expected cash flows from operations and available standby credit facilities from financial institutions will be sufficient to meet the Group's short-term and long-term capital requirements.

43 FINANCIAL RISK MANAGEMENT AND FAIR VALUES (Continued)

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

(a) Currency risk

Currency risk arises on financial instruments that are denominated in a currency other than the functional currency in which they are measured.

The Group does not have significant financial instruments that are denominated in foreign currencies other than the functional currencies of respective entities as at 31 December, and consequently does not have significant exposure to foreign currency risk.

(b) Interest rate risk

The Group's interest rate risk exposure arises primarily from its short-term and long-term debts and loans from Sinopec Group Company and fellow subsidiaries. Debts bearing interest at variable rates and at fixed rates expose the Group to cash flow interest rate risk and fair value interest rate risk respectively. The interest rates and terms of repayment of short-term and long-term debts, and loans from Sinopec Group Company and fellow subsidiaries of the Group are disclosed in Note 30.

As at 31 December 2025, it is estimated that a general increase/decrease of 100 basis points in variable interest rates, with all other variables held constant, would decrease/increase the Group's profit for the year by approximately RMB1,533 million (2024: decrease/increase by approximately RMB1,794 million). This sensitivity analysis has been determined assuming that the change of interest rates was applied to the Group's debts outstanding at the date of the statement of financial position with exposure to cash flow interest rate risk. The analysis is performed on the same basis for 2024.

(c) Commodity price risk and hedge accounting

The Group engages in oil and gas operations and is exposed to commodity price risk related to price volatility of crude oil, refined oil products and chemical products. The fluctuations in prices of crude oil, refined oil products and chemical products could have significant impact on the Group. The Group uses derivative financial instruments, including commodity futures and swaps contracts, to manage a portion of this risk.

Based on the dynamic study and judging of the market, combined with the resource demand and production and operation plan, the Group evaluate and monitor the market risk exposure caused by transaction positions, and continuously manage and hedge the risk of commodity price fluctuation caused by market changes.

As at 31 December 2025, the Group had certain commodity contracts of crude oil, refined oil products and chemical products designated as qualified cash flow hedges and economic hedges. As at 31 December 2025, it is estimated that a general increase/decrease of USD10 per barrel in basic price of derivative financial instruments, with all other variables held constant, would impact the fair value of derivative financial instruments, which would increase/decrease the Group's profit for the year by approximately RMB4,385 million (2024: decrease/increase RMB8,698 million), and decrease/increase the Group's other reserves by approximately RMB8,812 million (2024: increase/decrease RMB5,883 million). This sensitivity analysis has been determined assuming that the change in prices had occurred at the date of the statement of financial position and the change was applied to the Group's derivative financial instruments at that date with exposure to commodity price risk. The analysis is performed on the same basis for 2024.

For the hedge relationship with cash flow hedge accounting applied, the corresponding changes in cash flow hedge reserves are as follows:

	2025 RMB million	2024 RMB million
Beginning of the year	3,338	5,758
Effective portion of changes in fair value of hedging instruments recognised during the year	16,386	(1,193)
Reclassification adjustments for amounts transferred to the consolidated income statement	(14,830)	(562)
Amounts transferred to initial carrying amount of hedged items	(246)	(1,157)
Related tax	(391)	492
End of the year	4,257	3,338

The ineffective portion of cash flow hedge relationship is disclosed in Note 8.

43 FINANCIAL RISK MANAGEMENT AND FAIR VALUES (Continued)

Fair values

(i) Financial instruments carried at fair value

The following table presents the carrying value of financial instruments measured at fair value at the date of the statement of financial position across the three levels of the fair value hierarchy defined in IFRS 13, Fair Value Measurement, with the fair value of each financial instrument categorised in its entirety based on the lowest level of input that is significant to that fair value measurement. The levels are defined as follows:

- Level 1 (highest level): fair values measured using quoted prices (unadjusted) in active markets for identical financial instruments.
- Level 2: fair values measured using quoted prices in active markets for similar financial instruments, or using valuation techniques in which all significant inputs are directly or indirectly based on observable market data.
- Level 3 (lowest level): fair values measured using valuation techniques in which any significant input is not based on observable market data.

At 31 December 2025

	Level 1 RMB million	Level 2 RMB million	Level 3 RMB million	Total RMB million
Assets				
Financial assets at fair value through profit or loss:				
– Fund Investments	4	–	–	4
Derivative financial assets:				
– Derivative financial assets	758	604	–	1,362
Financial assets at fair value through other comprehensive income:				
– Equity instruments	6,840	–	316	7,156
– Trade accounts receivable and bills receivable	–	–	5,340	5,340
	7,602	604	5,656	13,862
Liabilities				
Derivative financial liabilities:				
– Derivative financial liabilities	3,796	1,880	–	5,676
	3,796	1,880	–	5,676

At 31 December 2024

	Level 1 RMB million	Level 2 RMB million	Level 3 RMB million	Total RMB million
Assets				
Financial assets at fair value through profit or loss:				
– Fund Investments	4	–	–	4
Derivative financial assets:				
– Derivative financial assets	824	1,730	–	2,554
Financial assets at fair value through other comprehensive income:				
– Equity instruments	93	–	323	416
– Trade accounts receivable and bills receivable	–	–	2,613	2,613
	921	1,730	2,936	5,587
Liabilities				
Derivative financial liabilities:				
– Derivative financial liabilities	2,496	916	–	3,412
	2,496	916	–	3,412

During the years ended 31 December 2025 and 2024, there was no transfer between instruments in Level 1 and Level 2.

Management of the Group uses discounted cash flow model with inputted interest rate, which were influenced by interest rate levels of similar instruments, historical fluctuation and the probability of market fluctuation, to evaluate the fair value of trade accounts receivable and bills receivable classified as Level 3 financial assets.

43 FINANCIAL RISK MANAGEMENT AND FAIR VALUES (Continued)**Fair values** (Continued)**(ii) Fair values of financial instruments carried at other than fair value**

The disclosures of the fair value estimates, and their methods and assumptions of the Group's financial instruments, are made to comply with the requirements of IFRS 7 and IFRS 9 and should be read in conjunction with the Group's consolidated financial statements and related notes. The estimated fair value amounts have been determined by the Group using market information and valuation methodologies considered appropriate. However, considerable judgement is required to interpret market data to develop the estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Group could realise in a current market exchange. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

The fair values of the Group's financial instruments carried at other than fair value (other than long-term indebtedness and investments in unquoted equity securities) approximate their carrying amounts due to the short-term maturity of these instruments. The fair values of long-term indebtedness are estimated by discounting future cash flows using current market interest rates offered to the Group for debt with substantially the same characteristic and maturities range from 1.80% to 3.87% (2024: 1.74% to 4.49%). The following table presents the carrying amount and fair value of the Group's long-term indebtedness other than loans from Sinopec Group Company and fellow subsidiaries at 31 December 2025 and 2024:

	31 December 2025	31 December 2024
	RMB million	RMB million
Carrying amount	300,328	230,613
Fair value	261,898	228,946

The Group has not developed an internal valuation model necessary to estimate the fair values of loans from Sinopec Group Company and fellow subsidiaries as it is not considered practicable to estimate their fair values because the cost of obtaining discount and borrowing rates for comparable borrowings would be excessive based on the Group's existing capital structure and the terms of the borrowings.

Except for the above items, the financial assets and liabilities of the Group are carried at amounts not materially different from their fair values at 31 December 2025 and 2024.

44 ACCOUNTING ESTIMATES AND JUDGEMENTS

The Group's financial condition and results of operations are sensitive to accounting methods, assumptions and estimates that underlie the preparation of the consolidated financial statements. Management bases the assumptions and estimates on historical experience and on various other assumptions that it believes to be reasonable and which form the basis for making judgements about matters that are not readily apparent from other sources. On an ongoing basis, management evaluates its estimates. Actual results may differ from those estimates as facts, circumstances and conditions change.

The selection of material accounting policies, the judgements and other uncertainties affecting application of such policies and the sensitivity of reported results to changes in conditions and assumptions are factors to be considered when reviewing the consolidated financial statements. The material accounting policies are set forth in Note 2. Management believes the following material accounting policies involve the most significant judgements and estimates used in the preparation of the consolidated financial statements.

Oil and gas properties and reserves

The accounting for the exploration and production's oil and gas activities is subject to accounting rules that are unique to the oil and gas industry. There are two methods to account for oil and gas business activities, the successful efforts method and the full cost method. The Group has elected to use the successful efforts method. The successful efforts method reflects the volatility that is inherent in exploring for mineral resources in that costs of unsuccessful exploratory efforts are charged to expense as they are incurred. These costs primarily include dry hole costs, seismic costs and other exploratory costs. Under the full cost method, these costs are capitalised and written-off or depreciated over time.

Engineering estimates of the Group's oil and gas reserves are inherently imprecise and represent only approximate amounts because of the subjective judgements involved in developing such information. There are authoritative guidelines regarding the engineering criteria that have to be met before estimated oil and gas reserves can be designated as "proved". Proved and proved developed reserves estimates are updated at least annually and take into account recent production and technical information about each field. In addition, as prices and cost levels change from year to year, the estimates of proved and proved developed reserves also change. This change is considered a change in estimate for accounting purposes and is reflected on a prospective basis in relation to depreciation rates. Oil and gas reserves have a direct impact on the assessment of the recoverability of the carrying amounts of oil and gas properties reported in the financial statements. If proved reserves estimates are revised downwards, earnings could be affected by changes in depreciation expense or an immediate write-down of the property's carrying amount.

Future dismantlement costs for oil and gas properties are estimated with reference to engineering estimates after taking into consideration the anticipated method of dismantlement required in accordance with industry practices in similar geographic area, including estimation of economic life of oil and gas properties, technology and price level. The present values of these estimated future dismantlement costs are capitalised as oil and gas properties with equivalent amounts recognised as provisions for dismantlement costs.

Despite the inherent imprecision in these engineering estimates, these estimates are used in determining depreciation expense, impairment loss and future dismantlement costs. Capitalised costs of proved oil and gas properties are amortised on a unit-of-production method based on volumes produced and reserves.

44 ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued)

Impairment for long-lived assets

If circumstances indicate that the net book value of a long-lived asset, may not be recoverable, the asset may be considered “impaired”, and an impairment loss may be recognised in accordance with IAS 36 “Impairment of Assets”. The carrying amounts of long-lived assets are reviewed periodically in order to assess whether the recoverable amounts have declined below the carrying amounts. These assets are tested for impairment whenever events or changes in circumstances, including environmental protection and energy structure transition variables, indicate that their recorded carrying amounts may not be recoverable. When such a decline has occurred, the carrying amount is reduced to recoverable amount. For goodwill, the recoverable amount is estimated annually. The recoverable amount is the greater of the net selling price and the value in use. It is difficult to precisely estimate selling price because quoted market prices for the Group’s assets or cash-generating units are not readily available. Accordingly, the Group determines the recoverable amount based on the present value in use.

The projected future cash flows of an asset are based on data from the most recent financial budget approved by management, as well as on a stabilized growth rate for the years following the period of that budget. In appropriate and reasonable circumstances, the growth rate can be zero or negative. Projected cash flows based on budgets usually cover five years, or longer periods if that is reasonable. When projecting cash flows for years beyond the budgeted period, the growth rate used does not exceed the long-term average growth rate of the business or markets in which products are located, or the long-term average growth rate of the market in which the asset is located, except where a higher growth rate can be justified. In determining the discount rate, the weighted average cost of capital is usually used as the basis.

In determining the value in use, expected cash flows generated by the asset or the cash-generating units are discounted to their present value, which requires significant judgement relating to future selling prices of crude oil, natural gas, refined and chemical products, the production costs, the product mix, production volumes, production profiles, the oil and gas reserves and discount rate. Management uses all readily available information in determining an amount that is a reasonable approximation of recoverable amount, including estimates based on reasonable and supportable assumptions and projections of sale volume, selling price, amount of operating costs and discount rate.

Depreciation

Property, plant and equipment, other than oil and gas properties, are depreciated on a straight-line basis over the estimated useful lives of the assets, after taking into account the estimated residual value. Management reviews the estimated useful lives of the assets at least annually in order to determine the amount of depreciation expense to be recorded during any reporting period. The useful lives are based on the Group’s historical experience with similar assets and take into account anticipated technological changes. The depreciation expense for future periods is adjusted if there are significant changes from previous estimates.

Measurement of expected credit losses

The Group measures and recognises ECLs using readiness matrix, considering reasonable and supportable information about the relevant past events, current conditions and forecasts of future economic conditions. The Group regularly monitors and reviews the assumptions used for estimating ECLs.

Allowance for diminution in value of inventories

If the costs of inventories become higher than their net realisable values, an allowance for diminution in value of inventories is recognised. Net realisable value represents the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. Management bases the estimates on all available information, including the current market prices of the finished goods, and historical operating costs. If the actual selling prices were to be lower or the costs of completion were to be higher than estimated, the actual allowance for diminution in value of inventories could be higher than estimated.

45 PARENT AND ULTIMATE HOLDING COMPANY

The directors consider the parent and ultimate holding company of the Group as at 31 December 2025 is Sinopec Group Company, a state-owned enterprise established in the PRC. This entity does not produce financial statements available for public use.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

for the year ended 31 December 2025

46 STATEMENT OF FINANCIAL POSITION AND RESERVE MOVEMENT OF THE COMPANY

STATEMENT OF FINANCIAL POSITION OF THE COMPANY (Amounts in million)	Note	31 December 2025 RMB	31 December 2024 RMB

46 STATEMENT OF FINANCIAL POSITION AND RESERVE MOVEMENT OF THE COMPANY (Continued)

(a) RESERVES MOVEMENT OF THE COMPANY

The reconciliation between the opening and closing balances of each component of the Group's consolidated reserves is set out in the consolidated statement of changes in equity. Details of the change in the Company's individual component of reserves between the beginning and the end of the year are as follows:

	The Company 2025 RMB million	2024 RMB million
Capital reserve		
Balance at 1 January	6,446	7,002
Other equity movements under the equity method	(149)	43
Others	(2,032)	(599)
Balance at 31 December	4,265	6,446
Share premium		
Balance at 1 January	58,993	51,068
Purchase of own shares	–	–
Cancellation of repurchased own shares	(1,199)	(1,672)
Issue of ordinary shares	–	9,597
Balance at 31 December	57,794	58,993
Treasury shares		
Balance at 1 January	(1)	–
Purchase of own shares	(1,554)	(2,131)
Cancellation of repurchased own shares	1,555	2,130
Balance at 31 December	–	(1)
Statutory surplus reserve		
Balance at 1 January	110,663	106,134
Appropriation	3,563	4,529
Balance at 31 December	114,226	110,663
Discretionary surplus reserve		
Balance at 1 January	117,000	117,000
Balance at 31 December	117,000	117,000
Other reserves		
Balance at 1 January	3,771	4,155
Changes in the fair value of investments in other equity instruments, net of deferred tax	1	1
Share of other comprehensive income of associates and joint ventures, net of deferred tax	(61)	227
Cash flow hedges, net of deferred tax	(61)	(563)
Special reserve	(238)	(49)
Balance at 31 December	3,412	3,771
Retained earnings		
Balance at 1 January	107,674	109,030
Profit for the year	35,323	45,230
Distribution to owners (Note 14)	(27,636)	(42,108)
Appropriation	(3,563)	(4,529)
Special reserve	238	49
Others	(390)	2
Balance at 31 December	111,646	107,674
	408,343	404,546

(C) DIFFERENCES BETWEEN CONSOLIDATED FINANCIAL STATEMENTS PREPARED IN ACCORDANCE WITH THE ACCOUNTING POLICIES COMPLYING WITH CASS AND IFRS ACCOUNTING STANDARDS (UNAUDITED)

Other than the differences in the classifications of certain financial statements captions and the accounting for the items described below, there are no material differences between the Group's consolidated financial statements prepared in accordance with the accounting policies complying with CASS and IFRS Accounting Standards. The reconciliation presented below is included as supplemental information, is not required as part of the basic financial statements and does not include differences related to classification, presentation or disclosures. Such information has not been subject to independent audit or review. The major differences are:

(i) GOVERNMENT GRANTS

Under CASSs, grants from the government are credited to capital reserve if required by relevant governmental regulations. Under IFRS Accounting Standards, government grants relating to the purchase of fixed assets are recognised as deferred income and are transferred to the income statement over the useful life of these assets.

(ii) SAFETY PRODUCTION FUND

Under CASSs, safety production fund should be recognised in profit or loss with a corresponding increase in reserve according to PRC regulations. Such reserve is reduced for expenses incurred for safety production purposes or, when safety production related fixed assets are purchased, is reduced by the purchased cost with a corresponding increase in the accumulated depreciation. Such fixed assets are not depreciated thereafter. Under IFRS Accounting Standards, payments are expensed as incurred, or capitalised as fixed assets and depreciated according to applicable depreciation methods.

(iii) CAPITALISATION OF EXCHANGE DIFFERENCE OF SPECIFIC LOANS

Under CASSs, exchange difference arising on translation of specific loans and related interest denominated in a foreign currency should be capitalised as part of the cost of qualifying assets. Under IFRS Accounting Standards, such exchange difference is recognised in income statement unless the exchange difference represents an adjustment to interest.

Effects of major differences between the shareholders' equity under CASSs and the total equity under IFRS Accounting Standards are analysed as follows:

	Notes	31 December 2025 RMB million	31 December 2024 RMB million
Shareholders' equity under CASSs		989,772	976,293
Adjustments:			
Government grants	(i)	(764)	(815)
Capitalisation of exchange difference of specific loans	(iii)	(2,132)	(3,331)
Total equity under IFRS Accounting Standards*		986,876	972,147

Effects of major differences between the net profit under CASSs and the profit for the year under IFRS Accounting Standards are analysed as follows:

	Notes	2025 RMB million	2024 RMB million
Net profit under CASSs		35,250	57,547
Adjustments:			
Government grants	(i)	51	53
Safety production fund	(ii)	(587)	(47)
Capitalisation of exchange difference of specific loans	(iii)	1,199	(1,353)
Others		(103)	(24)
Profit for the year under IFRS Accounting Standards*		35,810	56,176

* The figures are extracted from the consolidated financial statements prepared in accordance with the accounting policies complying with IFRS Accounting Standards during the year ended 31 December 2024 and 2025 which have been audited by KPMG.

Differences between Consolidated Financial Statements Prepared in Accordance with the Accounting Policies Complying with CASS and IFRS Accounting Standards (Unaudited)

(D) SUPPLEMENTAL INFORMATION ON OIL AND GAS PRODUCING ACTIVITIES (UNAUDITED)

This section provides supplemental information on oil and gas exploration and producing activities of the Group and its equity method investments at 31 December 2025 and 2024, and for the years then ended in the following four separate tables. Table I provides costs incurred in oil and gas exploration and development. Table II through IV provide information on the Group's and its equity method investments' estimated net proved reserve quantities, standardised measure of discounted future net cash flows, and changes in the standardised measure of discounted cash flows.

Table I: Costs incurred in oil and gas exploration and development

	2025			2024		
	RMB million			RMB million		
	Total	China	Other countries	Total	China	Other countries
The Group						
Exploration	21,745	21,745	–	24,879	24,879	–
Development	56,449	55,590	859	58,270	57,982	288
Total costs incurred	78,194	77,335	859	83,149	82,861	288
Equity method investments						
Share of costs of exploration and development of associates and joint ventures	1,557	–	1,557	853	–	853
Total of the Group's and its equity method investments	79,751	77,335	2,416	84,002	82,861	1,141

Table II: Reserve quantities information

The Group's and its equity method investments' estimated net proved underground oil and gas reserves and changes thereto for the years ended 31 December 2025 and 2024 are shown in the following table.

Proved oil and gas reserves are those quantities of oil and gas, which by analysis of geoscience and engineering data, can be estimated with reasonable certainty to be economically producible from a given date forward, from known reservoirs, and under existing economic conditions, operating methods, and government regulation before contracts providing the right to operate expire, unless evidence indicates that renewal is reasonably certain, regardless of whether the estimate is a deterministic estimate or probabilistic estimate. Due to the inherent uncertainties and the limited nature of reservoir data, estimates of underground reserves are subject to change as additional information becomes available.

Proved developed oil and gas reserves are proved reserves that can be expected to be recovered through existing wells with existing equipment and operating methods or in which the cost of the required equipment is relatively minor compared with the cost of a new well.

"Net" reserves exclude royalties and interests owned by others and reflect contractual arrangements and obligation of rental fee in effect at the time of the estimate.

Table II: Reserve quantities information (Continued)

Beginning of the year	9,871	9,862	9	9,311	9,307	4
End of the year	10,029	10,023	6	9,871	9,862	9

Table III: Standardised measure of discounted future net cash flows

The following table represents the standardised measure of discounted future net cash flows related to the above proved oil and gas reserves. Estimated future cash inflows from production are computed by applying the average, first-day-of-the-month price adjusted for differential for oil and gas during the twelve-month period before the ending date of the period covered by the report to year-end quantities of estimated net proved reserves. Future price changes are limited to those provided by contractual arrangements in existence at the end of each reporting year. Future development and production costs are those estimated future expenditures necessary to develop and produce year-end estimated proved reserves based on year-end cost indices, assuming continuation of year-end economic conditions. Estimated future income taxes are calculated by applying appropriate year-end statutory tax rates to estimated future pre-tax net cash flows, less the tax basis of related assets. Discounted future net cash flows are calculated using 10% discount factors. This discounting requires a year-by-year estimate of when the future expenditure will be incurred and when the reserves will be produced.

The information provided does not represent management's estimate of the Group's and its equity method investments' expected future cash flows or value of proved oil and gas reserves. Estimates of proved reserve quantities are imprecise and change over time as new information becomes available. Moreover, probable and possible reserves, which may become proved in the future, are excluded from the calculations. The arbitrary valuation requires assumptions as to the timing and amount of future development and production costs. The calculations are made for the years ended 31 December 2025 and 2024 and should not be relied upon as an indication of the Group's and its equity method investments' future cash flows or value of its oil and gas reserves.

	2025 RMB million			2024 RMB million		
	Total	China	Other countries	Total	China	Other countries
