REPORT OF THE MANAGER TO THE UNITHOLDERS

Introduction

CSOP Hang Seng China Enterprises Index Daily (2x) Leveraged Product (or the “Sub-Fund”), is a sub-fund of the CSOP Leveraged and Inverse Series (the “Trust”), an umbrella unit trust established under Hong Kong law by a trust deed dated 5 July 2016 (the “Trust Deed”) between CSOP Asset Management Limited (the “Manager”) and HSBC Institutional Trust Services (Asia) Limited (the “Trustee”).

It was launched on 10 March 2017 and commenced trading in HKD under the stock code 07288 on the Stock Exchange of Hong Kong Limited (the “SEHK”) on 14 March 2017. The Sub-Fund is benchmarked against the Hang Seng China Enterprises Index (the “HSCEI Index” or “Underlying Index”) and adopts a futures-based replication strategy. The Manager is CSOP Asset Management Limited (the “Manager”). The trustee is HSBC Institutional Trust Services (Asia) Limited (the “Trustee”).

CSOP Hang Seng China Enterprises Index Daily (2x) Leveraged Product is a futures-based ETF which invests directly in the nearest month futures contracts on the Hang Seng China Enterprises Index listed on the SEHK (“H-shares Index Futures”) subject to the rolling strategy discussed in below, to obtain the required exposure to the Underlying Index and to provide investment results that, before fees and expenses, closely correspond to twice (2x) the daily performance of the Underlying Index. The Sub-Fund does not seek to achieve its stated investment objective over a period of time greater than one day.

As the Underlying Index is not a futures index, the Product does not follow any predetermined roll-over schedule. The Manager will roll the H-shares Index Futures on a monthly basis. The futures roll for the H-shares Index Futures will be done on a monthly basis on the SEHK shortly before expiration.

The Underlying Index is compiled and managed by Hang Seng Indexes Company Limited (the “Index Provider”). It is a free float-adjusted market capitalization weighted index that tracks the behaviour of a portfolio of blue chip companies, the largest and most liquid China enterprises with H-share listed on the SEHK. The Underlying Index operates under clearly defined rules published by the index provider and is a tradable index.

The Sub-Fund Performance

The CSOP Hang Seng China Enterprises Index Daily (2x) Leveraged Product seeks to provide daily investment results, before fees and expenses, which closely correspond to positive 2 times the daily performance of the Underlying Index. As of 31 December 2025, the dealing NAV performed 36.47% while the Underlying Index performed 22.27%.

STATEMENT OF RESPONSIBILITIES OF THE MANAGER AND THE TRUSTEE

MANAGER'S RESPONSIBILITIES

The Manager of CSOP Hang Seng China Enterprises Index Daily (2x) Leveraged Product, a sub-fund of CSOP Leveraged and Inverse Series, is required by the Code on Unit Trusts and Mutual Funds established by the Securities & Futures Commission of Hong Kong and the Trust Deed dated 5 July 2016, as amended, (the "Trust Deed") to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Sub-Fund at the end of the year and of the transactions for the year ended 31 December 2025. In preparing these financial statements the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Sub-Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Sub-Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

CSOP Leveraged and Inverse Series (the "Trust") is an umbrella unit trust governed by its Trust Deed. As at 31 December 2025, the Trust has established twenty-three sub-funds, namely:

Report on the Audit of the Financial Statements

Opinion

What we have audited

The financial statements of CSOP Hang Seng China Enterprises Index Daily (2x) Leveraged Product (the “Sub-Fund”), a sub-fund of CSOP Leveraged and Inverse Series, which are set out on pages 10 to 38, comprise:

- the statement of financial position as at 31 December 2025;
- the statement of comprehensive income for the year then ended;
- the statement of changes in net assets attributable to unitholders for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, comprising material accounting policy information and other explanatory information.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Sub-Fund as at 31 December 2025, and of its financial transactions and its cash flows for the year then ended in accordance with IFRS Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (“ISAs”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Sub-Fund in accordance with the Hong Kong Institute of Certified Public Accountants (“HKICPA”)’s Code of Ethics for Professional Accountants (the “Code”), as applicable to audits of financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Other Information

The manager and the trustee (the “Management”) of the Sub-Fund is responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor’s report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Financial Statements

The Management of the Sub-Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with IFRS Accounting Standards, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Sub-Fund is responsible for assessing the Sub-Fund’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Sub-Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Sub-Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 5 July 2016, as amended (the “Trust Deed”), and the relevant disclosure provisions of Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the “SFC Code”).

Auditor’s Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Sub-Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and the relevant disclosure provisions of Appendix E of the SFC Code.

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sub-Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Sub-Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Sub-Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Management with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Management, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The Sub-Fund is listed on The Stock Exchange of Hong Kong Limited.

The manager and the trustee of the Sub-Fund are CSOP Asset Management Limited (the “Manager”) and HSBC Institutional Trust Services (Asia) Limited (the “Trustee”) respectively.

The investment objective of the Sub-Fund is to provide investment results that, before deduction of fees and expenses, closely correspond to twice the daily performance of the Underlying Index. The HSCEI Index is a price return index without adjustments for cash dividends or warrant bonuses. The HSCEI Index serves as a benchmark that reflects the performance of the largest and most liquid H-shares companies listed in Hong Kong. The HSCEI Index adopts free float-adjusted market capitalisation weighted methodology, with a 8% cap on individual constituent weightings.

NOTES TO THE FINANCIAL STATEMENTS

1. GENERAL INFORMATION (Continued)

In order to achieve the investment objective of the Sub-Fund, the Manager will use a futures-based replication strategy through investing directly in the spot month futures contracts on the HSCEI Index (“HSCEI Futures”) to obtain the required exposure to the HSCEI Index. The Sub-Fund does not seek to achieve its stated investment objective over a period of time greater than one day as the performance of the Sub-Fund over a longer period may deviate from and be uncorrelated to the extent of change of the HSCEI Index over the period. The Sub-Fund is designed to be used for short term trading or hedging purposes, and is not intended for long term investment.

These financial statements are prepared for the Sub-Fund only. The financial statements for the other sub-funds of the Trust are prepared separately.

2. MATERIAL ACCOUNTING POLICIES

The material accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the period presented, unless otherwise stated.

(a) Basis of preparation

The financial statements of the Sub-Fund have been prepared in accordance with IFRS Accounting Standards. IFRS Accounting Standards comprise the following authoritative literature:

- IFRS Accounting Standards
- IAS® Standards
- Interpretations developed by the IFRS Interpretations Committee (IFRIC® Interpretations) or its predecessor body, the Standing Interpretations Committee (SIC® Interpretations).

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of investments and derivative financial instruments at fair value through profit or loss.

The preparation of financial statements in conformity with IFRS Accounting Standards requires the use of certain critical accounting estimates. It also requires the Trustee and the Manager (together the “Management”) to exercise their judgment in the process of applying the Sub-Fund’s accounting policies.

(a) Basis of preparation (Continued)

Standards and amendments to existing standards effective 1 January 2025

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 January 2025 that have a material effect on the financial statements of the Sub-Fund.

New standards, amendments and interpretations effective after 1 January 2025 that are relevant to the Sub-Fund and have not been early adopted by the Sub-Fund

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2025 and have not been early adopted in preparing these financial statements.

- Amendments to the Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7 (effective for annual periods beginning on or after 1 January 2026).
- IFRS 18 Presentation and Disclosure in Financial Statements (effective for annual periods beginning on or after 1 January 2027).

For Amendment to IFRS 9 and IFRS 7, the Sub-Fund does not expect these amendments to have a material impact on its operations or financial statements.

For IFRS 18 Presentation and Disclosure in Financial Statements, the Sub-Fund is currently still assessing the effect of this standard and amendment.

(b) Financial instruments

(i) Classification

The Sub-Fund classifies its investments based on both the Sub-Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Sub-Fund is primarily focused on fair value information and use that information to assess the assets' performance and to make decisions. Consequently, all investments are measured at fair value through profit or loss.

(ii) Recognition/derecognition

Purchases and sales of investments are accounted for on the trade date basis - the date on which the Sub-Fund commits to purchase or sell the investments. Investments are derecognised when the rights to receive cash flows from the investments have expired or the Sub-Fund has transferred substantially all risks and rewards of ownership.

NOTES TO THE FINANCIAL STATEMENTS

2. MATERIAL ACCOUNTING POLICIES (Continued)

(b) Financial instruments (Continued)

(iii) Measurement

Investments are initially recognised at fair value. Transaction costs are expensed as incurred in the statement of comprehensive income.

Subsequent to initial recognition, all investments are measured at fair value. Realised and unrealised gains and losses on investments are recognised in the statement of comprehensive income in the year in which they arise.

(iv) Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives) are based on quoted market prices at the close of trading on the reporting date. The Sub-Fund utilises the last traded market price for both listed financial assets and liabilities where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, management will determine the point within the bid-ask spread that is most representative of fair value.

The fair value of financial assets that are not traded in an active market is determined by using broker quotes or valuation techniques. Investments in listed futures contracts is valued using the last traded market prices.

(v) Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(vi) Derivatives

A financial asset or financial liability is classified as held for trading if it is acquired or incurred principally for the purpose of selling or repurchasing in the near term or is part of a portfolio of identifiable financial investments that are managed together and for which there is evidence of a recent actual pattern of short-term profit taking. Derivatives are also categorised as held for trading unless they are designated as hedges. The Sub-Fund does not classify any derivatives as hedges in a hedging relationship.

Financial assets and financial liabilities designated at fair value through profit or loss at inception are financial instruments that are not classified as held for trading but are managed, and their performance is evaluated on a fair value basis in accordance with the Sub-Fund's documented investment strategy. The Sub-Fund's policy requires the Manager to evaluate the information about these financial assets and liabilities on a fair value basis together with other related financial information.

(vii) Offsetting financial instruments

Financial assets and liabilities are offset, and the net amount reported in the statement of financial position when the Sub-Fund currently has a legally enforceable right to set-off the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

(b) Financial instruments (Continued)

(viii) Structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual agreements. A structured entity often has some or all of the following features or attributes; (a) restricted activities, (b) a narrow and well-defined objective, such as to provide investment opportunities for investors by passing on risks and the structured entity to finance its activities without subordinated financial support and (c) financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks (tranches).

The Sub-Fund considers its investment in investment funds to be investment in unconsolidated structured entities. The investment funds are managed by the Manager who apply various investment strategies to accomplish the respective investment objectives of the investment funds. The investment funds finance their operations by issuing redeemable units which are puttable at the holder's option and entitles the holder to a proportional stake in the respective investment funds' net assets. The Sub-Fund holds redeemable units in the investment funds.

The Sub-Fund's investments in unconsolidated structured entities are shown as investments. The change in fair value of investment funds is included in the statement of comprehensive income in "Net gain/loss on investments and derivative financial instruments".

(c) Amounts due from participating dealers and brokers

Amounts due from participating dealers represent the subscription receivable from the participating dealers at the end of the reporting year. Amounts due from brokers represent receivables for investments sold that have been contracted for but not yet settled on the statement of financial position date. The amounts are non-interest bearing and repayable on demand.

These amounts are recognised initially at fair value and subsequently measured at amortised cost.

(d) Expected credit losses on financial assets measured at amortised cost

At each reporting date, the Sub-Fund shall measure the loss allowance on financial assets measured at amortised cost at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Sub-Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the counterparty, probability that the counterparty will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, financial assets measured at amortised cost will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by Management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

(e) Amounts due to participating dealers and brokers

Amounts due to participating dealers represent the redemption payable to the participating dealers at the end of the reporting year. Amounts due to brokers represent payables for investments purchased that have been contracted for but not yet delivered on the statement of financial position date. The amounts are non-interest bearing and repayable on demand. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

2. MATERIAL ACCOUNTING POLICIES (Continued)

(f) Interest income

Interest income is recognised on a time-proportionate basis using the effective interest method.

(g) Transaction costs on investments

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, brokers and dealers. Transaction costs, when incurred, are immediately recognised in the statement of comprehensive income as an expense.

(h) Expenses

Expenses are accounted for on an accrual basis.

(i) Cash and cash equivalents

Cash and cash equivalents include cash in hand, cash at bank, demand deposits, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts. Cash and cash equivalents excluded deposits with brokers as they are restricted for investment purpose.

(j) Foreign currencies translation

Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Sub-Fund operates (the “functional currency”). The Manager considers Hong Kong Dollar (“HKD”) as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions for all the Sub-Fund. The financial statements are presented in HKD, which is the Sub-Fund’s functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the reporting date.

Foreign exchange gains and losses arising from translation are included in the statement of comprehensive income.

Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the statement of comprehensive income within “net gain/(loss) on investments and derivative financial instruments”.

(k) Redeemable units

The Sub-Fund issues redeemable units, which are redeemable at the holder’s option. These units represent puttable financial instruments of the Sub-Fund. The Sub-Fund classifies its puttable financial instruments as equity in accordance with IAS32, “Financial instruments: Presentation” as those puttable financial instruments meet all the following criteria:

NOTES TO THE FINANCIAL STATEMENTS

2. MATERIAL ACCOUNTING POLICIES (Continued)

(k) Redeemable units (Continued)

- the puttable financial instruments entitle the holder to a pro-rata share of net asset value;
- the puttable financial instruments are the most subordinated units in issue and unit features are identical;
- there are no contractual obligations to deliver cash or another financial asset; and
- the total expected cash flows from the puttable financial instrument over its life are based substantially on the profit or loss of the Sub-Fund.

Units are issued and redeemed at the holder's option at prices based on the Sub-Fund's net asset value per unit at the time of issue or redemption. The Sub-Fund's net asset value per unit is calculated by dividing the net assets attributable to unitholders with the total number of outstanding units.

In accordance with the Prospectus of the Sub-Fund, investment positions are valued based on the last traded market price for the purpose of determining the net asset value per unit for subscriptions and redemptions of the Sub-Fund.

(l) Taxation

No provision for Hong Kong profits tax has been made for the Sub-Fund as it is authorized as a collective investment scheme constituted as a unit trust under Section 104 of the Hong Kong Securities and Futures Ordinance and is therefore exempted from profits tax under Section 26A(1A) of the Hong Kong Inland Revenue Ordinance.

(m) Deposit with brokers

Cash collateral provided by the Sub-Fund is identified in the statement of financial position as deposits with brokers and is not included as a component of cash and cash equivalents.

(n) Changes to presentation and comparative information

When the presentation or classification of items in the financial statements is amended, comparative amounts have been updated to conform with the current year's presentation or classification.

3. NUMBER OF UNITS IN ISSUE AND NET ASSETS ATTRIBUTABLE TO UNITHOLDERS PER UNIT

The Sub-Fund's capital is represented by the units in the Sub-Fund, and shown as net assets attributable to unitholders in the statement of financial position. Subscriptions and redemptions of units during the years ended 31 December 2025 and 2024 are shown in the statement of changes in net assets attributable to unitholders. In order to achieve the investment objectives, the Sub-Fund endeavor to invest its capital in accordance with the investment policies, whilst maintaining sufficient liquidity to meet redemption requests.

In accordance with the provisions of the Trust Deed dated 5 July 2016, as amended, and the Prospectus of the Sub-Fund, investments are stated at the last traded price on the valuation day for the purpose of determining net asset value per unit for subscriptions and redemptions and for various fee calculations.

As stated in Note 2(k), redeemable units of the Sub-Fund are classified as equity and they are carried at the price based on the Sub-Fund's net asset value per unit at the reporting date if the unitholder exercised the right to redeem the units in the Sub-Fund.

The redeemable units for the years ended 31 December 2025 and 2024 are as follows:

There were no tax expenses for the Sub-Fund for the years ended 31 December 2025 and 2024.

6. TRANSACTIONS WITH THE TRUSTEE, MANAGER AND CONNECTED PERSONS

The following is a summary of significant related party transactions and transactions entered into during the year between the Sub-Fund and the Trustee, the Manager and the connected persons of the Manager. Connected persons of the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the Securities & Futures Commission of Hong Kong (the “SFC Code”). All transactions entered into during the years ended 31 December 2025 and 2024 between the Sub-Fund and the Manager and its connected persons were carried out in the normal course of business and on normal commercial terms. To the best of the Manager’s knowledge, the Sub-Fund does not have any other transactions with the connected persons of the Manager except for those disclosed below.

(a) Management fee

The Manager is entitled to receive a management fee, currently at the rate of 0.99% per annum of the net asset value of the Sub-Fund, inclusive of trustee fee and registrar’s fee, accrued daily and calculated as at each dealing day and payable monthly in arrears.

The management fee includes, but are not limited to, the manager’s fee, the trustee’s fee, the custodian’s fee and the registrar’s fee. The management fee does not include brokerage and transaction costs such as the fees and charges relating to the investment and realising the investments and extraordinary items such as litigation expenses.

During the year ended 31 December 2025, the Sub-Fund did not have any investment in CSOP Hong Kong Dollar Money Market ETF unlisted class A and in 2024, the Sub-Fund invested in CSOP Hong Kong Dollar Money Market ETF unlisted class A, an exchange traded fund managed by the Manager. The Manager has waived the portion of the management fee charged on the Sub-Fund’s holding in CSOP Hong Kong Dollar Money Market ETF.

7. TRANSACTION COSTS ON INVESTMENTS

Transaction costs are costs incurred to acquire/dispose of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers.

8. FINANCIAL RISK MANAGEMENT

The objective of the Sub-Fund is to provide investment results that, before deduction of fees and expenses, closely correspond to the performance of Underlying Index of the Sub-Fund. The Sub-Fund's activities may expose it to a variety of risks including but not limited to market risk (including market price risk, interest rate risk and currency risk), credit and counterparty risk and liquidity risk which are associated with the markets in which the Sub-Fund invests.

The following is a summary of the main risks and risk management policies.

8. FINANCIAL RISK MANAGEMENT (Continued)

(a) Market risk

(i) Market price risk

Market price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual instrument or factors affecting all instruments in the market.

The Sub-Fund is designated to utilise leverage to achieve daily return equivalent to twice the return of the daily performance of the Underlying Index. The Sub-Fund rebalances its portfolio on a daily basis to achieve the investment objective.

The following table details the exposure of the Sub-Fund's investments and derivative financial instruments based on respective fair value categorised by the geographical location:

Sensitivity analysis in the event of a possible change in the Underlying Index as estimated by the Manager

As at 31 December 2025, if the Underlying Index were to increase by 22% (2024: 25%) with all other variables held constant, this would increase the operating profit for the year by approximately HKD112,712,726 (2024: HKD203,847,367). Conversely, if the Underlying Index were to decrease by 22% (2024: 25%), this would decrease the operating profit for the year by an equal amount. Sensitivity analysis of investment fund is disclosed under interest rate risk. Refer to note 8(a)(ii).

At 31 December 2025, the Sub-Fund has cash and cash equivalents and deposits with brokers of HKD256,310,918 (2024: HKD338,978,286). If the interest rates had been 50 basis points higher or lower with all variables held constant, net assets attributable to unitholders would have been HKD1,281,555 (2024: HKD1,694,891) higher or lower as a result of higher or lower interest income.

The Manager and Trustee monitor the interest rate risks by quantifying (a) market exposure in percentage terms; and (b) exposure in duration terms by different countries.

As at 31 December 2025, the Sub-Fund does not have investment in CSOP Hong Kong Dollar Money Market ETF unlisted class A (2024: in unlisted class A HKD46,235,861), which mainly invest in HKD denominated and settled short-term deposits and money market instruments. As such, the Sub-Fund's investment in CSOP Hong Kong Dollar Money Market ETF is subject to interest rate risk. The underlying investments within CSOP Hong Kong Dollar Money Market ETF were short-term with average maturity not exceeding 60 days. As at 31 December 2025 and 2024 should the relevant interest rates have lowered/risen by 50 basis points with all other variables remaining constant, the increase/decrease in net assets attributable to unitholders for the year would amount to approximately HKD Nil (2024: HKD231,179), arising substantially from the increase/decrease in market values of CSOP Hong Kong Dollar Money Market ETF as a result of increase/decrease in interest income.

NOTES TO THE FINANCIAL STATEMENTS

8. FINANCIAL RISK MANAGEMENT (Continued)

(a) Market risk (Continued)

(iii) Currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Sub-Fund is not exposed to currency risk arising from balances and transactions in foreign currencies as the Sub-Fund's assets and liabilities are denominated in HKD, the Sub-Fund's functional and presentation currencies. As a result, the Manager considers sensitivity analysis of currency risk is not necessary to be presented.

(b) Credit and counterparty risk

Credit and counterparty risk is the risk that an issuer or counterparty will be unable or unwilling to meet a commitment that it has entered into with the Sub-Fund.

The Sub-Fund limits its exposure to credit and counterparty risk by carrying out the majority of those investment transactions and contractual commitment activities with well-established broker-dealers, banks and regulated exchanges with high credit ratings.

All transactions in listed securities and derivative financial instruments are settled or paid for upon delivery using approved and reputable brokers. In addition, the Sub-Fund places deposits with brokers and cash and cash equivalents with reputable financial institutions. As such, the Manager does not consider the Sub-Fund to be exposed to significant credit and counterparty risk.

The Sub-Fund is exposed to credit and counterparty risk on its investments, derivative financial instruments, deposit with brokers and cash and cash equivalents.

The tables below summarises the amount of investments, derivative financial instruments, deposits with brokers and cash and cash equivalents of the Sub-Fund placed with counterparties and counterparties to derivative financial instruments as at 31 December 2025 and 2024.

NOTES TO THE FINANCIAL STATEMENTS

8. FINANCIAL RISK MANAGEMENT (Continued)

(b) Credit and counterparty risk (Continued)

As at 31 December 2025 and 2024, the credit ratings of the counterparties are at or above investment grade.

The Sub-Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management consider both historical analysis and forward looking information in determining any expected credit loss. At 31 December 2025 and 2024, bank interest receivable, deposits with brokers and cash and cash equivalents are held with counterparties with high credit rating and are due to be settled within 1 month. Applying the requirements of IFRS 9, the expected credit loss (“ECL”) is immaterial for the Sub-Fund and, as such, no ECL has been recognised within the financial statements.

The maximum exposure to credit risk as at 31 December 2025 and 2024 is the carrying amount of the financial assets as shown on the statement of financial position.

(c) Liquidity risk

Liquidity risk is the risk that the Sub-Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Sub-Fund is exposed to daily redemptions of units in the Sub-Fund. The Sub-Fund invests the majority of its assets in securities that are traded in an active market which can be readily disposed of.

The table below analyses the Sub-Fund’s financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts in the tables are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

(c) Liquidity risk (Continued)

Units are redeemed on demand at the unitholder's option. As at 31 December 2025 and 2024, there were two (2024: one) nominee accounts holding more than 10% of the Sub-Fund's units, representing in aggregate 21.40% (2024: 12.33%) of the total Sub-Fund's units.

The Sub-Fund manages its liquidity risk by investing in securities that it expects to be able to liquidate within 7 days or less. The following table illustrates the expected liquidity of assets held:

	Less than 1 month <i>HKD</i>	1 to 12 months <i>HKD</i>	More than 12 months <i>HKD</i>	Total <i>HKD</i>

(d) Fair value estimation

The Sub-Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Sub-Fund can access at the measurement date (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

(d) Fair value estimation (Continued)

The determination of what constitutes “observable” requires significant judgment by the Sub-Fund. The Sub-Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the Sub-Fund’s financial assets and financial liabilities (by class) measured at fair value at 31 December 2025 and 2024:

Total liabilities	<u>(4,385,914)</u>	<u>-</u>	<u>-</u>	<u>(4,385,914)</u>

Investments whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed futures contracts and active listed investment fund. The Sub-Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. As at 31 December 2025 and 2024, the Sub-Fund did not hold any financial instruments classified in level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. As at 31 December 2025 and 2024, the Sub-Fund did not hold any investments classified in level 3.

For the years ended 31 December 2025 and 2024, there were no transfers between levels.

NOTES TO THE FINANCIAL STATEMENTS

8. FINANCIAL RISK MANAGEMENT (Continued)

(e) Capital risk management

The Sub-Fund's capital is represented by the redeemable units outstanding. The Sub-Fund's objective is to provide investment results that correspond generally to the performance of the Underlying Index. The Manager may:

- Redeem and issue new units on a daily basis in accordance with the constitutive documents of the Sub-Fund;
- Exercise discretion when determining the amount of distributions of the Sub-Fund to the unitholders; and
- Suspend the creation and redemption of units under certain circumstances as currently disclosed in the Prospectus of the Sub-Fund.

(f) Derivative financial instruments

Futures contracts

Futures contracts are commitments either to purchase or sell a designated financial instrument, currency, commodity or index at a specified future date for a specified price and may be settled in cash or the underlying financial asset. Futures are standardised exchange-traded contracts. Initial margin requirements for futures are met in cash or other instruments, and changes in futures contract values are marked to market daily. Futures contracts have lower credit risk because the counterparties are futures exchanges.

Futures contracts result in exposure to market risk based on changes in market prices relative to contracted price. Market risks arise due to the possible movement in foreign currency exchange rates, indices, and securities' values underlying these instruments. In addition, because of the low margin deposits normally required in relation to notional contract sizes, a high degree of leverage may be typical of a futures contract and may result in substantial losses to the Sub-Fund. Certain futures exchanges do not permit trading in particular futures contracts at prices that represent a material fluctuation in price during a single day's trading beyond certain present limits. If prices fluctuate during a single day's trading beyond those limits, the Sub-Fund could be prevented from promptly liquidating unfavourable positions and thus could be subject to substantial losses.

The following futures contracts were unsettled at the date of statement of financial position:

(g) Interest in other entities

The Sub-Fund's investments in an investment fund are subject to the terms and conditions of the respective investment funds' offering documentation and are susceptible to market price risk arising from uncertainties about future values of such investment fund. The Manager makes investment decisions after extensive due diligence of the underlying fund, its strategy and the overall quality of the underlying funds' manager.

As at 31 December 2025, the Sub-Fund did not have any investment in CSOP Hong Kong Dollar Money Market ETF. As at 31 December 2024, the Sub-Fund invested in CSOP Hong Kong Dollar Money Market ETF unlisted class A. The right of the Sub-Fund to request redemption of its investments in CSOP Hong Kong Dollar Money Market ETF unlisted class A is on a daily basis.

The Sub-Fund's exposure to investments in CSOP Hong Kong Dollar Money Market ETF unlisted class A at fair value is disclosed in the following table. These investments are included in financial assets at fair value through profit or loss in the statement of financial position.

For the year ended 31 December 2025, the Underlying Index increased by 22.27% (2024: increased by 26.37%) while the net asset value per unit of Sub-Fund increased by 36.46% (2024: increased by 42.46%).

12. SOFT COMMISSION ARRANGEMENTS

The Manager confirms that there have been no soft commission arrangements existing during the years ended 31 December 2025 and 2024 in relation to directing transactions of the Sub-Fund through a broker or dealer.

13. SEGMENT INFORMATION

The Manager makes the strategic resource allocations on behalf of the Sub-Fund and has determined the operating segments based on the reports reviewed which are used to make strategic decisions.

The Manager considers that the Sub-Fund has a single operating segment which is mainly investing in futures contracts. The investment objective of the Sub-Fund is to provide investment results that, before deduction of fees and expenses, closely correspond to twice the daily performance of the Underlying Index.

The internal financial information used by the Manager for the Sub-Fund's assets, liabilities and performance is the same as that disclosed in the statement of financial position and statement of comprehensive income.

The Sub-Fund is domiciled in Hong Kong. The Sub-Fund's income is mainly derived from investments in futures contracts to obtain the required exposure to the Underlying Index, the tracked index.

The Sub-Fund has no non-current assets. As at 31 December 2025, the Sub-Fund has no collective investment scheme which accounts for more than 10% of the Sub-Fund's net asset value. As at 31 December 2024, the Sub-Fund has invested in collective investment scheme which accounts for more than 10% of the Sub-Fund's net asset value.
