OmniVision Integrated Circuits Group, Inc.
豪威集成電路(集團)股份有限公司

(A joint stock company incorporated in the People's Republic of China with limited liability)

(Stock code: 0501)

ANNOUNCEMENT ON KEY OPERATING DATA FOR THE FIRST QUARTER OF 2026

This announcement is made by OmniVision Integrated Circuits Group, Inc. (the "**Company**") pursuant to Rules 13.09(2) and 13.10B of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and the Inside Information Provisions under Part XIVA of the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong).

I. KEY OPERATING DATA FOR THE FIRST QUARTER OF 2026

Based on preliminary calculations by the finance department of the Company, it is estimated that the operating income of the Company for the first quarter of 2026 (the "**Reporting Period**") will be RMB6.18 billion to RMB6.47 billion, representing a period-on-period decrease of 4.51% to 0.03%, with a gross profit margin of approximately 28.70% to 29.60%.

II. OPERATING CONDITIONS IN THE FIRST QUARTER OF 2026

The semiconductor industry is highly cyclical, and the Company's operating performance is significantly affected by fluctuations in the macroeconomy and changes in downstream end-market demand. In the first quarter of 2026, driven by the ongoing development of AI infrastructure, the global semiconductor industry experienced temporary disruptions in the supply-demand balance for products such as memory chips, while the demand in end-market in sectors such as consumer electronics and automotive electronics came under pressure, which had certain impacts on the Company's revenue during the period.

The Company's gross profit margins across all business lines remained stable. During the Reporting Period, there was a slight change in the Company's main business structure, with the proportion of revenue from the semiconductor distribution business increasing as compared with the same period of previous year, resulting in a slight decline in the Company's overall gross profit margin.

The Company will continue to optimize its business structure, actively explore emerging downstream applications, steadily expand its product portfolio, and simultaneously strengthen the supply chain management and cost control, with the aim of improving profitability and driving high-quality development of the Company's business.

III. OTHER MATTERS

The key operating data included in this announcement is only preliminary accounting data and may differ from the financial data disclosed in the 2026 first quarterly report of the Company. Please refer to the 2026 first quarterly report to be officially disclosed by the Company for the detailed and accurate financial data.

Shareholders and potential investors of the Company are reminded to exercise caution when dealing in the shares of the Company.

By order of the Board
