# Chairman's Statement

On behalf of the board (the “**Board**”) of directors (the “**Directors**”) of the Company, I am pleased to present to the Shareholders the annual results of the Company together with its subsidiaries (collectively, the “**Group**”) for the year ended 31 December 2025 (the “**FY2025**”).

The Group is a developer and major supplier of customised moulds in the People's Republic of China (the “**PRC**”), with a focus on moulds for the production of automotive parts which cater for the growing trend of automotive lightweight application, as well as electrical appliance parts and other parts. The Group seeks to offer comprehensive moulding services and solutions to the customers, covering product analysis, mould design and development; mould fabrication, assembling, testing and adjustment; trial production and aftersales services.

## BUSINESS REVIEW

In 2025, with escalating global tariff friction and intensifying geopolitical conflicts, trade tensions and severe political uncertainties have posed challenges to economic development, leading to a slowdown in global economic growth. Facing multiple pressures including a complex and severe external environment as well as prominent domestic structural imbalances between strong supply and weak demand, the Chinese government has actively implemented a series of macro-policies aimed at expanding domestic demand, boosting consumption and promoting innovation. As a result, the domestic economy has maintained a steady progress.

In 2025, driven by the continuous promotion of vehicle trade-in programs and the preferential purchase tax policies for new energy vehicles, as well as accelerated innovation by automakers, intensive launches of new models and multi-dimensional promotional strategies, the production and sales of China's automobile increased by 10.4% and 9.4% year-on-year, respectively. The share of new energy vehicles in domestic new car sales exceeded 50%. However, issues such as global trade protectionism and intensifying industry competition also posed challenges to the automotive industry. The condition of the automobile market directly affects the automotive mould industry in which the Group operates, where competition is becoming increasingly fierce. In response to continuously squeezed profit margins, the Group implemented a series of cost-reduction and efficiency-enhancement measures during the reporting period.

Against the backdrop of a complex and ever-changing global economic landscape and insufficient domestic effective demand, the household appliance industry is also facing dual pressures from both internal and external environments. Domestic consumer product trade-in policies have, to some extent, facilitated the continuous release of consumption potential. Meanwhile, technological innovation by household electrical appliance enterprises and the industry's shift toward smart and high-end development have driven consumption upgrades, bringing new growth opportunities to both the household electrical appliance industry and household electrical appliance mould industry.

# Chairman's Statement

The revenue of the Group for FY2025 amounted to approximately RMB300.7 million, representing an increase of approximately RMB63.1 million or 26.5% as compared with that of RMB237.6 million for the year ended 31 December 2024 (the "FY2024"). Such increase was mainly due to the increase in revenue generated from the sales of electrical appliance moulds and automotive moulds in FY2025. The profit attributable to owners of the Company for FY2025 amounted to approximately RMB15.1 million, representing a decrease of 5.8% as compared with that of approximately RMB16.0 million for FY2024, such decrease was mainly due to the combined effects of (i) the decrease in government grants and the loss on asset disposal during the reporting period, which together resulted in a reduction in other income and gains, net; and (ii) the increase in general and administrative expenses.

## OUTLOOK

Looking ahead, geopolitical and policy uncertainties may continue to dampen investment sentiment, keeping investment activities sluggish, and the global economy could face the risk of prolonged low growth. In response to a complex and evolving international environment as well as challenges such as intensifying industrial competition, the Chinese government will continue to implement more proactive macroeconomic policies to boost domestic demand and foster technological innovation, thereby providing solid support for stable economic development.

In 2026, policy measures such as the vehicle trade-in program and adjustment of the preferential purchase tax for new energy vehicles, along with advancements in vehicle intelligence and technological innovation, will contribute to the upgrade of automotive consumption and further tap into the consumption potential of the automobile market. Meanwhile, to alleviate the pressure of insufficient domestic demand, automakers are also accelerating their expansion into overseas markets. However, international trade barriers and policy risks, as well as intensifying domestic competition and cost pressures, will continue to pose significant challenges to both automotive and automotive mould enterprises.

Driven by sustained policy dividends and AI-enabled technological innovation, the household electrical appliance industry is moving toward a high-end, smart, and green future, which will continue to stimulate consumption in the household electrical appliance market and help household electrical appliance and household electrical appliance mould enterprises tap into the potential of the domestic market. On the other hand, sharply rising raw material costs have placed severe cost pressures on the industry. Against a backdrop of increasing complexity and unpredictability in the global trade environment, household electrical appliance and household electrical appliance mould enterprises are also confronted with multiple challenges.

In 2026, the Group will proactively respond to the challenges and opportunities arising from market dynamics and industrial restructuring. We will continue to identify opportunities for improvement across all aspects of production and operations to enhance efficiency, achieve cost reduction and efficiency gains, improve profit margins, and strengthen the Group's competitive advantages. We will deepen cooperation with existing high-quality clients and enhance customer loyalty. While further penetrating the domestic market, we will actively explore international markets.

# Chairman's Statement

## DIVIDEND

Taking into account the Group's business development needs, the outstanding bank loans, and the Shareholder's investment returns, the Board proposed a Final Dividend of HK0.688 cents (equivalent to RMB0.611 cents) per share for FY2025.

## APPRECIATION

On behalf of the Board, I would like to extend our gratitude to all of our employees and management team for their effort and contribution, and also thank our Shareholders and business partners for their trust and support. Going forward, the Group will strive to achieve a stable growth and create higher value for our Shareholders.

## FINANCIAL REVIEW

### Revenue

The revenue of the Group amounted to approximately RMB300.7 million for FY2025, representing an increase of approximately RMB63.1 million or 26.5% as compared with that of approximately RMB237.6 million for FY2024.

The following table sets forth a breakdown of the revenue of the Group by business segment:

	For the year ended 31 December		
	2025 RMB'000	2024 RMB'000	Change %
<b>Sales of moulds</b>			
Automotive moulds	203,860	182,452	11.7
Electrical appliance moulds	77,211	38,005	103.2
Other moulds	7,424	2,199	237.6
Subtotal	288,495	222,656	29.6
<b>Parts processing services</b>	9,742	13,082	-25.5
<b>Other</b>	2,432	1,908	27.5
Total	300,669	237,646	26.5

#### (i) Sales of moulds

The Group principally engages in the design, development, manufacture and sales of customised hot-pressing moulds, hydroforming moulds and injection moulds which are used in auto manufacturing. Apart from automotive moulds, the Group also engages in the design, development, manufacture and sales of customised plastic moulds for the production of electrical appliance and other parts. Sales of moulds accounted for 96.0% of the Group's revenue for FY2025.

The revenue generated from sales of automotive moulds for FY2025 amounted to approximately RMB203.9 million, representing an increase of approximately RMB21.4 million or 11.7% as compared with that of approximately RMB182.5 million for FY2024. Such increase was mainly due to the net effects of (i) the large increase in amounts of the final acceptance reports received from two of the Group's major customers as compared with that for the previous year; and (ii) the decrease in revenue generated from one of the Group's major customers.

The revenue generated from sales of electrical appliance moulds for FY2025 amounted to approximately RMB77.2 million, representing an increase of approximately RMB39.2 million or 103.2% as compared with that of approximately RMB38.0 million for FY2024. Such increase was mainly due to the significant increase in amounts of the final acceptance reports received from one of the Group's major customers as compared with that for the previous year.

# Management Discussion and Analysis

## (ii) Parts processing services

Parts processing services principally include services provided to the customers for (i) modification of moulds the Group manufactured and sold; and (ii) processing machine parts that are used in automotive moulds and electrical appliance moulds. The revenue generated from parts processing services for FY2025 amounted to approximately RMB9.7 million, representing a decrease of approximately RMB3.4 million or 25.5% as compared with that of approximately RMB13.1 million for FY2024. Such decrease was due to the decrease in revenue generated from parts processing services for automotive moulds and electrical appliance moulds.

## Cost of sales

The Group's cost of sales primarily consists of direct materials, direct labour, manufacturing overhead and subcontracting expenses. The major raw materials used by the Group in the production of moulds include, among others, mould steel, mould parts, casting parts, hot runner and mould base.

The cost of sales of the Group for FY2025 amounted to approximately RMB247.8 million, representing an increase of approximately RMB57.6 million or 30.3% as compared with that of approximately RMB190.2 million for FY2024. Such increase was mainly due to the increase in revenue generated from sales of electrical appliance moulds and automotive moulds during the reporting period.

## Gross profit and gross profit margin

The gross profit of the Group for FY2025 amounted to approximately RMB52.8 million, representing an increase of approximately RMB5.4 million or 11.4% as compared with that of approximately RMB47.4 million for FY2024. The gross profit margin decreased from 19.9% for FY2024 to 17.6% for FY2025, which was mainly due to the decrease of approximately 4.3% in gross profit margin from sales of automotive moulds during the reporting period. Due to fierce market competition, order prices for certain automotive mould projects that the Group received final acceptance reports during the reporting period were lower.

## Other income and gains

The other income and gains of the Group mainly consisted of government grants, interest income, gain on lease modification, gains on disposal of assets and foreign exchange differences. The amount decreased from approximately RMB8.5 million for FY2024 to approximately RMB2.8 million for FY2025, which was mainly due to (i) a decrease of approximately RMB4.0 million in government grants in FY2025 as compared with that of the previous year; and (ii) losses of approximately RMB0.1 million on disposal of assets recorded during the reporting period as compared to gains of approximately RMB0.9 million on disposal of assets recorded in the previous year.

## Selling and distribution expenses

The selling and distribution expenses of the Group mainly consisted of staff costs for sales staff and provision for warranty. The selling and distribution expenses of the Group for FY2024 and FY2025 were approximately RMB6.5 million and approximately RMB5.6 million, respectively. Such decrease was mainly due to the decrease in provision for warranty of approximately RMB0.9 million in FY2025 as compared with that for FY2024.

# Management Discussion and Analysis

## General and administrative expenses

The general and administrative expenses of the Group for FY2025 amounted to approximately RMB30.9 million, representing an increase of approximately RMB1.6 million or 5.4% as compared with that of approximately RMB29.3 million for FY2024. Such increase was mainly due to net effects of (i) an increase of approximately RMB2.2 million in research and development costs; and (ii) a decrease of approximately RMB1.1 million in depreciation charge resulting from reduction on lease during the reporting period.

## Finance costs

The finance costs of the Group mainly consisted of interest expenses on lease liabilities, bank borrowings and discounted notes receivable. The amount decreased from approximately RMB1.0 million for FY2024 to approximately RMB0.8 million for FY2025. Such decrease was mainly due to the decrease of approximately RMB0.3 million in interest on bank borrowings as compared to the corresponding period of the pervious year.

## Income tax expenses and effective tax rate

The income tax expenses of the Group increased from approximately RMB3.3 million for FY2024 to approximately RMB3.5 million for FY2025. The effective tax rate, representing income tax expense divided by profit before taxation, were 17.3% and 18.9% for FY2024 and FY2025, respectively.

## Net profit and net profit margin

The Group recorded net profit attributable to owners of the Company of approximately RMB16.0 million and RMB15.1 million for FY2024 and FY2025, with a net profit margin of 6.7% and 5.0%, respectively. The decrease in net profit and net profit margin was mainly due to the combined effects of (i) the decrease of approximately 2.3% in gross profit margin as compared to that of the previous financial year, among which the gross profit margin generated from sales of automotive moulds decreased by 4.3% resulting from lower order prices for certain automotive mould projects that the Group received final acceptance report during the reporting period due to fierce market competition; (ii) the decrease of approximately RMB5.7 million in other income and gains; and (iii) the increase of approximately RMB1.6 million in general and administrative expenses.

## Capital expenditure and commitments

The Group's capital expenditure in FY2025 primarily comprised expenditure on acquisition of plant and equipment, intangible assets and right-of-use assets and amounted to a total of approximately RMB15.0 million (FY2024: approximately RMB35.1 million).

As at 31 December 2025, the Group had capital commitments of approximately RMB0.5 million (31 December 2024: approximately RMB1.0 million).

# Management Discussion and Analysis

## Liquidity and financial resources

The Group's operations were primarily financed through cash generated from its operating activities for FY2025. The Group derived its cash inflow from operating activities primarily through the receipt of payments from the customers in relation to the sales of moulds and parts processing services. The Group's cash outflows from operating activities primarily comprised payments for purchases of raw materials, direct labour costs, subcontracting fees to third-party contractors and operating expenses such as staff costs.

As at 31 December 2025, the Group's total current assets and current liabilities were approximately RMB558.2 million (31 December 2024: approximately RMB482.3 million) and approximately RMB372.5 million (31 December 2024: approximately RMB313.5 million), respectively, while the current ratio was approximately 1.5 times (31 December 2024: approximately 1.5 times). The increase in total current assets as at 31 December 2025 was mainly due to (i) the increase in inventory of finished goods which comprised moulds that had only passed the customers' initial inspection for which the Group had not received their final acceptance reports; and (ii) the increase in trade and notes receivables. The increase in total current liabilities as at 31 December 2025 was mainly due to the combined effects of (i) the increase in trade payables and contract liabilities; and (ii) the decrease in other payables and accruals.

As at 31 December 2025, the Group had cash and bank balances of approximately RMB30.5 million (31 December 2024: approximately RMB32.4 million), among which restricted bank deposits were approximately RMB2.5 million (31 December 2024: approximately RMB1.4 million).

As at 31 December 2025, the Group's balance of interest-bearing bank and other borrowings were approximately RMB16.2 million (31 December 2024: approximately RMB21.8 million). As a result of the adjustment of the loan prime rate during the reporting period, the Group's borrowings interest rate was adjusted once during the reporting period. On 1 April 2025, the Group entered into a supplementary agreement for preferential loan interest rates, according to which the interest rate was lowered prospectively for outstanding borrowings from 3.3% to 3.0%. As at 31 December 2025, the Group's gearing ratio was 4.8% (31 December 2024: 6.9%), which was calculated based on interest bearing liabilities (including the lease liabilities) divided by total equity.

Going forward, the Group expects to fund its future operations and expansion plans primarily with cash generated from operations and borrowings.

## Reserves and capital structure

As at 31 December 2025, the Group's total equity was approximately RMB367.4 million (31 December 2024: approximately RMB356.5 million), which represented share capital of approximately RMB5.8 million (31 December 2024: approximately RMB5.8 million), reserves of approximately RMB360.4 million (31 December 2024: approximately RMB349.3 million), treasury shares of approximately RMB0.1 million (31 December 2024: approximately RMB0.1 million) and non-controlling interests of approximately RMB1.3 million (31 December 2024: approximately RMB1.4 million). The increase in total equity was primarily due to the net profit recorded for FY2025.

# Management Discussion and Analysis

## Property, plant and equipment

The Group's property, plant and equipment mainly comprised of buildings, machinery, furniture, fixtures and equipment, leasehold improvements and motor vehicles. As at 31 December 2025, the Group's property, plant and equipment amounted to approximately RMB167.5 million (31 December 2024: approximately RMB184.7 million).

## Inventories

The Group's inventories comprised (i) raw materials and low-value consumables used in production, (ii) work-in progress for products being manufactured in the production plants, and (iii) finished goods which comprised moulds that had only passed the customers' initial inspection for which the Group had not received their final acceptance reports. As at 31 December 2025, the Group's inventories amounted to approximately RMB381.3 million (31 December 2024: approximately RMB329.8 million). Such increase was mainly due to the increase in orders received for automotive moulds, which resulted in an increase in finished goods of moulds that had only passed the customers' initial inspection for which the Group had not received their final acceptance reports.

## Trade and notes receivables

The Group's trade and notes receivables represented amounts receivable from the customers in relation to the sales of moulds and provision of parts processing services. The Group's notes receivable were issued by the customers with which the Group could receive the amount at a fixed future date, or could readily be discounted into cash at an expense of finance charge. As at 31 December 2025, the Group's trade and notes receivables amounted to approximately RMB139.3 million (31 December 2024: approximately RMB111.5 million). Such increase was mainly due to an increase in quality guarantee deposits resulting from final acceptance of moulds during the reporting period, and an increase in the balance of notes receivables on hand.

The Group has stringent internal control measures in place to assess expected credit losses on trade receivables, reviewed the trade receivables ageing regularly and assess the customers individually for provision for expected credit loss allowance which take into account the historical settlement pattern, communications with customers, and evidence from external sources including the relevant public search results relating to the financial circumstances of the relevant customers.

## Trade payables

The Group's trade payables primarily consisted of payable to the suppliers in relation to the purchase of the raw materials for the manufacture of moulds, and subcontracting fees payable to third-party contractors. As at 31 December 2025, the Group's trade payables amounted to approximately RMB125.5 million (31 December 2024: approximately RMB84.0 million). Such increase was primarily due to adjustments to payment cycles and methods with raw material suppliers during this reporting period, resulting in an increase in the amount of undiscounted notes receivable endorsed to suppliers.

# Management Discussion and Analysis

## Contract liabilities

The Group's contract liabilities consisted of the advances received to deliver moulds. Pursuant to the contract, the Group generally requires the customers to pay around 30% of the total fee when they place a purchase order and around 30% to 50% of the total fee when the moulds have been fabricated and are ready for delivery to the customers. Such payments from the customers were recorded as contract liabilities and the moulds related to these contract liabilities were recorded as work-in-progress for products being manufactured in production plants and finished goods in the Group's inventories.

After the moulds have passed the customers' final inspection and examination, the customers would issue final acceptance reports to the Group, at which time, the Group would recognise the sales and reverse the related contract liabilities and record the remaining balance of around 20% to 40% of the total fee as trade receivables.

As at 31 December 2025, the Group's contract liabilities amounted to approximately RMB199.0 million (31 December 2024: approximately RMB173.9 million), most of which represented payments from the customers for moulds that had passed their initial inspection but for which the Group had not received their final acceptance reports.

## EMPLOYEES, TRAINING AND REMUNERATION POLICIES

As at 31 December 2025, the Group had 379 employees (31 December 2024: 362 employees). To promote employees' knowledge and technical expertise, the Group offers training programmes to employees from time to time according to their job duties. Employees' remuneration packages are determined with reference to the market information and individual performance and will be reviewed on a regular basis. In addition to basic remuneration, the Group also makes contributions to mandatory social security funds for the benefit of the PRC employees that provide for retirement insurance, medical insurance, unemployment insurance, maternity insurance, occupational injury insurance and housing funds. The Company also maintains a share option scheme and a share award scheme, which aims to providing incentives to employees to contribute to the Group's development.

The total staff cost including remuneration, other employee benefits and contributions to retirement schemes for the Directors and other staff of the Group for FY2025 amounted to approximately RMB59.4 million (FY2024: approximately RMB51.1 million). The increase in staff cost was mainly due to the increase in direct labor cost.

# Management Discussion and Analysis

## MATERIAL ACQUISITIONS AND DISPOSALS

During FY2025, the Group had no material acquisitions or disposals of subsidiaries, associated companies or joint ventures.

## CONTINGENT LIABILITIES

As at 31 December 2025, the Group had no material contingent liabilities (as at 31 December 2024: Nil).

## PLEDGES OVER GROUP'S ASSETS

In October 2022, the Group entered into a ten-year general facility agreement with a maximum credit limit of RMB80.0 million with Jiangsu Kunshan Rural Commercial Bank Co., Ltd. Zhangpu Sub-branch, which was raised to approximately RMB89.6 million in January 2024. The general facility was secured by the mortgages over the Group's leasehold land with a net carrying value of approximately RMB6.2 million at the end of the reporting period (31 December 2024: approximately RMB6.5 million), together with the new plant on the leasehold land with a net carrying value of approximately RMB72.7 million at the end of the reporting period (31 December 2024: approximately RMB75.4 million). As at 31 December 2025, the Group had borrowings of approximately RMB9.4 million in aggregate under the general facility agreement, comprising one short-term borrowing of approximately RMB2.0 million which bore interest at a rate of 2.5% per annum and was repaid in January 2026, and two long-term borrowings of approximately RMB7.4 million which bore interest at a rate of 3.0% per annum (2024: 3.3% per annum), which are repayable in June 2026.

## SIGNIFICANT INVESTMENTS HELD

The Group did not have any significant investments held as at 31 December 2025.

## FOREIGN CURRENCY EXPOSURE

Since the Group generated most of the revenue and incurred most of the costs in Renminbi for FY2025, there was no significant exposure to foreign exchange rate and the Group did not maintain any hedging policy against foreign exchange risk. The management will consider hedging significant currency exposure should the need arise.

# Management Discussion and Analysis

## USE OF PROCEEDS

The net proceeds (the “**Net Proceeds**”) from the global offering and the listing of the Company shares (the “**Listing**”), after deducting the underwriting fees and other related expenses in connection with the Listing, was approximately HKD95.6 million. ## CORPORATE CULTURE

Mission: To contribute to China to become an intelligent manufacturing power in the world

Vision: To become a model of happy enterprise in China

Values: To help customers and employees succeed

The Group focuses on long-term, stable and sustainable development strategies in business development. A healthy corporate culture across the Group is crucial for the Group to realize its vision, mission and long-term sustainable development. The Board leads the Group to shape a healthy corporate culture to guide the behaviours of its employees and by example, and ensures that the Group's vision, values and business strategies are aligned to it. The Group is committed to maintain high standards of business ethics and corporate governance across its operations, and continually reinforce the concept of acting lawfully, ethically and responsibly across all levels of the Group, and continue to improve corporate governance practices. The relevant norms are set out in various policies such as the Group's handbook, the whistleblowing policy, anti-fraud and anti-corruption policy of the Group, and trainings would be conducted from time to time.

## CORPORATE GOVERNANCE PRACTICES

The Board is committed to maintaining high corporate governance standards. The Board believes that high corporate governance standards are essential in providing a framework for the Group to safeguard the interests of the Shareholders, enhance corporate value, formulate its business strategies and policies, and enhance its transparency and accountability.

The Company has adopted the principles and code provisions of the Corporate Governance Code (the "CG Code") contained in Appendix C1 of the Listing Rules as the basis of the Company's corporate governance practices.

The Board is of the view that throughout the year ended 31 December 2025 and up to the date of this report, the Company has complied with all the code provisions as set out in the CG Code, except for code provision C.2.1 as set out below.

Pursuant to code provision C.2.1 of the CG Code, the responsibilities between the chairman and the chief executive officer should be segregated and should not be performed by the same individual. However, the Group does not have a separate chairman and chief executive officer and Mr. Lin Wan-Yi currently performs these two roles. The Board believes that vesting the roles of both chairman and chief executive officer in the same person has the benefit of ensuring consistent leadership within the Group and enables more effective and efficient overall strategic planning for the Group. Given that (i) all material decisions are approved by the Board, which currently comprises four executive Directors (including Mr. Lin Wan-Yi), one non-executive Director and three independent non-executive Directors; and (ii) the Directors proactively participate in all the board meetings and the relevant board committee meetings, and the chairman cum chief executive officer ensures all the Directors are duly informed of all the matters to be approved at the meetings, the Board considers that the balance of power and authority for the present arrangement will not be impaired and this structure will enable the Company to make and implement decisions promptly and effectively. The Board will continue to review and consider splitting the roles of chairman of the Board and chief executive officer of the Company at a time when it is appropriate and suitable by taking into account the circumstances of the Group as a whole.

The Company has also put in place certain recommended best practices as set out in the CG Code.

# Corporate Governance Report

## MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS AND EMPLOYEES

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the “**Model Code**”) as set out in Appendix C3 to the Listing Rules.

Specific enquiry has been made of all the Directors and they have confirmed that they have complied with the Model Code for the year ended 31 December 2025 and up to the date of this report.

The Company has also adopted the Model Code for securities transactions by employees who are likely to be in possession of unpublished price-sensitive information of the Company. No incident of non-compliance of the Model Code by the employees was noted by the Company for the year ended 31 December 2025 and up to the date of this report.

## BOARD OF DIRECTORS

The Company is headed by an effective Board which assumes responsibility for its leadership and control and be collectively responsible for promoting the Company’s success by directing and supervising the Company’s affairs. The Directors take decisions objectively in the best interests of the Company.

The Board has established Board independence evaluation mechanisms to ensure independent views are available to the Board, and a summary of which is set out below:

### (i) Composition

The Company shall always strive to maintain a balanced composition of executive and non-executive directors (including independent non-executive Directors) on the Board, and ensure the appointment of at least three independent non-executive Directors and maintain a ratio of at least one-third of its members being independent non-executive Directors (or such higher threshold as may be required by the Listing Rules from time to time). Independent non-executive Directors will be appointed to other Board committees as far as practicable to ensure independent views are available.

### (ii) Independence

The Nomination Committee must adhere to the director nomination policy of the Company and the independence assessment criteria as set out in the Listing Rules with regard to the nomination, appointment and re-appointment of independent non-executive Directors, and assess the independence of all independent non executive Directors on an annual basis to ensure that they can continue to exercise independent judgement.

### (iii) Compensation

No equity-based remuneration (e.g. share options or grants) with performance-related elements will be granted to independent non-executive Directors so as to maintain their objectivity and independence within the Board.

# Corporate Governance Report

## (iv) Board Decision Making

The Company is committed to ensuring that all Directors (including independent non-executive Directors) will be given equal opportunity and channels to communicate and express their independent views and inputs to the Board and the Board committees.

All Directors (including independent non-executive Directors) may seek further information and documentation from the management on the matters to be discussed at Board meetings. They may also seek assistance from the company secretary of the Company and, where appropriate, independent advice from external professional advisers at the Company's expense.

Directors (including independent non-executive Directors) shall not vote or be counted in the quorum on any Board resolution approving any contract or arrangement in which such Director or any of his/her close associates has a material interest.

The Board has a balance of skills, experience and diversity of perspectives appropriate to the requirements of the Company's business and annually reviews the contribution required from a Director to perform his responsibilities to the Company and whether the Director is spending sufficient time performing them that are commensurate with their role and the Board responsibilities. The Board includes a balanced composition of executive Directors and non executive Directors (including independent non-executive Directors) so that there is a strong independent element on the Board, which can effectively exercise independent judgement. The Board reviewed the implementation and effectiveness of the Board independence evaluation mechanisms and the results were satisfactory.

## Board Composition

The Board currently comprises the following Directors:

### Executive Directors

Mr. Lin Wan-Yi (*Chairman and chief executive officer*)

Mr. Yung Chia-Pu

Mr. Cheng Ching-Long

Mr. Lu Jen-Chieh

### Non-executive Director

Ms. Hsieh Pei-Chen

### Independent Non-executive Directors

## Board Meetings and Directors' Attendance Records

Pursuant to code provision C.5.1 of the CG Code, regular Board meetings should be held at least four times a year involving active participation, either in person or through electronic means of communication, of a majority of Directors. Four Board meetings were held for the year ended 31 December 2025.

Directors may participate in meetings either in person or through electronic means of communication. All Directors are given not less than fourteen days' notice for regular Board meetings. For other Board and Board committee meetings, reasonable notice will be given.

The company secretary of the Company (the "**Company Secretary**") assists the chairman in preparing the agenda of regular Board meetings and circulates the draft Board meeting agenda to all Directors for their perusal and comment. Directors are invited to include any matters in the agenda which they think appropriate. The Board meeting agenda will be issued by the Company Secretary after incorporating all the comments of Directors (if any). Relevant meeting materials are provided to the Directors at least three days before the meetings to ensure that they are given sufficient review time and are adequately prepared for the meetings.

The minutes of the Board meetings and Board committees meetings are drafted and kept by the Company Secretary. All meeting minutes will set out in detail the matters discussed and considered at the meetings, including, among others, any queries made or views expressed by the Directors. The Company Secretary will distribute the draft meeting minutes to all Directors for their comment and final version of the meeting minutes to all Directors for their record within reasonable time after holding of the meetings.

Apart from regular Board meetings, the Chairman also held one meeting with the independent non-executive Directors without the presence of other Directors for the year ended 31 December 2025

One general meeting of the Company was held in the year ended 31 December 2025. Independent non-executive Directors and non-executive Director have attended the general meeting to gain and develop a balanced understanding of the view of the Shareholders.

## Independent Non-executive Directors

Independent non-executive Directors play a significant role in the Board by virtue of their independent judgement and their views carry significant weight in the Board's decisions. They are experienced professionals in areas such as financial accounting and financial management. Their extensive experiences significantly contribute to enhancing the decision-making of the Board and achieving a sustainable and balanced development of the Group. In particular, they bring impartial views and opinions on issues of the Company's strategy, performance and control, and take the lead in solution where potential conflicts of interests arise. The Board believes that its culture of openness and debate facilitates the effective contribution of executive Directors, non-executive Director and independent non-executive Directors in particular, to the Board and ensures constructive relationship among executive Directors, non-executive Director and independent non-executive Directors.

During the year ended 31 December 2025, the Board has met the requirements of the Listing Rules relating to the appointment of at least three independent non-executive Directors, representing one-third of the Board, with at least one of whom possessing appropriate professional qualifications or accounting or related financial management expertise.

The Company has received written annual confirmation from each of the independent non-executive Directors in respect of his independence in accordance with the independence guidelines set out in Rule 3.13 of the Listing Rules. The Company is of the view that all independent non-executive Directors are independent.

## Appointment and Re-election of Directors

Each of the executive Directors has entered into service agreements with the Company for a fixed term of three years commencing from the Listing, which has been renewed for a further term of one year from 28 June 2022, and will be automatically renewable for successive term of one year upon the expiry of each term. It is subject to termination in certain circumstances as stipulated in the relevant service agreements or by not less than three months' notice in writing sent by either party to the other.

It is subject to termination in certain circumstances as stipulated in the relevant service contract or by not less than one month's notice in writing sent by either party to the other.

The procedures and process of appointment, re-election and removal of Directors are set out in the Articles of Association and the nomination policy of the Company. The Nomination Committee is responsible for reviewing the Board composition, assessing the independence of independent non-executive Directors and making recommendations to the Board on the appointment or re-election of Directors and succession planning for Directors.

# Corporate Governance Report

All Directors are subject to retirement by rotation and re-election at the annual general meetings. Under the Articles of Association of the Company, at each annual general meeting, one-third of the Directors for the time being, or if their number is not three or a multiple of three, the number nearest to but not less than one-third shall retire from office by rotation provided that every Director shall be subject to retirement by rotation at least once every three years. The Company's Articles of Association also provides that all Directors appointed to fill a casual vacancy or as an addition to the existing Board shall be subject to election by Shareholders at the first annual general meeting after appointment. The retiring Directors shall be eligible for re-election.

## Responsibilities, Accountabilities and Contributions of the Board and Management

The Board assumes responsibility for leadership and control of the Company; and is collectively responsible for directing and supervising the Company's affairs.

The Board leads and provides direction to management by laying down strategies and overseeing their implementation, monitors the Group's operational and financial performance, and ensures that sound internal control and risk management systems are in place.

All Directors have brought a wide spectrum of valuable business experience, knowledge and professionalism to the Board for its efficient and effective functioning. The independent non-executive Directors are responsible for ensuring a high standard of regulatory reporting of the Company and providing a balance in the Board for bringing effective independent judgement on corporate actions and operations.

All Directors have full and timely access to all the information of the Company and may, upon request, seek independent professional advice in appropriate circumstances for discharging their duties to the Company.

The Directors have disclosed to the Company details of other offices held by them.

The Board reserves for its decision all major matters relating to policy matters, strategies and budgets, internal control and risk management, material transactions (in particular those that may involve conflict of interests), financial information, appointment of directors and other significant operational matters of the Company. Responsibilities relating to implementing decisions of the Board, directing and co-ordinating the daily operation and management of the Company are delegated to the management.

## Continuous Professional Development of Directors

All Directors have kept abreast of regulatory developments and changes in order to effectively perform their responsibilities and to ensure that their contribution to the Board remains informed and relevant.

Every newly appointed Director has received a formal and comprehensive induction on the first occasion of his/her appointment to ensure appropriate understanding of the business and operations of the Company and full awareness of Director's responsibilities and obligations under the Listing Rules and relevant statutory requirements.

# Corporate Governance Report

## BOARD COMMITTEES

The Board has established four committees, namely the Audit Committee, Remuneration Committee, Nomination Committee and Environmental, Social and Governance Committee (collectively, the “**Board Committees**”). All Board Committees are established with specific written terms of reference which deal clearly with their authority and duties. The terms of reference of the Audit Committee, Remuneration Committee and Nomination Committee are posted on the Company’s website and the Hong Kong Stock Exchange’s website and are available to Shareholders upon request.

The list of the chairman and members of each Board committee is set out under “Corporate Information” on page 2.

# Corporate Governance Report

## Audit Committee

The Audit Committee consists of three independent non-executive Directors, namely Mr. So George Siu Ming, Mr. Lin Lien-Hsing and Mr. Fan Chi Chiu. Mr. So George Siu Ming is the chairman of the Audit Committee.

The terms of reference of the Audit Committee are of no less exacting terms than those set out in the CG Code.

The main duties of the Audit Committee are to (i) make recommendations to the Board on the appointment, reappointment and dismissal of the external auditor; (ii) review the financial information of the Company; (iii) oversee the Company's financial reporting system, risk management and internal control system; and (iv) establish a whistleblowing policy and system for employees and those who deal with the Company or its subsidiaries to raise concerns.

For the year ended 31 December 2025, the Audit Committee held two meetings. A summary of work of the Audit Committee during the year is set out below:

- reviewed the annual financial results and report, interim financial results and report and significant issues on the financial reporting;
- reviewed the operational and compliance controls, and the effectiveness of the risk management and internal control systems;
- monitored the external auditor's independence and objectivity, and effectiveness of the audit process in accordance with applicable standard, and discussed with the independent auditor before the audit commenced, the nature and scope of the audit and the reporting obligation contained in them;
- provided recommendations to the Board for the proposal for re-appointment of the external auditor and approval of the remuneration and terms of engagement of the external auditor;
- reviewed the whistleblowing policy and anti-fraud and anti-corruption policy.

The Audit Committee also met the external auditor twice without the presence of the executive Directors during the year ended 31 December 2025 to discuss matters relating to its audit fees, any issue arising from the audit and any other matters the auditor may wish to raise. The Board has not taken any different view from that of the Audit Committee regarding the re-appointment of the external auditor.

## Director Nomination Policy

The ultimate responsibility for selection and appointment of Directors rests with the Board.

The Company has adopted a Director Nomination Policy which sets out the selection criteria and process and the Board succession planning considerations in relation to nomination and appointment of Directors and aims to ensure that the Board has a balance of skills, experience and diversity of perspectives appropriate to the Company and the continuity of the Board and appropriate leadership at Board level.

The Director Nomination Policy sets out the factors for assessing the suitability and the potential contribution to the Board of a proposed candidate, including but not limited to the following:

- whether the individual's educational background and qualification, skills and experience are relevant to the Company's business model and specific needs;
- the individual's character and reputation for integrity;
- whether the individual would be able to devote sufficient time to the Board;
- (in respect of appointment and re-appointment of independent non-executive Directors) independence of the individual with reference to the independence criteria set out in Rule 3.13 of the Listing Rules;

# Corporate Governance Report

- how the individual would be able to contribute to the diversity of the Board with reference to the factors set out in the Board Diversity Policy of the Company from time to time in force; and
- Board succession planning considerations.

The Nomination Committee of the Board will review the Director Nomination Policy, as appropriate, to ensure its effectiveness.

## Environmental, Social and Governance Committee

The Environmental, Social and Governance Committee consists of three members, namely Mr. Cheng Ching-Long, Mr. Fan Chi Chiu and Mr. Lu Jen-Chieh. Mr. Cheng Ching-Long is the chairman of the Environmental, Social and Governance Committee.

The main duties of the Environmental, Social and Governance Committee are to (i) formulate the vision, goals and strategies of environmental, social and governance matters of the Group and make recommendations to the Board; (ii) monitor and review the process of implementation on environmental, social and governance related policies; (iii) identify environmental, social and governance risks and opportunities, and assess the efficiency and sufficiency of the framework of environmental, social and governance structure of the Group; and (iv) review the Environmental, Social and Governance Report of the Company pursuant to the requirements of the Listing Rules.

For the year ended to 31 December 2025, the Environmental, Social and Governance Committee held one meeting to consider and approve the Environmental, Social and Governance Report for the year ended 31 December 2024.

## RISK MANAGEMENT AND INTERNAL CONTROLS

The Board acknowledges its responsibility for the risk management and internal control systems and reviewing their effectiveness. Such systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board has the overall responsibility for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Group's strategic objectives, and establishing and maintaining appropriate and effective risk management and internal control systems.

The Audit Committee of the Board assists the Board in leading the management and overseeing their design, implementation and monitoring of the risk management and internal control systems.

The Group has developed and adopted various risk management procedures and guidelines with defined authority for implementation by key business processes and office functions, including project management, sales, financial reporting, human resources and information technology.

The Group's risk management and internal control systems have been developed with the following principles, features and processes:

The Board will cautiously review any material risk related to significant business decisions before making or approving such decisions.

Department heads and senior management of the Group monitor daily operations and any associated operational risks of the Group. They are also responsible for identifying and assessing potential market risks related to changes in macroeconomic environment and movements in market variables and report irregularities in connection with operational and market risks to the executive Directors for formulating policies to mitigate these risks.

The financial management center will closely monitor and track the ageing of trade receivables, and regularly update the status of outstanding/unpaid payments due to the Group to ensure that timely and necessary measures are taken to recover outstanding receivables.

The Internal Audit Department is responsible for performing independent review of the adequacy and effectiveness of the risk management and internal control systems. The Internal Audit Department examined key issues in relation to the accounting practices and all material controls and provided its findings and recommendations for improvement to the Audit Committee.

The Board, through the Audit Committee, has continuously monitored and annually reviewed the adequacy and effectiveness of the Group's risk management and internal control systems.

The Group has appointed Ballas Capital Limited as adviser of the Company to provide general advice on the Listing Rules and appointed a PRC legal adviser to advise us on PRC laws and regulations related to the Group's business operations.

# Corporate Governance Report

The management has confirmed to the Board and the Audit Committee on the effectiveness of the risk management and internal control systems for the year ended 31 December 2025.

The Board, as supported by the Audit Committee as well as the management report and the internal audit findings, reviewed the risk management and internal control systems, including the financial, operational and compliance controls and considered that such systems for the year ended 31 December 2025 are effective and adequate. The annual review also covered the financial reporting and internal audit function and staff qualifications, experiences and relevant resources.

Whistleblowing procedures are in place to facilitate employees of the Group and those who deal with the Group (e.g. customers, suppliers) to raise, in confidence, concerns about possible improprieties in financial reporting, internal control or other matters of the Company.

The Group is committed to achieving the highest standards of integrity and ethical behaviour in conducting business. The Group has adopted an anti-fraud and anti-corruption policy, and strictly prohibits all forms of fraud and corruption, the anti-fraud and anti-corruption policy has been prepared as a guide to all employees of the Group.

The Company has developed its disclosure policy which provides a general guide to the Company's Directors, senior management and relevant employees in handling confidential information, monitoring information disclosure and responding to enquiries. Control procedures have been implemented to ensure that unauthorised access and use of inside information are strictly prohibited.

## DISCLOSURE OF INSIDE INFORMATION

The Group acknowledges its responsibilities under the SFO and the Listing Rules and the overriding principle that inside information should be announced immediately when it is the subject of a decision. The procedures and internal controls for the handling and dissemination of inside information are as follows:

- the Group conducts its affairs with close regard to the disclosure requirement under the Listing Rules as well as the "Guidelines on Disclosure of Inside Information" published by the Securities and Futures Commission of Hong Kong in June 2012;
- the Group has implemented and disclosed its policy on fair disclosure by pursuing broad, non-exclusive distribution of information to the public through channels such as financial reporting, public announcements and its website;
- the Group has strictly prohibited unauthorised use of confidential or inside information; and
- the Group has established and implemented procedures for responding to external enquiries about the Group's affairs, so that only the executive Directors, the Company Secretary and investor relations officers are authorised to communicate with parties outside the Group.

The Group is also passionately committed to developing staff and provides employees with rewarding career paths and a friendly working environment.

### Customers

Keeping strong relationship with the customers is critical to maintain the competitiveness of the Group. The Group enhances the relationship by continuous interaction with customers to gain insight on the changing market demand for the Group's products and services so that the Group can respond proactively. The Group has also established procedures in place for handling customers' complaints to ensure customers' complaints are dealt with in a prompt and timely manner. In addition, the Group engages in market research and business development activities by attending product exhibitions and industry conferences from time to time to explore market trends and discover business opportunities with potential customers.

### Suppliers

The Group maintains a list of approved suppliers and sub-contractors which are selected based on a number of factors including their product quality, price and ability to accommodate the production schedule. Some of the customers may require the Group to purchase particular raw materials that are only supplied by particular suppliers. In procuring raw materials, the Group usually obtains quotations from three approved suppliers and makes the decision on suppliers according to their product quality, price, delivery time, reputation and the customers' specifications. To ensure quality and timely delivery, the Group reinforces business partnerships with suppliers and sub-contractors by ongoing communication in a proactive and effective manner.

## FINAL DIVIDEND

As compared with that for FY2024, the Group's revenue increased by approximately 26.5% and its net profit attributable to owners of the Company decreased by approximately 5.8% for FY2025. Given the uncertainty of the world economic conditions, as well as considering the capital requirements for the outstanding payment related to the plant construction, in order to maintain a stable financial condition and reserve working capital to tackle any unpredicted events, the Board recommends the payment of Final Dividend of HK0.688 cents (equivalent to RMB0.611 cents) per Share totalling approximately HKD4.5 million (equivalent to approximately RMB4.0 million) for the year ended 31 December 2025. The proposed Final Dividend is subject to the approval of the Shareholders at the 2025 AGM to be held on Thursday, 11 June 2026 and is expected to be paid by cash on Friday, 24 July 2026.

- (h) any other group or classes of participants who have contributed or may contribute by way of joint venture, business alliance or other business arrangement to the development and growth of the Group.

## **(iii) Maximum number of the Shares**

- (a) The maximum number of Shares which may be issued upon the exercise of all outstanding options granted and yet to be exercised under the Share Option Scheme and any other share option scheme adopted by the Group must not in aggregate exceed 30% of the share capital of the Company in issue from time to time;
- (b) The total number of the Shares which may be allotted and issued upon the exercise of all options (excluding, for this purpose, options which have lapsed in accordance with the terms of the Share Option Scheme and any other share option scheme of the Group) to be granted under the Share Option Scheme and any other share option scheme of the Group must not in aggregate exceed 10% of the Shares in issue (i.e. not exceeding 66,000,000 Shares) on the date of the Listing, and which represents 10% of the issued Shares of the Company as at the date of the annual report.

## **(iv) Maximum entitlement of each participant**

The total number of Shares issued and which may fall to be issued upon the exercise of the options granted under the Share Option Scheme and any other share option scheme of the Group (including both exercised or outstanding options) to each grantee in any 12-month period shall not exceed 1% of the number of Shares in issue for the time being.

## **(v) Grant of options to the Directors, chief executive or Substantial Shareholders of the Company or their respective associates**

Any grant of options under the Share Option Scheme to a Director, chief executive or Substantial Shareholder of the Company or any of their respective associates must be approved by independent non-executive Directors (excluding the independent non-executive Director who or whose associates is the proposed grantee of the options).

Any change in the terms of options granted to a substantial shareholder or an independent non-executive Director of the Company or any of their respective associates must be approved by the Shareholders in general meeting. The grantee, his associates and all core connected persons of the Company must abstain from voting in favour at such general meeting.

# Report of the Directors

## (vi) Time of acceptance and exercise of option

An option may be accepted by a participant within 21 days from the date of the offer of grant of the option. An option may be exercised in accordance with the terms of the Share Option Scheme at any time during a period to be determined and notified by the Directors to each grantee, which period may commence from the date of the offer for the grant of options is made, but shall end in any event not later than 10 years from the date of grant of the option subject to the provisions for early termination thereof. Unless otherwise determined by the Directors and stated in the offer for the grant of options to a grantee, there is no minimum period required under the Share Option Scheme for the holding of an option before it can be exercised.

## (vii) Performance targets

Unless the Directors otherwise determined and stated in the offer for the grant of options to a grantee, a grantee is not required to achieve any performance targets before any options granted under the Share Option Scheme can be exercised.

## (viii) Subscription price for the Shares and consideration for the option

The subscription price for the Shares under the Share Option Scheme shall be a price determined by the Directors, but shall not be less than the highest of (i) the closing price of the Shares as stated in the Hong Kong Stock Exchange's daily quotations sheet for trade in one or more board lots of the Shares on the date of the offer for the grant, which must be a business day; (ii) the average closing price of Shares as stated in the Hong Kong Stock Exchange's daily quotations for the five business days immediately preceding the date of the offer for the grant; and (iii) the nominal value of a Share. A nominal consideration of HKD1 is payable on acceptance of the grant of an option.

## (ix) Period of the Share Option Scheme

The Share Option Scheme will remain in force for a period of 10 years commencing on the date on which the Share Option Scheme is adopted.

## SHARE AWARD SCHEME

The Company has adopted a share award scheme (the “**Share Award Scheme**”) on 18 May 2021 (the “**Adoption Date**”). The following is a summary of the principal terms of the Share Award Scheme:

### (i) Purpose of the scheme

- (a) to recognise and reward the contributions of certain eligible persons and to give incentives to them in order to retain them for the continual operation and development of the Group; and
- (b) to attract suitable personnel for further development of the Group.

### (ii) Participants of the scheme

Director(s), senior management and/or employee(s), whether full-time or part-time, of the Group from time to time, excluding any Director(s), senior management and/or employee(s) of the Group who is resident in a place where the award of the awarded shares and/or the vesting and transfer of the awarded shares pursuant to the terms of the Share Award Scheme is not permitted under the laws and regulations of such place or where in the view of the Share Award Administration Committee or the trustee appointed by the Company for serving the trust of the Share Award Scheme (the “**Trustee**”) (as the case may be), compliance with applicable laws and regulations in such place makes it necessary or expedient to exclude such director(s), senior management and/or employee(s).

### (iii) Scheme limits

The total number of Shares to be purchased and/or subscribed by the Trustee for the purpose of the Share Award Scheme shall not exceed 10% of the total number of issued Shares of the Company (i.e. not exceeding 66,000,000 Shares) as at the Adoption Date, and which represents 10% of the issued Shares of the Company as at the date of the annual report. The total number of Shares available for grant under the Share Award Scheme as at the date of the annual report was 57,775,200 Shares, which represents approximately 8.75% of the total issued Shares of the Company as at the date of the annual report.

### (iv) Maximum entitlement of each participant

The maximum number of awarded shares which may be granted to each selected participant under the Share Award Scheme shall not exceed 1% of the total number of issued Shares of the Company as at the Adoption Date.

### (v) Duration and termination

The Share Award Scheme shall be valid and effective for 10 years from the Adoption Date unless early terminated by the Board in accordance with the scheme rules. The Board may by resolution terminate earlier the operation of the Share Award Scheme provided that such termination shall not affect any subsisting rights of any selected participant in respect of any award made to him/her prior to such termination.

The remaining life of the Share Award Scheme is approximately 5 years.

# Report of the Directors

## (vi) Vesting of awarded shares

The Share Award Administration Committee may, as its sole and absolute discretion, determine any vesting conditions (including without limitation, vesting period and/or performance targets, payment of a certain purchase price to the Company and other criteria, if any, to be satisfied by the Selected Participants) as it deems appropriate. Where any grant of awards is proposed to be made to any selected participant who is a Director and/or senior management, such grant must first be approved by the Remuneration Committee.

## (vii) Determining the purchase price of awarded Shares

The purchase price of the awarded Shares may be determined by the Share Award Administration Committee of the Company at a discount to the prevailing average closing market prices of the Shares in the period prior to the award.

Pursuant to the Share Award Scheme, the Selected Participants (as defined in the Share Award Scheme) shall accept the grant of the awards within 5 business days from the date of the grant and no consideration is required to be paid for such acceptance.

Since the Adoption Date and up to the end of the reporting period, the number of Shares that the Trustee purchased was 8,360,000 Shares, among which 8,224,800 awarded shares have been vested. The number of Shares that the Trustee may further purchase from the open market or subscribe for the purpose of the Share Award Scheme as at 31 December 2025 was 57,640,000 Shares, representing approximately 8.73% of the issued Shares as at 31 December 2025.

From 1 January 2023, the Company relies on the transitional arrangements provided for the share schemes and complies with the new Chapter 17 accordingly (effective from 1 January 2023).

No share awards were granted, vested, cancelled or lapsed during FY2025, and there were no unvested share awards under the Share Award Scheme as at 1 January 2025 and 31 December 2025.

The number of awards available for grant under the scheme mandate as at 1 January 2025 and 31 December 2025 was 57,775,200 respectively. Service provider sublimit is not applicable under the Share Award Scheme as the eligible participants of the Share Award Scheme do not include service providers.

the loan were all less than 5% and the principal amount was less than HKD3.0 million, such that the transaction constituted a de minimis transaction under Rule 14A.76 of the Listing Rules and was fully exempt from the reporting, announcement and independent shareholders' approval requirements under Chapter 14A of the Listing Rules. Save for the aforesaid, the Group did not have any transaction with related parties, nor any transactions, which constitute connected transactions or continuing connected transactions for the Company under Chapter 14A of the Listing Rules for the year ended 31 December 2025.

## SUFFICIENCY OF PUBLIC FLOAT

Based on the information that is publicly available to the Company and to the best knowledge of the Directors, as at the date of this annual report, the Directors confirm that the Company maintained sufficient public float as required under the Listing Rules.

## EVENTS AFTER THE REPORTING PERIOD

As at the date of approval of these financial statements, apart from the events mentioned elsewhere in these financial statements, there was no other significant event subsequent to 31 December 2025.

## PERMITTED INDEMNITY PROVISIONS

Pursuant to the Company's Articles of Association, the Directors and other officers of the Company shall be indemnified and secured harmless out of the assets and profits of the Company from and against all actions, costs, charges, losses, damages and expenses which they shall or may incur or sustain by reason of any act done, concurred in or omitted in or about the execution of their duty, or supposed duty, in their respective offices or trusts; provided that such indemnity shall not extend to any matter in respect of any fraud or dishonesty which may attach to any of said persons.

The Company has arranged appropriate insurance covering the potential legal actions against its Directors and senior management arising out of corporate activities.

## AUDITOR

The consolidated financial statements of the Group for the year ended 31 December 2025 have been audited by Ernst & Young who retire and, being eligible, offer themselves for re-appointment at the 2025 AGM. A resolution will be proposed at the 2025 AGM to re-appoint Ernst & Young as auditor of the Company.

There has been no change of auditor of the Company since the Listing.

# Independent Auditor's Report

## Independent auditor's report

### To the shareholders of Shinelong Automotive Lightweight Application Limited

*(Incorporated in the Cayman Islands with limited liability)*

## OPINION

We have audited the consolidated financial statements of Shinelong Automotive Lightweight Application Limited (the "**Company**") and its subsidiaries (the "**Group**") set out on pages 67 to 143, which comprise the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2025, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("**IASB**") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

## BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("**HKSAs**") as issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**"). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* (the "**Code**"), as applicable to audits of financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For the matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to the matter. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

# Independent Auditor's Report *(Continued)*

## Key audit matter

## How our audit addressed the key audit matter

### *Revenue recognition of the sale of moulds*

For the year ended 31 December 2025, revenue from the sale of moulds amounted to approximately RMB288,495,000 and accounted for 96% of the total revenue of the Group. The Group produces moulds that are highly customised for particular customers with no alternative use to others and the moulds preliminarily accepted by the customers are subject to examination and testing before final acceptance, which creates complexity in determining the timing of satisfaction of performance obligations.

This matter was identified as a key audit matter as the determination of the timing of satisfaction of performance obligations requires judgement, which may have significant impacts on the consolidated financial statements of the Group.

The Group's disclosures about revenue recognition of the sale of moulds are included in Notes 2.4, 3 and 4 to the consolidated financial statements.

The following procedures were performed, among others, to address the identified key audit matter:

- Evaluating the design, implementation, and operating effectiveness of the key internal controls over the revenue recognition of the sale of moulds;
- Discussing with management and, on a sampling basis, obtaining and reviewing major revenue contracts which were effective during the year ended 31 December 2025 and assessing whether the Group's accounting policy adopted to recognise revenue from the sale of moulds was in accordance with IFRS 15 *Revenue from Contracts with Customers*;
- Inspecting, on a sampling basis, the supporting documents (including, but not limited to, contracts, acceptance reports, shipment documents and invoices) for the sale of moulds recognised during the year ended 31 December 2025 and assessing whether the related revenue had been recognised in accordance with the Group's revenue recognition accounting policy; and
- Inspecting the supporting documents (including, but not limited to, contracts, acceptance reports, shipment documents and invoices) for the sale of moulds recognised during a certain period of time before and after 31 December 2025 and assessing whether the related revenue had been recognised in the correct periods.

## **OTHER INFORMATION INCLUDED IN THE ANNUAL REPORT**

The directors of the Company are responsible for the other information. The other information comprises the information included in the Annual Report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## **RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS**

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRS Accounting Standards as issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

## **AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

## Independent Auditor's Report *(Continued)*

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## Independent Auditor's Report *(Continued)*

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Shun Lung Wai Ricky (practising certificate number: P06860).

## 1. GENERAL INFORMATION *(Continued)*

### Information about subsidiaries

Particulars of the Company's principal subsidiaries are as follows:

Company name	Place of incorporation/ registration and business	Issued ordinary/ registered share capital	Percentage of equity attributable to the Company		Principal activities
			Direct	Indirect	
Shinelong (Suzhou) (Note (a))	People's Republic of China ("PRC")/ Chinese mainland	RMB170,000,000	99.9	0.1	Design, manufacture and sale of moulds
Qingdao Xunzhan Molding Technology Company Limited ("Xunzhan") (Note (b))	PRC/Chinese mainland	RMB6,000,000	–	100	Design, manufacture and sale of moulds
Kunshan Longjun (Note (b))	PRC/Chinese mainland	United States Dollar ("USD") 50,000	100	–	Inactive
Xunhou Laser Technology (Suzhou) Company Limited ("Xunhou") (Note (c))	PRC/Chinese mainland	RMB4,250,000	–	70	Design, manufacture and sale of laser devices

(a) Shinelong (Suzhou) was established on 8 January 2002 under the name of Shinelong Precision Moulds (Kunshan) Company Limited as a limited liability company under the law of the PRC, which was converted into a company limited by shares on 29 March 2016 and renamed as Shinlone Intellectual Manufacture Precision Applied Materials (Suzhou) Company Limited ("Shinlone (Suzhou)"). It was further renamed as Shinelong (Suzhou) on 28 December 2018. Shinelong (Suzhou) is a wholly-owned subsidiary of the Company.

(b) Registered as limited liability companies under PRC law.

(c) Xunhou was established on 7 April 2020 with registered share capital of RMB10,000,000 as a limited liability company under the law of the PRC, which is a 70%-owned subsidiary of Shinelong (Suzhou). As at 31 December 2024, Xunhou received capital contributions of RMB3,500,000 from Shinelong (Suzhou) and RMB750,000 from the non-controlling shareholder, Yinwei Laser Technology (Kunshan) Company Limited. Xunhou changed its registered share capital from RMB10,000,000 to RMB4,250,000 on 2 January 2025.

## 2. ACCOUNTING POLICIES

### 2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with IFRS Accounting Standards, which comprise all standards and interpretations approved by the International Accounting Standards Board (the “IASB”) and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for notes receivable measured at fair value through other comprehensive income. These financial statements are presented in RMB and all values are rounded to the nearest thousand except when otherwise indicated.

#### Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries for the year ended 31 December 2025. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

Generally, there is a presumption that a majority of voting rights results in control. When the Company has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group’s voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

# Notes to the Financial Statements *(Continued)*

31 December 2025

## 2.1 BASIS OF PREPARATION *(Continued)*

### Basis of consolidation *(Continued)*

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, any non-controlling interest and the exchange reserve; and recognises the fair value of any investment retained and any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

## 2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted amendments to IAS 21 *Lack of Exchangeability* for the first time for the current year's financial statements. The Group has not early adopted any other standard or amendment that has been issued but is not yet effective.

Amendments to IAS 21 specify how an entity shall assess whether a currency is exchangeable into another currency and how it shall estimate a spot exchange rate at a measurement date when exchangeability is lacking. The amendments require disclosures of information that enable users of financial statements to understand the impact of a currency not being exchangeable. As the currencies that the Group had transacted in and the functional currency of overseas subsidiaries is the same as that for translation into the Group's presentation currency, the amendments did not have any impact on the Group's financial statements.

## 2.3 ISSUED BUT NOT YET EFFECTIVE IFRS ACCOUNTING STANDARDS

The Group has not applied the following new and amended IFRS Accounting Standards, that have been issued but are not yet effective. The Group intends to apply these new and amended IFRS Accounting Standards, if applicable, when they become effective.

IFRS 18	<i>Presentation and Disclosure in Financial Statements<sup>2</sup></i>
IFRS 19 and its amendments	<i>Subsidiaries without Public Accountability: Disclosures<sup>2</sup></i>
Amendments to IFRS 9 and IFRS 7	<i>Amendments to the Classification and Measurement of Financial Instruments<sup>1</sup></i>
Amendments to IFRS 9 and IFRS 7	<i>Contracts Referencing Nature-dependent Electricity<sup>1</sup></i>
Amendments to IFRS 10 and IAS 28	<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture<sup>3</sup></i>
Amendments to IAS 21	<i>Translation to a Hyperinflationary Presentation Currency<sup>2</sup></i>
<i>Annual Improvements to IFRS Accounting Standards — Volume 11</i>	<i>Amendments to IFRS 1, IFRS 7, IFRS 9, IFRS 10 and IAS 7<sup>1</sup></i>

<sup>1</sup> Effective for annual periods beginning on or after 1 January 2026

<sup>2</sup> Effective for annual/reporting periods beginning on or after 1 January 2027

<sup>3</sup> No mandatory effective date yet determined but available for adoption

## **2.3 ISSUED BUT NOT YET EFFECTIVE IFRS ACCOUNTING STANDARDS** *(Continued)*

While the adoption of some of the new and amended IFRS Accounting Standards may result in changes in accounting policies, none of these IFRS Accounting Standards other than IFRS 18 as described below is expected to have any significant impact on the Group's financial statements.

IFRS 18 replaces IAS 1 Presentation of Financial Statements. While a number of sections have been brought forward from IAS 1 with limited changes, IFRS 18 introduces new requirements for presentation within the statement of profit or loss, including specified totals and subtotals. Entities are required to classify all income and expenses within the statement of profit or loss into one of the five categories: operating, investing, financing, income taxes and discontinued operations and to present two new defined subtotals. It also requires disclosures about management-defined performance measures in a single note and introduces enhanced requirements on the grouping (aggregation and disaggregation) and the location of information in both the primary financial statements and the notes. Some requirements previously included in IAS 1 are moved to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors, which is renamed as IAS 8 Basis of Preparation of Financial Statements. As a consequence of the issuance of IFRS 18, limited, but widely applicable, amendments are made to IAS 7 Statement of Cash Flows, IAS 33 Earnings per Share and IAS 34 Interim Financial Reporting. In addition, there are minor consequential amendments to other IFRS Accounting Standards. IFRS 18 and the consequential amendments to other IFRS Accounting Standards are effective for annual periods beginning on or after 1 January 2027 with earlier application permitted. Retrospective application is required. The Group is currently analysing the new requirements and assessing the impact of IFRS 18 on the presentation and disclosure of the Group's financial statements.

## 2.4 MATERIAL ACCOUNTING POLICIES

### Fair value measurement

The Group measures its notes receivable at fair value through other comprehensive income at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 — based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 — based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

## 2.4 MATERIAL ACCOUNTING POLICIES *(Continued)*

### Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, deferred tax assets and financial assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs. In testing a cash-generating unit for impairment, a portion of the carrying amount of a corporate asset (e.g., a headquarters building) is allocated to an individual cash-generating unit if it can be allocated on a reasonable and consistent basis or, otherwise, to the smallest group of cash-generating units.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to profit or loss in the period in which it arises.

### Related parties

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person
  - (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

- (b) the party is an entity where any of the following conditions applies:
  - (i) the entity and the Group are members of the same group;
  - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
  - (iii) the entity and the Group are joint ventures of the same third party;
  - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
  - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
  - (vi) the entity is controlled or jointly controlled by a person identified in (a);
  - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
  - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

## 2.4 MATERIAL ACCOUNTING POLICIES *(Continued)*

### Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Type	Depreciation rate
Buildings	3.20%–10.00%
Machinery	9.00%–18.00%
Furniture, fixtures and equipment	6.00%–18.00%
Leasehold improvements	Over the shorter of the lease terms and 20.00%
Motor vehicles	18.00%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress is stated at cost less any impairment losses, and is not depreciated. It is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

## 2.4 MATERIAL ACCOUNTING POLICIES *(Continued)*

### Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

Intangible assets of the Group represent software which is amortised over an estimated useful life of 5 years.

### Research and development costs

All research costs are charged to profit or loss as incurred.

Expenditure incurred on projects to develop new products is capitalised and deferred only when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the project and the ability to measure reliably the expenditure during the development. Product development expenditure which does not meet these criteria is expensed when incurred.

### Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

### Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

# Notes to the Financial Statements *(Continued)*

31 December 2025

## 2.4 MATERIAL ACCOUNTING POLICIES *(Continued)*

### Leases *(Continued)*

#### Group as a lessee *(Continued)*

(a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets as follows:

Factories and venues	2 to 10 years
Leasehold land	30 years

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

(b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate the lease. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

The Group's lease liabilities are presented separately in the statement of financial position.

31 December 2025

## 2.4 MATERIAL ACCOUNTING POLICIES *(Continued)*

### Leases *(Continued)*

#### Group as a lessee *(Continued)*

(c) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases of office equipment and laptop computers that are considered to be of low value. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

#### Group as a lessor

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or a finance lease.

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. Rental income is accounted for on a straight-line basis over the lease term and is included in revenue in the statement of profit or loss and other comprehensive income due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases that transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee are accounted for as finance leases. At the commencement date, the cost of the leased asset is capitalised at the present value of the lease payments and related payments (including the initial direct costs) and presented as a receivable at an amount equal to the net investment in the lease. The finance income on the net investment in the lease is recognised in profit or loss so as to provide a constant periodic rate of return over the lease terms.

When the Group is an intermediate lessor, a sublease is classified as a finance lease or operating lease with reference to the right-of-use asset arising from the head lease. If the head lease is a short-term lease to which the Group applies the on-balance sheet recognition exemption, the Group classifies the sublease as an operating lease.

## 2.4 MATERIAL ACCOUNTING POLICIES *(Continued)*

### Investments and other financial assets

#### Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15. Refer to the accounting policies for revenue recognition.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

Purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset.

#### Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest ("EIR") method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

# Notes to the Financial Statements *(Continued)*

31 December 2025

## 2.4 MATERIAL ACCOUNTING POLICIES *(Continued)*

### Investments and other financial assets *(Continued)*

#### Subsequent measurement *(Continued)*

Financial assets at fair value through other comprehensive income (debt instruments)

For debt investments at fair value through other comprehensive income, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in other comprehensive income. Upon derecognition, the cumulative fair value change recognised in other comprehensive income is recycled to profit or loss.

#### Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership of the asset. When it has neither transferred nor retained substantially all of the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

#### Impairment of financial assets

The Group recognises an allowance for expected credit losses ("ECLs") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

# Notes to the Financial Statements *(Continued)*

31 December 2025

## 2.4 MATERIAL ACCOUNTING POLICIES *(Continued)*

### Impairment of financial assets *(Continued)*

#### General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information. The Group considers that there has been a significant increase in credit risk when contractual payments are more than 180 days past due.

The Group considers a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Debt investments at fair value through other comprehensive income and financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables which apply the simplified approach as detailed below.

- Stage 1 — Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 — Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 — Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

# Notes to the Financial Statements *(Continued)*

## 2.4 MATERIAL ACCOUNTING POLICIES *(Continued)*

### Impairment of financial assets *(Continued)*

#### Simplified approach

For trade receivables that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

### Financial liabilities

#### Initial recognition and measurement

The Group's financial liabilities are classified, at initial recognition, as loans and borrowings, or payables.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings, or payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade payables, financial liabilities included in other payables and accruals, interest-bearing bank and other borrowings and lease liabilities.

#### Subsequent measurement

After initial recognition, trade payables, financial liabilities included in other payables and accruals, interest-bearing bank and other borrowings and lease liabilities are subsequently measured at amortised cost using EIR method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. The EIR amortisation is included as finance costs in the consolidated statement of profit or loss and other comprehensive income.

#### Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

# Notes to the Financial Statements *(Continued)*

## 2.4 MATERIAL ACCOUNTING POLICIES *(Continued)*

### Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

### Treasury shares

Own equity instruments which are reacquired and held by the Company or the Group (treasury shares) are recognised directly in equity at cost. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

### Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value is based on estimated selling prices less estimated costs to be incurred to completion and disposal.

### Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash on hand and at banks, and short-term highly liquid deposits with a maturity of generally within three months that are readily convertible into known amounts of cash, subject to an insignificant risk of changes in value and held for the purpose of meeting short-term cash commitments.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and at banks, and short-term deposits as defined above, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

### Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the consolidated statement of profit or loss and other comprehensive income.

The Group provides for warranty in relation to the sale of moulds to certain customers for general repairs of defects occurring during the warranty period. Provisions for the assurance-type warranty granted by the Group are initially recognised based on sales volume and past experience of the level of repairs and returns, discounted to their present values as appropriate. The warranty-related cost is revised annually.

### Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences; and
- In respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences; and
- In respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

## 2.4 MATERIAL ACCOUNTING POLICIES *(Continued)*

### Income tax *(Continued)*

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

### Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, for which it is intended to compensate, are expensed.

Where the grant relates to an asset, the fair value is credited to a deferred income account and is released to profit or loss over the expected useful life of the relevant asset by equal annual instalments.

### Revenue recognition

#### Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

### Revenue recognition *(Continued)*

#### Revenue from contracts with customers *(Continued)*

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group with a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in IFRS 15.

(a) Sale of industrial products

Revenue from the sale of moulds is recognised at the point in time when control of the asset is transferred to the customer, generally when the customers have issued the final acceptance report.

(b) Rendering of services

The Group provides parts processing services, the control of which is transferred at the point in time when the processed parts are accepted by the customers.

(c) Interest income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

### Contract liabilities

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

### Employee benefits

#### Defined contribution plans

The employees of the Group's subsidiaries which operate in Mainland China are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute a certain percentage of their payroll costs to the central pension scheme. The contributions are charged to profit or loss as they become payable in accordance with the rules of the central pension scheme. Under the plans, the Group has no further obligation beyond the contributions made. No forfeited contributions may be used by the employer to reduce the existing level of contributions.

#### Employee leave entitlements

Employee entitlements to annual leave are recognised as a liability when they accrue to the employees. The estimated liability for leave is recognised for services rendered by employees up to the end of each year.

### Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. All other borrowing costs of the Group are expensed in the period in which they are incurred.

### Events after the reporting period

If the Group receives information after the reporting period, but prior to the date of authorisation for issue, about conditions that existed at the end of the reporting period, it will assess whether the information affects the amounts that it recognises in its financial statements. The Group will adjust the amounts recognised in its financial statements to reflect any adjusting events after the reporting period and update the disclosures that relate to those conditions in light of the new information. For non-adjusting events after the reporting period, the Group will not change the amounts recognised in its financial statements, but will disclose the nature of the non-adjusting events and an estimate of their financial effects, or a statement that such an estimate cannot be made, if applicable.

### Dividends

Final dividends are recognised as a liability when they are approved by the shareholders in a general meeting. Proposed final dividends are disclosed in Note 11 to the financial statements.

# Notes to the Financial Statements *(Continued)*

## 2.4 MATERIAL ACCOUNTING POLICIES *(Continued)*

### Share-based payments

The Company operates equity-settled share-based payment schemes. Employees (including directors) of the Group receive remuneration in the form of share-based payments, whereby employees render services in exchange for equity instruments (“**equity-settled transactions**”). The cost of equity-settled transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value is determined by an external valuer using a binomial model, further details of which are given in Note 28 to the financial statements.

The cost of equity-settled transactions is recognised in employee benefit expense, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group’s best estimate of the number of equity instruments that will ultimately vest. The charge or credit to profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group’s best estimate of the number of equity instruments that will ultimately vest.

For awards that do not ultimately vest because non-market performance and/or service conditions have not been met, no expense is recognised. Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification. Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately.

However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

## 2.4 MATERIAL ACCOUNTING POLICIES *(Continued)*

### Foreign currencies

These financial statements are presented in RMB, which is different from the Company's functional currency, the Hong Kong dollar ("HKD"). As the major revenues and assets of the Group are derived from operations in the PRC, RMB is chosen as the presentation currency to present the financial statements. Each entity in the Group determines its own functional currency and items included in the consolidated financial statements of each entity are measured using that functional currency.

Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gains or losses arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gains or losses on change in fair value of the item (i.e., translation difference on the item whose fair value gains or losses is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

As at the end of the reporting period, for entities whose functional currencies are different from the Group's presentation currency, the assets and liabilities of these entities are translated into RMB at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss are translated into RMB at the exchange rates that approximate to those prevailing at the dates of the transactions. The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange reserve, except to the extent that the differences are attributable to non-controlling interests. On disposal of these entities, the cumulative amount in the reserve relating to that particular entity is recognised in profit or loss.

## 3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

### Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts to be recognised in the financial statements:

#### **Revenue recognition — the timing of satisfaction of performance obligations**

##### Sales of moulds

Revenue from domestic sales of moulds is recognised at the point in time when control over the moulds is transferred to the customers. Judgement is required to assess whether control is transferred over time or at a point in time. The Group creates moulds that are highly customised for particular customers with no alternative use to others but has no enforceable right to payment for its performance up to date. Judgement is also required to assess whether control is transferred when the customers preliminarily have accepted the moulds or when the customers have issued the final acceptance report after the moulds are examined and tested. The customers will only obtain the legal title of the completed moulds after they have issued the final acceptance report, of which the Group has the present right to the payment and the collection of the consideration is probable. Therefore, the Group concluded that the control over the domestic sales of moulds is transferred at the point in time, instead of over time, when the customers issue the final acceptance report.

For overseas sales of moulds, revenue is recognised at the point in time when the control over the moulds is transferred to the customers, that is when the customers obtain the physical possession or the legal title of the completed moulds based on respective shipping terms and the Group has the present right to payment and the collection of the consideration is probable.

##### Rendering of services

Revenue from the rendering of parts processing services is recognised when control over the processing services is transferred to the customers. Judgement is required to assess whether control is transferred over time or at a point in time. The customers cannot simultaneously receive and consume the benefits provided by the Group's parts processing services as the Group performs. The Group also has no enforceable right to payment for the processing services performed to date. The Group concluded that the control over the processing services is transferred to the customers at the point in time when the processed parts are accepted by the customers.

## 3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES *(Continued)*

### Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

### Impairment of non-financial assets

The Group assesses whether there are any indicators of impairment for all non-financial assets (including the right-of-use assets) at the end of each reporting period. Other non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows.

### Net realisable value of inventories

Net realisable value of inventories is estimated based on the best available facts and circumstances, including but not limited to the inventory own physical conditions, their market selling prices and estimated costs to be incurred for their sales. The assessment is re-evaluated and adjusted as additional information received affects the amount estimated. The carrying amount of the Group's inventories at the end of the reporting period is disclosed in Note 17 to the financial statements.

# Notes to the Financial Statements *(Continued)*

31 December 2025

## 3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES *(Continued)*

### *Estimation uncertainty (Continued)*

#### **Useful lives of property, plant and equipment**

The Group's property, plant and equipment are depreciated on a straight-line basis over their respective useful lives. Management estimates the useful lives of these property, plant and equipment to be between 5 and 28 years. Changes in the expected level of usage and technological developments could impact the estimated useful lives and the residual values of these assets, therefore future depreciation charges could be revised. The carrying amount of these property, plant and equipment at the end of the reporting period is disclosed in Note 13 to the financial statements.

#### **Provision for expected credit losses on trade receivables**

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the manufacturing sector, the historical default rates are adjusted. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation among historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of a customer's actual default in the future. The information about the ECLs on the Group's trade receivables is disclosed in Note 18 to the financial statements.

## 4. REVENUE *(Continued)*

### 4.2 Performance obligations

Information about the Group's performance obligations is summarised below:

#### Sales of moulds

The performance obligation is satisfied upon the customers' issue of the final acceptance report. Generally, customers are required to pay approximately 30% of the total fee as a deposit upon the signing of the agreements and approximately 40% to 50% of the total fee when the moulds have been fabricated and are ready for delivery to the customers. The remaining balance is generally due within 20 to 180 days from the issue of the final acceptance report.

#### Parts processing services

The performance obligation is satisfied at the point in time when the processed parts are accepted by the customers and payment is generally due within 20 to 180 days from the acceptance of processed parts, except for certain customers, where payment in advance is required.

There was only one performance obligation in each of the Group's contracts and all revenues were recognised at a point in time during the reporting period. The transaction prices related to the performance obligations in the existing contracts that were unsatisfied as at the end of the reporting period are as follows:

	Year ended 31 December	
	2025	2024
	RMB'000	RMB'000
Amounts expected to be recognised as revenue:		
Within one year	<b>298,399</b>	301,327
After one year	<b>268,284</b>	268,439
Total	<b>566,683</b>	569,766

The amounts of transaction prices related to the performance obligations which are expected to be recognised after one year mainly relate to the sales of automotive moulds due to the long inspection and examination period before the customers' final acceptance. All other amounts of transaction prices related to the performance obligations are expected to be recognised within one year. The amounts disclosed above do not include variable consideration which is constrained.

Such grants mainly represent cash subsidies granted by the local government to encourage the development of certain enterprises that are established in local special economic regions or to support general operations of those entities; and (b) government grants received for purchases of certain items of property, plant and equipment, which are recognised initially as a liability in the consolidated statement of financial position and subsequently recognised as other income when the associated costs, for which the grants are intended to compensate, are incurred. There are no unfulfilled conditions or contingencies relating to these grants.

## 12. EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE COMPANY

The calculation of the basic earnings per share amount is based on the profit for the year ended 31 December 2025 attributable to ordinary equity holders of the Company of approximately RMB15,107,000 (2024: RMB16,035,000), and the weighted average number of ordinary shares of 657,450,724 (2024: 657,450,724) outstanding during the year.

The calculation of the diluted earnings per share amount is based on the profit for the year attributable to ordinary equity holders of the Company. The weighted average number of ordinary shares used in the calculation is the number of ordinary shares outstanding during the year, as used in the basic earnings per share calculation, and the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares.

## 15. LEASES

### The Group as a lessee

As at 31 December 2025, the Group had lease contracts for factories and venues and a piece of state-owned industrial construction leasehold land for its operations. Leases of factories and venues generally have lease terms of 3 years. The lease of the land has a lease term of 30 years.

#### (a) Right-of-use assets

The carrying amounts of the Group's right-of-use assets and the movements during the reporting period are as follows:

	Factories and venues RMB'000	Leasehold land RMB'000	Total RMB'000
As at 31 December 2023 and 1 January 2024	2,737	6,706	9,443

As at 31 December 2025	<b>1,044</b>	<b>6,228</b>	<b>7,272</b>

Note: In December 2024, the Group subleased part of a leased building in Qingdao to certain third parties. Based on the assessment, the subleases were classified as finance leases with reference to the right-of-use asset arising from the head lease. Accordingly, as an intermediate lessor, the Group recognised net investments in subleases amounting to RMB1,465,000 and derecognised the corresponding right-of-use asset of the lease amounting to RMB1,242,000, resulting in a gain of RMB223,000 recognised in profit or loss at the sublease commencement date. A net investment in sublease of RMB35,000 was derecognised and a right-of-use asset of RMB15,000 was recognised in May 2024 as a result of the early termination of the sublease classified as finance lease, resulting in a loss of RMB20,000 recognised in profit or loss.

## 16. DEFERRED TAX *(Continued)*

### Deferred tax liabilities *(Continued)*

For the year ended 31 December 2025, the Group recognised deferred tax liabilities of approximately RMB449,000 (2024: RMB487,000) on earnings anticipated to be remitted by certain PRC subsidiaries in the foreseeable future. No withholding tax had been provided for the retained profits of the PRC subsidiaries of approximately RMB13,459,000 (2024: RMB14,603,000), which will not be remitted in the foreseeable future based on several factors, including the Company's dividend policy and management's estimation of overseas funding requirements. The aggregate amount of temporary differences associated with these retained profits for which deferred tax liabilities have not been recognised was approximately RMB230,648,000 (2024: RMB217,189,000) as at 31 December 2025.

For presentation purposes, certain deferred tax assets and liabilities have been offset in the statement of financial position. The following is an analysis of the deferred tax balances of the Group for financial reporting purposes:

	As at 31 December	
	2025	2024
	RMB'000	RMB'000
Net deferred tax assets recognised in the consolidated statement of financial position	8,153	3,947
Net deferred tax liabilities recognised in the consolidated statement of financial position	(449)	(487)
	7,704	3,460

The Group has tax losses arising in Mainland China of approximately RMB91,000 (2024: RMB16,000) that will expire in one to five years for offsetting against future taxable profits. Deferred tax assets have not been recognised in respect of these losses as they have arisen in subsidiaries that have been loss-making for some time and it is not considered probable that taxable profits will be available against which the tax losses can be utilised.

Deferred tax assets have not been recognised in respect of the following item:

	As at 31 December	
	2025	2024

The Group generally grants a credit period of 20 to 180 days to customers. Each customer has a maximum credit limit. The Group seeks to maintain strict control over its outstanding receivables to minimise credit risk. Overdue balances are reviewed regularly by management. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade and notes receivables are non-interest-bearing.

Details of the concentration of credit risk arising from the customers are set out in Note 35 to the financial statements.

## 18. TRADE AND NOTES RECEIVABLES *(Continued)*

An ageing analysis of the trade receivables as at the end of the reporting period, based on the date of the final acceptance report and net of loss allowance for impairment, is as follows:

	As at 31 December	
	2025	2024
	RMB'000	RMB'000

<b>At the end of year</b>	<b>4,413</b>	2,620

The Group has applied the simplified approach to providing for ECLs prescribed by IFRS 9, which permits the use of the lifetime expected loss provision for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days of ageing. If there is objective evidence of impairment existing individually for financial assets that are individually significant, an impairment loss is recognised in profit or loss. The Group performs a collective assessment for all other trade receivables that are not individually significant or for which impairment has not yet been identified by including the asset in a group of financial assets with similar credit risk characteristics for impairment. The collective provision calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. The Group has taken its expectations of economic impacts into consideration when making the forward-looking assumption underpinning the collective provision calculation.

## 18. TRADE AND NOTES RECEIVABLES *(Continued)*

Generally, trade receivables are written off when there is no reasonable expectation of recovering additional cash. Indicators include, among others, the bankruptcy of the customer and a failure to make contractual payments for a period of greater than 36 months.

The gross carrying amount of trade receivables individually measured is RMB204,000 (2024: RMB204,000) and the loss allowance for these trade receivables is RMB204,000 (2024: RMB204,000). Set out below is the information about the credit risk exposure on the Group's trade receivables using the collective provision calculation matrix:

Note:

None of the above assets is either past due or impaired. The financial assets included in the above balances relate to receivables for which there was no recent history of default.

The Group applies the general approach to provide for expected credit losses of the financial assets measured at amortised cost, for which the Group assesses the impairment individually based on the internal credit rating of these debtors. Based on the assessment, there has been no significant increase in credit risk since initial recognition. No impairment loss has been recognised under the 12-month ECLs based on the information about the exposure to credit risk for these financial assets which are assessed individually as at 31 December 2025.

Notes:

- (a) In October 2022, the Group entered into a ten-year general facility agreement with a maximum credit limit of RMB80,000,000 with Jiangsu Kunshan Rural Commercial Bank Co., Ltd. Zhangpu Sub-branch (“**Rural Commercial Bank**”), which was raised to RMB89,581,000 in January 2024. The general facility was secured by the mortgages over the Group’s leasehold land with a net carrying value of approximately RMB6,228,000 at 31 December 2025 (31 December 2024: RMB6,467,000), together with the plant on the leasehold land with a net carrying value of approximately RMB72,731,000 at 31 December 2025 (31 December 2024: RMB75,358,000). As at 31 December 2025, the Group had borrowings of RMB9,362,000 in aggregate under the general facility agreement, comprising one short-term borrowing of RMB2,000,000, which bore interest at a rate of 2.50% p.a. and was repaid in January 2026 and two long-term borrowings of approximately RMB7,362,000, which bore interest at a rate of 3.00% p.a. (31 December 2024: 3.35% p.a.), which are repayable in June 2026.
- (b) The Group entered into notes receivable financing arrangements with Rural Commercial Bank in 2025. Under these arrangements, the Group was granted loan facilities at 99.68% of the notes receivable being presented to Rural Commercial Bank. As the Group retained substantial risks and rewards, including the default risk relating to the notes receivable, the Group continued to recognise the discounted notes receivable with the amounts granted by Rural Commercial Bank. The notes receivable discounted were settled subsequently in January 2026.
- (c) All borrowings are denominated in RMB.

## 27. RESERVES

### Group

The amounts of the Group's reserves and the movements therein for the reporting period are presented in the consolidated statement of changes in equity.

### Share premium

The share premium of the Group represents the reserve arisen pursuant to the Reorganisation and the reserve arisen pursuant to Shinelong (Suzhou)'s conversion as a limited liability company in March 2016, and the amount resulting from the vesting and transfer of awarded shares in November 2021, 2022 and 2023, as further detailed in Note 28 to the financial statements.

### Merger reserve

There was no change in the merger reserve of the Group, which represents the reserve arisen pursuant to the Reorganisation and the reserve arisen pursuant to Shinelong (Suzhou)'s conversion as a limited liability company in March 2016.

### Statutory reserve

The statutory reserve of the Group represents all the appropriation of net profits (after offsetting accumulated losses from prior years) made by the Group's subsidiaries in the PRC. The percentage of appropriation to statutory reserve is 10%. When the balances of the statutory reserve reach 50% of the registered capital, such transfer needs not to be made.

### Fair value reserve

The fair value reserve of the Group represents the fair value changes of debt investments measured at fair value through other comprehensive income, which will be reclassified subsequently to profit or loss upon disposal.

### Exchange reserve

The exchange reserve of the Group represents all relevant exchange differences arising from the translation of the financial statements of an entity whose functional currency is different from the Group's presentation currency.

## 28. SHARE-BASED PAYMENTS

### Share option scheme

The Company has adopted a share option scheme (the “**Share Option Scheme**”) on 6 June 2019, the purpose of which is to enable the Group to grant options to selected participants as incentives or rewards for their contribution to the Group.

On 18 May 2021, under the Share Option Scheme, the Company granted options to its employees, including executive directors, to subscribe for up to a total of 9,248,000 ordinary shares with the nominal value of HKD0.01 per share. The share options have a term of 5 years from the date of grant and their exercise price is HKD0.405. The exercise of the share options is subject to grantee’s continued service to the Group through the applicable vesting dates, the financial performance of the Group over certain periods and the grantees’ achievement of their respective performance targets as determined by the Company (the “**Performance Conditions**”). The fair value of the share options determined using a binomial option-pricing model was approximately HKD0.221.

There are no cash settlement alternatives. The Group does not have a past practice of cash settlement for these share options. The Group accounts for the Share Option Scheme as an equity-settled plan.

The following share options were outstanding under the Share Option Scheme during the year:

	2025		2024	
	Weighted average exercise price HKD per share	Number of share options ‘000	Weighted average exercise price HKD per share	Number of share options ‘000

	Number of shares '000	Amount RMB'000	Number of shares '000	Amount RMB'000
At 1 January and 31 December	136	43	136	43

Pursuant to a resolution passed by the board of directors of the Company on 18 May 2021, the Company has entered into a trust deed with an independent trustee (the "Trustee"). The Trustee shall act as the administrator of the Company's Share Award Scheme.

A structured entity (the "Trust"), namely SALA T Limited, was set up on 13 May 2021, which is solely for the purpose of administering and holding the Company's shares for the Share Award Scheme. The Company has the power to direct the relevant activities of the Trust and it has the ability to use its power over the Trust to affect its exposure to returns. Therefore, the assets and liabilities of the Trust are included in the Group's consolidated statement of financial position and the ordinary shares held for the Company's Share Award Scheme were regarded as treasury shares and presented as a deduction in equity.

No shares were purchased for the Share Award Scheme during the year ended 31 December 2024 and 2025.

## 34. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

The carrying amounts and fair values of the Group's financial instruments, other than those with carrying amounts that reasonably approximate to fair values, are as follows:

	Carrying amounts		Fair values	
	31 December 2025 RMB'000	31 December 2024 RMB'000	31 December 2025 RMB'000	31 December 2024 RMB'000
FINANCIAL ASSETS				
Notes receivable	<b>54,444</b>	41,928	<b>54,444</b>	41,928

The Group's financial assets and liabilities primarily consist of cash and cash equivalents, trade receivables, financial assets included in prepayments, other receivables and other assets, trade payables, financial liabilities included in other payables and accruals. Management has assessed that their fair values approximate to their carrying amounts in general due to the short-term maturities of these instruments. The carrying amounts of the Group's non-current bank borrowing approximates to its fair value as the interest rate it bears reflects the current market yield for comparable borrowings.

The Group's finance management centre is responsible for determining the policies and procedures for the fair value measurement of financial instruments. At each reporting date, the finance management centre analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair values of notes receivable have been estimated using a discounted cash flow valuation model based on assumptions that are not supported by observable market prices or rates. The valuation requires the Directors to make estimates about the expected future cash flows of the notes receivable. The Directors believe that the estimated fair values resulting from the valuation technique, which are recorded in the consolidated statement of financial position, and the related changes in fair values, which are recorded in the consolidated statement of other comprehensive income, are reasonable, and that they were the most appropriate values at the end of the reporting period.

## 35. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise cash and cash equivalents. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various financial assets and liabilities such as trade receivables and trade payables, which arise directly from its operations.

It is, and has been throughout the reporting period under review, the Group's policy that no trading in financial instruments shall be undertaken.

The main risks arising from the Group's financial instruments are foreign currency risk, credit risk and liquidity risk. The Directors review and agree policies for managing each of these risks and they are summarised below.

### Foreign currency risk

The Group has transactional currency exposures. Such exposures arise from sales or purchases by operating units in currencies other than the units' functional currencies.

The following table demonstrates the sensitivity at the end of the reporting period to a reasonably possible change in the foreign currency exchange rate, with all other variables held constant, of the Group's profit before tax.

	Increase/ (decrease) in foreign currency rate %	Increase/(decrease) in profit before tax As at 31 December	
		2025 RMB'000	2024 RMB'000
If RMB weakens against USD	5	314	223
If RMB strengthens against USD	(5)	(314)	(223)
If RMB weakens against HKD	5	(89)	(42)
If RMB strengthens against HKD	(5)	89	42

### Credit risk

The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant.

The credit risk of the Group's other financial assets, which comprise cash and cash equivalents and other receivables and deposits, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

# Notes to the Financial Statements *(Continued)*

## 35. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES *(Continued)*

### Credit risk *(Continued)*

Since the Group trades only with recognised and creditworthy third parties, there is no requirement for collateral. Concentrations of credit risk are managed by analysis by customer/counterparty. The Group had certain concentrations of credit risk as the trade and notes receivable in terms of the following percentages were due from the five largest customers out of the Group's total trade and notes receivable:

	As at 31 December	
	2025	2024
	%	%
Due from the Group's five largest customers	36	46

The tables below show the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification as at 31 December 2025 and 2024. The amounts presented are gross carrying amounts for financial assets.
