The following discussion should be read in conjunction with the Group's interim financial information set out in this report, including the related notes. The interim condensed consolidated financial information has been prepared in accordance with IAS 34 Interim Financial Reporting and is unaudited, and should be read in conjunction with the consolidated financial statements of the Group for the three years ended December 31, 2025, as set out in the accountant's report contained in Appendix I to the Prospectus issued in connection with the Global Offering.

BUSINESS REVIEW

We are committed to becoming a global expert in intelligent multi-scenario motion control. We develop motion control technologies. Currently, the Company has delivered brake-by-wire solutions for intelligent driving in mass production to first-tier domestic OEMs. During the Reporting Period, the Group recorded total revenue of RMB368.3 million, a year-on-year increase of 36.8%. In particular, revenue from brake-by-wire solutions was RMB366.7 million, a year-on-year increase of 40.6%, accounting for 99.6% of the Group's total revenue during the Reporting Period.

(I) BUSINESS PROGRESS

Against the backdrop of intensifying price wars and a significant increase in the market concentration of leading domestic OEMs in China's automotive market, industry competition has gradually evolved into a comprehensive competition involving technological strength, delivery efficiency, quality-price ratio, and full-lifecycle service capabilities. Leveraging its core technology moat built over years in motion control, a full-lifecycle digital management and control system, and a responsive customer engagement mechanism, the Company has achieved dual breakthroughs in both market share and order intake across its core business segments.

Our core brake-by-wire solutions are centered on brake-by-wire technology. They integrate proprietary hardware architecture with advanced control algorithms and software to deliver precise motion execution, intelligent system coordination and robust safety redundancy.

By supporting seamless integration with various autonomous driving platforms, our solution empowers OEMs to achieve high-performance vehicle dynamics and scalable system adaptability across diverse driving scenarios.

Our NBS solution, a key module within an EHB system, is designed to replace traditional braking systems, enabling more precise, responsive and intelligent braking and parking braking functionalities that integrate seamlessly with mainstream intelligent driving platforms through multiple intelligent driving interfaces that are compatible with intelligent driving platforms developed by OEM customers.

Our ESC solution is designed to ensure optimal driving stability, precise dynamic response and enhanced active safety across a wide range of road conditions, preventing skidding and enhancing vehicle stability. It also supports parking braking functionalities. By automatically applying brakes to individual wheels to counteract oversteer or understeer, our ESC solution enables drivers to maintain control especially in critical maneuvers such as turning corners or emergency braking.

Our NBC solution is a highly integrated product that encompasses all functions of the NBS and ESC solutions. It supports core functions including service braking, parking braking and vehicle stability control, while also incorporating value-added features such as coordinated regenerative braking and smooth braking.

In the first half of 2026, the sales volume and revenue of the Company's NBC solution increased significantly year-on-year, because (1) new energy vehicle penetration continued to increase in China, which has become a key engine driving overall automotive market growth, while the Onebox solution is currently the mainstream solution in the new energy vehicle brake-by-wire segment, with strong market demand and substantial growth headroom; (2) our NBC solution's mass-production customers and vehicle models are concentrated on flagship model series of leading domestic OEMs in China. These models consistently rank among the top sellers in their respective market segments and enjoy strong market recognition. Coupled with the leading market position of top domestic OEMs, this has brought the Company stable demand growth, sustained business revenue and strong order resilience against market fluctuations; (3) the Company's NBC solution continued to secure new model design wins. In the first half of 2026, our NBC solution secured 15 new design wins, and the number of vehicle models using our NBC solution that have entered mass production increased by 6; and (4) given the strong market competitiveness, evident technical advantages and excellent after-sales performance of our NBC solution products, its supply share in the mass-produced models of existing customers has continued to increase.

The sales volume of the ESC solution maintained steady growth, driven by our proactive expansion of the customer base among fuel vehicle manufacturers. As more fuel vehicle customer models have entered mass production, the number of models featuring our ESC solution has grown, and sales have risen in tandem. In the first half of 2026, our ESC solution obtained 10 new design wins, and the number of vehicle models using our ESC solution that have entered mass production increased by 9.

In the first half of 2026, the sales volume of the Company's NBS solution decreased year-on-year, primarily due to the broader industry shift toward EHB technology solutions in the NEV sector. The market has been increasingly applying more integrated one-box solutions, adopting Onebox solution in place of Twobox solution (a dual-module collaborative architecture comprising an electronic brake booster and an electronic stability control system), which has affected demand for the NBS solution. The sales volume of our NBS solution decreased as a result of the increased adoption and transition to our NBC solution, and some models supplied during the historical periods were approaching the end of their production cycle.

(II) MARKET EXPANSION

As of June 30, 2026, we have obtained 142 design wins from 24 OEMs, and our brake-by-wire solutions have been mass-produced and applied to 80 vehicle models.

Our NBC solution received 55 design wins from 9 OEMs (including 1 overseas OEM), and the number of vehicle models using our NBC solution that have entered mass production reached 25;

Our ESC solution received 61 design wins from 9 OEMs, and the number of vehicle models using our ESC solution that have entered mass production reached 34;

Our NBS solution received 26 design wins from 10 OEMs, and the number of vehicle models using our NBS solution that have entered mass production reached 21.

(III) CUSTOMER EXPANSION

In the first half of 2026, the competitive landscape of the domestic intelligent electric vehicle market further concentrated towards the top players. Emerging brands, by leveraging their differentiated advantages in intelligent driving and electric platforms, continued to achieve breakthroughs in market share in niche segments, creating new opportunities for upstream core component suppliers. While deepening cooperative relationships with existing leading domestic OEMs and steadily increasing the supply share of existing vehicle models, the Company has actively expanded new customers, pursuing a dual-track customer strategy of "deepening existing relationships and capturing new customers" to continuously optimize its customer structure.

The Company has officially obtained a project design win from an emerging brand in China's automotive industry, breaking away from its previous customer base dominated by traditional leading domestic OEMs and successfully achieving a key breakthrough into the emerging brand segment. This customer is a benchmark emerging brand in the domestic intelligent electric vehicle sector, with a broad user base and outstanding sales performance in the mass-market intelligent pure electric vehicle market. Its sales scale and sales growth rate consistently rank among the top tier of emerging brands.

This design-win project covers the core brake-by-wire chassis components of the customer's new-generation main mass-production platform, and is scheduled to officially enter the mass production and delivery phase in 2027. The successful acquisition of this design win not only signifies that the Company's product technology strength and supporting service capabilities have been recognized by a leading emerging brand, but also further verifies the Company's cross-brand and cross-sector customer expansion capabilities. As of the end of the Reporting Period, the Company has formed a diversified customer matrix covering leading domestic traditional OEMs, emerging brands, and overseas NEV brands. The continuous optimization of the customer structure will effectively hedge the order risks brought by market fluctuations of a single brand, injecting new growth momentum into the Company's subsequent stable performance growth.

(IV) PRODUCT R&D

The Company continues to increase its R&D investment in the field of intelligent driving motion control technologies, steadily iterating and upgrading its brake-by-wire technologies, advancing the development and mass-production delivery of new products and technologies, and continuously enriching its intelligent driving motion control solutions.

The upgraded version of our NBC solution has been mass-produced in multiple customer projects, and a redundancy solution supporting L3 autonomous driving functions is under development. The R&D of EMB products is progressing smoothly and the products are undergoing bench testing. In addition, we are developing an upgraded EHB solution designed for overseas markets.

FUTURE PROSPECTS

Expansion into Fields such as Robot Motion Control

We will explore new business segments such as robotics that share fundamental motion control technologies with intelligent driving vehicles, and transfer our expertise and mature mass production experience accumulated over many years in automotive brake-by-wire technology and motion control to new application scenarios, thereby continuously expanding our business footprint.

Our profound technical foundation and market-proven commercialization capabilities have laid a solid foundation for expansion into emerging fields such as robot motion control. While achieving rapid growth in the automotive sector, we will build the capability for cross-domain technology deployment and seek a second growth curve market with high potential.

FINANCIAL ANALYSIS

Revenue

Total revenue for the six months ended June 30, 2026 was RMB368.3 million, representing an increase of 36.8% from RMB269.2 million for the six months ended June 30, 2025. The change was mainly due to higher revenue driven by the increased delivery volume of NBC solutions and ESC solutions.

Revenue of sales of brake-by-wire solutions for the six months ended June 30, 2026 was RMB366.7 million, representing an increase of 40.6% from RMB260.8 million for the six months ended June 30, 2025. The change was mainly due to the increase in the delivery volume of brake-by-wire solutions.

Cost of Sales

Cost of sales for the six months ended June 30, 2026 was RMB319.1 million, representing an increase of 36.5% from RMB233.7 million for the six months ended June 30, 2025. The increase was mainly due to the increase in sales volume, which was partially offset by ongoing cost management efforts.

Gross Profit and Gross Profit Margin

Gross profit for the six months ended June 30, 2026 was RMB49.3 million, representing an increase of 38.7% from RMB35.5 million for the six months ended June 30, 2025.

Gross profit margin improved from 13.2% for the six months ended June 30, 2025 to 13.4% for the six months ended June 30, 2026, mainly due to (i) economies of scale brought by increased sales volume; (ii) ongoing cost management efforts; and (iii) changes in the product portfolio.

Selling and Marketing Expenses

Selling and marketing expenses for the six months ended June 30, 2026 were RMB14.9 million, representing an increase of 282.1% from RMB3.9 million for the six months ended June 30, 2025. The increase was mainly due to higher share-based payment costs for sales personnel.

Administrative Expenses

Administrative expenses for the six months ended June 30, 2026 were RMB32.9 million, representing an increase of 67.0% from RMB19.7 million for the six months ended June 30, 2025. The increase was mainly due to the increase in listing expenses and share-based payment costs for administrative personnel.

Research and Development ("R&D") Expenses

R&D expenses for the six months ended June 30, 2026 were RMB49.7 million, representing an increase of 33.2% from RMB37.3 million for the six months ended June 30, 2025. The increase was mainly due to increased R&D investment and an increase in R&D personnel.

Operating Loss

Operating loss for the six months ended June 30, 2026 was RMB38.2 million, representing an increase of 389.7% from that of RMB7.8 million for the six months ended June 30, 2025. The increase in operating loss was mainly due to the increase in listing expenses and share-based payment expenses.

Net Finance Costs

Net finance costs for the six months ended June 30, 2026 were RMB71.4 million, representing an increase of 14.4% from RMB62.4 million for the six months ended June 30, 2025. The increase was mainly due to the accretion of interest on redemption liabilities, which would be reclassified to shareholders' equity upon listing.

Net Loss and Adjusted Net Loss

Based on the above, net loss for the six months ended June 30, 2026 was RMB109.6 million, compared to RMB70.2 million for the six months ended June 30, 2025. Excluding share-based payments as part of employee benefit expenses, redemption liabilities and listing expenses, the adjusted net loss (non-IFRS) for the six months ended June 30, 2026 was RMB13.4 million, compared to RMB7.2 million for the six months ended June 30, 2025. Please refer to "Management Discussion and Analysis — Non-IFRS Measures".

Basic and Diluted Loss Per Share

Basic and diluted loss per share for the six months ended June 30, 2026 was RMB3.26, compared to RMB2.31 for the six months ended June 30, 2025.

Liquidity and Capital Resources

As of June 30, 2026, the Group's cash and cash equivalents, restricted cash, financial assets at fair value through profit or loss, and short-term bank time deposits amounted to RMB198.5 million. Taking into account our business development and expansion plans, we believe that our capital resources (including available cash and cash equivalents, restricted cash, financial assets at fair value through profit or loss, and short-term bank time deposits, cash generated from operating activities, and funds from available credit facilities) are sufficient to fund our continuing operations.

Borrowings

As of June 30, 2026 and December 31, 2025, the total borrowings of the Group were RMB1.0 million and RMB1.0 million, respectively. Bank and other borrowings are denominated in Renminbi and are all due within one year.

Gearing Ratio

The Company monitors capital using a gearing ratio. As of June 30, 2026, the Group's gearing ratio was negative, which is calculated as net debt divided by total capital at the end of each fiscal period. Net debt is equal to total borrowings, redemption liabilities and lease liabilities less cash and cash equivalents. Total capital is calculated as total equity plus net debt.

Net Cash Used in Operating Activities

Net cash used in operating activities for the six months ended June 30, 2026 was RMB131.1 million, compared to RMB212.5 million for the six months ended June 30, 2025. Net cash used in operating activities decreased by RMB81.4 million, and accordingly, net cash flow from operating activities increased by RMB81.4 million as compared with the same period last year. The improvement in cash flow from operating activities was mainly due to (i) an increase in product delivery volume and optimization of gross profit margin; and (ii) optimization of operating cash flow management.

Significant Investments

As at June 30, 2026, the Group did not make or hold any significant investments (including any investment in an investee company) with a value of 5% or more of the Group's total assets.

Material Acquisitions and Disposals of Subsidiaries, Associates and Joint Ventures

For the six months ended June 30, 2026, the Group had no material acquisitions and disposals of subsidiaries, associates and joint ventures.

Future Plans for Material Investments and Capital Assets

As at June 30, 2026, save for the plans disclosed in the section headed "Future Plans and Use of Proceeds" in the Prospectus, the Group had no plans for material investments and capital assets.

Pledge of Assets

As of June 30, 2026, the Group has no assets pledged as security.

Capital Commitments and Capital Expenditures

As of June 30, 2026, the Group's capital commitments for the acquisition of property, plant and equipment were RMB87.2 million.

For the six months ended June 30, 2026, the Group recorded capital expenditures of RMB93.0 million, which were mainly used for investment in factory machinery and equipment and investment in R&D equipment.

Contingent Liabilities

As of June 30, 2026, we were named as a defendant in five lawsuits filed by a party alleging that we infringed its intellectual property rights in Chinese Mainland. After considering advice from the Group's legal counsel and considering relevant facts and circumstances, our Directors have made a provision of RMB10.0 million.

Non-IFRS Measures

To supplement our interim results presented in accordance with International Financial Reporting Standards (IFRS), we also use adjusted net loss (non-IFRS measure), which is not required by or presented in accordance with IFRS, as an additional financial measure. We believe this non-IFRS measure facilitates comparisons of operating performance from year to year and across companies by eliminating potential impacts of items.

We believe that this measure provides useful information to investors and others in understanding and evaluating our consolidated results of operations in the same manner as our management. However, our presentation of adjusted net loss may not be comparable to similarly titled measures presented by other companies. The use of this non-IFRS measure has limitations as an analytical tool, and you should not consider it in isolation from, or as a substitute for an analysis of, our results of operations or financial condition as reported under IFRS. We define adjusted net loss (non-IFRS measure) as loss for the period adjusted by adding back (i) share-based payment expenses, (ii) financial costs associated with redemption liabilities and (iii) listing expenses, which relate to the Global Offering.

The following table sets forth a reconciliation of adjusted net loss for the periods presented to net loss for the period (the most directly comparable financial measure calculated and presented in accordance with IFRS):

	For the six months ended June 30,	
	2026	2025
	RMB'000	*RMB'000*
Loss for the period	**(109,630)**	(70,177)
Add:		
Listing expenses	**10,246**	—
Share-based payment expenses	**15,000**	706
Financial costs on redemption liabilities	**70,939**	62,299
Adjusted net loss (non-IFRS measure)	**(13,445)**	(7,172)

Risk Management

Foreign exchange risk

Foreign exchange risk arises when future commercial transactions and recognized assets and liabilities are denominated in a currency that is not the Group's functional currency. As most of the Group's business transactions are conducted in Chinese Mainland and such transactions in Chinese Mainland are mainly denominated in RMB, the Group is exposed to foreign currency risk but such risk is not significant. Accordingly, the Group currently does not have a foreign currency hedging policy. However, the management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

Interest rate risk

The Group's interest rate risk arises mainly from borrowings. Borrowings at floating rates expose the Group to cash flow interest rate risk. Borrowings at fixed rates expose the Group to fair value interest rate risk. For the six months ended June 30, 2026, the Group did not use any interest rate swap contracts or other financial instruments to hedge its interest rate risk.

EMPLOYEES AND REMUNERATION POLICIES

As of June 30, 2026, we had 403 full-time employees. During the Reporting Period, we primarily recruited employees through online job platforms, campus recruitment programs and internal referrals. We place strong emphasis on employee training and development to enhance technical capabilities and overall performance. New employees receive induction training covering our corporate culture, business operations and industry background to help them integrate into the Company. We also offer tailored training programs delivered by internal and external experts to strengthen employees' technical skills in their respective business areas. For key positions, we provide management development programs, including leadership training. We are committed to providing fair and equal opportunities to all employees. We have established career development and promotion plans applicable to employees at all levels, supported by regular performance evaluations. As part of our talent retention strategy, we offer competitive compensation packages, including salaries and allowances, performance-based bonuses and long-term incentive schemes. These include, but are not limited to, employee share ownership plans targeting managers, high-potential talent and key technical professionals. We have implemented a regular appraisal system to assess employee performance, which serves as the basis for decisions on salary adjustments and promotions.

INTERIM DIVIDEND

No dividend was paid or proposed to the ordinary shareholders of the Company during the six months ended June 30, 2026 (six months ended June 30, 2025: nil), nor has any dividend been proposed since the end of the Reporting Period.

UPDATE ON DIRECTORS' AND CHIEF EXECUTIVES INFORMATION

The Directors and Chief Executives confirm that no information is required to be disclosed pursuant to the requirements of Rule 13.51B(1) of the Listing Rules since the Listing Date and up to the date of this report.

DISCLOSURE OF INTERESTS

Interests and Short Positions of Directors and Chief Executives in the Shares, Underlying Shares and Debentures of the Company or its Associated Corporations

As the Company's Shares were not yet listed on the Stock Exchange as of June 30, 2026, Divisions 7 and 8 of Part XV of the SFO and Section 352 of the SFO were not applicable to the Directors or chief executives of the Company.

As at the Listing Date, the interests and/or short positions (as applicable) of the Directors and chief executives in the Shares, underlying Shares and debentures of the Company or any of its associated corporations (within the meaning of Part XV of the SFO) which were required to be notified to the Company and the Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO (including interests and/or short positions which they were taken or deemed to have under such provisions of the SFO), or which were required, pursuant to Section 352 of the SFO, to be entered in the register referred to therein, or which were required to be notified to the Company and the Stock Exchange pursuant to the Model Code, were as follows:

Name of Director/ Chief Executive	Capacity/ Nature of Interest	Type of Shares	Number of Shares Held or Interested in	Approximate Percentage of the Issued Share Capital of the Company
Mr. Tao Zhe (陶喆)	Beneficial owner[(2)]	H Shares	85,145,904 (L)	14.31%
	Interest in controlled corporation[(2)]	H Shares	35,920,000 (L)	6.04%
	Interest of spouse[(2)]	H Shares	1,552,000 (L)	0.26%

	Interest of spouse[(2)]	H Shares	121,065,904 (L)	20.35%
Mr. Wang Jianming (王澗鳴)	Beneficial owner	H Shares	60,240,880 (L)	10.12%

Notes:

(1) The percentage is calculated based on the total number of issued shares of the Company as at the Listing Date (i.e. 594,984,292 H Shares). The letter "L" denotes a long position.

(2) Mr. Tao acted as the general partner of NASN LP, and Ms. Liu Qian is the spouse of Mr. Tao. Accordingly, Mr. Tao is deemed to be interested in the H Shares held by NASN LP and Ms. Liu Qian. Mr. Tao beneficially owns a 0.21% interest through Shanghai Nasheng. Mr. Tao is a limited partner of Shanghai Nasheng, holding an 11.11% partnership interest therein, and does not participate in the management of Shanghai Nasheng. Ms. Zhou Lijin, the general and executive partner of Shanghai Nasheng, exercises the voting rights attached to the Shares held by Shanghai Nasheng on its behalf. As such, Mr. Tao does not enjoy the voting rights attached to the Shares of Shanghai Nasheng.

Save as disclosed above, as at the Listing Date, none of the Directors and chief executives of the Company had any interest or short position in the Shares, underlying Shares or debentures of the Company or its associated corporations which were required to be recorded in the register kept under Section 352 of the SFO or which were required to be notified to the Company and the Stock Exchange pursuant to the Model Code.

Interests and Short Positions of Substantial Shareholders in the Shares, Underlying Shares and Debentures of the Company or its Associated Corporations

As the Company's Shares were not yet listed on the Stock Exchange as of June 30, 2026, Divisions 2 and 3 of Part XV of the SFO and Section 336 of the SFO were not applicable to the substantial Shareholders of the Company.

As at the Listing Date, so far as is known to the Directors, the persons (other than the Directors and chief executives of the Company) who had an interest and/or short position in the Shares or underlying Shares which were required to be disclosed to the Company and the Stock Exchange under the provisions of Divisions 2 and 3 of Part XV of the SFO, or recorded in the register kept by the Company under Section 336 of the SFO, were as follows:

(6) Qiming Rongke is owned as to 1.11% by Suzhou Qiping as its general partner. The general partner of Suzhou Qiping is Suzhou Qiman, which is owned by Ms. Yu Jia and Ms. Xu Jing as to 50% each. Suzhou Qiping is also held as to approximately 96.15% of its partnership interest by Suzhou Qiyuan, its limited partner, which in turn is indirectly wholly-owned by Qiming China Limited (through Qiming China (LP) Limited and Qiming China (GP) Limited). Qiming China Limited is controlled as to 50% each by Mr. Kuang Duane Ziping and Grand Slam Ventures Limited (which is wholly-owned by Mr. Hu Xubo). Therefore, Suzhou Qiping, Suzhou Qiman, Ms. Yu Jia, Ms. Xu Jing, Suzhou Qiyuan, Qiming China (LP) Limited, Qiming China (GP) Limited, Qiming China Limited, Grand Slam Ventures Limited, Mr. Hu Xubo and Mr. Kuang Duane Ziping are deemed to be interested in the H Shares held by Qiming Rongke.

(7) SDIC Juli acts as the general partner of each of Hangzhou Juli No. 1 Equity Investment Partnership (Limited Partnership) ("**Juli No. 1**"), Chengdu Juli Zhongchan Equity Investment Fund Partnership (Limited Partnership) ("**Chengdu Juli**"), and Juli Hangshi (Hangzhou) Equity Investment Partnership (Limited Partnership) ("**Juli Hangshi**"). Therefore, SDIC Juli is deemed to be interested in the 30,856,832 H Shares held in aggregate by Juli No. 1, Chengdu Juli and Juli Hangshi.

As at the Listing Date, save as disclosed above, the Directors, supervisors and chief executives of the Company are not aware of any other person (other than the Directors or chief executives of the Company) who had an interest or short position in the Shares or underlying Shares which was required to be disclosed to the Company and the Stock Exchange under the provisions of Divisions 2 and 3 of Part XV of the SFO, or recorded in the register kept by the Company under Section 336 of the SFO.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

The H Shares of the Company were listed on the Main Board of the Stock Exchange on August 7, 2026. Since the Listing Date and up to the date of this report, neither the Company nor any of its subsidiaries has purchased, sold or redeemed any of the Company's listed securities (including the sale of any treasury shares). As at the date of this report, the Company did not hold any treasury shares.

COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE

As the H Shares of the Company were listed on the Main Board of the Hong Kong Stock Exchange on August 7, 2026, the code provisions as set out in Part 2 of the Corporate Governance Code were not applicable to the Company during the Reporting Period. During the period from the Listing Date to the date of this report, the Company has complied with all applicable code provisions of the Corporate Governance Code, save for the deviation described below. Pursuant to code provision C.2.1 of the Corporate Governance Code, the roles of the chairman and the chief executive officer should be separate and should not be performed by the same individual. The Company does not have a separate chairman and chief executive officer, and Mr. Tao Zhe currently serves in both roles. Mr. Tao has played an important leadership role in our Company's development. The Board believes that vesting the roles of both chairman of the Board and chief executive officer in the same person has the benefit of ensuring consistent leadership within the Group and enables more effective and efficient overall strategic planning for the Group. The Board considers that the balance of power and authority for the present arrangement will not be impaired, and this structure will enable the Company to make and implement decisions promptly and effectively. The Board will continuously review the effectiveness of the Group's corporate governance structure to assess the necessity of separating the roles of chairman of the Board and chief executive officer. The Company will continue to regularly review and monitor its corporate governance practices to ensure compliance with the Corporate Governance Code and to maintain the Company's high standards of corporate governance practices.

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code as its code of conduct for securities transactions by the Directors of the Company since the Listing Date. Having made specific enquiry of all Directors, they have confirmed that they have complied with the required standard set out in the Model Code during the period from the Listing Date to the date of this report.

SHARE INCENTIVE SCHEME

To establish a profit-sharing and risk-sharing mechanism between our Company, our employees and our Shareholders, to develop a long-term incentive and restriction mechanism, to incentivize and retain our key employees, and to achieve sustainable development of the Group, we adopted the share incentive scheme (the "**Share Incentive Scheme**") in November 2018 and amended in January 2022 to grant options and/or restricted shares (the "**Awards**") to the participants. The Share Incentive Scheme is not subject to the provisions of Chapter 17 of the Listing Rules as the Share Incentive Scheme does not involve the grant of options by our Company to subscribe for new Shares after the Listing. NASN LP and Shanghai Nasheng were established to serve as our employee incentive platforms. All Awards under the Share Incentive Scheme had been granted prior to the Listing Date, among which all Awards were granted in the form of restricted shares, and no share options had been granted. The Shares held by the employee incentive platforms are subject to the statutory lock-up period as provided under relevant laws and regulations. The Awards are subject to a one-or two-year lock-up period commencing from the Listing Date, during which the participants shall not in any way transfer, pledge or create encumbrance on any interests held by them in employee incentive platforms. After the expiration of the Lock-up Period, the participants are entitled to the right to transfer their interests in employee incentive platforms in accordance with their award agreement. For details of the Share Incentive Scheme, please refer to the Prospectus of the Company.

EVENTS AFTER THE REPORTING PERIOD

The H Shares of the Company were listed on the Main Board of the Stock Exchange on the Listing Date. In connection with the Global Offering, the Company has issued and allotted 57,594,500 H Shares at an offer price of HK$10.42 per H Share, and the net proceeds from the Global Offering were approximately HK$526.6 million. From the Listing Date, the liabilities associated with redemption rights were derecognized and reclassified to shareholders' equity. The Company conducted a share subdivision prior to the Listing, pursuant to which each share of the Company with a nominal value of RMB1.00 was subdivided into 16 shares with a nominal value of RMB0.0625 each. Save as disclosed above, there were no other material events affecting the Group from the end of the Reporting Period up to the date of this report.

USE OF PROCEEDS FROM THE GLOBAL OFFERING

The H Shares of the Company were listed on the Main Board of the Stock Exchange on the Listing Date. In connection with the Global Offering, the Company has issued and allotted 57,594,500 H Shares at an offer price of HK$10.42 per H Share, and the net proceeds from the Global Offering, after deducting the underwriting fees, commissions and estimated expenses payable by the Company in connection with the Listing, were approximately HK$526.6 million on a preliminary basis. As the H Shares of the Company were listed on the Main Board of the Stock Exchange on the Listing Date, there were no details on the use of proceeds from the Global Offering during the Reporting Period. As of the date of this report, there has been no change to the intended use and expected timeline of the net proceeds as disclosed in the section headed "Future Plans and Use of Proceeds" in the Prospectus in relation to the Global Offering. If the net proceeds are not immediately used for the intended purposes, the Company will deposit such funds into short-term interest-bearing accounts at licensed commercial banks and/or other authorized financial institutions (as defined under the Securities and Futures Ordinance or the applicable laws and regulations in other jurisdictions). As at the date of this report, the net proceeds have not been utilized.

AUDIT COMMITTEE

The Group has established an audit committee, which comprises three independent non-executive Directors, namely Mr. Fan Chi Chiu, Mr. Jiang Zhenyu and Dr. Wang Yao, with Mr. Jiang Zhenyu serving as the chairman. The Audit Committee has, together with the management of the Company, reviewed the unaudited condensed consolidated financial information of the Group for the Reporting Period (including the applicable accounting policies and standards adopted by the Group), and is of the opinion that such information has been prepared in accordance with the applicable Listing Rules and accounting standards.

1. CORPORATE INFORMATION

NASN Intelligent Tech (Zhejiang) Co., Ltd. (the "**Company**") was converted into a joint stock company with limited liability on 30 July 2025 and was listed on the Stock Exchange of Hong Kong Limited on 7 August 2026. The registered office of the Company is located at Floor 3, Building 1, No.358 Hongxing Road, Economic and Technological Development Zone, Xinjie Street, Xiaoshan District, Hangzhou, Zhejiang, the People's Republic of China ("**PRC**").

During the period, the Company and its subsidiaries (collectively, the "**Group**") engaged in the research and development, production and sale of brake-by-wire and steer-by-wire solutions.

2. BASIS OF PREPARATION

The interim condensed consolidated financial information for the six months ended 30 June 2026 has been prepared in accordance with IAS 34 Interim Financial Reporting. The interim condensed consolidated financial information does not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's Historical Financial Information as set out in the accountants' report included in Appendix I to the prospectus of the Company dated on 30 July 2026.

3. BASIS OF PRESENTATION

The interim condensed consolidated financial information of the Group for the six months ended 30 June 2026 has been prepared under the going concern basis notwithstanding the fact that, as at 30 June 2026, the Group had net current liabilities of approximately RMB1,438,783,000 and net liabilities of approximately RMB1,158,181,000, which primarily arose from the liabilities recognised for the redemption rights amounting to RMB1,972,521,000 as at 30 June 2026 granted to certain existing shareholders.

According to the provisions as stipulated in the capital investment agreements entered into between the Company and certain of the Company's existing shareholders, the Company was obliged to fully redeem the Company's share capital from these shareholders when the Company either fails to complete a qualified initial public offering before 31 December 2027 or upon occurrence of other specific events as set out in note 15.

Considering the Company's shares were listed on The Stock Exchange of Hong Kong Limited on 7 August 2026, these rights of redemption were terminated upon listing of the Company's shares and the redemption liabilities has been terminated with their amounts transferred to equity, the directors of the Company are of the opinion that the Group has sufficient financial resources to continue as a going concern for the next twelve months. Accordingly, the directors of the Company considered that it is appropriate to prepare the interim condensed consolidated financial information of the Group for the six months ended 30 June 2026 on a going concern basis.

4. CHANGES IN ACCOUNTING POLICIES

The accounting policies adopted in the preparation of the interim condensed consolidated financial information are consistent with those applied in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2025, except for the adoption of the following amended IFRS Accounting Standards for the first time for the current period's financial information.

Amendments to IFRS 9 and IFRS 7	*Amendments to the Classification and Measurement of Financial Instruments*
Amendments to IFRS 9 and IFRS 7	*Contracts Referencing Nature-dependent Electricity*
Annual Improvements to IFRS Accounting Standards — Volume 11	Amendments to IFRS 1, IFRS 7, IFRS 9, IFRS 10 and IAS 7

The nature and impact of the amended IFRS Accounting Standards are described below:

(a) Amendments to IFRS 9 and IFRS 7 *Amendments to the Classification and Measurement of Financial Instruments* clarify that a financial asset is derecognised when the entity's rights to the contractual cash flows expire or are transferred, while a financial liability is derecognised on the settlement date. The amendments introduce an accounting policy option to derecognise a financial liability that is settled through an electronic payment system before the settlement date if specified criteria are met. The amendments clarify how to assess the contractual cash flow characteristics of financial assets with environmental, social and governance and other similar contingent features. Moreover, the amendments clarify the requirements for classifying financial assets with non-recourse features and contractually linked instruments. The amendments also include additional disclosures for investments in equity instruments designated at fair value through other comprehensive income and financial instruments with contingent features. Since the Group's accounting policy for the derecognition of financial assets and liabilities in prior years aligned with the amendments and the Group did not have the financial assets that were addressed by the amendments, the amendments did not have any impact on the interim condensed consolidated financial information.

4. CHANGES IN ACCOUNTING POLICIES (Continued)

(b) Amendments to IFRS 9 and IFRS 7 *Contracts Referencing Nature-dependent Electricity* clarify the application of the "own-use" requirements for in-scope contracts and amend the designation requirements for a hedged item in a cash flow hedging relationship for in-scope contracts. The amendments also include additional disclosures that enable users of financial statements to understand the effects these contracts have on an entity's financial performance and future cash flows. As the Group did not have any contracts that are in the scope of the amendments, the amendments did not have any impact on the interim condensed consolidated financial information.

(c) *Annual Improvements to IFRS Accounting Standards* — Volume 11 set out narrow scope amendments to IFRS 1, IFRS 7 (and the accompanying Guidance on implementing IFRS 7), IFRS 9, IFRS 10 and IAS 7. The amendments include clarifications, simplifications, corrections or changes to improve consistency in the corresponding IFRS Accounting Standards. The amendments did not have any impact on the interim condensed consolidated financial information.

5. OPERATING SEGMENT INFORMATION

The Group manages its businesses as a whole by the most senior executive management for the purposes of resource allocation and performance assessment. The Group's chief operating decision maker is the chief executive officer of the Group who reviews the Group's consolidated results of operations for the purpose of making decisions about resource allocation and performance assessment. Accordingly, no reportable segment information is presented.

Geographical information

All the non-current assets of the Group are physically located in the Chinese mainland. The geographical location of customers is based on the location at which the customers operate, and almost all of the revenue of the Group was derived from operations in the Chinese mainland during the reporting periods.

8. INCOME TAX

The Group is subject to income tax on an entity basis on profits arising in or derived from the jurisdictions in which members of the Group are domiciled and operate.

Chinese mainland

The subsidiaries established in the Chinese mainland are subject to tax at the statutory rate of 25% on the taxable profits determined in accordance with the Corporate Income Tax Law, except for those entitled to preferential tax rates set out below.

NASN Intelligent Tech (Zhejiang) Co., Ltd. and Hangzhou Nasn Auto Co., Ltd. (subsidiary of the Company) were granted the qualification of High and New Technology Enterprises ("**HNTEs**") and entitled to preferential income tax rate of 15% for the six months ended 30 June 2025 and 2026.

Chengdu Nasn Auto Co., Ltd. and Shanghai Nasn Auto Technology Co., Ltd. (subsidiaries of the Company) have applied the Small-Scaled Minimal Profit Corporate Income Tax Preferential Policy announced by the State Administration of Taxation. Pursuant to the policy, during the period from 1 January 2022 to 31 December 2027, the subsidiaries are entitled to a preferential effective income tax rate of 5%.

Taxes on profits assessable elsewhere have been calculated at the rates of tax prevailing in the jurisdiction in which the Group operates.

Financial costs associated with redemption liabilities	**70,939**
As at 30 June 2026 (unaudited)	**1,972,521**

Certain registered statutory shareholders of the Company (the "**Pre-IPO Investors**") have been granted the rights to require the Company to redeem their shares upon the occurrence of any of the following events, including but not limited to:

(i) the Company's failure to complete a qualified initial public offering ("**IPO**") or a sale of the Company's entire business before 31 December 2027;

(ii) malpractice conducted or non-compliance adhering to virtue of integrity or illegal activities by the Company's key management personnel and major shareholders.

The Company provided a guarantee in respect of redemption right granted by Mr. Tao Zhe (the chairman of the board of directors of the Company), Ms. Liu Qian (the director of the Company) and Shanghai NASN Enterprise Management Partnership (Limited Partnership) ("**NASN LP**"), pursuant to which, if the Pre-IPO Investors requires Mr. Tao Zhe, Ms. Liu Qian and/or NASN LP to perform the repurchase obligation, the Company shall assume joint and several guarantee liability in respect of the payment obligations for the repurchase price.

The amount payable by the Company, Mr. Tao Zhe, Ms. Liu Qian and/or NASN LP to redeem the aforesaid share capital subject to redemption would be the sum of 100% of the amount originally paid up by those equity holders plus a compound interest of 8% per annum, and any declared but unpaid dividends of the Company.

The redemption right granted by the Company and the guarantee provided by the Company gave rise to financial liabilities, which have been measured at amortised cost and were initially measured at the carrying amount of the redemption amount.

On 7 August 2026, the Company's shares were listed on the Stock Exchange of Hong Kong Limited and the liabilities associated with the redemption rights related to the ordinary shares were terminated and the amount has been transferred to equity.

At end of period	**33,587**	32,758

On 31 May 2025, an aggregate amount of capital of RMB2,805,000 was paid up in cash to the Company and credited to the paid-in capital.

On 30 September 2025, an aggregate amount of capital of RMB99,764,000 was paid up in cash to the Company, net of share issue expense of RMB236,000. The aggregate amounts of RMB829,000 and RMB98,935,000 were credited to the Company's share capital and capital reserve, respectively. The foregoing shares issued to investors were granted the redemption right by the Company.

Pursuant to the shareholders' resolution dated 30 July 2025, the shareholders of the Company agreed to convert the Company into a joint stock company with limited liability with registered capital of RMB32,758,000. The net assets of the Company as of the conversion base date were converted into 32,758,000 ordinary shares of RMB1.0 each and issued to the shareholders of the Company in proportion to their then capital contributions to the Company. The difference between the net asset value of the Company and the par value of shares issued was debited to the capital reserve.

17. SHARE-BASED PAYMENTS

To provide incentives and rewards to eligible participants who contribute to the Group's operation, Mr. Tao Zhe, a founder and shareholder of the Company established and operate several employee incentive platforms through setting up limited partnership entities for the Company to operate a series of employee incentive schemes (the "**Schemes**"). Eligible participants of the Schemes, including members of senior management, mid-level managers and other employees of the Group, were determined by Mr. Tao Zhe of the respective employee incentive platforms and approved by the Company's board of directors.

In 2025, the Company granted 613,583 shares of the Company, respectively, to 35 eligible employees at subscription prices from RMB1 to RMB59.14. The fair values of the shares at the dates of grants were determined by an external valuer taking into account the terms and conditions upon which the shares were granted. The Group has used the discounted cash flow method to determine the underlying equity fair value of the Company and adopted equity value allocation model to determine the fair value of the underlying shares. Key assumptions, such as discount rate, risk-free interest rate, expected volatility and projections of future performance, are required to be determined by the Group with best estimate. Key assumptions are set out below:

Grant date	2025
Risk-free interest rates	1.5%
Expected volatility	40.5%
Dividend yield	0%

The differences between the fair value of the shares granted and the subscription prices were recorded in the share-based payment reserve within equity with the corresponding "share-based payment expenses" in profit or loss.

20% of the shares granted to employees shall be vested and become exercisable after the completion of the successful IPO of the Company. The remainder of the shares shall vest and become exercisable when the following conditions are met: (i) after the completion of IPO of the Company; and (ii) the expiration of the corresponding service periods. Service conditions are included in assumptions about the number of shares that are expected to vest. After taking into consideration the best estimation of the date of the IPO and the number of shares that are expected to vest, the vesting period will be reviewed and determined by management and the share-based payment expenses will be amortised during the vesting period.

The redemption right granted by the Company and the guarantee provided by the Company gave rise to financial liabilities, which were measured at amortised cost and were initially measured at the carrying amount of the redemption amount. Further details of the redemption liabilities are included in note 15 to the interim condensed consolidated financial information.

21. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

Management has assessed that the fair values of cash and cash equivalents, the current portion of time deposits, pledged deposits, trade and bills receivables, financial assets included in prepayments, other receivables and other assets, trade payables, financial liabilities included in other payables and accruals, amounts due to related companies, interest-bearing bank borrowings and redemption liabilities approximate to their carrying amounts largely due to the short term maturities of these instruments.

The fair values of the non-current portion of time deposits have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The changes in fair value as a result of the Group's own non-performance risk for time deposits as at the end of each of the reporting periods were assessed to be insignificant.

21. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (Continued)

The Group's finance department headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The finance manager reports directly to the chief financial officer. At each reporting date, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief financial officer.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Group invests in financial investments at fair value through profit or loss, which represent structured deposits and wealth management products issued by banks in the Chinese mainland. The Group has estimated the fair value of these structured deposits and wealth management products by using discounted cash flow valuation models with reference to observable inputs including fluctuations of market prices or valuation models with reference rates.

The Group has bills receivable issued by banks in the Chinese mainland measured at fair value through other comprehensive income. The Group has estimated the fair value of these bills receivable by using a discounted cash flow valuation model based on the market interest rates of instruments with similar terms and risks.
