強化頂層設計，引領企業發展方向。公司把戰略引領擺在突出位置，聚焦公司長遠發展的重大問題，堅持目標導向，科學系統謀劃「十五五」發展，引領高質量發展。深入研究細分行業市場天花板，堅持開門搞規劃、聚智搞規劃，形成以核素、核素藥物、核醫療裝備、核醫學整體解決方案、輻射源及應用、輻照應用為6大核心主業，同時積極培育新產業、新業態、新模式。

Dear Shareholders,

On behalf of the Board, I am pleased to present you with the annual report of the Company for the Reporting Period.

The year 2025 marked the conclusion of the 14th Five-Year Plan and the strategic planning phase for the 15th Five-Year Plan. As a leader in the industry, with “the significant affairs of the nation” in mind, we implement the “Healthy China” strategy, focus on enhancing core functions and core competitiveness, focus on nuclear healthcare and irradiation technology application, stabilize growth, strengthen innovation and promote reform. We achieved an operating income of RMB7,188 million, representing a year-on-year decrease of 5.1%, which was primarily due to a decrease in revenue from nuclear medicine equipment caused by delay in the centralized procurement of Class A large-scale medical equipment. The total profit was RMB1,004 million, representing a year-on-year decrease of 3.9%, and net profit was RMB665 million, representing a year-on-year decrease of 24.4%, which was primarily due to the additional tax and late payment penalties paid by Zhonghe Headway. The net profit attributable to the parent company (after deducting the impact of the additional tax and late payment penalties from subsidiaries) achieved RMB457.4 million, representing a year-on-year increase of 12.5%. The total assets amounted to RMB15,716 million, the net assets totaled RMB8,133 million, and the gearing ratio was 48.25% as of 31 December 2025.

Strengthening top-level design to steer the development of the Company. The Company prioritized strategic guidance, focusing on critical issues for long-term growth. Adopting a goal-oriented approach, we systematically planned the 15th Five-Year Plan to drive high-quality development. We conducted in-depth research into market ceilings in the subdivided sectors, adopting an open and collaborative planning, which resulted in the establishment of six core businesses, including nuclides, nuclear medicines, nuclear medical equipment, nuclear medicine integrated solutions, radioactive sources and application and irradiation application. Concurrently, we actively nurtured emerging industries, new business models and new modes.

CHAIRMAN'S STATEMENT (CONTINUED)

加大研發力度，科技創新取得新突破。核藥研發領域，用於神經內分泌腫瘤診斷的鎂-68多特安肽注射液、用於幽門螺旋桿菌檢測的50mg碳-13尿素藥盒等2款核藥提交上市註冊申請；用於神經內分泌腫瘤治療的鎳-177氧奧曲肽注射液等6款核藥正開展三期臨床試驗；主要用於頭頸部腫瘤治療硼中子俘獲治療藥物臨床試驗申請獲批。核素製備領域，高豐度一氧化碳氣體及碳-13尿素產品正式上市，標誌著我國在醫用碳穩定同位素領域實現了從關鍵原料到終端產品全產業鏈自主可控；商用堆照碳-14同位素產品生產上市，實現從自主研發、自主生產到市場化供應的全產業鏈貫通。放射源領域，自主研發寬厚熱軋板在線測厚儀，主要技術指標達到工業檢測行業國際先進水平。

加強市場開拓，國內、國際市場收穫新成果。在國內市場方面，對澳門放射性藥品實現常態化供應，與香港AITA公司簽署放藥生產線全流程服務合同。射波刀在國家衛健委發佈的甲類醫療設備配置許可中佔比73%；Tomo C產品中標25台。鎳-177核素、輻照電纜附件及輻照管材、智慧核醫學系統等新產品實現批量交付。在國際市場方面，呼氣診斷產品獲得沙特、德國等總計12個註冊證；放藥產線馬來西亞項目完成工廠驗收並進入試運行階段；再次中標孟加拉百萬居里輻照站設備供應項目；與巴西國家核能委員會簽署同位素領域合作諒解備忘錄。

Increasing investment in research and development to achieve new breakthroughs in technological innovation. In the field of nuclear medicine R&D, two nuclear medicines, i.e. 68Ga-DOTATATE injection for the diagnosis of neuroendocrine tumors and 50mg carbon-13 urea kits for the detection of helicobacter pylori, were submitted for marketing registration applications; six nuclear medicines, including lutetium-177 oxyoctreotide injection for the treatment of neuroendocrine tumors, were undergoing Phase III clinical trials; an application for clinical trials of a boron neutron capture therapy (BNCT) drug mainly used for the treatment of head and neck tumors was approved. **In the field of nuclides preparation,** the official launch of high-abundance carbon monoxide gas and carbon-13 urea products marked China's achievement of self-reliance and control across the entire industrial chain from key raw materials to end products in the field of medical carbon stable isotopes. Commercial carbon-14 isotope products irradiated in reactor were produced and launched onto the market, making the completion of the entire industrial chain from independent research and development and production to market-driven supply. **In the field of radioactive source,** an online thickness gauge for thick-walled hot-rolled plates was developed independently, with key technical specifications reaching internationally advanced standards in the industrial inspection sector.

Strengthening market development and gaining new achievements in both domestic and international markets. In the domestic market, a regular supply of radiopharmaceuticals was achieved in Macau, and a full-process service contract for the production line of radiopharmaceuticals was signed with Hong Kong AITA. 核醫療領域，新核素、新靶點、新配體的發現，將推動一批精準高效的放射性新藥問世；前沿加速器和探測器技術的進步，也將有力促進核醫療裝備性能提升。輻照應用領域，隨著材料科學不斷突破，射線與物質作用機理研究逐步深入，一批性能優異的輻照新材料將應運而生。以人工智能(AI)、5G、大數據、雲計算為代表的新一代信息技術正加速與核技術應用產業融合發展，催生新產品、新模式、新業態，在核醫療領域，AI賦能的醫療影像設備能大幅縮短掃描時間，生成式AI更是顛覆了傳統放射性藥物研發模式，通過數百萬次虛擬篩選和分子優化，為核藥創新按下「加速鍵」。中國同輻主要聚焦的核素、核藥、核醫療裝備、輻照應用等細分賽道，各賽道均呈現快速發展趨勢。

MARKET POTENTIAL WORTH HUNDREDS OF BILLIONS IN INDUSTRY DEVELOPMENT

Compared with developed countries in Europe and the United States, China's nuclear technology application industry is still in the early stage of large-scale development, and there is huge room for development. The Three-Year Action Plan for the High-Quality Development of Nuclear Technology Application Industry (2024-2026) proposes that by 2026, the annual direct economic output value of the nuclear technology application industry will reach RMB400 billion. The Report on the Development of China's Nuclear Technology Application Industry (2025) issued by China Nuclear Energy Association indicates that China's nuclear technology application output value reached RMB890 billion in 2024, with a compound annual growth rate of 15.6% from 2020 to 2024. It is projected that by around 2030, the overall scale of China's nuclear technology application industry will double. Relevant action plans and reports have indicated that, with the continuous maturation of technology and the ongoing expansion of application scenarios, the nuclear technology application industry has huge development potential, and its growth potential will be further released.

RAPID DEVELOPMENT OF SEGMENTS

In the field of nuclear medicine, the discovery of new nuclides, new targets, and new ligands will promote a number of accurate and efficient new radiopharmaceuticals; and the advancement of cutting-edge accelerator and detector technologies will also have the power to promote the performance of nuclear medical equipment. In the field of irradiation applications, with the continuous breakthroughs in materials science and the deepening of the research on the mechanism of the action of radioactivity and matter, a number of new irradiation materials with excellent performance will come into being. A new generation of information technology represented by artificial intelligence (AI), 5G, big data and cloud computing is accelerating the integration and development of nuclear technology application industry, giving rise to new products, new modes and new business models. In the field of nuclear medicine, AI-powered medical imaging equipment can significantly shorten scanning time, while generative AI has revolutionized traditional R&D model of radiopharmaceuticals, acting as a "accelerator" for nuclear medicine innovation through millions of virtual screenings and molecular optimizations. CIRC focuses on nuclides, nuclear medicine, nuclear medical equipment and irradiation applications, with each segment showing a rapid development trend.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

我們通常不要求客戶提供抵押品。因此，我們面臨的信用風險主要受客戶的個人特點而非客戶經營所在行業的影響。重大集中的信用風險主要於我們十分依賴個別客戶時產生。然而，我們將定期評估客戶的信貸及監管客戶信貸條款的遵守情況。由於貿易應收款項及應收票據包括遍佈在不同行業及地理區域的大量客戶，故我們認為並無任何重大集中的信用風險。

We normally do not require collateral from customers. Therefore, our exposure to credit risk is influenced mainly by the individual characteristics of each customer rather than the industry in which the customer operates. The significant concentration of credit risk primarily arises when we rely heavily on individual customers. We will, however, perform periodic credit evaluation on our customers and monitor the compliance of credit terms by them. We believe we do not have any significant concentration of credit risk as the trade and bill receivables involve a large number of customers across diverse industries and geographical areas.

流動資金風險

我們的政策是定期監察即期及預期流動資金需求，確保維持充足的現金儲備及主要金融機構有充足的承諾資金，以滿足短期及長期的流動資金需求。董事認為，由於我們有充足的貨幣資本撥付營運，故並無重大流動資金風險。

Liquidity Risk

Our policy is to regularly monitor current and expected liquidity requirements to ensure that we maintain sufficient reserves of cash and adequate commitment funds from major financial institutions to meet both short-term and long-term liquidity requirements. Our Directors believe that there is no significant liquidity risk, as we have sufficient monetary capital to fund our operations.

貴公司董事以及審計和風險管理委員會就綜合財務報表承擔的責任

貴公司董事須負責根據國際會計準則理事會頒佈的《國際財務報告準則》及香港公司條例的披露要求擬備真實而中肯的綜合財務報表，並對其認為使綜合財務報表的擬備不存在由於欺詐或錯誤而導致的重大錯誤陳述所需的內部控制負責。

在擬備綜合財務報表時，貴公司董事負責評估貴集團持續經營的能力，並在適用情況下披露與持續經營有關的事項，以及使用持續經營為會計基礎，除非貴公司董事有意將貴集團清盤或停止經營，或別無其他實際的替代方案。

審計和風險管理委員會負責監督貴集團的財務報告過程。

核數師就審計綜合財務報表承擔的責任

吾等之目標，是對綜合財務報表整體是否存在由於欺詐或錯誤而導致的重大錯誤陳述取得合理保證，並出具包括吾等意見之核數師報告。根據我們的協定委聘條款，本報告僅向閣下（作為一個整體）彙報，不可用作其他用途。吾等概不就本報告的內容，對任何其他人士負責或承擔法律責任。合理保證是高水平的保證，但不能保證按照《香港審計準則》進行的審計，在某一重大錯誤陳述存在時總能發現。錯誤陳述可以由欺詐或錯誤引起，如果合理預期它們單獨或匯總起來可能影響綜合財務報表使用者依賴帳項所作出的經濟決定，則有關的錯誤陳述可被視作重大。

RESPONSIBILITIES OF THE DIRECTORS OF THE COMPANY AND AUDIT AND RISK MANAGEMENT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRS Accounting Standards issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors of the Company determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Audit and Risk Management Committee is responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion, solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

在根據《香港審計準則》進行審計的過程中，吾等運用了專業判斷，保持了專業懷疑態度。吾等亦：

- 識別和評估由於欺詐或錯誤而導致綜合財務報表存在重大錯誤陳述的風險，設計及執行審計程序以應對該等風險，以及獲取充足和適當的審計憑證，作為吾等意見的基礎。由於欺詐可能涉及串謀、偽造、蓄意遺漏、虛假陳述，或凌駕於內部控制之上，因此未能發現因欺詐而導致的重大錯誤陳述的風險高於未能發現因錯誤而導致的重大錯誤陳述的風險。
- 了解與審計相關的內部控制，以設計適當的審計程序，但目的並非對貴集團內部控制的有效性發表意見。
- 評價貴公司董事所採用會計政策的恰當性及作出會計估計和相關披露的合理性。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors of Company.

- 對董事採用持續經營會計基礎的恰當性作出結論。根據所獲取的審計憑證，確定是否存在與事項或情況有關的重大不確定性，從而可能導致對本 貴集團的持續經營能力產生重大疑慮。如果吾等認為存在重大不確定性，則有必要在核數師報告中提請使用者注意綜合財務報表中的相關披露。假若有關的披露不足，則吾等應當發表非無保留意見。吾等之結論是基於核數師報告日止所取得的審計憑證。然而，未來事項或情況可能導致 貴集團不能持續經營。
- 評價綜合財務報表的整體列報方式、結構和內容，包括披露，以及綜合財務報表是否中肯反映交易和事項。
- 計劃並執行集團審計，以就 貴集團內實體或業務單位的財務資料獲取充足、適當的審計憑證，作為出具綜合財務報表意見的基準。我們負責指導、監督和審閱就集團審計開展的審計工作。吾等為審計意見承擔全部責任。

除其他事項外，吾等與審計和風險管理委員會溝通了計劃的審計範圍、時間安排、重大審計發現等，包括吾等在審計中識別出內部控制的任何重大缺陷。

吾等還向審計和風險管理委員會提交聲明，說明吾等已符合有關獨立性的相關專業道德要求，並與彼等溝通有可能合理地被認為會影響吾等獨立性的所有關係和其他事項，以及在適用的情況下，為消除威脅而採取的行動或採用的防範措施。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purpose of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit and Risk Management Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit and Risk Management Committee with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, actions taken to eliminate threats or safeguards applied.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

From the matters communicated with the Audit and Risk Management Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

(b) 綜合財務報表之編製基準

截至2025年12月31日止年度之綜合財務報表包括本集團及本集團於聯營公司及合資公司的權益。

編製綜合財務報表所採用的計量基準為歷史成本基準，惟按其公允價值列賬的股權投資（見附註2(g)）除外。

按照國際財務報告準則編製綜合財務報表需要管理層作出判斷、估計及假設，而該等判斷、估計及假設會影響政策的應用及所呈報資產、負債、收入及開支的數額。該等估計及相關假設乃基於過往經驗及相信在有關情況下為合理的多項其他因素，而所得結果乃用作判斷目前無法直接通過其他來源輕易獲得的資產及負債賬面值的依據。實際結果或會有別於該等估計。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(b) Basis of preparation of the consolidated financial statements

The consolidated financial statements for the year ended 31 December 2025 comprise the the Group and the Group's interests in associates and joint ventures.

The measurement basis used in the preparation of the consolidated financial statements is the historical cost basis except that the equity investments (see Note 2(g)) are stated at their fair value.

The preparation of consolidated financial statements in conformity with IFRS Accounting Standards requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of IFRS Accounting Standards that have significant effect on the consolidated financial statements and major sources of estimation uncertainty are discussed in Note 3.

(c) 應用新訂國際財務報告會計準則及修訂本 (續)

已頒佈但尚未生效的新訂國際財務報告會計準則及修訂本 (續)

本集團正在評估預期該等新訂國際財務報告會計準則及修訂本於首次應用期間的影響。到目前為止，結論為採納該等新訂國際財務報告會計準則及修訂本不太可能會對本集團的業績及財務狀況造成重大影響。

(d) 附屬公司及非控股權益

附屬公司指本集團控制的實體。倘本集團因參與實體的營運而獲得或有權享有可變回報，並能通過對該實體行使權力影響該等回報時，則本集團控制該實體。評估本集團是否擁有權力時，僅考慮本集團及其他各方所持實質權利。

附屬公司的投資自控制開始當日至控制終止當日併入綜合財務報表。集團間結餘、交易及現金流量以及集團間交易產生的任何未變現利潤於編製綜合財務報表時悉數抵銷。集團間交易所產生未變現虧損按與未變現收益相同的方法抵銷，惟僅可抵銷無減值跡象的部分。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(c) Application of new and amendments to IFRS Accounting Standards (continued)

New and amendments to IFRS Accounting Standards issued but not yet effective (continued)

The Group is in the process of making an assessment of what the impact of these new and amendments to IFRS Accounting Standards is expected to be in the period of initial application. So far it has been concluded that the adoption of these new and amendments to IFRS Accounting Standards is unlikely to have a significant impact on the results and the financial position of the Group.

(d) Subsidiaries and non-controlling interests

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances, transactions and cash flows and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

(d) 附屬公司及非控股權益 (續)

非控股權益指並非由本公司直接或間接應佔的附屬公司權益，且本集團並無與相關權益股東同意任何額外的條款，而導致本集團整體須就該等權益承擔符合金融負債定義的合約責任。就非受同一控制實體的各項業務合併而言，本集團可選擇按公允價值或按非控股權益分佔附屬公司可識別資產淨值的比例計量任何非控股權益。

非控股權益於綜合財務狀況表的權益項目呈列，與本公司權益股東應佔權益分開呈列。本集團業績中的非控股權益按該年度損益總額及全面收入總額在本公司非控股權益股東與權益股東之間分配，並於綜合損益表、綜合損益及其他全面收益表賬面呈列。

倘本集團於附屬公司的權益變動並無導致失去控制權，則入賬列作權益交易，並據此調整合併權益內的控股及非控股權益金額，以反映相關權益的變動，惟不會調整商譽，亦不會確認收益或虧損。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(d) Subsidiaries and non-controlling interests (continued)

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. For each business combination involving entities not under common control, the Group can elect to measure any non-controlling interests either at fair value or at the non-controlling interests' proportionate share of the subsidiary's net identifiable assets.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to the equity shareholders of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and the equity shareholders of the Company.

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

(d) 附屬公司及非控股權益 (續)

當本集團失去對附屬公司的控制權，則終止確認該附屬公司之資產及負債以及非控股權益 (如有)。收益或虧損於損益確認並按(i)所收代價之公允價值及任何保留權益之公允價值的總和與(ii)本公司擁有人應佔該附屬公司之資產 (包括商譽) 及負債之賬面值兩者之間的差額計算。先前於其他全面收入確認並於權益中累計款額，會按猶如本集團已直接出售相關資產及負債入賬 (即按適用國際財務報告準則之規定重新分類至損益或直接轉撥至保留溢利)。於失去控制權當日仍保留的前附屬公司任何投資之公允價值被視為其後根據國際財務報告準則第9號金融工具入賬之初步確認公允價值，或 (倘適用) 於一家聯營公司或一家合營公司之投資的初步確認成本。

本公司財務狀況表中，於附屬公司的投資按成本減去減值虧損列賬 (見附註2(l)(iii))，惟有關投資分類為持作出售則除外。

(e) 聯營公司及合資公司

聯營公司指本集團或本公司有重大影響 (包括參與財務及經營決策)，但並無控制或共同控制其管理層之實體。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(d) Subsidiaries and non-controlling interests (continued)

When the Group loses control of a subsidiary, the assets and liabilities of that subsidiary and non-controlling interests (if any) are derecognised. A gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the carrying amount of the assets (including goodwill), and liabilities of the subsidiary attributable to the owners of the Company. The amounts previously recognised in other comprehensive income and accumulated in equity are accounted for as if the Group had directly disposed of the related assets and liabilities (i.e. reclassified to profit or loss or transferred directly to retained profits as specified by applicable IFRS Accounting Standards). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IFRS 9 Financial Instruments or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment losses (see Note 2(l)(iii)), unless the investment is classified as held for sale.

(e) Associates and joint ventures

An associate is an entity in which the Group or Company has significant influence, but not control or joint control, over its management, including participation in the financial and operating policy decisions.

合資公司為一項安排，據此，本集團或本公司與其他各方訂約協定分佔該安排的控制權，並有權擁有該安排資產淨值。

聯營公司及合營公司的業績與資產及負債按權益會計法計入綜合財務報表，惟有關投資分類為持作出售則除外。根據權益法，投資初步按成本入賬，並於其後作出調整以確認本集團分佔被投資方可識別資產淨值於收購日期之公允價值超出投資成本的部分（如有）。投資成本包括購買價、收購投資直接應佔的其他成本，以及形成本集團權益投資一部分的對聯營公司及合資公司的任何直接投資。其後，該投資因應本集團分佔被投資方資產淨值於收購後的變動及投資相關減值虧損而調整（見附註2(f)及2(l)(iii)）。於各收購日期，本集團評估是否有客觀證據顯示投資出現減值。收購日期超出成本的部分、本集團分佔被投資方的收購後稅後業績及年內任何減值虧損於綜合損益表確認，而本集團分佔被投資方其他全面收入內的收購後稅後項目則於綜合損益及其他全面收益表確認。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(e) Associates and joint ventures (continued)

A joint venture is an arrangement whereby the Group or Company and other parties contractually agree to share control of the arrangement and have rights to the net assets of the arrangement.

The results and assets and liabilities of associates and joint ventures are incorporated in these consolidated financial statements under the equity method unless it is classified as held for sale. Under the equity method, the investment is initially recorded at cost, adjusted thereafter to recognise the Group's share of the acquisition-date fair values of the investee's identifiable net assets over the cost of the investment (if any). The cost of the investment includes purchase price, other costs directly attributable to the acquisition of the investment, and any direct investment into the associate or joint venture that forms part of Group's equity investment. Thereafter, the investment is adjusted for the post acquisition change in the Group's share of the investee's net assets and any impairment loss relating to the investment (see Notes 2(f) and 2(l)(iii)). At each reporting date, the Group assesses whether there is any objective evidence that the investment is impaired. Any acquisition-date excess over cost, the Group's share of the post-acquisition, post-tax results of the investees and any impairment losses for the year are recognised in the consolidated statement of profit or loss, whereas the Group's share of the post-acquisition post-tax items of the investees' other comprehensive income is recognised in the consolidated statement of profit or loss and other comprehensive income.

(e) 聯營公司及合資公司 (續)

當本集團分佔聯營公司及一家合資公司的虧損超出分佔權益時，本集團的權益將調減至零，且不再確認其他虧損，惟倘本集團須承擔法定或推定責任，或代表被投資方付款則除外。就此而言，在將預期信貸虧損模型應用於其他此類長期權益（如適用）之後，本集團的權益是按權益法計算的投資賬面值以及實質上屬於本集團對聯營公司或一家合資公司投資淨額一部分的長期權益（見附註2(l)(i)）。

本集團與其聯營公司及合資公司交易所產生的未變現損益，以本集團所佔被投資方的權益抵銷，惟倘未變現虧損證明已轉讓資產出現減值，則即時於損益確認。

倘對聯營公司的投資變為對一家合資公司的投資，保留權益不再重新計量，而該投資繼續按權益法入賬，反之亦然。

在所有其他情況下，倘本集團對聯營公司不再有重大影響或對一家合資公司失去共同控制，則入賬為出售所持該投資對象的全部權益，所產生盈虧於損益確認。任何在失去重大影響或共同控制當日仍保留的該前投資對象權益按公允價值確認，該金額視為初步確認金融資產的公允價值。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(e) Associates and joint ventures (continued)

When the Group's share of losses exceeds its interest in the associate or the joint venture, the Group's interest is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the investee. For this purpose, the Group's interest is the carrying amount of the investment under the equity method together with the Group's long-term interests that in substance form part of the Group's net investment in the associate or the joint venture (after applying the ECL model to such other long-term interests where applicable (see Note 2(l)(i))).

Unrealised profits and losses resulting from transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in the investee, except where unrealised losses provide evidence of an impairment of the asset transferred, in which case they are recognised immediately in profit or loss.

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method.

In all other cases, when the Group ceases to have significant influence over an associate or joint control over a joint venture, it is accounted for as a disposal of the entire interest in that investee, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former investee at the date when significant influence or joint control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset.

(f) 商譽

商譽指以下兩者的差額

- (i) 所轉讓代價之公允價值、於被收購方之任何非控股權益金額及本集團先前所持被收購方權益之公允價值的總和；與
- (ii) 被收購方可識別資產及負債於收購日期之公允價值淨值。

當(ii)大於(i)時，則差額即時於損益確認為議價購買收益。

商譽按成本減累計減值虧損列賬。業務合併產生的商譽分配至預期會產生合併協同效益的各現金產生單位或現金產生單位組合，並每年進行減值測試（見附註2(l)(iii)）。

期內出售現金產生單位時，應佔已收購商譽的任何金額會計入出售損益。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(f) Goodwill

Goodwill represents the excess of

- (i) the sum of the fair value of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the Group's previously held equity interest in the acquiree; over
- (ii) the net fair value of the acquiree's identifiable assets and liabilities measured as at the acquisition date.

When (ii) is greater than (i), then this excess is recognised immediately in profit or loss as a gain on a bargain purchase.

Goodwill is stated at cost less accumulated impairment losses. Goodwill arising on a business combination is allocated to each cash-generating unit, or groups of cash generating units, that is expected to benefit from the synergies of the combination and is tested annually for impairment (see Note 2(l)(iii)).

On disposal of a cash generating unit during the periods, any attributable amount of purchased goodwill is included in the calculation of the profit or loss on disposal.

(g) 其他股本證券投資

除於附屬公司、聯營公司及一家合資公司的投資外，本集團的股本證券投資政策如下。

於股本證券的投資乃於本集團承諾購入／出售該等投資日期確認／取消確認。該等投資初步按公允價值加直接應佔交易成本列賬，惟按公允價值計入損益（「按公允價值計入損益」）計量之該等投資除外，其交易成本直接於損益確認。有關本集團如何釐定金融工具公允價值的闡釋，見附註35(d)。該等投資其後視乎其分類按下列方式列賬。

權益證券投資均會被分類為透過損益按公允價值入賬，除非該權益投資並非持作買賣，並在初始確認投資時本集團選擇透過其他全面收入按公允價值入賬（「透過其他全面收入按公允價值入賬」）（不可撥回），以致後續公允價值變動在其他全面收入中確認。有關選擇是以逐項投資的基礎上進行，但僅有當投資符合發行人角度下的權益定義時方可進行。若作出此選擇，在該投資被出售前，其他全面收入中累計的金額仍保留在公允價值儲備（不可撥回）中。在出售時，於公允價值儲備（不可撥回）中累計的金額會轉入保留溢利。其為不可撥回，且不會轉入損益。來自權益證券投資的股息，不論是否分類為透過損益按公允價值入賬或透過其他全面收入按公允價值入賬，均根據附註2(w)(v)所載政策在損益中確認為其他收入。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(g) Other investments in equity securities

The Group's policies for investments in equity securities, other than investments in subsidiaries, associates and joint ventures, are set out below.

Investments in equity securities are recognised/derecognised on the date the Group commits to purchase/sell the investment. The investments are initially stated at fair value plus directly attributable transaction costs, except for those investments measured at fair value through profit or loss ("FVPL") for which transaction costs are recognised directly in profit or loss. For an explanation of how the Group determines fair value of financial instruments, see Note 35(d). These investments are subsequently accounted for as follows, depending on their classification.

An investment in equity securities is classified as FVPL unless the equity investment is not held for trading purposes and on initial recognition of the investment the Group makes an election to designate the investment at fair value through other comprehensive income ("FVOCI") (non-recycling) such that subsequent changes in fair value are recognised in other comprehensive income. Such elections are made on an instrument-by-instrument basis but may only be made if the investment meets the definition of equity from the issuer's perspective. Where such an election is made, the amount accumulated in other comprehensive income remains in the fair value reserve (non-recycling) until the investment is disposed of. At the time of disposal, the amount accumulated in the fair value reserve (non-recycling) is transferred to retained earnings. It is not recycled through profit or loss. Dividends from an investment in equity securities, irrespective of whether classified as at FVPL or FVOCI, are recognised in profit or loss as other income in accordance with the policy set out in Note 2(w)(v).

(h) Investment properties

Investment properties are land and/or buildings which are owned or held under a leasehold interest (see Note 2(r)) to earn rental income and/or for capital appreciation. Investment property are stated at cost less accumulated depreciation and impairment losses (see Note 2(l)). The investment property is depreciated in accordance with the accounting policy set out in Note 2(i). Rental income from investment property are accounted for as described in Note 2(w)(iv).

(i) Property, plant and equipment

若某項物業、廠房及設備的不同部分有不同的可使用年期，則該項資產的成本或估值應以合理的基準分攤到不同部分，且各部分獨立計提折舊。資產的可使用年期及剩餘價值（如有），每年進行審閱。

在建工程在完工及可作擬定用途前不會計提折舊。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(i) Property, plant and equipment (continued)

Gains or losses arising from the retirement or disposal of an item of property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the item and are recognised in profit or loss on the date of retirement or disposal.

Depreciation is calculated to write-off the cost of items of property, plant and equipment, less their estimated residual value, if any, using the straight-line method over their estimated useful lives as follows:

Buildings	10 – 50 years
Machinery and equipment	3 – 20 years
Office equipment	3 – 15 years
Motor vehicles and others	1 – 20 years
Leasehold improvement	2 – 20 years
Right-of-use assets	Over the term of lease

Where parts of an item of property, plant and equipment have different useful lives, the cost or valuation of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are reviewed annually.

No depreciation is provided in respect of construction in progress until it is completed and ready for its intended use.

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(j) Intangible assets (other than goodwill)

Expenditure on research activities is recognised as an expense in the period in which it is incurred. Expenditure on development activities is capitalised if the product or process is technically and commercially feasible and the Group has sufficient resources and the intention to complete development. The expenditure capitalised includes the costs of materials, direct labor, and an appropriate proportion of overheads and borrowing costs, where applicable (see Note 2(y)). Capitalised development costs are stated at cost less accumulated amortisation and impairment losses (see Note 2(l)(iii)). Other development expenditure is recognised as an expense in the period in which it is incurred.

Other Intangible assets that are acquired by the Group are stated at cost less accumulated amortisation (where the estimated useful life is finite) and impairment losses (see Note 2(l)(iii)). Expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

Amortisation of intangible assets with finite useful lives is charged to profit or loss on a straight-line basis over the assets' estimated useful lives. The following intangible assets with finite useful lives are amortised from the date they are available for use and their estimated useful lives are as follows:

Patents and know-how	3.5 – 20 years
Royalty	10 years
Software and others	3 – 10 years
Customer relationship	7 years

Both the period and method of amortisation are reviewed annually.

(k) 租賃資產

於合約開始時，本集團評估合約是否為或包括租賃。倘合約將某一時段內使用可識別資產的控制權轉移以換取代價時，合約為或包括租賃。當客戶既有權指定可識別資產的用途，亦有權從該用途獲得幾乎所有經濟利益時，控制權則轉移。

(i) 作為承租人

當合約包含租賃部份及非租賃部份時，則本集團選擇不區分非租賃部份，並將各租賃部份及任何相關非租賃部份入賬列為所有租賃的單一租賃部份。

於租賃開始日期，本集團確認使用權資產及租賃負債，惟租期為12個月或以下之短期租賃以及低價值資產租賃（就本集團而言，主要為手提電腦及辦公室傢俱）除外。當本集團就低價值資產訂立租賃時，本集團按租賃基準決定是否將租賃資本化。與該等未資本化租賃相關的租賃付款於租期內按系統基準確認為開支。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(k) Leased assets

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

(i) As a lessee

Where the contract contains lease component(s) and non-lease component(s), the Group has elected not to separate non-lease components and accounts for each lease component and any associated non-lease components as a single lease component for all leases.

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability, except for short-term leases that have a lease term of 12 months or less and leases of low-value assets which, for the Group are primarily laptops and office furniture. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

於租賃資本化時確認的使用權資產初步按成本計量，其中包括租賃負債的初始金額，加上於開始日期或之前作出的任何租賃付款以及所產生的任何初始直接成本。在適用的情況下，使用權資產的成本亦包括拆除及移除相關資產或重建相關資產或該資產所在地的估計成本，貼現至其現值並扣減所收取的任何租賃優惠。使用權資產隨後按成本減累計折舊及減值虧損列賬（見附註2(i)及2(l)(iii)）。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(k) Leased assets (continued)

(i) As a lessee (continued)

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses (see Notes 2(i) and 2(l)(iii)).

當指數或利率變動引致未來租賃付款變動，或本集團根據剩餘價值擔保預期應付款項之估計有變，或當重新評估本集團是否將合理確定行使購買、延期或終止選擇權而產生變動，則會重新計量租賃負債。當租賃負債以此方式重新計量，就使用權資產之賬面值作出相應調整，或倘使用權資產之賬面值減至零，則於損益內入賬。

當租賃範疇發生變化或租賃合約原先並無規定的租賃代價發生變化(「租賃修訂」)，且未作為單獨的租賃入賬時，則亦要對租賃負債進行重新計量。在此情況，租賃負債根據經修訂的租賃付款及租賃期限，使用經修訂的貼現率在修訂生效日重新計量。

在綜合財務狀況表中，長期租賃負債的即期部分釐定為須於報告期後十二個月內清償之合約付款現值。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(k) Leased assets (continued)

(i) As a lessee (continued)

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the Group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The lease liability is also remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract ("lease modification") that is not accounted for as a separate lease. In this case the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification.

In the consolidated statement of financial position, the current portion of long-term lease liabilities is determined as the present value of contractual payments that are due to be settled within twelve months after the reporting period.

當本集團作為出租人行事時，於租賃開始時釐定各租賃為金融租賃或經營租賃。倘將相關資產所有權絕大部分的附帶風險及回報轉移予承租人，則租賃分類為金融租賃。倘並非此類情形，租賃則分類為經營租賃。

當合約包含租賃及非租賃部分時，本集團將合約中的代價按相對單獨售價基準分配予各部分。經營租賃的租金收入根據附註2(w)(iv)確認。

當本集團為中間出租人時，分租租賃乃參考首次租賃產生的使用權資產分類為金融租賃或經營租賃。倘首次租賃為本集團應用附註2(r)(i)所述豁免的短期租賃時，本集團將分租租賃分類為經營租賃。

(k) Leased assets (continued)

(ii) As a lessor

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to the ownership of an underlying assets to the lessee. If this is not the case, the lease is classified as an operating lease.

When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. The rental income from operating leases is recognised in accordance with Note 2(w) (iv).

When the Group is an intermediate lessor, the sub-leases are classified as a finance lease or as an operating lease with reference to the right-of-use asset arising from the head lease. If the head lease is a short-term lease to which the Group applies the exemption described in Note 2(r)(i), then the Group classifies the sub-lease as an operating lease.

- contract assets as defined in IFRS 15 (see Note 2(n)).

Other financial assets measured at fair value, including equity and debt securities measured at FVPL and equity securities designated at FVOCI (non-recycling) are not subject to the ECL assessment.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all expected cash shortfalls (i.e., the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

The expected cash shortfalls are discounted using the following discount rates where the effect of discounting is material:

- fixed-rate financial assets, trade and other receivables: effective interest rate determined at initial recognition or an approximation thereof;

In measuring ECLs, the Group takes into account reasonable and supportable information that is available without undue cost or effort. This includes information about past events, current conditions and forecasts of future economic conditions.

ECLs are measured on either of the following bases:

- 12-month ECLs: these are losses that are expected to result from possible default events within the 12 months after the reporting date; and

Measurement of ECLs (Continued)

Loss allowances for trade and bill receivables and contract assets are always measured at an amount equal to lifetime ECLs. ECLs on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors and an assessment of both the current and forecast general economic conditions at the reporting date.

For all other financial instruments, the Group recognises a loss allowance equal to 12-month ECLs unless there has been a significant increase in credit risk of the financial instrument since initial recognition, in which case the loss allowance is measured at an amount equal to lifetime ECLs. The assessment of whether lifetime ECL should be recognised is based on significant increase in the likelihood or risk of a default occurring since initial recognition.

信貸風險大幅上升

評估金融工具的信貸風險自首次確認以來有否大幅上升時，本集團會比較於報告日期及於首次確認日期評估的金融工具發生違約的風險。作出重新評估時，本集團認為，倘借款人不大可能在本集團無追索權採取變現抵押（如持有）等行動的情況下向本集團悉數支付其信貸債務，則構成違約事件。本集團會考慮合理可靠的定量及定性資料，包括過往經驗及在無需付出過多成本或努力下即可獲得的前瞻性資料。

特別是，評估信貸風險自首次確認以來有否大幅上升時會考慮以下資料：

- 未能於合同到期日支付本金或利息；
- 金融工具外部或內部信貸測評的實際或預期顯著惡化（如有）；

Significant increases in credit risk

In assessing whether the credit risk of a financial instrument has increased significantly since initial recognition, the Group compares the risk of default occurring on the financial instrument assessed at the reporting date with that assessed at the date of initial recognition. In making this reassessment, the Group considers that a default event occurs when the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held). The Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- failure to make payments of principal or interest on their contractually due dates;
- an actual or expected significant deterioration in a financial instrument's external or internal credit rating (if available);

預期信貸虧損於各報告日期重新計量，以反映自初次確認後金融工具信貸風險的變動。預期信貸虧損金額的任何變動均在損益中確認為減值收益或虧損。本集團確認所有金融工具的減值收益或虧損時，會通過虧損撥備賬對其賬面值作出相應調整，惟按透過其他全面收入按公允價值入賬(可撥回)計量的債務證券投資除外，其虧損撥備於其他全面收入確認並於公允價值儲備(可撥回)累計。

利息收入計算基礎

根據附註2(w)(vi)確認的利息收入按金融資產的賬面總值計算，除非金融資產出現信貸減值，在此情況下，利息收入按金融資產的攤銷成本(即賬面總值減虧損撥備)計算。

於各報告日期，本集團評估金融資產是否出現信貸減值。當一項或多項對金融資產未來估計現金流有負面影響的事件發生時，金融資產會被視為出現信貸減值。

(i) Credit losses from financial instruments and contract assets (continued)

Significant increases in credit risk (Continued)

ECLs are remeasured at each reporting date to reflect changes in the financial instrument's credit risk since initial recognition. Any change in the ECL amount is recognised as an impairment gain or loss in profit or loss. The Group recognises an impairment gain or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt securities that are measured at FVOCI (recycling), for which the loss allowance is recognised in other comprehensive income and accumulated in the fair value reserve (recycling).

Basis of calculation of interest income

Interest income recognised in accordance with Note 2(w)(vi) is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on the amortised cost (i.e., the gross carrying amount less loss allowance) of the financial asset.

At each reporting date, the Group assesses whether a financial asset is credit impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Write-off policy

The gross carrying amount of a financial asset lease receivable or contract asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

Subsequent recoveries of an asset that was previously written off are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

(iii) Credit losses from financial guarantees issued

Financial guarantees are contracts that require the issuer (i.e. the guarantor) to make specified payments to reimburse the beneficiary of the guarantee (the “holder”) for a loss the holder incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument.

於初始確認後，初始確認為遞延收入的金額於擔保期內按實際利率法於損益中攤銷為已發出財務擔保的收入。

本集團監察特定債務人違約的風險，並當財務擔保的預期信貸虧損確定為高於擔保的賬面值（即初始確認金額減累計攤銷）時確認撥備。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(i) Credit losses and impairment of assets (continued)

(ii) Credit losses from financial guarantees issued (continued)

Financial guarantees issued are initially recognised at fair value, which is determined by reference to fees charged in an arm's length transaction for similar services, when such information is obtainable, or to interest rate differentials, by comparing the actual rates charged by lenders when the guarantee is made available with the estimated rates that lenders would have charged, had the guarantees not been available, where reliable estimates of such information can be made. Where consideration is received or receivable for the issuance of the guarantee, the consideration is recognised in accordance with the Group's policies applicable to that category of asset. Where no such consideration is received or receivable, an immediate expense is recognised in profit or loss.

Subsequent to initial recognition, the amount initially recognised as deferred income is amortised in profit or loss over the term of the guarantee as income from financial guarantees issued.

The Group monitors the risk that the specified debtor will default on the contract and recognises a provision when ECLs on the financial guarantees are determined to be higher than the carrying amount in respect of the guarantees (i.e., the amount initially recognised, less accumulated amortisation).

(ii) 已發出財務擔保之信貸虧損 (續)

為釐定預期信貸虧損，目標集團會考慮指定債務人自發出擔保以來的違約風險變動，並會計量12個月的預期信貸虧損，惟在指定債務人自發出擔保以來的違約風險大幅增加的情況下除外，在此情況下，則會計量全期預期信貸虧損。附註2(i)(i)所述的相同違約定義及信用風險大幅增加的相同評估標準適用於此。

由於本集團僅須於根據獲擔保工具的條款指定債務人違約時作出付款，故預期信貸虧損乃按預期就補償持有人產生的信貸虧損而作出的付款，減本集團預期從擔保持有人（指定債務人或任何其他人士）收取的任何款項估計。有關金額其後將使用現時的無風險利率貼現，並就現金流量的特定風險作出調整。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(i) Credit losses and impairment of assets (continued)

(ii) Credit losses from financial guarantees issued (continued)

To determine ECLs, the Group considers changes in the risk of default of the specified debtor since the issuance of the guarantee. A 12-month ECL is measured unless the risk that the specified debtor will default has increased significantly since the guarantee is issued, in which case a lifetime ECL is measured. The same definition of default and the same assessment of significant increase in credit risk as described in Note 2(i)(i) apply.

As the Group is required to make payments only in the event of a default by the specified debtor in accordance with the terms of the instrument that is guaranteed, an ECL is estimated based on the expected payments to reimburse the holder for a credit loss that it incurs less any amount that the Group expects to receive from the holder of the guarantee, the specified debtor or any other party. The amount is then discounted using the current risk-free rate adjusted for risks specific to the cash flows.

(i) Credit losses and impairment of assets (continued)

(iii) Impairment of other non-current assets (continued)

— Calculation of recoverable amount

The recoverable amount of an asset is the higher of its fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted. The recoverable amount of property, plant and equipment and intangible assets are estimated individually. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e., a cash-generating unit). A portion of the carrying amount of a corporate asset (for example, head office building) is allocated to an individual cash generating unit if the allocation can be done on a reasonable and consistent basis, or to the smallest group of cash-generating units if otherwise.

(m) Inventories and other contract costs

(i) Inventories

Inventories are assets which are held for sale in the ordinary course of business, in the process of production for such sale or in the form of materials or supplies to be consumed in the production process or in the rendering of services.

Inventories are carried at the lower of cost and net realisable value.

Cost is calculated using the weighted average cost formula and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised.

The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the number of inventories recognised as an expense in the period in which the reversal occurs.

(m) 存貨及其他合約成本 (續)

(ii) 其他合約成本

其他合約成本指未資本化為存貨 (見附註2(m)(i))、物業、廠房及設備 (見附註2(i)) 或無形資產 (見附註2(j)) 的從客戶取得合約的增量成本或履行與客戶合約的成本。

取得合約的增量成本為本集團為取得客戶合約而產生的成本，倘未取得合約，則不會產生此等成本 (如額外銷售佣金)。倘成本與將於未來報告期間確認的收益相關且預期可收回成本，則獲得合約的增量成本於產生時資本化。獲得合約的其他成本於產生時支銷。

倘成本直接與現有合約或可特別認定的預計合約相關；產生或增加日後將用於提供貨品或服務的資源；及預期將被收回，則完成合約的成本會資本化。直接與現有合約或可特別認定的預計合約有關的成本可能包括直接勞務、直接材料、成本分攤、可明確向客戶收取的成本及僅因本集團訂立合約而產生的其他成本 (如向分包商付款)。履行合約的其他成本 (未資本化為存貨、物業、廠房及設備或無形資產) 於產生時支銷。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(m) Inventories and other contract costs (continued)

(ii) Other contract costs

Other contract costs are either the incremental costs of obtaining a contract with a customer or the costs to fulfil a contract with a customer which are not capitalised as inventory (see Note 2(m)(i)), property, plant and equipment (see Note 2(i)) or intangible assets (see Note 2(j)).

Incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained e.g., an incremental sales commission. Incremental costs of obtaining a contract are capitalised when incurred if the costs relate to revenue which will be recognised in a future reporting period and the costs are expected to be recovered. Other costs of obtaining a contract are expensed when incurred.

Costs to fulfil a contract are capitalised if the costs relate directly to an existing contract or to a specifically identifiable anticipated contract; generate or enhance resources that will be used to provide goods or services in the future; and are expected to be recovered. Costs that relate directly to an existing contract or to a specifically identifiable anticipated contract may include direct labour, direct materials, allocations of costs, costs that are explicitly chargeable to the customer and other costs that are incurred only because the Group entered into the contract (for example, payments to sub-contractors). Other costs of fulfilling a contract, which are not capitalised as inventory, property, plant and equipment or intangible assets, are expensed as incurred.

(ii) 其他合約成本 (續)

已資本化合約成本按成本減累計攤銷及減值虧損列賬。當合約成本資產的賬面值超過(i)本集團預期因交換資產相關貨品或服務而將收取的代價餘額減(ii)尚未確認為開支的直接與提供該等貨品或服務相關的任何成本的淨額時，確認減值虧損。

已資本化合約成本的攤銷於確認資產相關收益時從損益內扣除。收益確認的會計政策載於附註2(w)。

(n) 合約資產及合約負債

當本集團於根據合約所載之付款條款符合資格無條件收取代價之前確認收益(見附註2(w))，則確認合約資產。合約資產根據附註2(l)(i)所載之政策評估預期信貸虧損，並於收取代價之權利成為無條件時被重新分類至應收款項(見附註2(o))。

倘客戶於本集團確認相關收益之前支付代價，則確認合約負債(見附註2(w))。倘本集團擁有無條件權利可於本集團確認相關收益前收取代價，亦將確認合約負債。在該等情況下，亦將確認相應的應收款項(見附註2(o))。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(m) Inventories and other contract costs (continued)

(ii) Other contract costs (continued)

Capitalised contract costs are stated at cost less accumulated amortisation and impairment losses. Impairment losses are recognised to the extent that the carrying amount of the contract cost asset exceeds the net of (i) remaining amount of consideration that the Group expects to receive in exchange for the goods or services to which the asset relates, less (ii) any costs that relate directly to providing those goods or services that have not yet been recognised as expenses.

Amortisation of capitalised contract costs is charged to profit or loss when the revenue to which the asset relates is recognised. The accounting policy for revenue recognition is set out in Note 2(w).

(n) Contract assets and contract liabilities

A contract asset is recognised when the Group recognises revenue (see Note 2(w)) before being unconditionally entitled to the consideration under the payment terms set out in the contract. Contract assets are assessed for expected credit losses (ECL) in accordance with the policy set out in Note 2(l)(i) and are reclassified to receivables when the right to the consideration has become unconditional (see Note 2(o)).

A contract liability is recognised when the customer pays consideration before the Group recognises the related revenue (see Note 2(w)). A contract liability would also be recognised if the Group has an unconditional right to receive consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised (see Note 2(o)).

倘合約包含重大融資部分，合約結餘包括按實際利息法計算的應計利息（見附註2(w)）。

(o) 貿易及其他應收款項

應收款項於本集團有無條件權利收取代價時予以確認。倘代價僅隨時間推移即會成為到期應付，則收取代價的權利為無條件。倘收入於本集團有無條件權利收取代價前已確認，則數額按合約資產呈列（見附註2(w)）。

不包含重大融資成分的貿易應收款項初步按其交易價格計量。包含重大融資成分的貿易應收款項及其他應收款項初步按公允價值加交易成本計量。所有應收款項其後以實際利率法按攤銷成本列賬，並包括信貸虧損撥備（見附註2(l)(i)）。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(n) Contract assets and contract liabilities (continued)

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis.

When the contract includes a significant financing component, the contract balance includes interest accrued under the effective interest method (see Note 2(w)).

(o) Trade and other receivables

A receivable is recognised when the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due. If revenue has been recognised before the Group has an unconditional right to receive consideration, the amount is presented as a contract asset (see note 2(w)).

Trade receivables that do not contain a significant financing component are initially measured at their transaction price. Trade receivables that contain a significant financing component and other receivables are initially measured at fair value plus transaction costs. All receivables are subsequently stated at amortised cost, using the effective interest method and including an allowance for credit losses (see note 2(l)(i)).

(p) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Cash and cash equivalents are assessed for ECL in accordance with the policy set out in Note 2(l)(i).

(q) Trade and other payables

Trade and other payables are initially recognised at fair value. Subsequent to initial recognition, trade and other payables are stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at invoice amounts.

(r) Interest-bearing borrowings and corporate bonds

Interest-bearing borrowings and corporate bonds are measured initially at fair value less transaction costs. Subsequent to initial recognition, interest-bearing borrowings and corporate bonds are stated at amortised cost using the effective interest method. (s) Employee benefits

(i) Short-term employee benefits and contributions to defined contribution retirement plans

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

(ii) Defined benefit retirement plan obligations

The Group's net obligation in respect of defined benefit retirement plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine the present value and the fair value of any plan assets is deducted. The calculation is performed by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Group, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan.

(s) Employee benefits (continued)

(ii) Defined benefit retirement plan obligations (continued)

Service cost and net interest expense (income) on the net defined benefit liability (asset) are recognised in profit or loss and allocated to “administrative expenses”. Current service cost is measured as the increase in the present value of the defined benefit obligation resulting from employee service in the current period. When the benefits of a plan are changed, or when a plan is curtailed, the portion of the changed benefit related to past service by employees, or the gain or loss on curtailment, is recognised as an expense in profit or loss at the earlier of when the plan amendment or curtailment occurs and when related restructuring costs or termination benefits are recognised. Net interest expense (income) for the period is determined by applying the discount rate used to measure the defined benefit obligation at the beginning of the reporting period to the net defined benefit liability (asset). The discount rate is the yield at the end of the reporting period on high quality corporate bonds that have maturity dates approximating the terms of the Group's obligations.

When the benefits of a plan are changed, or when a plan is curtailed, current service cost for the portion of the changed benefit related to past service by employees, or the gain or loss on curtailment, is recognised as an expense in profit or loss at the earlier of when the plan amendment or curtailment occurs and when related restructuring costs or termination benefits are recognised.

即期稅項為年內就應課稅收入根據在報告期末已頒佈或實質上已頒佈的稅率計算的預期應付稅項，以及對過往年度應付稅項作出的調整。

遞延稅項資產及負債分別由可扣減及應課稅暫時差額產生，即資產及負債就財務報告而言的賬面值與其稅基之間的差額。遞延稅項資產亦源自未動用稅項虧損及未動用稅項抵免。

除若干有限的例外情況外，所有遞延稅項負債及所有遞延稅項資產於可能有未來應課稅利潤用以抵扣相關資產的情況下予以確認。可能支持確認由可扣減暫時差額所產生遞延稅項資產的未來應課稅利潤，包括撥回現有應課稅暫時差額而產生的金額，惟此等差額須與同一稅務機關及同一應課稅實體有關，並預期在可扣減暫時差額預計撥回的同一期間或遞延稅項資產所產生稅項虧損可結回或結轉的期間內撥回。在釐定現有應課稅暫時差額是否支持確認未動用稅項虧損及抵免所產生的遞延稅項資產時，亦會採用相同準則，即若有關差額與同一稅務機關及同一應課稅實體有關，且預計在可動用稅項虧損或抵免的期間內撥回，則計及有關差額。

(t) Income tax (continued)

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

確認遞延稅項資產及負債的有限例外情況包括：不可就稅務進行扣減的商譽產生的暫時差額、不影響會計或應課稅利潤（並非業務合併一部分）的資產或負債初步確認產生的暫時差額，並且於交易時不會產生相等的應課稅及可扣稅暫時差額，以及與於附屬公司的投資相關的暫時差額，倘為應課稅差額，則僅限於本集團控制撥回時間且於可見未來不會撥回的差額；倘屬可扣減差額，則除非屬於將來可能撥回的差額。

倘投資物業根據會計政策附註2(i)按成本減累計折舊及減值虧損列賬，已確認的遞延稅項金額乃按照資產及負債賬面值的預期變現或償還方式，根據於報告期末已頒佈或實質上已頒佈的稅率計量。遞延稅項資產及負債均不予貼現計算。

遞延所得稅資產的賬面值會在各報告期末獲審閱，而如果不再可能獲得足夠的應課稅利潤以抵扣相關的稅務利益，則該遞延所得稅資產的賬面值便會調低。如果日後有可能獲得足夠的應課稅利潤以抵扣相關的稅務利益，有關減額便會撥回。倘有可能獲得足夠的應課稅利潤，有關減額便會撥回。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(t) Income tax (continued)

The limited exceptions to recognition of deferred tax assets and liabilities are those temporary differences arising from goodwill not deductible for tax purpose, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided they are not part of a business combination) and at the time of the transaction does not give rise to equal taxable and deductible temporary differences, and temporary differences relating to investments in subsidiaries to the extent that, in the case of taxable differences, the Group controls the timing of the reversal and it is probable that the differences will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future.

Where investment properties are stated at cost less accumulated depreciation and impairment losses in accordance with the accounting policy note 2(i), the amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it comes probable that sufficient taxable profits will be available.

(i) Provisions and contingent liabilities

Provisions are recognised when the Group has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(u) Provisions, contingent liabilities and onerous contracts (continued)

(i) Provisions and contingent liabilities (continued)

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, a separate asset is recognised for any expected reimbursement that would be virtually certain. The amount recognised for the reimbursement is limited to the carrying amount of the provision.

(ii) Onerous contracts

An onerous contract exists when the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract. Provisions for onerous contracts are measured at the present value of the lower of the expected cost of terminating the contract and the net cost of continuing with the contract.

(v) 回收責任

本集團的回收責任包括根據中國相關規則及法規估計其放射性生產設施退役的開支。本集團根據進行所需工程所用未來開支金額及時間的詳細計算，估計其回收負債。估計開支已考慮通脹，其後按反映當時市場對貨幣時間價值及負債特定風險評估的貼現率貼現，以使撥備金額反映預期履行責任所需開支的現值。本集團將與回收放射性生產設施負債有關的相應資產列入物業、廠房及設備。該責任及相應資產於負債產生期間確認。資產於放射性生產設施的預計使用年限內按直線法折舊，負債則附加至預計開支日期。估計出現變動時（如估計成本變動或進行回收活動的時間變動），該責任及相應資產的修訂按適當貼現率重新計量，而重新計量的任何損益乃於損益中確認。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(v) Obligations for reclamation

The Group's obligations for reclamation consist of estimated expenditures for retirement of its radioactive production facilities in accordance with the relevant rules and regulations in the PRC. The Group estimates its liabilities for reclamation based on detailed calculations of the amount and timing of the future expenditures to perform the required work. Estimated expenditures have taken into account of inflation, then discounted at a discount rate that reflects current market assessments of the time value of money and the risks specific to the liability such that the amount of provision reflects the present value of the expenditures expected to be required to settle the obligation. The Group records a corresponding asset associated with the liability for reclamation of radioactive production facilities, which is included in property, plant and equipment. The obligation and corresponding asset are recognised in the period in which the liability is incurred. The asset is depreciated using the straight-line method over the expected useful life of radioactive production facilities and the liability is accreted to the projected spending date. As changes in estimates occur (such as changes in estimated costs or changes in timing of the performance of reclamation activities), the revisions to the obligation and the corresponding asset are remeasured at the appropriate discount rate and any gain or loss on remeasurement is recognised in profit or loss.

(w) 收益及其他收入

本集團將其日常業務過程中源自銷售貨品、提供服務或租賃項下讓渡本集團資產使用權的收入分類為收入。

當產品或服務的控制權按本集團預期有權獲取的承諾代價數額(不包括代表第三方收取的金額)轉移至客戶或承租人有權動用資產時,收入予以確認。收入不包括增值稅或其他銷售稅,並經扣除任何貿易折扣。

倘合約包含為客戶提供超過12個月的重大融資利益的融資成分,則收入按應收金額的現值計量,採用與客戶單獨融資交易中反映的貼現率貼現,及利息收入按實際利率法單獨計提。倘合約包含為本集團提供重大融資利益的融資成分,則根據該合約確認的收益包括按實際利率法計算的合約負債所產生的利息開支。本集團採取國際財務報告準則第15號第63段的實際權宜之計,倘融資期限為12個月或以下,則不會調整重大融資成分的任何影響的代價。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(w) Revenue and other income

Income is classified by the Group as revenue when it arises from the sale of goods, the rendering of services or the use by others of the Group's assets under leases in the ordinary course of the Group's business.

Revenue is recognised when control over a product or service is transferred to the customer, or the lessee has the right to use the asset, at the amount of promised consideration to which the Group is expected to be entitled, excluding those amounts collected on behalf of third parties. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

Where the contract contains a financing component which provides a significant financing benefit to the customer for more than 12 months, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction with the customer, and interest income is accrued separately under the effective interest method. Where the contract contains a financing component which provides a significant financing benefit to the Group, revenue recognised under that contract includes the interest expense accreted on the contract liability under the effective interest method. The Group takes advantage of the practical expedient in paragraph 63 of IFRS 15 and does not adjust the consideration for any effects of a significant financing component if the period of financing is 12 months or less.

有關本集團收益及其他收入確認政策的進一步詳情載列如下：

(i) 銷售貨品

收入於客戶得到並接受合同中承諾的商品及服務之控制權時確認。如果產品只是部分履行了合同義務，應將合同項下的總成交金額以單獨出售價格為基礎，在合同項下的所有貨品和勞務間進行分配。

(ii) 建築合約

合約與受客戶管控的房地產資產工程相關時，本集團把與客戶所訂的合約列作建築合約，故本集團建築活動設置或提升受客戶管控的資產。

建築合約結果可合理計量時，合約收益利用成本比例法隨時間累進確認，即根據所產生實際成本相對估計總成本之比例。

作出該等估計時計及本集團賺取提早完工合約獎金或遭致延遲完工合約罰款的可能性，惟有關收益僅於經確認累計收益金額的重大撥回極可能不會發生時確認。

2. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

(w) Revenue and other income (continued)

Further details of the Group's revenue and other income recognition policies are as follows:

(i) Sale of goods

Revenue is recognised when the customer takes possession of and accepts the products. If the products are a partial fulfilment of a contract covering other goods and/or services, then the amount of revenue recognised is an appropriate proportion of the total transaction price under the contract, allocated between all the goods and services promised under the contract on a relative stand-alone selling price basis.

(ii) Construction contracts

A contract with a customer is classified by the Group as a construction contract when the contract relates to work on real estate assets under the control of the customer and therefore the Group's construction activities create or enhance an asset under the customer's control.

When the outcome of a construction contract can be reasonably measured, revenue from the contract is recognised progressively over time using the cost-to-cost method, i.e., based on the proportion of the actual costs incurred relative to the estimated total costs.

The likelihood of the Group earning contractual bonuses for early completion or suffering contractual penalties for late completion are taken into account in making these estimates, such that revenue is only recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur.

(w) Revenue and other income (continued)

(ii) Construction contracts (continued)

When the outcome of the contract cannot be reasonably measured, revenue is recognised only to the extent of contract costs incurred that are expected to be recovered.

If at any time the costs to complete the contract are estimated to exceed the remaining amount of the consideration under the contract, then a provision is recognised in accordance with the policy set out in Note 2(u)(ii).

(iii) Rendering of services

Revenue from irradiation services and other services rendered is recognised upon the delivery or performance of the services.

(iv) Rental income from operating leases

Rental income receivable under operating leases is recognised in profit or loss in equal installments over the periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the use of the leased asset. Lease incentives granted are recognised in profit or loss as an integral part of the aggregate net lease payments receivable. Contingent rentals are recognised as income in the accounting period in which they are earned.

For financial assets measured at amortised cost or FVOCI (recycling) that are not credit-impaired, the effective interest rate is applied to the gross carrying amount of the asset. For credit-impaired financial assets, the effective interest rate is applied to the amortised cost (i.e., gross carrying amount net of loss allowance) of the asset (see Note 2(l)(i)).

(x) Translation of foreign currencies (continued)

The results of foreign operations are translated into RMB at the exchange rates approximating the foreign exchange rates ruling at the dates of the transactions. Statement of financial position items are translated into RMB at the closing foreign exchange rates at the end of the reporting period. The resulting exchange differences are recognised in other comprehensive income and accumulated separately in equity in the exchange reserve.

On disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation is reclassified from equity to profit or loss when the profit or loss on disposal is recognised.

(y) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. Other borrowing costs are expensed in the period in which they are incurred.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceased when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or completed.

附註35(d)包括金融工具公允價值相關假設及其風險因素的資料。重大會計判斷及其他估計不確定性的主要來源如下：

應用會計政策的重大判斷

(a) 合資公司分類

本公司董事根據國際財務報告準則第11號合資安排評估該等合資安排是否為合營業務或合營企業。經參考有關安排結構、法律形式、各方於安排中協定的合約條款以及相關事實及情況下考慮合資安排各方的權利及責任後，本公司董事認為，本集團所有的合資安排應分類為國際財務報告準則第11號項下的合營企業及各方於安排中協定的合約條款，當中列明合營企業的相關活動需要共享控制權的各方一致同意。因此，上海欣科醫藥有限公司（「上海欣科」）及北京同輻創新產業投資基金合夥企業（有限合夥）（「同輻基金」）分類為本集團的合營企業。

3. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATED UNCERTAINTY

Note 35(d) contains information about the assumptions and their risk factors relating to fair value of financial instruments. Critical accounting judgements and other key sources of estimation uncertainty are as follows:

Critical judgements in applying accounting policies

(a) Classification of joint ventures

The directors of the Company assessed whether these joint arrangements are joint operations or joint ventures under IFRS 11 Joint Arrangements. After considering the rights and obligations of parties to the joint arrangements with reference to the structure, the legal form of the arrangements, the contractual terms agreed by the parties in the arrangements, and the relevant facts and circumstances, the directors of the Company concluded that all of the Group's joint arrangements should be classified as joint ventures under IFRS 11 as contractual terms agreed by the parties in the arrangements stated that the relevant activities of the joint ventures require unanimous consent of the parties sharing control. Accordingly, 上海欣科醫藥有限公司(Shanghai GMS Pharmaceutical Co., Ltd.)* ("Shanghai GMS") and 北京同輻創新產業投資基金合夥企業(有限合夥) (Beijing Tongfu Innovation Industrial Investment Fund Partnership (Limited Partnership))* ("Tongfu Fund") are classified as joint ventures of the Group.

(b) 對附屬公司的控制權

誠如附註15所述，即使本集團擁有低於50%的擁有權權益，上海原子科興藥業有限公司、深圳市中核海得威生物科技有限公司及安徽養和醫療器械設備有限公司為本集團的附屬公司。

本公司董事基於本集團應佔其投票權及單方面指示相關活動之實際能力評估本集團對該等附屬公司的控制權，因此本集團對該等附屬公司擁有權力。

(b) Controls in subsidiaries

As stated in note 15, 上海原子科興藥業有限公司 (Shanghai Yuanzi Kexing)*, 深圳市中核海得威生物科技有限公司 (Shenzhen Zhonghe Headway Bio-Sci & Tech Co., Ltd.)* and 安徽養和醫療器械設備有限公司 (Anhui Young-Hearty Medical Appliance & Equipment Co., Ltd.)* are subsidiaries of the Group even though the Group has less than 50% ownership interest.

The directors of the Company assessed the Group's control over those subsidiaries on the basis of its voting power attributable to the Group and practical ability to direct the relevant activities unilaterally, so the Group has the power over those subsidiaries.

估計不確定性的主要來源

(a) 折舊

物業、廠房及設備和投資物業在計及估計剩餘價值(如有)後,按估計可使用年期以直線法折舊。本集團定期審閱物業、廠房及設備和投資物業的估計可使用年期及剩餘價值(如有),以釐定任何報告期內錄入的折舊開支金額。可使用年期及剩餘價值(如有)乃基於類似資產的過往經驗釐定,並計及預期的技術變動。未來期間的折舊開支在以往估計出現重大變動時調整。

(b) 確認遞延稅項資產

關於未動用稅項虧損及可扣減暫時差額的遞延稅項資產,會採用於報告期末已頒佈或實質頒佈的稅率,按變現或結清有關資產賬面值的預計方式確認及計量。於釐定遞延資產的賬面值時,會估計預計應課稅利潤,當中涉及關於本集團營運環境的多項假設,並由董事作出重要判斷。有關假設及判斷的任何變動會影響將確認遞延稅項資產的賬面值,因而影響未來年度的純利。

3. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATED UNCERTAINTY (continued)

Key sources of estimated uncertainty

(a) Depreciation

Property, plant and equipment and investment property are depreciated on a straight-line basis over their estimated useful lives, after taking into account the estimated residual values, if any. The Group reviews the estimated useful lives and residual values, if any, of the property, plant and equipment and investment property regularly in order to determine the amount of depreciation expense to be recorded during any reporting period. The determination of useful lives and residual values, if any, are based on the historical experience with similar assets and taking into account anticipated technological changes. The depreciation expense for future periods is adjusted if there are significant changes from previous estimates.

(b) Recognition of deferred tax assets

Deferred tax assets in respect of unused tax losses and deductible temporary differences are recognised and measured based on the expected manner of realisation or settlement of the carrying amount of the assets, using tax rates enacted or substantively enacted at the end of reporting period. In determining the carrying amounts of deferred assets, expected taxable profits are estimated which involves a number of assumptions relating to the operating environment of the Group and require a significant level of judgment exercised by the directors. Any change in such assumptions and judgment would affect the carrying amounts of deferred tax assets to be recognised and hence the net profit in future years.

(c) 回收責任

回收及處置放射性生產設施的負債估計涉及估計未來開支的金額及時間，及用以反映當時市場對貨幣時間價值及該負債特定風險的評價的通脹率及貼現率。本集團考慮的因素包括未來生產計劃、相關資產使用年期及輻射水平，以釐定將進行回收及處置放射性生產設施的範圍、金額及時間。決定此等因素的影響，涉及本集團的判斷，而估計負債可能最終有別於將產生的實際開支。本集團所用貼現率亦可能予以修改，以反映市場對貨幣時間價值及該負債特定風險的評價變動，如市場的借款率及通脹率變動。由於估計有變（如估計成本變動，或進行回收活動的時間有變），責任的修改將會按適用貼現率重新計量，而重新計量的任何損益乃於損益中確認。

3. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATED UNCERTAINTY (continued)

Key sources of estimated uncertainty (continued)

(c) Obligation for reclamation

The estimation of the liabilities for reclamation and disposal of the radioactive production facilities involves the estimates of the amount and timing of future expenditures as well as rate of inflation and the discount rate used for reflecting current market assessments of the time value of money and the risks specific to the liability. The Group considers the factors including future production plan, useful life of relevant assets, and level of radioactivity to determine the scope, amount and timing of reclamation and disposal of the radioactive production facilities to be performed. Determination of the effect of these factors involves judgments from the Group and the estimated liabilities may turn out to be different from the actual expenditure to be incurred. The discount rate used by the Group may also be altered to reflect the changes in the market assessments of the time value of money and the risks specific to the liability, such as change of the borrowing rate and inflation rate in the market. As changes in estimates occur (such as changes in estimated costs, or changes in timing of the performance of reclamation activities), the revisions to the obligation will be remeasured at the appropriate discount rate and any gain or loss on remeasurement is recognised in profit or loss.

- (d) *Impairment losses on trade and bill receivables, contract assets, deposits and other receivables and long-term receivables*

The impairment provisions for trade and bill receivables, contract assets, deposits and other receivables and long-term receivables are based on assumptions about ECL. Changes in these assumptions and estimates could materially affect the result of the assessment and it may be necessary to make additional impairment charge to the profit or loss. At 31 December 2025, the carrying amounts of trade and bill receivables, contract assets, deposits and other receivables and long-term receivables are approximately RMB4,883,904,000 (2024: RMB4,922,128,000), RMB5,659,000 (2024: RMB58,787,000), RMB304,751,000 (2024: RMB294,677,000) and RMB50,615,000 (2024: RMB51,148,000) respectively, net of accumulated loss allowance for ECL of approximately RMB261,398,000 (2024: RMB232,994,000), RMB904,000 (2024: RMB3,828,000), RMB36,654,000 (2024: RMB28,692,000) and nil (2024: nil) respectively.

(a) 貿易應收款項及應收票據 (續)

賬齡分析 (續)

於2025年12月31日，約人民幣37,955,000元（2024年：人民幣30,243,000元）的應收票據按公允價值計入其他全面收入，乃由於應收票據為收取合約現金流量或以出售為目的業務模式持有。應收票據公允價值按第二層級公允價值計量，即使用具有類似條款、信用風險及剩餘有效期的工具的當前可用費率貼現預期未來現金流量來計算。

截至2025年及2024年12月31日止年度，並無第一層級與第二層級公允價值層級之間的轉移，亦無轉入第三層級或從第三層級轉出。

21. TRADE AND BILL RECEIVABLES AND CONTRACT ASSETS (continued)

(a) Trade and bill receivables (continued)

Aging analysis (continued)

As at 31 December 2025, bill receivables amounting to approximately RMB37,955,000 (2024: RMB30,243,000) was measured at FVOCI because the bill receivables are held within a business model whose objective of both collect contractual cash flows or to sell. The fair value of bill receivables was at a level 2 fair value measurement which has been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities.

During the years ended 31 December 2025 and 2024, there was no transfer between level 1 and level 2 fair value hierarchy or transfer into or out of level 3.

(b) 合約資產 (續)

附註：

- (a) 計入合約資產之應收保固金指本集團就已履約工程收取代價之權利，原因是相關權利須待客戶於合約規定一定期間內對服務質量表示滿意後方可作實。倘為相關權利不受條件限制（通常於本集團就本集團所實施建築工程的服務質量提供質保之期間屆滿日期），合約資產會轉移至貿易應收款項。應收保固金之到期日通常為建築工程完工後一至兩年。
- (b) 質保金應收款於質保期屆滿前分類為合同資產，質保期通常自項目竣工日期起計一至三年。質保期屆滿後，相關合同資產金額重新分類為貿易應收款項。該質保期旨在確保所售醫療設備符合約定規格，且此類保證無法單獨購買。

21. TRADE AND BILL RECEIVABLES AND CONTRACT ASSETS (continued)

(b) Contract assets (continued)

Notes:

- (a) Retention receivables included in contract assets represent the Group's right to receive consideration for work performed because the rights are conditional on the satisfaction of the service quality by the customers over a certain period as stipulated in the contracts. The contract assets are transferred to the trade receivables when the rights become unconditional, which is typically at the expiry date of the period for the provision of assurance by the Group on the service quality of the construction work performed by the Group. The due dates for retention receivables are usually one to two years after the completion of construction work.
- (b) Retentions receivable, prior to expiration of retention period, are classified as contract assets, which usually ranges from one to three years from the date of the completion of the project. The relevant amount of contract assets is reclassified to trade receivable when the retention period expires. The retention period serves as an assurance that the medical device sold comply with agreed upon specifications and such assurance cannot be purchased separately.

Notes: (continued)

- (c) Unbilled revenue included in contract assets represents the Group's right to receive consideration for work completed but not yet billed because the rights are conditional upon the satisfaction by the customers on the construction work completed by the Group and the work is pending for the certification by the customers. The contract assets are transferred to the trade receivables when the rights become unconditional, which is typically at the time the Group obtains the certification of the completed construction work from the customers.

Contract assets are included in current assets as the Group expects to realise these assets within its normal operating cycle.

29. 僱員退休福利

(a) 定額福利退休計劃

除政府強制性基本退休金及醫療計劃外，本集團亦向退休公民、當期退休人員及若干合資格在職僱員提供定額退休福利（「該計劃」），於2025年12月31日該計劃涵蓋本集團僱員的26%（2024年：26%）。該計劃乃由本集團管理並由本集團營運資金撥資。

根據該計劃，合資格退休人員及／或僱員有權享受固定補充退休後養老金福利、固定身故撫恤金及補充退休後醫療福利。

定額福利退休責任於2025年12月31日的獨立精算估值乃由韜睿惠悅管理諮詢（深圳）有限公司北京分公司的合資格員工（American Academy of Actuaries的成員）採用預計單位貸記法編製。

該計劃令本集團面臨諸如利率風險及長壽風險等精算風險。

29. EMPLOYEE RETIREMENT BENEFITS

(a) Defined benefit retirement plans

In addition to the government-mandated basic pension and medical program, the Group provides defined retirement benefits to civil retirees, current retirees and certain eligible active employees (the "Plan"), which covers 26% (2024: 26%) of the Group's employees as at 31 December 2025. Under the Plan, the qualified retirees and/or employees are entitled to fixed supplemental post-retirement pension benefits, fixed death benefits and supplemental post-retirement medical benefits.

The independent actuarial valuations of the defined benefit retirement obligation at 31 December 2025 were prepared by qualified staff of Towers Watson Management Consulting (Shenzhen) Co., Ltd., Beijing Branch, who are members of the American Academy of Actuaries, using the projected unit credit method.

The Plan exposes the Group to actuarial risks, such as interest rate risk and longevity risk.

根據中國有關法律及法規以及本公司的章程細則，本公司須將其按照中國會計法律及法規釐定的淨利潤之10%轉撥至中國法定儲備，直至儲備達致註冊資本的50%。轉撥至該儲備須於向權益股東分派前進行。該儲備可用於抵銷累計虧損或增加資金且不可分派（清算除外）。

The transfer to this reserve must be made before distributions to equity shareholders. This reserve can be utilised in setting off accumulated losses or increase capital and is non-distributable other than in liquidation.

Other reserve represents specific reserve for production and maintenance funds. Pursuant to the relevant PRC regulations, the Group is required to transfer production and maintenance funds at fixed rates of relevant production outputs or revenue. (e) 資本管理

本集團管理資本的主要目標是保障本集團按持續經營基準發展業務的能力，從而使其能夠透過按風險水平定價產品和服務及透過以合理的成本獲得融資，持續為股東帶來回報及為其他利益相關者創造利益。

本集團積極定期檢討及管理資本架構，以於可能引致較高水平借款的較高股東回報與其穩健資本狀況所提供的優勢及保障之間維持平衡，並根據經濟狀況的變動對其資本架構作出調整。

本集團根據經調整淨債務資本比率監控其資本架構。就此而言，經調整債務淨額界定為債務總額（包括計息借款、公司債券及租賃負債）加上未計建議股息。經調整資本包括股權的所有組成部分減去未計建議股息。

於2025年，本集團的戰略（自2024年以來並無變動）旨在將經調整淨債務資本比率維持在較低水平。為維持或調整該比率，本集團或會調整支付股東的股息金額、發行新股、向股東退還資本、籌集新的債務融資或出售資產以減少債務。

32. SHARE CAPITAL, RESERVES AND DIVIDENDS (continued)

(e) Capital management

The Group's primary objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, by pricing products and services commensurately with the level of risk and by securing access to finance at a reasonable cost.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments for the capital structure in light of changes in economic conditions.

The Group monitors its capital structure on the basis of an adjusted net debt-to-capital ratio. For this purpose, adjusted net debt is defined as total debt (which includes interest-bearing borrowings, corporate bonds and lease liabilities) plus unaccrued proposed dividends. Adjusted capital comprises all components of equity less unaccrued proposed dividends.

During 2025, the Group's strategy, which was unchanged from 2024, was to maintain the adjusted net debt-to-capital ratio at the lower level. In order to maintain or adjust the ratio, the Group may adjust the amount of dividends paid to shareholders, issue new shares, return capital to shareholders, raise new debt financing or sell assets to reduce debt.

34. 財務風險管理及金融工具公允價值 (續)

(a) 信貸風險

信貸風險指本集團的交易對手方不履行其合約責任導致本集團遭致財務虧損的風險。本集團的信貸風險主要與貿易應收款有關。本集團面臨的來自現金及現金等價物以及應收票據的信貸風險有限，因為對手方為信譽良好的銀行及金融機構，因此本集團認為信貸風險較低。本集團採取政策限制對任何金融機構的信貸風險，而管理層預期不會出現任何因該等交易對手方不履行責任而產生的重大虧損。

貿易應收款項及合約資產

本集團已制定信貸管理政策，根據政策，信貸超過某數額之客戶均須接受獨立信貸評估。該等評估集中於客戶到期款項付款的過往歷史及當前的支付能力，並考慮客戶的具體資料以及客戶經營所在的經濟環境。貿易應收款項自發票日期（或收入確認日期，如較早）起為應收。通常，本集團不會向客戶收取抵押品。

34. FINANCIAL RISK MANAGEMENT AND FAIR VALUES OF FINANCIAL INSTRUMENTS (continued)

(a) Credit risk

Credit risk refers to the risk that the Group's counterparties default on its contractual obligations resulting in a financial loss to the Group. The Group's credit risk is primarily attributable to trade receivables. The Group's exposure to credit risk arising from cash and cash equivalents and bill receivables is limited because the counterparties are banks and financial institutions with sound credit standing, for which the Group considers to have low credit risk. The Group has a policy to limit the amount of credit exposure to any financial institution and management does not expect any material loss arising from non-performance by these counterparties.

Trade receivables and contract assets

The Group has established a credit management policy under which individual credit evaluations are performed on all customers requiring credit over a certain amount. These evaluations focus on the customer's past history of making payments when due and current ability to pay and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. Trade receivables are due from the invoice date (or date of revenue recognition, if earlier). Normally, the Group does not obtain collateral from customers.

34. 財務風險管理及金融工具公允價值 (續)

(a) 信貸風險 (續)

貿易應收款項及合約資產 (續)

本集團所面臨的信貸風險主要受各客戶獨立的特性影響，而非客戶經營所在行業或國家之影響，因此，信貸風險的重大集中度乃主要因本集團就個別客戶面臨重大風險時而產生。於報告期末，貿易應收款項總額的4% (2024年：3%) 及9% (2024年：9%) 乃分別應收本集團的最大客戶及五大客戶。

本集團按相當於全期預期信貸虧損之金額 (採用撥備矩陣計算得出) 計量貿易應收款項及合約資產之虧損撥備。由於本集團的歷史信貸虧損經驗並無顯示不同客戶分部的虧損模式存著顯著差異，因此本集團不同客戶群之間並無進一步區分基於過往到期狀態之虧損撥備。

34. FINANCIAL RISK MANAGEMENT AND FAIR VALUES OF FINANCIAL INSTRUMENTS (continued)

(a) Credit risk (continued)

Trade receivables and contract assets (continued)

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer rather than the industry or country in which the customers operate and therefore significant concentrations of credit risk primarily arise when the Group has significant exposure to individual customers. At the end of the reporting period, 4% (2024: 3%) and 9% (2024: 9%) of the total trade receivables was due from the Group's largest customer and the five largest customers, respectively.

The Group measures loss allowances for trade receivables and contract assets at an amount equal to lifetime ECLs, which is calculated using a provision matrix. As the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on past due status is not further distinguished between the Group's different customer bases.

按金及其他應收款項

本公司董事根據過往償付記錄、過往經驗以及合理且具理據支持的前瞻性定量及定性資料，對按金及其他應收款項的可收回性進行定期個別評估。本集團計量虧損撥備等於12個月預期信貸虧損，除非自初始確認起信貸風險大幅增加，則本集團確認全期預期信貸虧損。

於截至2025年及2024年12月31日止年度，按金及其他應收款項12個月預期信貸虧損不重大，乃由於相關交易對手方被視為具有有限信貸風險及相關預期信貸虧損不屬重大。

Deposits and other receivables

The directors of the Company make periodic individual assessment on the recoverability of deposits and other receivables based on historical settlement records, past experience, and also quantitative and qualitative information that is reasonable and supportive forward-looking information. The Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL.

The 12m ECL on deposits and other receivables is considered as insignificant for the years ended 31 December 2025 and 2024 as the counterparties involved are considered with limited credit risk and the ECL involved is not material.

Movement in the loss allowance account in respect of deposits and other receivables during the year is as follows:

銀行及手頭現金

由於交易對手方為具有國際信貸評級機構給予較佳信貸評級的信譽良好的銀行，故銀行及手頭現金的信貸風險有限。本集團參考有關違約可能性及虧損導致違反外部信貸評級機構公佈的有關信貸評級等級資料，對銀行及手頭現金進行12個月預期信貸虧損評估。銀行及手頭現金的12個月預期信貸虧損被認為並不重大。

(b) 流動資金風險

本集團內的個別經營實體負責其自身的現金管理，包括現金盈餘的短期投資及籌集貸款以滿足預期現金需求，惟當借款超過若干預定的授權水平時，須經母公司的董事會批准。本集團的政策為定期監察即期及預期流動資金需求，以確保現金儲備及從主要金融機構獲得所承諾的資金額度足以應付短期至較長期的流動資金需求。

34. FINANCIAL RISK MANAGEMENT AND FAIR VALUES OF FINANCIAL INSTRUMENTS (continued)

(a) Credit risk (continued)

Cash at bank and on hand

Credit risk on cash at bank and on hand is limited because the counterparties are reputable banks with good credit ratings assigned by international credit agencies. The Group assessed 12m ECL for cash at bank and on hand by reference to information relating to probability of default and loss given default of the respective credit rating grades published by external credit rating agencies. The 12m ECL on cash at bank and on hand is considered to be insignificant.

(b) Liquidity risk

Individual operating entities within the Group are responsible for their own cash management, including the short-term investment of cash surpluses and the raising of loans to cover expected cash demands, subject to approval by the parent company's board when the borrowings exceed certain predetermined levels of authority. The Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term.

(i) 貨幣風險

下表詳列本集團於報告期末所承受以相關實體功能貨幣以外的貨幣計值的已確認資產而產生的貨幣風險。就呈報而言，所承受風險的金額已按年結日的即期匯率換算為港元及美元。不包括將海外業務財務報表換算為本集團呈列貨幣產生之差額。

(c) Currency risk

The Group is exposed to currency risk primarily through bank deposits denominated in foreign currency, i.e., a currency other than the functional currency of the operations to which the transactions relate. The currencies giving rise to this risk are primarily Hong Kong dollars and United States dollars. The Group manages this risk as follows:

(i) Exposure to currency risk

The following table details the Group's exposure at the end of the reporting period to currency risk arising from recognised assets denominated in a currency other than the functional currency of the entity to which they relate. For presentation purposes, the amounts of the exposure are shown in Hong Kong dollars and United States dollars, translated using the spot rates at the year end date. Differences resulting from the translation of the financial statements of foreign operations into the Group's presentation currency are excluded.

Results of the analysis as presented in the above table represent an aggregation of the instantaneous effects on each of the Group entities' profit after tax and retained profits measured in the respective functional currencies, translated into RMB at the exchange rates ruling at the end of the reporting period for presentation purposes.

(ii) Sensitivity analysis (continued)

The sensitivity analysis assumes that the change in foreign exchange rates had been applied to re-measure those financial instruments held by the Group which expose the Group to foreign currency risk at the end of the reporting period, including inter-company receivables within the Group which are denominated in a currency other than the functional currencies of the borrower. The analysis excludes differences that would result from the translation of the financial statements of foreign operations into the Group's presentation currency. The analysis is performed on the same basis for 2025 and 2024.

(d) Fair values measurement

(i) Financial assets measured at fair value

Fair value hierarchy

The following table presents the fair value of the Group's financial instruments measured at the end of each reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in IFRS 13 Fair value measurement. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

Level 1 – Fair value measurements are those derived from quoted (unadjusted) market prices in active markets for identical assets or liabilities.

第三層 – 公允價值計量乃自包括並非根據可觀察市場數據的資產或負債輸入數據（不可觀察輸入數據）的估值方法得出。

本集團已委任一名財務經理對交易性證券及無報價權益投資進行估值。財務經理直接向首席財務官及審核委員會報告。載有公允價值計量變動分析之估值報告於各中期及年度報告日期由財務經理編製，並由首席財務官審閱及批准。每年就估值過程及結果與首席財務官及審核及風險管理委員會進行兩次討論，與報告日期一致。

34. FINANCIAL RISK MANAGEMENT AND FAIR VALUES OF FINANCIAL INSTRUMENTS (continued)

(d) Fair values measurement (continued)

(i) Financial assets measured at fair value (continued)

Level 2 – Fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 – Fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Group has a finance manager performing valuations for the trading securities and unquoted equity investments. The manager reports directly to the chief financial officer and the audit committee. A valuation report with analysis of changes in fair value measurement is prepared by the manager at each interim and annual reporting date and is reviewed and approved by the chief financial officer. Discussion of the valuation process and results with the chief financial officer and the Audit and Risk Management Committee is held twice a year, to coincide with the reporting dates.

Unlisted equity instruments	Market comparable companies	Price-to-book ratio	1.08 to 1.37 (2024: 1.07 to 1.32)

非上市權益工具的公允價值採用可比較上市公司的市淨率釐定，並就市淨率作出調整。公允價值計量與市淨率成正比。於2025年12月31日，估計所有其他變數保持不變，市淨率減少／增加5% (2024年：5%)，本集團其他全面收入將減少／增加約人民幣8,118,000元 (2024年：人民幣17,990,000元)。

34. FINANCIAL RISK MANAGEMENT AND FAIR VALUES OF FINANCIAL INSTRUMENTS (continued)

(d) Fair values measurement (continued)

(i) Financial assets measured at fair value (continued)

The fair value of bill receivables was at a level 2 fair value measurement which has been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities.

Information about Level 3 fair value measurements

The fair value of unlisted equity instruments is determined using the price to book ratio of comparable listed companies adjusted for price-to-book ratio. The fair value measurement is positively correlated to the price-to-book ratio. As at 31 December 2025, it is estimated that with all other variables held constant, a decrease/increase in price-to-book ratio ability by 5% (2024: 5%) would have decreased/increased the Group's other comprehensive income by approximately RMB8,118,000 (2024: RMB17,990,000).

34. 財務風險管理及金融工具公允價值 (續)

(e) 利率風險

利率風險為一項金融工具的公允價值或未來現金流量將因市場利率改變而波動所帶來的風險。本集團的利率風險主要來自銀行貸款。本集團面臨按浮動利率籌集的銀行貸款之現金流量利率風險。

本集團定期檢討及監控固定及浮動利率負債組合，從而管理其利率風險。然而，於年內，本集團管理層認為使用利率掉期以對沖利息風險屬不必要。

(i) 利率概況

下表呈列本集團負債於報告期末的利率概況。

34. FINANCIAL RISK MANAGEMENT AND FAIR VALUES OF FINANCIAL INSTRUMENTS (continued)

(e) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's interest rate risk arises primarily from bank loans. Bank loans raised at variable rates expose the Group to cash flow interest rate risk.

The Group regularly reviews and monitors the mix of fixed and variable rate liabilities in order to manage its interest rate risks. During the year, however, management of the Group did not consider it is necessary to use interest rate swaps to hedge their exposure to interest.

(i) Interest rate profile

The following table details the interest rate profile of the Group's liabilities at the end of the reporting period.

(e) 利率風險 (續)

(ii) 敏感度分析

於2025年12月31日，浮動銀行貸款淨額之利率預計整體上升／下降100個基點，而其他所有變數保持不變，本集團除稅後利潤會減少／增加約人民幣16,649,000元（2024年：人民幣14,304,000元）。合併權益的其他部分將不會受到利率整體上升／下降的影響。

上述敏感度分析乃基於假設利率已於報告期末發生變動及利率變動已應用於於報告期末已存在的非衍生金融工具利率風險敞口而釐定。對本集團除稅後利潤（及保留利潤）及合併權益其他部分的影響預計為對利息開支或利率變動收入的年化影響。

所估計的上升或下降100個基點指管理層評估利率於期內直至下一全年財務狀況表日期前期間的可能合理變動。2025年及2024年年的分析按同一基準進行。

34. FINANCIAL RISK MANAGEMENT AND FAIR VALUES OF FINANCIAL INSTRUMENTS (continued)

(e) Interest rate risk (continued)

(ii) Sensitivity analysis

At 31 December 2025, it is estimated that a general increase/decrease of 100 basis point in interest rates of net floating bank loans, with all other variables held constant, the Group's profit after tax would have decrease/increase by approximately RMB16,649,000 (2024: RMB14,304,000). Other components of consolidated equity would not be affected by the general increase/decrease in interest rates.

The sensitivity analysis above has been determined assuming that the change in interest rates had occurred at the end of the reporting period and had been applied to the exposure to interest rate risk for non-derivative financial instruments in existence at the end of the reporting period. The impact on the Group's profit after tax (and retained profits) and other components of consolidated equity is estimated as an annualised impact on interest expense or income of such a change in interest rates.

The estimated 100 basis points increase or decrease represents management's assessment of a reasonable change in interest rates over the period until the next annual statement of financial position date. The analysis is performed on the same basis for 2025 and 2024.

The Group is a state-owned entity and operates in an economic regime currently dominated by entities directly or indirectly owned or controlled by the PRC government and numerous government authorities and agencies (collectively referred to as "State-Owned Entities").

Since 2018, the Group had transactions with State-Owned Entities including, but not limited to, sales of goods, deposits and borrowings, purchase of materials and receiving construction work services. The directors consider that the transactions with these State-Owned Entities are activities in the ordinary course of the Group's business and that the dealings of the Group have not been significantly or unduly affected by the fact that the Group and these State-Owned Entities are ultimately controlled or owned by the PRC government. The Group has also established pricing policies for services and products, and such pricing policies do not depend on whether or not the counterparties are State-Owned Entities. Having due regard to the substance of the relationship, the directors are of the opinion that none of these transactions are material related party transactions that require separate disclosure.
