1 BASIS OF PREPARATION

The unaudited condensed consolidated financial statements have been prepared in accordance with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”), and with HKAS 34 *Interim financial reporting* issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”). It was authorised for issuance on 25 August 2026.

The financial statements relating to the year ended 31 December 2025 that is included in the condensed consolidated interim financial statements for the six months ended 30 June 2026 as comparative information does not constitute the Company's statutory annual consolidated financial statements for that year. Further information relating to these statutory financial statements required to be disclosed in accordance with section 436 of the Hong Kong Companies Ordinance (Cap. 622) is as follows:

The Company has delivered the financial statements for the year ended 31 December 2025 to the Registrar of Companies as required by section 662(3) of, and Part 3 of Schedule 6 to, the Hong Kong Companies Ordinance (Cap. 622).

The Company's auditor has reported on those financial statements. The auditor's report was unqualified; did not include a reference to any matters to which the auditor drew attention by way of emphasis without qualifying its report; and did not contain a statement under sections 406(2), 407(2) or (3) of the Hong Kong Companies Ordinance (Cap. 622).

The presentation of financial statements in conformity with HKFRS Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies.

The measurement basis used in the preparation of the condensed financial statements is the historical cost basis except that the following assets and liabilities are stated at fair value or measured primarily based on actuarial methods as explained in the accounting policies set out in the Group's annual financial statements for the year ended 31 December 2025:

11 INCOME TAX CHARGES (Continued)

On 22 December 2025, the Ministry of Finance (MOF) and the State Taxation Administration (STA) issued the “Notice on Matters Concerning Enterprise Income Tax Treatment in Relation to the Transition to the Insurance Contracts Standard” (MOF and STA Announcement No.15 [2025]), clarified the enterprise income tax treatment in the course of enterprises’ implementation of Accounting Standard for the Business Enterprises No.25 – Insurance Contracts (Cai Kuai [2020] No.20) issued by the MOF. This notice is applicable to the insurance enterprises incorporated in Mainland China of the Group.

The Group is subject to the global minimum top-up tax under the Pillar Two model rules published by the Organisation for Economic Co-operation and Development. The Government of Hong Kong SAR gazetted the Inland Revenue (Amendment) (Minimum Tax for Multinational Enterprise Groups) Ordinance 2025 (“the 2025 Amendment Ordinance”) to implement the Income Inclusion Rule (IIR) and Hong Kong Minimum Top-up Tax (HKMTT), which take effect for fiscal years beginning on or after 1 January 2025. Other than Hong Kong, certain jurisdictions in which subsidiaries of the Group operate have also enacted the local Pillar Two legislation that is effective for the Period. Current tax expense related to Pillar Two income taxes was recognised for the Period accordingly.

The Group has applied the temporary mandatory exception to recognising and disclosing information about deferred tax assets and liabilities related to Pillar Two income taxes and accounted for the tax as current tax when incurred.

At 30 June 2026, the Group did not recognise deferred tax assets in respect of certain tax losses of \$30,308,613,000 (31 December 2025: \$28,979,584,000) and certain temporary differences of \$938,019,000 (31 December 2025: \$798,905,000). \$20,083,912,000 (31 December 2025: \$19,002,780,000) of the total tax losses can be carried forward up to five years after the year in which the loss was originated to offset future taxable profits, while the remaining tax losses and temporary differences do not expire under current tax legislation.

- (ii) The Group's inventories comprise raw materials, product in progress, other supplemental materials and lands purchased that have been set to be used to build properties for sale by a subsidiary.
- (iii) The Group had lost control over Hong Kong Financial Transactions and Services Limited ("HKFTS"), previously a subsidiary, as a result of share allotment during 2025. After the share allotment, the Group retained 40% equity interest in HKFTS and classified as an associate. As at 30 June 2026, the disposal of its entire equity interest in HKFTS with an independent third party is still under negotiation and considered the sale highly probable. The transaction is expected to be completed within 2026. Therefore, HKFTS has been classified as held-for-sale asset.

註：

- (i) 於2026年6月30日，賬面值為13,148,000元的經營租賃租金應收款(2025年12月31日：無)抵押予金融機構作為銀行授信安排的抵押物。
- (ii) 本集團的存貨主要包括原材料、在建產品、週轉材料等以及附屬公司所購入的土地，並已決定將其用於建成以出售為目的的物業。
- (iii) 於2025年，由於本集團先前之附屬公司香港金融交易及服務有限公司(以下簡稱「金交所」)進行股份配發，本集團對其不再具有控制權。股份配發後，本集團持有金交所40%之股權，並將其重新分類為聯營公司。於2026年6月30日，本集團仍在與獨立第三方磋商，擬出售其於金交所之全部股權，並認為該出售事項極可能達成。該交易預計將於2026年內完成。因此，本集團將其分類為持作出售之資產。

31 INSURANCE AND FINANCIAL RISK MANAGEMENT (Continued)

(d) Insurance risk

(i) Life insurance business

Concentration of insurance risks

Concentration risk is the risk of incurring a major loss as a result of having a significant mortality or other insurance coverage on a particular person or a group of persons due to the same event. The Group manages the concentration of insurance risks by way of reinsurance arrangements with a maximum retention risk of RMB500,000 per person in life and personal accident policies and RMB200,000 on critical illness insurance. In addition, the Group purchases catastrophe protection for losses arising from claims involving multiple lives from the same event. The maximum retention risk is RMB1 million for each and every loss occurrence, and the total coverage is RMB100 million for each and every loss occurrence. The Group purchases surplus treaties and proportional treaties to cover life, accident and long term health risks. In addition, an excess of loss reinsurance contract is applied for any insurance contract with significant sum insured.

Management of risks

The key risk associated with life insurance contracts is the risk of potential loss arising with respect to a particular insurance product as a result of actual market conditions and loss experience being different from the assumed market conditions and loss experience used when designing and pricing the product.

The Group manages the risks by centralising the product design function at the head office level, headed by the chief appointed actuary and senior management in other key functional departments. Standards and guidelines are established to ensure that the risks associated with particular products are within the acceptable level. The pricing method, the solvency requirement, the profit margin, the loss experience are key considerations in designing a product.

In addition, the underwriting and claim processing departments strictly follow the established standards and procedures.

(d) 保險風險

(i) 人壽保險業務

保險風險集中

風險集中指本集團因相同事件造成特定人士或一群人士發生重大死亡或屬於其他承保範圍而蒙受重大損失的風險。本集團透過再保險安排以管理集中風險，壽險及個人意外保單的最高自留金限額風險為每人500,000元人民幣，重大疾病保險的最高自留金限額風險為每人200,000元人民幣。此外，本集團就同一事故造成涉及人數眾多的保險賠款而產生的巨額賠償購買巨災保障保險。每宗事故的最高自留限額風險為100萬元人民幣，而保障上限為1億元人民幣。本集團購買溢額合約保險及比例合約保險以保障壽險、意外風險保險及長期健康保險。此外，任何受保的重大金額保險合同均安排了超額賠款再保險合同。

風險管理

壽險合約的主要風險為實際市場狀況導致特定保險產品產生潛在虧損，以及賠付經驗與假設的市場狀況及設計及定價產品所使用的賠付經驗不同而引致的潛在賠付風險。

本集團透過總部將產品設計功能集中化以管理風險，由委任的首席精算師及其他職能部門的高級管理層領導，設立標準及指引以確保特定保險產品的相關風險皆於可接受範圍內。定價方法、償付能力清償規定、利潤率及賠付經驗均是設計保險產品時考慮的關鍵因素。

此外，承保及賠款處理部門嚴格遵守既定的標準及程序。

31 INSURANCE AND FINANCIAL RISK MANAGEMENT (Continued)

(d) Insurance risk (Continued)

(ii) Property and casualty insurance business

Concentration of insurance risks

Within the insurance process, concentration of risk may arise where a particular event or series of events could impact heavily upon the Group's liabilities. Such concentrations may arise from a single insurance contract or through a small number of related contracts, and relate to circumstances where significant liabilities could arise.

Management of risks

The Group delegates underwriting authority to experienced underwriters. Each underwriting department has an underwriting manual for each class of business. The underwriting manual is approved by the Business Management Committee and specifies the authority of underwriters at each level. Each underwriting manual clearly states the insurable risk, risks that can be insured on a limited scale and uninsurable risk as well as the probable maximum loss which underwriters at each level can underwrite. Risks that exceed the underwriting authority of the head of the underwriting department have to be reviewed and approved by the Business Management Committee. For claims handling, there is a procedures manual that lays down the operational procedures and controls required to mitigate the insurance risk.

The Group also arranges both treaty reinsurance and facultative reinsurance in accordance with international practice. Treaty reinsurance provides automatic reinsurance cover under specific reinsurance contract terms and conditions. Facultative reinsurance is reinsurance of individual risk. Each contract is arranged separately. The choice of reinsurance contract depends on market conditions, market practice and the nature of business. Facultative reinsurance is arranged when an individual risk is not covered by treaty reinsurance or exceeds treaty reinsurance capacity and exceeds its own underwriting capacity.

保險風險集中

在保險程序中，集中的風險可能令當特定事件或一連串事件出現時嚴重影響本集團的負債。該等集中可能因單一保險合同或透過少量有關連合約引起，和涉及引起重大負債的情況。

風險管理

本集團把承保權委託給有經驗之核保人。每個承保部門在每個業務種類均有承保手冊。承保手冊經業務管理委員會核准及明確說明各個級別的核保人之權力。每本承保手冊清楚載列可承保之風險、限制承保之風險及禁止承保之風險、以及各級別核保人可承保之最大可能賠付。超越承保部門主管承保權之風險需由業務管理委員會審閱及核准。在賠款處理方面，程序手冊載列有需要之營運程序及控制以減輕保險風險。

本集團亦根據國際慣例安排合約分保及臨時分保。合約分保於特定再保險合同條款下提供自動再保險保障。臨時分保為個別風險之分保。每份合約皆個別洽商。再保險合同按市場狀況、市場慣例及業務性質選擇。當個別風險沒有在合約分保涵蓋或超出合約分保的容量且超出自身承保能力及承受能力時，將安排臨時分保。

Management of risks

The key risks associated with reinsurance contracts are those relating to underwriting.

The Group maintains underwriting teams who are responsible for the underwriting and sales of the Group's reinsurance products. The team promoting a certain product to a customer has the requisite expertise to determine whether the Group can meet the specific requirement of the customer within the Group's risk appetite. All inward business is screened and analysed by the underwriting staff. The decision to underwrite and the level of risk exposure accepted are determined by reference to the underwriting guideline setting out the types of business desired, and the maximum capacity per risk. Such criteria are determined by considering factors including the risk exposure, the pricing, the profit potential, the class of business, the marketing strategy, the retrocession facilities available and the market trends.

The Group arranges pro rata and excess of loss retrocessions for its different lines of reinsurance business, in order to enhance its underwriting capacity as well as to harmonise its net retained exposures. Proportional retrocessions have been arranged in respect of its non-marine reinsurance business from the Asia-Pacific territories. In addition, a series of excess of loss retrocession covers are also arranged to protect the Group against major catastrophic events.

保險風險集中

風險集中因特定業務種類與地理區域的風險累積而產生。本集團管理該等風險的主要方法為分散保費總額的業務種類及地區。

風險管理

再保險合同的主要風險為與承保相關的風險。

本集團設有若干承保團隊負責承保及銷售本集團的再保險產品。向客戶推銷一種特定產品的團隊擁有專門技術，從而釐定本集團能否在本集團既定的風險承擔範圍內滿足客戶的特定要求。承保人員會篩選及分析所有承接的業務。承保的決定及風險水平參照以下各項釐定：承保指引設定所需業務的類型、每種風險及每區的最大承保能力。該等標準經考慮多種因素後釐定，包括風險因素、定價、盈利潛力、業務類別、市場推廣策略、可用轉分保險及市場趨勢等。

本集團亦安排比例及超賠轉分保險以擴大承保能力，並同時可優化自留風險。對亞太地區的非水險再保險業務，本集團安排了比例轉分保險。此外，本集團的巨災風險現時通過一系列超賠轉分保險的方式保障。

(e) Financial risk

Transactions in financial investments and insurance assets/liabilities may result in the Group assuming financial risks. These include market risk, credit risk and liquidity risk. Each of these financial risks is described below, together with a summary of the ways in which the Group manages these risks.

There is no significant change in the Group's exposures to risk and how they arise, nor the Group's objectives, policies and processes for managing each of these risks.

(i) Market risk

Market risk can be described as the risk of change in fair value of a financial instrument due to changes in interest rates, equity prices or foreign currency exchange rates. The objective of market risk management is to control market risk exposures within acceptable parameters while optimising the return on risk.

(e) 財務風險

金融投資和保險資產／負債的交易可能導致本集團承擔財務風險。這些風險包括市場風險、信用風險和流動性風險。下文描述了這些財務風險中的每一項，以及本集團管理這些風險的方式的摘要。

本集團的風險敞口和風險產生的方式，以及本集團管理每項風險的目標、政策和程序，都沒有重大變化。

(i) 市場風險

市場風險可以描述為由於利率、股票價格或外幣匯率的變化而導致金融工具公允價值變化的風險。市場風險管理的目標是將市場風險敞口控制在可接受的參數範圍內，同時優化風險回報率。

31 INSURANCE AND FINANCIAL RISK MANAGEMENT (Continued)

(e) Financial risk (Continued)

(i) Market risk (Continued)

Market risk principally arises from the Group's equity investments, interest-bearing financial assets and financial liabilities, and financial assets and financial liabilities denominated in foreign currencies, but these exposures are largely offset by similar exposures arising from insurance and reinsurance contracts. The nature of the Group's business and asset-liability matching processes means that it is exposed to market risk on net assets representing shareholders' equity. Interest rate risk also arise from guarantees in the Group's insurance and investment contracts to the extent that they are not economically hedged or borne by contract holders.

(a) Interest rate risk

Interest rate risk is risk to the earnings or market value of a fixed-rate financial instrument due to uncertain future market interest rates. Some of the contracts issued by the Group contain interest rate guarantees.

The Group monitors this exposure through periodic reviews of its financial instruments and closely matching, where possible, the durations of insurance contracts with fixed and guaranteed terms and the supporting financial assets. Estimates of cash flows, as well as the impact of interest rate fluctuations relating to the investment portfolio are modelled and reviewed periodically.

The Group is exposed to fair value interest rate risk in relation to the debt investments measured at FVPL and FVOCI, and the measurement of net reinsurance contract assets and net insurance contract liabilities.

(i) 市場風險 (續)

市場風險主要來自本集團的權益投資、計息金融資產和金融負債以及以外幣計價的金融資產和金融負債，但這些風險在很大程度上被保險和再保險合同產生的類似風險所抵消。本集團的業務性質和資產負債匹配流程意味著其面臨代表股東權益的淨資產的市場風險。本集團保險和投資合同中的擔保也會產生利率風險，只要這些擔保沒有進行經濟對沖或由合同持有人承擔。

(a) 利率風險

利率風險是指由於不確定的未來市場利率而導致的固定利率金融工具的收益或市場價值的風險。本集團發行的部分合同含有利率保證。

本集團通過對其金融工具的定期審查來監測這一風險，並在可能的情况下，將保險合同的期限與固定和保障條款以及支持性金融資產密切匹配，來監測這一風險敞口。對現金流的估計，以及與投資組合有關的利率波動的影響都被模擬和定期審查。

本集團面臨著與按以公允價值計量且其變動計入損益和以公允價值計量且其變動計入其他綜合收益的債務投資以及再保合同淨資產和保險合同淨負債的計量有關的公允價值利率風險。

(b) Equity price risk

The Group has a portfolio of marketable equity securities, which is carried at fair value and is exposed to price risk. This risk is defined as the potential loss in market value resulting from an adverse change in prices.

The Group manages the equity price risk by investing in a diverse portfolio of high quality and liquid securities. The Group does not have a significant concentration of equity price risk.

As at 30 June 2026, the Group's investment in equity securities and investment funds was carried at a fair value of \$367,335,008,000 (31 December 2025: \$301,937,976,000), representing approximately 20% (31 December 2025: approximately 18%) of total investments held by the Group.

(c) Foreign exchange risk

The Group is exposed to foreign currency transaction risk to the extent that the currencies in which insurance and reinsurance contracts and financial instruments are denominated differ from the functional currencies of Group entities.

In respect of the life insurance and property and casualty insurance business in the PRC, premiums are received in RMB and the insurance regulation in the PRC requires insurers to hold RMB assets. Therefore, the foreign exchange risk in respect of RMB for the Group's PRC operations is not significant in the condensed consolidated statement of profit or loss.

本集團通過投資於高質量和高流動性證券的多樣化組合來管理權益價格風險。本集團不存在顯著的權益價格集中度風險。

本集團在股本證券和投資基金的投資於2026年6月30日以公允價值367,335,008,000元(2025年12月31日：301,937,976,000元)入賬，佔本集團所持總投資資產的比例約20%(2025年12月31日：約18%)。

(c) 外匯風險

當保險和再保險合同及金融工具的計價貨幣與本集團實體的功能貨幣不同，本集團將面臨外匯風險。

就在內地之人壽保險業務及財產保險業務而言，保費以人民幣計值，而中國保險法例規定保險公司須持有人民幣資產。因此，本集團的內地業務有關人民幣的外匯風險對簡明綜合損益表的影響並不重大。

In respect of the property and casualty insurance business in Macau, UK, Luxembourg, Singapore and Indonesia and reinsurance business, the foreign exchange risks in such various currencies are not significant in the condensed consolidated statement of profit or loss.

(ii) Credit risk

Credit risk is the risk of economic loss resulting from the failure of one of the obligors to make full payment of principal or interest when due.

The Group is exposed to credit risks primarily associated with debt investments measured at amortised cost and FVOCI, and finance lease receivables. The statutory deposits, pledged and restricted bank deposits, cash and cash equivalent and amounts due from group companies and other assets are subject to ECL requirement, the identified impairment allowance was immaterial.

The Group internally grades financial assets based on the credit quality, risk characteristics and the Group's internal credit control policy.

Credit risk management practices

The risk level of the various investment sectors is continuously monitored with the investment mix adjusted accordingly. In respect of the debt securities and debt products invested by life insurance and property and casualty insurance business in the PRC, the investment procedures manual, which is managed by an investment committee, includes the minimum acceptable credit rating of the issuers as required by the NFRA. Any non-compliance or violation of the manual will be followed up and rectification action will be taken immediately.

The Group does not have any significant concentration of counterparty credit risk arising from the investments in debt securities since the investment portfolio is well diversified.

The credit risk associated with reinsurance companies is managed by regular evaluation of the credit quality of the relevant reinsurers. In addition, majority of the reinsurers' share of insurance contract provisions are held under a net settlement arrangement against the corresponding insurance creditor balances with the same reinsurer.

Judgement of significant increase in credit risk

In determining whether the credit risk of a financial asset has increased significantly since initial recognition, the Group evaluates the credit risk at initial recognition and also whether there is any significant increase in credit risk for each reporting period.

The Group considers individual financial asset or financial assets with similar credit risk characteristics to determine ECL staging by comparing the credit risk of the financial asset at reporting date with the credit risk at initial recognition. Various reasonable supporting information are used to judge if there is significant increase in credit risk, including forward-looking information, when determining the ECL staging for financial assets.

由於投資組合多元化，本集團不存在因債務證券投資而產生的重大集中交易對手信用風險。

再保險公司的信用風險是通過定期評估相關再保險人的信用品質來管理的。此外，再保險人在保險合同撥備中的大部分份額是根據與同一再保險人的相應保險債權人餘額的淨結算安排持有的。

The Group assess significant increase in credit risk as at each reporting date based on available reasonable and supportive forward-looking information such as but not limited to:

- External credit rating (as far as available);
- Actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the issuer's ability to meet its obligations;
- Actual or expected significant changes in the operating results of the issuer;
- Significant increase in credit risk on other financial instruments issued by the same issuer; and
- Significant changes in the value of the collateral supporting the financial asset or the quality or third party guarantees or credit enhancements.

- 外部信用評級（如可用）；
- 業務、財務或經濟狀況的實際或預期的重大不利變化，預計會導致發行人履行義務的能力發生重大變化；
- 發行人經營業績的實際或預期的重大變化；
- 同一發行人發行的其他金融工具的信用風險顯著增加；以及
- 支持金融資產的抵押品的價值或第三方擔保或增信措施的品質發生重大變化。

Judgement of credit-impaired assets

At each reporting date, the Group assesses whether financial assets measured at amortised cost, debt investments at FVOCI and lease receivables are credit-impaired. A financial asset is credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- Internal credit rating is default grade; or
- The lender gives the borrower concessions for economic or contractual reasons due to the debtor financial difficulties, where such concessions are normally reluctant to be made by the borrower; or
- Significant financial difficulty of the issuer or counterparty; or
- It becoming probable that the borrower will enter bankruptcy or financial re-organisation; or
- Disappearance of an active market for that financial asset because of financial difficulties.

A financial asset that has been renegotiated due to a deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment.

對信用受損資產的判斷

一個金融資產的信用受損的證據包括以下可觀測數據：

- 內部信用評級為損失級；或
- 借款人希望債權人因財政困難做出經濟上或合約上的讓步，但債權人通常難以接受此讓步；或
- 發債人有顯著的財政困難；或
- 借款人有可能破產或重組；或
- 因財政困難，該金融資產不再在活躍市場上交易。

通常，由於借款人狀況惡化而重新商定的金融資產通常被視為信用受損，除非有證據表明無法獲得合同現金流的風險已大幅降低，並且沒有其他減值跡象。

In assessing whether an investment in sovereign debt is credit-impaired, the Group considers the following factors:

- the market's assessment of creditworthiness as reflected in bond yields;
- the rating agencies' assessments of creditworthiness;
- the country's ability to access the capital markets for new debt issuance;
- the probability of debt being restructured, resulting in holders suffering losses through voluntary or mandatory debt forgiveness; and
- the international support mechanisms in place to provide the necessary support as "Lender of Last Resort" to that country, as well as the intention, reflected in public statements, of governments and agencies to use those mechanisms, including an assessment of the depth of those mechanisms and, irrespective of the political intent, whether there is the capacity to fulfil the required criteria.

The financial asset is considered credit-impaired when the counterparty fails to make contractual payments within 90 days of when they fall due.

- 債務重組的概率，通過自願或強制債務豁免導致持有人遭受損失；以及

Modified financial assets

The contractual terms of a financial asset may be modified for a number of reasons, including changing market conditions and other factors not related to a current or potential credit deterioration of the debtor. An existing financial asset whose terms have been modified may be derecognised and the renegotiated asset recognised as a new financial asset at fair value plus eligible transaction costs in accordance with the accounting policies set out in the Group's annual financial statements for the year ended 31 December 2025. The new asset is allocated to Stage 1 (assuming that it is not credit-impaired at the date of modification).

When the terms of a financial asset are modified and the modification does not result in derecognition, the determination of whether the asset's credit risk has increased significantly reflects a comparison of:

- its internal credit rating as at the reporting date based on the modified terms; with
- the internal credit rating based on data on initial recognition and the original contractual terms.

Inputs, assumptions and techniques used for estimating impairment

The parameters and assumptions involved in ECL model are described below:

For financial assets with or without significant increase in credit risk, lifetime or 12 months expected credit losses are provided respectively. ECL is the result of discounting the product of Exposure at Default ("EAD"), Probability at Default ("PD") and Loss Given Default ("LGD").

EAD: EAD is based on the amounts of the Group expects to be owed at the time of default, over the next 12 months or over the remaining lifetime.

PD: PD represents the likelihood of a borrower defaulting on its financial obligation, either over the next 12 months or over the remaining lifetime of the obligation, depending on whether the financial asset has significant increase in credit risk since initial recognition or is assessed to be credit-impaired as described above. PD for each internal credit rating is determined by the Group's Credit Rating Center and is reviewed annually.

LGD: LGD represents the Group's expectation of the extent of loss on default exposure. LGD varies type of financial asset, type of counterparty, seniority of claim and availability of collateral or other credit support. LGD is expressed as a percentage loss per unit of exposure at EAD. The Group determines LGD taking into consideration publications by Basel Committee on Banking Supervision and Moody's, adjusted based on the financial condition of the borrower and the Group's experience studies.

The Group makes adjustment to the probability of default taking into consideration historical default rates and adjusts for forward-looking macroeconomic data. There were no significant changes to estimation techniques or assumptions made during the Period.

用於估計減值的輸入值、假設和技術

預期信用減值損失模型涉及的參數和假設描述如下：

對於信用風險有或沒有顯著增加的金融資產，分別提供整個期限或12個月的預期信用減值損失。預期信用減值損失是對違約風險敞口（「EAD」）、違約概率（「PD」）和違約損失率（「LGD」）的乘積進行折現的結果。

EAD：EAD是基於在違約時，本集團在未來12個月內或在剩餘期限內預期被虧欠的金額。

PD：PD代表借款人在未來12個月內或在債務的剩餘期限內違約的可能性，這取決於金融資產自初始確認以來信用風險是否大幅增加或被評估為上述的信用受損。每個內部信用評級的PD由集團的信用評級中心確定，並每年審查。

LGD：LGD代表本集團對違約風險的損失範圍的預期。LGD因金融資產的類型、交易對手的類型、賠款的優先權和抵押品或其他信貸支持的可用性而不同。LGD以EAD的每單位風險的損失百分比表示。本集團在確定LGD時考慮了巴塞爾銀行監管委員會和穆迪的出版物，並根據借款人的財務狀況和本集團的經驗研究進行調整。

本集團考慮到歷史違約率，根據宏觀經濟前瞻性數據，對違約概率進行調整。本財務期對於估計調整的技術和假設沒有發生重大變化。

Incorporation of forward-looking information

The Group incorporates forward-looking information into both its assessment of whether the credit risk of an instrument has increased significantly since initial recognition and its measurement of ECL. External information including economic data and forecasts published by governmental bodies and monetary authorities in the countries where the Group operates would be considered when incorporating the forward-looking information.

(iii) Liquidity risk

The Group has to meet daily calls on its cash resources, notably from claims arising from its life insurance contracts, property and casualty insurance contracts and reinsurance contracts. There is, therefore, a risk that cash will not be available to settle liabilities when due.

The Group manages this risk by formulating policies and general strategies of liquidity management to ensure that the Group can meet its financial obligations in normal circumstances and that an adequate stock of high-quality liquid assets is maintained in order to contain the possibility of a liquidity crisis.

Apart from liquidity management and regulatory compliance, the Group always strives to maintain a comfortable liquidity cushion as a safety net for coping with unexpected large funding requirements and to maintain a contingency plan to be enacted should there be a company specific crisis.

前瞻性資訊的考慮

本集團在評估一項工具的信用風險自初始確認以來是否大幅增加以及計量預期信用減值損失時，都考慮了前瞻性資訊。在考慮前瞻性資訊時，外部資訊包括本集團經營所在國家的政府機構和貨幣當局公佈的經濟數據和預測會被考慮。

(iii) 流動性風險

本集團須滿足其現金資源的日常調用，特別是來自人壽保險合同、財產保險合同以及再保險合同產生的賠款費用。因此存在現金不足以償還到期負債的風險。

本集團透過制定流動資金管理的政策及一般策略來管理該風險，以確保本集團在正常情況下能夠履行其財務義務，並保持足夠的高質量流動性資產儲備，以應對可能發生的流動資金危機。

除了流動資金管理和監管合規外，本集團致力於留存適度的流動資金緩衝額，作為應對意料之外的大筆資金需求的安全措施，並保持一個應急計畫，以便在出現公司特定危機時行動。

¹ Including the interests income from deposits, interests income from debt financial assets, dividends from equity financial assets, rental income from investment properties, share of results of associates and joint ventures and deducting interest expenses on securities sold under repurchase agreements.

² Including the income generated from asset management products, funds etc., that has been classified as share of results of associates and joint ventures.

³ Including the income from the spread of investment securities, gain or loss on changes in fair value and impairment loss of investment assets.

⁴ In the calculation of annualised total investment yield, as the denominator, the average investment assets take into account the effect of securities purchased under resale agreements and securities sold under repurchase agreements. When annualising the total investment yield, the interests income from deposits, interests income from debt financial assets, dividend from equity financial assets, rental income from investment properties, share of results of associates and joint ventures, income from the spread of securities and impairment loss of assets, deducting interest expenses on securities sold under repurchase agreements were multiplied by two.

⁵ Unannualised comprehensive investment yield included the changes in fair value of debt securities under FVOCI of approximately HK\$14.708 billion, if excludes the changes in fair value of debt securities under FVOCI, the unannualised comprehensive investment yield for the first half of 2026 was 2.19%.

Net investment income increased by 3.7% from HK\$25.268 billion in the first half of 2025 to HK\$26.215 billion in the first half of 2026. The realised and unrealised investment gains changed from a loss of HK\$3.519 billion in the first half of 2025 to a gain of HK\$21.737 billion in the first half of 2026, mainly because the gains on FVPL equities were significantly better than the Last Period.

Under the combined influence of the above factors, the total investment income of investment assets of the Group amounted to HK\$47.952 billion in the first half of 2026, significantly increased by 120.5% over the HK\$21.749 billion in the first half of 2025; the annualised total investment yield increased from 2.68% in the first half of 2025 to 5.21% in the first half of 2026.

受上述因素綜合影響，2026年上半年本集團投資資產的總投資收益為479.52億港元，較2025年上半年的217.49億港元大幅上漲120.5%，年化總投資收益率由2025年上半年的2.68%上升至2026年上半年的5.21%。

Steadfastly Pursuing High-quality Development and Striving for a Strong Start of the 15th Five-Year Plan

At present, our country's development is at a stage where strategic opportunities, risks, and challenges are concurrent and uncertainties and unforeseen factors are on the rise. Looking ahead to the second half of the year, the fundamentals and basic trend of China's long-term economic development remain unchanged, underpinned by a solid foundation, multiple advantages, strong resilience, and vast potential. The Outline of the National 15th Five-Year Plan has charted a new blueprint for development over the next five years, covering areas such as agricultural insurance, pension insurance, and long-term care insurance. This not only charts the course for the insurance sector to serve the construction of a financial powerhouse and contribute to the "Five Target Areas" of finance, but also offers vast development opportunities. The HKSAR Government is currently formulating its first five-year plan, and the integrated development of the Greater Bay Area has entered the fast track. Major strategic initiatives, such as the construction of a modern industrial system, harbour immense potential and opportunities for the development of the insurance sector. Regulatory requirements are clear and well-defined, and the "Aligning Sales Practices with Regulatory Filings" policy is being vigorously advanced, effectively promoting the sector's sustained and healthy development. Digital and intelligent technologies, such as artificial intelligence, are reshaping the insurance sector's value creation model, providing new opportunities for the industry's development.

Embedded Value 內含價值

BACKGROUND

The Group consists of three major business segments: the life insurance business, property and casualty insurance business and reinsurance business. The Group also has other companies and operations in the areas of investment holding, asset management, pensions and other businesses. The life insurance segment operated by TPL, a 75.1%-owned subsidiary, is a significant part of the Group in terms of gross premiums written, total assets and profitability. In order to provide investors with additional information to evaluate the profitability and valuation of TPL, the Group discloses the Embedded Value and New Business Value of TPL in its Annual and Interim Results Announcements. The Embedded Value consists of the shareholders' adjusted net worth plus the present value of future expected cash flows to shareholders from the in-force business, less the costs of holding regulatory solvency capital to support the in-force business. The New Business Value represents an actuarially determined estimate of the economic value arising from the new life insurance business issued during the Period.

The Group's other business segments (including property and casualty insurance, reinsurance and pension and group life insurance) (collectively, "Other Core Operations") continue to develop well. To provide investors with further information on these operations, the Group also discloses the Group Embedded Value. The Group Embedded Value is defined as the Adjusted Net Worth of the Other Core Operations plus the Embedded Value of TPL. The Adjusted Net Worth of the Other Core Operations is determined by Hong Kong Financial Reporting Standards, with marked-to-market and goodwill adjustments. Please note that the Group Embedded Value calculation does not include any valuation for future new business.

Embedded Value 內含價值

BASIS OF PREPARATION

The Group has appointed KPMG Advisory (China) Limited ("KPMG Advisory") to examine whether the methodology and assumptions used by TPL in the preparation of the Embedded Value and the New Business Value as at 30 June 2026 are consistent with the valuation standard, general actuarial principles, related laws & regulations, as well as available market information. KPMG Advisory has also examined the adjustment steps used by the Group for the adjusted net worth of its other core businesses in preparing the Group Embedded Value.

CAUTIONARY STATEMENT

The calculations of Embedded Value and the New Business Value of TPL are based on certain assumptions with respect to future experience. Thus, the actual results could differ significantly from what were envisioned when these calculations were made. In addition, the Group Embedded Value is also based on certain assumptions, and should not be viewed as the only benchmark for evaluating and valuing the businesses and operations of the Group. From an investor's perspective, the valuation of CTIH is measured by the stock market price of the Company's shares on any particular day. In valuing CTIH's shares, investors should take into account not only the Embedded Value and the New Business Value of TPL and the Group Embedded Value, but also various other considerations. In addition, TPL is 75.1%-owned by the Company. The Embedded Value and the New Business Value of TPL as at 30 June 2026 as disclosed below should therefore not be applied 100% in valuing CTIH. Investors are advised to pay particular attention to this factor, as well as the other assumptions underlying the calculations of the Embedded Value and New Business Value of TPL and the Group Embedded Value, if they believe such calculations are important and material to the valuation of the Company.

Report on Review of Interim Financial Information

中期財務資料的審閱報告

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity* as issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial report consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial report of the Group as at 30 June 2026 is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 *Interim financial reporting*.
