MANAGEMENT DISCUSSION AND ANALYSIS

MARKET REVIEW

In the first half of 2026, multiple Chinese government departments, including the National Development and Reform Commission (NDRC), the Ministry of Finance and the Ministry of Commerce, issued a series of policies, including the Notice on Implementing Large-Scale Equipment Upgrades and Trade-In Policies for Consumer Goods in 2026 (《關於2026年實施大規模設備更新和消費品以舊換新政策的通知》), the Implementation Rules for Automobile Trade-in Subsidies in 2026 (《2026年汽車以舊換新補貼實施細則》), and the Notice on Several Measures on Cultivating and Expanding Consumption in the Automotive Aftermarket (《關於培育壯大汽車後市場消費若干措施的通知》), indicating increased policy support for the automotive industry. China's automobile consumption has shifted from a market dominated by first-time purchases to one driven by replacement and upgrade demand. The current round of policy intensification aligns with prevailing consumption trends and is expected to further unlock the potential of automotive consumption.

According to data from the China Passenger Cars Association, retail sales in China's passenger car market reached 8.701 million units in the first half of 2026, representing a period-on-period decrease of 20.2%. Specifically, new energy vehicle sales amounted to approximately 4.704 million units, representing a period-on-period decrease of 14.0%, with the market penetration rate reaching 54.1%. According to statistics from the China Association of Automobile Manufacturers, China's cumulative automobile exports exceeded 5 million units in the first half of 2026, representing a year-on-year growth of over 60%, and becoming one of the core engines driving industry growth.

According to the latest statistics released by China's Ministry of Public Security, vehicle ownership in China reached approximately 371 million units as of the end of June 2026, marking a new stage of development for China's automotive industry. Notably, the proportion of new energy vehicles rose to 13.19% of total vehicle ownership, with their growing scale continuing to drive demand in the aftermarket.

Overall, while China's automotive industry entered a phase of structural adjustment in the first half of 2026, the market continued to demonstrate strong resilience. With intensifying policy support and continuous technological advancement, the Chinese automotive market retains significant medium- and long-term growth potential.

BUSINESS REVIEW

In the first half of 2026, the Group continued to focus on operating mid-to-high-end automotive brands. It accelerated its transformation towards new energy vehicles and international business, while driving organizational restructuring. In addition, the Group continued to advance closures, suspensions, mergers and transfers of underperforming stores, and leveraged digitally enabled refined operations to actively promote cost reduction and efficiency enhancement.

During the reporting period, the Group ranked 22nd on the 2026 China Auto Dealer Group Top 100 List. Following the completion of the acquisition of Xindeco ITG Automobile in March 2026, the Group's overall ranking is expected to improve significantly. In addition, the Group continued to be recognized in multiple industry rankings, including the 2026 China Auto Dealer Group NEV Top 100 (84th), China Auto Dealership Industry Integrity-Committed Enterprises, and Top 50 Groups in Auto Dealer New Media Influence. The Group also received the 2026 China Auto Circulation Industry Social Responsibility Top 100 Enterprise designation, and was honored with a number of major industry awards, including "Benchmark Group for High-Quality NEV Channel Development", "Demonstration Group for Omni-channel Digital Marketing", "Benchmark Enterprise for Customer Service Reputation in the Auto Circulation Industry", and "Innovation Demonstration Dealer for Auto Exports", sustaining its leading position in the transformation toward new energy and digital intelligence.

For the six months ended 30 June 2026, the Group recorded revenue of approximately RMB9,623.4 million and gross profit of approximately RMB206.6 million. The following is a review of the Group's operational performance across its business segments and the progress made in management enhancements during the first half of 2026:

(I) Automobile dealership segment

In the first half of 2026, the Group continued to deepen its operational system reform and fully implemented the regionalized management model, advancing quality and efficiency improvement initiatives across five core dimensions: vehicle distribution, after-sales value-added services, refined spare parts control, digital operations, and risk and internal control. By optimizing the management structure, strengthening on-site controls, advancing digital and intelligent upgrades, and enforcing full-process supervision mechanisms, the Company effectively addressed the pain points of traditional operations, achieved steady improvement in the overall refinement, standardization, and digital intelligence of its operations, and laid a solid operational foundation for the smooth operation of its principal businesses and the expansion of emerging businesses.

1. New automobile sales business

During the reporting period, the Group implemented a regionally differentiated operational management and control model, conducted internal benchmarking across brands based on each brand's operational data, and implemented targeted measures and special rectifications for areas of weakness. The supervisory team was proactively stationed at the frontline and formulated tailored sales strategies based on regional market characteristics, OEM policies, and competitive dynamics. The Group regularly reviewed core operational indicators, closely monitored key operational metrics such as inventory turnover, order conversion, and discount per vehicle, and carried out targeted rectifications for slow-moving inventory and underperforming stores to accelerate the turnover of slow-moving vehicles and reduce inventory-related capital occupation.

In terms of marketing strategy, the Group actively optimized the operation and maintenance of vertical media and new media platforms, established a red-black list mechanism for vertical media data, and regularly produced operational analysis reports, thereby effectively enhancing the stores' operational capabilities regarding vertical media. By organizing large-scale specialized training programs on new media, the Group effectively enhanced its stores' ability to generate leads and convert them into sales via new media channels. Orders resulting from new media leads exceeded 5,000 units, with new media orders accounting for approximately 40% of sales at benchmark stores. The Group also coordinated promotional activities during key marketing periods, and through traffic acquisition and empowerment, effectively supported improvements in both store visit rates and conversion rates.

For the six months ended 30 June 2026, the Group's new automobile sales totaled 26,057 units, representing a decrease of 23.4% as compared to 33,997 units in the first half of 2025.

2. After-sales services business

Upholding the service philosophy of "Professional Care, Seamless Support", and building upon the refined operations and proactive marketing initiatives implemented in after-sales services in 2025, the Group further advanced the upgrade of its after-sales services toward systematization, digitalization and collaboration. With a focus on enhancing customer experience, the Company continuously improved service efficiency and customer satisfaction through process optimization, strengthened supervision, and the promotion of digitalization and intelligence.

MANAGEMENT DISCUSSION AND ANALYSIS

In the accident vehicle business segment, the Group fully implemented digital transformation and upgrades, launching a dedicated digital management system that connected the entire data flow across lead acquisition, on-site handling, repair progress tracking, and insurance claims reconciliation, thereby achieving standardized business processes, visualized progress tracking, and precise data management. Through digital empowerment, the Group significantly improved the conversion rate of accident vehicle leads, repair delivery efficiency and claim settlement efficiency, effectively unlocking incremental business volume for accident vehicle services, and forming an important pillar for the growth of after-sales performance. In addition, the Group simultaneously advanced process digitalization and intelligence, and implemented full-process online services such as intelligent renewal reminders, online appointments, and repair progress follow-up, thereby improving service transparency and convenience.

During the reporting period, the Group initiated the development of a unified digital operation platform, completed the full-scale launch of the automotive cloud system for existing stores, and broke down cross-departmental data silos while unifying data statistical standards. The Group established an intelligent risk early-warning system, set early-warning rules for operational risks including overdue inventory, abnormal spare parts outbound delivery, discrepancies in work order matching, and abnormal per-vehicle prices, and drove the transformation of operation management from traditional manual post-event verification to a model of preemptive system-driven early warning and dynamic intelligent control, thereby comprehensively improving the timeliness and accuracy of risk prevention and control.

For the six months ended 30 June 2026, the Group provided after-sales service for 621,332 vehicles in total and recorded revenue from after-sales service of approximately RMB1,777.0 million.

(II) Integrated Business

1. Pre-owned automobile business

During the reporting period, driven by regulatory industry policies, China's pre-owned automobile market continued to scale up and develop in a more standardized manner, with transaction volumes gaining significant momentum. According to official data released by the China Automobile Dealers Association, cumulative transaction volume of pre-owned automobiles in China reached approximately 9,713,200 units in the first half of 2026, representing period-on-period growth of approximately 1.5%.

Seizing this market opportunity, the Group refined the operating systems of its pre-owned automobile retail centers in Beijing, Shenzhen, Guangzhou, Wuhan, and other cities. Through centralized personnel management, enhanced assessment criteria, a strengthened performance-driven approach, and revitalized team dynamics, the Group continuously evolved its market-based pricing model for pre-owned automobiles. The Group also reinforced price controls across pre-owned automobile procurement, wholesale, and retail operations at regional stores, adjusted sales channels, and focused on strengthening retail capabilities, thereby driving steady growth in its pre-owned automobile business.

For the six months ended 30 June 2026, the Group recorded a used-to-new car ratio of 31%.

2. Auto finance business

During the reporting period, the Group continued to deepen its extensive collaboration with various financial institutions and, on the basis of resource sharing and complementary advantages, continuously expanded the scope of cooperation. The Group actively explored and entered into mutually beneficial cooperation arrangements for auto retail mortgage loans with multiple financial institutions, which effectively increased the total volume of financial product offerings and extended the terms of such products, further enhancing service coverage and precision.

For the six months ended 30 June 2026, the Group recorded income from the provision of mortgage facilitation services of approximately RMB132.2 million.

3. Insurance agency business

Dingze Insurance Agency Co., Ltd. (鼎澤保險代理有限公司) [“**Dingze Insurance Agency**”] principally conducts its business through the Group’s 4S dealerships, focusing on vehicle insurance and related insurance businesses. During the reporting period, Dingze Insurance Agency expanded its client base to include the 4S stores of Xindeco ITG Automobile, which had been acquired by the Group, and applied for the establishment of the Xiamen Branch of Dingze Insurance Agency Co., Ltd. to undertake the insurance business of the Group in the Xiamen region, thereby further strengthening the Group’s regional insurance coordination.

In terms of new insurance business, by leveraging the Group’s new insurance resource management rules, aligning with customer needs, and maintaining close cooperative relationships with insurance companies, the cumulative new automobile insurance coverage rate reached approximately 90%. In terms of insurance renewal business, following the establishment of the Wuhan and Beijing insurance renewal centers in 2025, the Shenzhen insurance renewal center was newly established during the reporting period, further leveraging the advantages of integrated business operation management and exploring an insurance renewal cooperation model that aligns insurance renewal centers with 4S business operations. During the reporting period, the insurance renewal centers achieved improvements in both the number of vehicles insured through renewal and renewal efficiency. By solidifying the incremental growth of new vehicle insurance and deepening insurance renewal business, the Group achieved a total of 186,000 vehicles insured during the reporting period. In terms of non-auto insurance business, the Group introduced the Double Insurance Worry-Free (雙保無憂) and courtesy car insurance (代步車險) products to the Xindeco ITG Automobile 4S stores, enriching the Group’s insurance product portfolio and providing more comprehensive protection for customers’ vehicle usage. The Group also continued to safeguard the property insurance of its 4S stores by providing professional insurance proposal recommendations, thereby protecting customer interests and the Group’s property assets.

Development and layout of company network

As a leading dealership group for premium brands in the PRC, the Group represents traditional mass-production premium brands including Porsche, Maserati, Mercedes-Benz, BMW, Audi, Jaguar Land Rover, Lexus and Cadillac, and has also become a key dealer for the new energy vehicle brands AITO and HIMA (Harmony Intelligent Mobility Alliance). In addition, the Group engages in the dealership of mid-range brands such as FAW-Volkswagen, FAW-Toyota, GAC-Toyota and Dongfeng Honda, as well as independent brands such as Hongqi. As of 30 June 2026, the Group had 134 dealership stores in 40 cities across 15 provinces and municipalities in China, with 6 additional authorized dealership stores under development.

MANAGEMENT DISCUSSION AND ANALYSIS

Against the backdrop of a clearly defined industry transformation trend, the Group has accelerated its new energy vehicle transition across all fronts, achieving rapid deployment of its new energy vehicle dealership network through the conversion of existing assets. In the first half of 2026, the Group opened 7 new NEV customer centers, including 6 HIMA customer centers and 1 Geely Galaxy customer center.

(III) Supply chain business

Shengze Jietong Supply Chain Co., Limited* (聖澤捷通供應鏈有限公司) ["Shengze Jietong"], a wholly-owned subsidiary of the Group, primarily provides aftermarket logistics services for mainstream automakers such as Dongfeng Nissan and FAW-Volkswagen, including vehicle logistics, warehousing logistics and spare parts logistics. Due to the overall downturn in the domestic automotive market and the contraction in business from core customers, revenue for the first half of 2026 amounted to approximately RMB109.7 million.

During the reporting period, leveraging the resource advantages of the Hannan logistics base and the stable operation and maintenance of the vehicle logistics STS system and the spare parts warehousing WMS system, Shengze Jietong achieved rapid inbound receiving, precise sorting and efficient delivery of goods, with its warehousing and logistics service capabilities continuing to improve. In terms of existing customers, the Company continued to deepen its collaboration with Dongfeng Nissan and FAW-Volkswagen. In terms of new

customers, the spare parts business successfully won bids for the Renault China spare parts center and the Shenlong Wuhan (神龍武漢) spare parts transportation business, while the vehicle business won bids for new projects such as Geely Commercial Vehicles, effectively enhancing business output value and operating profits.

(IV) International business

International business is a strategic growth segment for the Group and an important pillar for expanding revenue scale and profitability. During the reporting period, the Group actively seized overseas market opportunities, accelerated the deployment of its international business and achieved rapid development. In the first half of 2026, the Group added 9 new overseas warehouses, bringing the cumulative total to 20 overseas warehouses covering key regions such as Europe, Central Asia, the Middle East, Africa and Latin America, with export businesses entering the markets of Italy, Panama and Rwanda for the first time. Building on this foundation, the Group further extended its automotive overseas supply chain business to form an integrated operating system encompassing diversified businesses including domestic and international vehicle trade, commodity trading, import, financial leasing and overseas dealership, thereby strengthening its capabilities in automotive industry resource integration and comprehensive services while deepening its competitive moat. At the same time, the Group made breakthrough progress in overseas localized operations, with the business processes and team organizational structure for Thailand localization preliminarily established, and the Thailand dealership business officially commencing operations.

During the reporting period, the international business team continued to deepen cooperation with major domestic OEMs, successfully completing the implementation of business orders from newly added cooperative OEMs including BAIC and further expanding the pool of automobile brands available for export. In addition, the Group actively explored the feasibility of other innovative business models, enriching its business ecosystem and cultivating diverse growth drivers, thereby injecting new momentum into the Group's high-quality development.

(V) Management enhancement

In the first half of 2026, the Group continued to advance management enhancement initiatives in areas such as organizational structure, internal supervision, risk prevention and control, and digital intelligence development:

In terms of organizational structure, the Group deepened business structure and management system reforms in line with the Company's strategic objectives and business layout, implemented regionalized management, advanced organizational layering, and continuously optimized the business management and control system to further enhance organizational operational efficiency.

In terms of internal supervision, the Group continued to optimize the development of systems and internal control frameworks, advancing the formulation and revision of systems covering areas including fund management, business operations, human resources and safety production. Concurrently, the Group optimized approval authorities, clarified the boundaries of rights and responsibilities, and improved both approval efficiency and risk prevention capabilities.

In terms of risk prevention and control, leveraging the restructured risk control system, the Group established a comprehensive risk control architecture, refined risk control rules, improved safety production management systems, implemented a normalized risk monitoring mechanism, achieved real-time risk control over key businesses, and promoted full-process closed-loop risk management.

In terms of digital intelligence development, guided by the objective of "customer value orientation" and centered around the integrated finance and business platform, the Group formulated standardized master data management specifications, established cross-system synchronization mechanisms, eliminated data silos, and ensured financial and business data originate from the same source. A visual "operational dashboard" was also built to enable dynamic monitoring of core indicators. The Group accelerated the application of AI technologies, leveraging intelligent large models to establish an intelligent customer service system, and will continue to deepen and expand the application of AI technologies in real-world business scenarios.

FINANCIAL REVIEW

Revenue

For the six months ended 30 June 2026, the Group recorded revenue of approximately RMB9,623.4 million, representing a decrease of approximately 22.8% compared to revenue of approximately RMB12,465.4 million in the first half of 2025. The decrease in revenue was mainly due to a decline in new vehicle sales volume and income from mortgage facilitation services. The decrease in income from mortgage facilitation services was attributable to the decrease in passenger vehicle sales volume and the downward adjustment of mortgage-related commission rebate rates.

Revenue of the Group was derived from sales of passenger vehicles, after-sales services, mortgage facilitation services, logistics services, sales of comprehensive properties and other businesses. In the first half of 2026, revenue from sales of passenger vehicles and mortgage facilitation services amounted to approximately RMB7,726.8 million, representing a decrease of approximately 24.9% compared with the amount of approximately RMB10,285.5 million for the first half of 2025, and accounted for approximately 80.3% of the total revenue for the first half of 2026 (first half of 2025: approximately 82.5%).

In the first half of 2026, revenue from after-sales services was approximately RMB1,777.0 million, representing a decrease of approximately 12.1% compared to the amount of approximately RMB2,020.8 million in the first half of 2025. In the first half of 2026, revenue from after-sales services accounted for approximately 18.5% of total revenue, representing an increase compared to approximately 16.2% of total revenue for the corresponding period of last year.

Cost of sales

For the six months ended 30 June 2026, the Group's cost of sales amounted to approximately RMB9,416.8 million, representing a decrease of approximately 21.2% compared to the amount of approximately RMB11,945.8 million in the first half of 2025. This decrease was primarily driven by lower new automobile sales costs, which declined in line with the reduction in sales volume and revenue.

In the first half of 2026, the Group's cost of sales for new automobiles decreased by approximately 23.0% to approximately RMB8,075.9 million from approximately RMB10,485.1 million in the first half of 2025, primarily due to a decrease in sales volume and revenue from new automobiles. Cost of sales for after-sales services decreased by approximately 8.6% to approximately RMB1,227.7 million from approximately RMB1,342.6 million in the first half of 2025, representing a smaller decrease as compared with that of after-sales service revenue, which primarily reflected the impact of relatively fixed costs such as staff costs and depreciation and amortization.

Gross profit and gross profit margin

For the six months ended 30 June 2026, the Group's gross profit amounted to approximately RMB206.6 million, representing a decrease of approximately 60.2% compared to the amount of approximately RMB519.6 million in the first half of 2025. The gross profit margin was approximately 2.1%, representing a decrease of 2.0 percentage points compared to 4.2% in the first half of 2025, which was mainly due to the decrease in the gross profit of after-sales service, as well as the decline in mortgage facilitation service income and commission rebate rates.

Selling and distribution expenses

For the six months ended 30 June 2026, the Group's selling and distribution expenses were approximately RMB586.5 million, representing a decrease of approximately 4.1% compared to approximately RMB611.5 million in the first half of 2025, which was mainly due to the decrease in depreciation charged to selling expenses resulting from store closures, as well as lower employee salaries.

Administrative expenses

For the six months ended 30 June 2026, the Group's administrative expenses amounted to approximately RMB462.6 million, representing a decrease of approximately 25.1% compared to approximately RMB617.3 million in the first half of 2025, which was primarily due to the decline in impairment losses on property, plant and equipment.

Loss from operations

For the six months ended 30 June 2026, the Group's loss from operations was approximately RMB726.3 million, compared to a loss from operations of approximately RMB519.2 million for the same period in 2025. The increase in loss from operations was primarily attributable to factors including a decline in new vehicle sales volume and a downward adjustment of mortgage-related commission rebate rates.

Income tax

For the six months ended 30 June 2026, the Group's income tax credit amounted to approximately RMB38.2 million, compared to an income tax credit of approximately RMB82.3 million in the first half of 2025.

Contingent liabilities

As at 30 June 2026, the Group did not have any material contingent liabilities other than those disclosed in "Note 27 Contingent liabilities" to the interim financial report.

Loss for the period

For the six months ended 30 June 2026, the Group's loss for the period was approximately RMB1,049.1 million, compared to a loss of approximately RMB897.1 million in the first half of 2025. The increase in loss for the period was mainly attributable to factors including a decline in new vehicle sales volume and a downward adjustment of mortgage-related commission rebate rates.

Current assets and current liabilities

As at 30 June 2026, the Group's current assets amounted to approximately RMB13,615.3 million, representing a decrease of approximately RMB1,700.3 million compared to the amount of approximately RMB15,315.6 million as at 31 December 2025, which was mainly due to the decrease in pledged bank deposits.

As at 30 June 2026, the Group's current liabilities amounted to approximately RMB20,173.8 million, representing a decrease of approximately RMB1,704.6 million compared to the amount of approximately RMB21,878.4 million as at 31 December 2025, which was mainly due to the decrease in trade and other payables.

Cash flow

As at 30 June 2026, the Group had cash and cash equivalents amounting to approximately RMB1,581.6 million, representing an increase of approximately RMB694.7 million from approximately RMB886.9 million as at 31 December 2025. The Group's transactions and monetary assets were principally denominated in Renminbi. The primary uses of funds were to purchase new automobiles, spare parts and automobile accessories, to repay loans, borrowings and other indebtedness; and to pay working capital and daily operating expenses. The Group finances its liquidity requirements through cash flows generated from operating activities, bank loans and other financing. For the six months ended 30 June 2026, the Group had net cash inflow of approximately RMB443.5 million generated from operating activities (for the six months ended 30 June 2025: net cash inflow of approximately RMB132.1 million).

Capital expenditure and investment

For the six months ended 30 June 2026, the Group's capital expenditure and investment amounted to approximately RMB208.8 million (for the six months ended 30 June 2025: RMB317.0 million). This was mainly due to the completion of construction in progress and reduced new investment.

MANAGEMENT DISCUSSION AND ANALYSIS

Inventory

The Group's inventories included vehicles, automobile spare parts, and properties under development for sale. The Group utilizes its information technology systems to manage inventories and monitors inventory levels within its dealership network, transferring automobiles from one dealership store to another to rebalance inventory levels. The Group's inventories amounted to approximately RMB3,328.1 million as at 30 June 2026, representing a decrease of approximately RMB268.9 million compared to approximately RMB3,597.0 million as at 31 December 2025. This change was mainly due to the decrease in vehicle inventory at the end of the period. The average inventory turnover days in the first half of 2026 were 47 days, representing an increase of 2 days compared to 45 days in the first half of 2025, primarily reflecting that the decline in inventory balance was less than the decline in cost of sales. The following table sets forth the Group's average number of inventory turnover days (excluding the impact of properties under development for sale) for the period indicated:

	For the six months ended 30 June (number of days)	
	2026	2025
Average number of inventory turnover days (excluding the impact of properties under development for sale)	47	45

Foreign exchange risk

The Group conducts its business primarily in Renminbi. Certain bank deposits and bank loans were denominated in foreign currencies. The Group used forward exchange instruments and option foreign exchange instruments to partially hedge its US-dollar future loans repayment.

Liquidity and capital resources

The Group's working capital and capital expenditures were primarily funded through cash generated from internal operations and borrowings provided by principal banks and other financial institutions. As at 30 June 2026, the Group's cash and cash equivalents, time deposits and pledged bank deposits amounted to approximately RMB4,584.8 million (including pledged bank deposits of approximately RMB2,998.0 million, cash and cash equivalents of approximately RMB1,581.6 million and time deposits of approximately RMB5.2 million), representing a decrease of approximately RMB649.2 million from approximately RMB5,234.1 million as at 31 December 2025. As at 30 June 2026, the Group's loans and borrowings and lease liabilities amounted to approximately RMB18,632.2 million (31 December 2025: approximately RMB18,435.9 million). As at 30 June 2026, the Group's net gearing ratio was approximately 1,683.4% (31 December 2025: approximately 594.5%). The net gearing ratio was calculated as loans and borrowings and lease liabilities less cash and cash equivalents, time deposits and pledged bank deposits, divided by total equity. The Group will actively improve its operating efficiency and consider various methods to improve its current financial position and reduce its level of leverage.

Pledged assets

The Group has pledged its assets as security for loans and borrowings to be used as working capital for daily operations.

As at 30 June 2026, the Group's pledged assets amounted to approximately RMB6,683.5 million (31 December 2025: approximately RMB7,427.5 million).

Investments held in foreign currency

For the six months ended 30 June 2026, the Group did not hold any investments denominated in foreign currencies.

Employees and remuneration policies

As at 30 June 2026, the Group had a total of 7,455 employees worldwide (31 December 2025: 8,081 employees). The decrease in the number of employees was primarily due to the transformation and optimization of stores. For the six months ended 30 June 2026, the Group incurred staff costs of approximately RMB511.6 million (first half of 2025: approximately RMB528.2 million).

The Group has consistently adhered to a strategy of strengthening the enterprise through talent, continuing to improve systems for selecting, cultivating, managing and utilizing talent. It consistently strengthens its core workforce with qualified personnel through organizational promotions and market-based recruitment, and continues to nurture young employees, fostering an open, inclusive, collaborative and innovative organizational ecosystem. This provides a broad platform for employee growth and development.

In terms of compensation management and talent development, the Group continues to deepen reforms of its human resources system, comprehensively reviewing and refining core systems such as compensation management, performance management and employee career development, while promoting a mechanism that links compensation to performance to fully stimulate employees' motivation and creativity. The Group has established a tiered and categorized talent development system, focusing on two core groups — the management team and key business personnel — to comprehensively hone overall competence and job performance capabilities, thereby providing a solid talent foundation for the Group's long-term development. The Group has conducted specialized empowerment training for frontline store management, leveraging real-world business scenarios to ensure the practical application of training outcomes and effectively enhance the operational and management capabilities of grassroots teams.

The Group actively promotes a culture of innovation and excellence, deeply embracing its core values of "First-Class Benchmarking, Genuine Accountability, Striving as the Foundation, and Co-creation and Sharing (一流引領、真實擔當、奮鬥為本、共創共享)". The Group hosted a diverse program of corporate culture activities, systematically organizing a series of events such as the "Stories of Excellence" exchange and sharing session and the "Uniting Forces, Moving Forward Together" team-building event, bringing employees closer together and fostering team cohesion. Through the "Five Comparisons and Five Assessments (五比五看)" excellence recognition program, the Group encourages all employees to benchmark against the best and pursue excellence. Concurrently, the Group continued to provide employee care by standardizing the operation of the employee care fund and establishing regular satisfaction surveys and feedback mechanisms, actively listening to employees' concerns and properly addressing their requests, thereby consistently enhancing employees' sense of belonging and cohesion.

FUTURE OUTLOOK AND STRATEGIES

Pursuant to its "15th Five-Year Plan" strategic plan, the Group is guided by the mission of "leading the advantageous automobile industry, creating a better mobility life" and is committed to becoming a leading comprehensive service provider in the automobile ecosystem.

In the second half of 2026, the Group will focus on four core objectives—"capital operations, loss reduction and containment, business transformation, and quality and efficiency improvement"—to implement various key tasks and supporting measures. First, the Group will accelerate capital raising and the resumption of trading to solidify its foundation for development. The Group will expedite the completion of a new share issuance through a special placement to optimize its equity structure and meet public shareholding requirements, thereby resuming trading as soon as possible. The Group will also fully leverage the advantages of its listed company platform and shareholder resources to accelerate business transformation and development. Second, the Group will improve management and control mechanisms and focus on enhancing the quality of its core business. The Group will promptly implement the closure, suspension, merger, and transfer of stores that are consistently unprofitable or operating inefficiently, reduce store rent through measures such as partial surrender of leases and renegotiating renewal prices, establish an early warning system for operational indicators to proactively prevent various compliance and operational risks, and accelerate the disposal of non-core assets to secure resources for improving the quality of its core business. Third, the Group will make a concerted push into the new energy vehicle sector and innovate its brand matrix, continuing to fully embrace HIMA and other leading new energy vehicle brands while actively expanding business cooperation with automotive battery manufacturers. Fourth, the Group will expand its international operations to create overseas profit cornerstones. The Group will deepen cooperation with domestic OEMs, strive to secure export authorizations from multiple new automakers within the year, actively pursue certifications in high-standard regulatory markets, develop overseas automotive dealership and service networks, continue to expand its network of overseas warehouse service providers, and continuously improve the business compliance and risk control framework for its international operations. The Group will strictly control potential risks related to cross-border credit defaults and inventory security by establishing mechanisms to monitor overseas customer sentiment and credit dynamics and by utilizing RFID technology to manage overseas inventory.

ITG Holding is also deemed to be interested in the 9,062,857,236 Shares directly held by Xinda Motors Co., Limited (信達汽車(香港)有限公司) ("**Xinda Motors**"), as Xinda Motors is a direct wholly owned subsidiary of ITG Holding Investment (HK) Limited (國貿控股(香港)投資有限公司), which in turn is a direct wholly owned subsidiary of ITG Holding. As a result, ITG Holding is deemed to be interested in a total of 9,085,216,736 Shares.

Save as disclosed above, as at 30 June 2026, the Directors and chief executives were not aware of any other person (other than the Directors and chief executive of the Company) who had, or was deemed or taken to have, an interest or short position in the Shares and underlying Shares of the Company as recorded in the register required to be kept pursuant to Section 336 of the SFO.

SHARE AWARD SCHEME

The Company adopted a restricted share award scheme (the "**Share Award Scheme**") on 12 June 2020 (the "**Adoption Date**"), which enables the Company to, among other things, provide selected participants with an opportunity to acquire a proprietary interest in the Company; to encourage and retain participants to work with the Group; to provide additional incentive for selected participants to achieve performance goals; and to attract personnel to join the Group, with a view to achieving the objectives of increasing the value of the Company and aligning the interests of the selected participants directly to the Shareholders through ownership of the Shares. The Share Award Scheme shall initially be valid and effective for a period of ten years from the Adoption Date, subject to early termination as stipulated under the rules related to the Share Award Scheme (the "**Scheme Rules**"). As at the date of this report, the remaining life of the Share Award Scheme was approximately 3.5 years.

Any employees or directors of the Company or any of its subsidiaries whom the Board considers, in its sole discretion, to have contributed or will contribute to the Group and who are nominated and selected by the Board and approved by the Remuneration Committee (as to identities of the selected participants and determination of the number of the Shares subject to the grant (the "**Grant Shares**")) in accordance with the terms of the Scheme Rules shall be qualified as a selected participant under the Share Award Scheme.

Subject to the Scheme Rules, the Grant Shares shall be new Shares to be issued and allotted by the Company for nil consideration. The Grant Shares are subject to acceptance of the selected participants. For the purpose of implementing and administering the Share Award Scheme, the Company has appointed BOCI-Prudential Trustee Limited as the trustee (the "**Trustee**"). Grant Shares under the Share Award Scheme will be issued and allotted to the Trustee who shall hold such Shares upon trust for the benefit of the selected participants and shall vest and transfer to the relevant selected participants after fulfilment of all vesting conditions as set out in the Scheme Rules and subject to the vesting schedule ranging from the first to the fourth anniversary of the date on which the Grant Shares are granted (the "**Grant Date**"), as determined and applicable to relevant selected participants according to their respective tenure of office with and/or level of position in the Group.

No Shares shall be allotted or issued pursuant to the Share Award Scheme if as a result of such allotment or issue, the aggregate number of Shares administered under the Share Award Scheme and underlying all Grant Shares made (excluding the Shares where the rights to acquire them have been released or lapsed in accordance with the Share Award Scheme) shall exceed in total 5% of the Company's issued Shares as at the Adoption Date (i.e. 122,611,021 Shares). The maximum number of Grant Shares which may be granted to an individual selected participant shall not exceed 1% of issued Shares of the Company as at the Adoption Date (i.e. 24,522,204 Shares). As at the date of this report, the total number of Shares available for issue in respect of awards which may be granted under the Share Award Scheme is 91,931,021, representing approximately 0.92% of the Shares in issue as at that date.

OTHER INFORMATION

Where any grant is proposed to be made to any selected participant who is a connected person (including a Director), such grant must first be approved by all the independent non-executive Directors and in each case excluding any independent non-executive Director who is the proposed selected participant and shall be separately approved by the Shareholders at a general meeting with such connected person and his/her associates abstaining from voting and shall comply with all other requirements of Chapter 14A of the Listing Rules applicable to such grant.

There is no service provider sublimit under the Share Award Scheme.

During the six months period ended 30 June 2026, no grant was made under the Share Award Scheme. Since the Adoption Date, a total of 47,100,000 Grant Shares have been granted by the Board on 12 June 2020 under the Share Award Scheme, representing approximately 1.92% of the number of Shares in issue as at the Adoption Date. All such Grant Shares had vested or lapsed before 1 January 2025 and there were no outstanding Grant Shares at the beginning and at the end of the reporting period.

As at both 1 January 2026 and 30 June 2026, the number of share awards available for grant under the scheme mandate was 91,931,021.

For details of the summary of the major terms of the Share Award Scheme and the grant of the Grant Shares, please refer to the announcements of the Company dated 12 June 2020 and 18 June 2020 and the circular of the Company dated 31 August 2020.

PLACING OF NEW SHARES UNDER SPECIFIC MANDATE

On 30 June 2026 (after trading hours), the Company and Fortune (HK) Securities Limited (the “**Placing Agent**”) entered into a placing agreement (the “**Placing Agreement**”), pursuant to which the Company agreed to appoint the Placing Agent, and the Placing Agent agreed to act as the agent of the Company to procure, on a best efforts basis, not less than six independent placees (the “**Placees**”) to subscribe for up to 2,203,531,500 new shares (the “**Placing Shares**”) at a price of HK\$0.15 per Placing Share (the “**Placing Price**”) upon the terms and subject to the conditions set out in the Placing Agreement (the “**Placing**”). The Placing Shares will be allotted and issued pursuant to a specific mandate from the shareholders of the Company (the “**Specific Mandate**”), and will rank pari passu in all aspects with the existing shares of the Company upon issuance.

The Placing Price of HK\$0.15 per Placing Share represents a premium of approximately 4.90% over the closing price of HK\$0.143 per Share as quoted on the Stock Exchange on 30 June 2026, being the date of the Placing Agreement.

The net Placing Price (after deducting the costs and expenses of the Placing) is approximately HK\$0.149 per Placing Share. Based on a nominal value of HK\$0.10 per Share, the aggregate nominal value of the Placing Shares is HK\$220,353,150.

The Placing Shares are expected to be placed to not less than six Placees, who are either individual or institutional investors independent of the Company and connected persons of the Company.

Assuming all Placing Shares are fully placed, gross proceeds from the Placing will be approximately HK\$330.53 million, and the Company intends to use net proceeds of approximately HK\$328.64 million (after deducting related costs and expenses) to replenish its working capital. Approximately 85% of such net proceeds is expected to be used for procurement of new energy vehicles in the third quarter of 2026 to support the development of the Group’s new energy business. The remaining 15% is expected to be used to replenish the working capital for the Group’s international operations, which span Europe, Africa, Southeast Asia and Latin America and include expanding localized dealership operations such as the Group’s first dealership store in Thailand.

The Directors consider that the issue of the Placing Shares enables the Company to seize market opportunities to replenish its working capital for subsequent development and operations, including without limitation the development of new energy business and international business. The Directors also believe that the Placing will facilitate the resumption of trading of shares by increasing the public float of the Company.

At the extraordinary general meeting of the Company held on 10 August 2026, the Specific Mandate was granted to the Directors by the shareholders to issue the Placing Shares.

Pursuant to the Placing Agreement, the Placing was expected to complete on or before 31 August 2026 (or such later date as may be agreed between the Company and the Placing Agent in writing) (the “**Long Stop Date**”).

On 31 August 2026, the Company and the Placing Agent have agreed in writing to extend the Long Stop Date from 31 August 2026 to 30 September 2026 (or such later date as may be agreed between the Company and the Placing Agent in writing). As at the date of this report, the Placing has not been completed.

For further details, please refer to the Company’s announcements dated 30 June 2026 and 31 August 2026 and the circular dated 22 July 2026.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY’S LISTED SECURITIES

Save as disclosed in this report, neither the Company nor any of its subsidiaries had purchased, sold or redeemed any of the Company’s listed securities (including sale of treasury shares (as defined under the Listing Rules), if any) during the six months ended 30 June 2026.

As at 30 June 2026, the Company did not hold any treasury shares (as defined under the Listing Rules).

MATERIAL ACQUISITIONS AND DISPOSALS

On 5 December 2025 (after trading hours), Xiamen ZhengTong Motors Group Co., Ltd.* (廈門正通汽車集團有限公司) (a wholly-owned subsidiary of the Company) entered into a sale and purchase agreement with Xiamen Xindeco Ltd.* (廈門信達股份有限公司) (“**Xiamen Xindeco**”) and Xindeco ITG Automobile (廈門信達國貿汽車集團股份有限公司) (and together with its subsidiaries, the “**Xindeco ITG Automobile Group**”) for the acquisition of 100% of the equity interest of Xindeco ITG Automobile (the “**Acquisition (PRC)**”). The final consideration for the Acquisition (PRC) was approximately RMB624.80 million.

On the same day, Tongda Group (China) Co., Ltd. (a wholly-owned subsidiary of the Company) and Rising Wave Development Limited (another wholly-owned subsidiary of the Company) entered into a sale and purchase agreement with Hong Kong Sindanol Limited (“**Sindanol**”), Xindeco Resources (Singapore) Pte. Ltd. (“**Xindeco (Singapore)**”) and ITG Auto (Thailand) for the acquisition of 100% of the issued share capital of ITG Auto (Thailand) (the “**Acquisition (Thailand)**”), and together with the Acquisition (PRC), the “**Acquisition**”). The final consideration for the Acquisition (Thailand) was approximately RMB22.20 million. Collectively, Xindeco ITG Automobile Group and ITG Auto (Thailand) represent the entire 4S dealership and automobile sales and export business of Xiamen Xindeco.

Upon aggregation, the highest applicable percentage ratio calculated pursuant to the Listing Rules for the Acquisition is more than 25% but less than 100%. Accordingly, the Acquisition constitutes a major transaction of the Company. As Xiamen Xindeco is owned as to approximately 39.93% by Xiamen ITG Holding Group Co., Ltd. (“**ITG Holding**” and together with its subsidiaries, the “**ITG Holding Group**”), and Sindanol and Xindeco (Singapore) are wholly-owned subsidiaries of Xiamen Xindeco, the Acquisition also constitutes a connected transaction of the Company. The Acquisition was approved by independent shareholders at the extraordinary general meeting of the Company held on 20 January 2026 and completion of the Acquisition has taken place on 12 March 2026. For further details, please refer to the Company’s announcements dated 5 December 2025, 20 January 2026, 12 March 2026 and 22 July 2026, and the Company’s circular dated 24 December 2025.

OTHER INFORMATION

On 7 January 2026 (after trading hours), Goldrich Holdings Limited (the “**Vendor**”, an indirect wholly owned subsidiary of the Company) and Shenzhenshi Huianqi Investment Advisory Co., Ltd.* [深圳市匯安啟投資諮詢有限公司] (“**Shenzhenshi Huianqi**”, an indirect wholly-owned subsidiary of the Company) entered into an equity interest transfer agreement with Xiamen Xinda Information Co., Ltd.* [廈門信息信達有限公司] (the “**Purchaser**”), pursuant to which (i) the Vendor has conditionally agreed to sell, and the Purchaser has conditionally agreed to acquire, the entire equity interest of Shenzhenshi Huianqi (together with its subsidiary, the “**Disposal Group**”); and (ii) the Purchaser has conditionally agreed to accept and bear certain related debts (the “**Related Debts**”) owed by the Disposal Group to the Group (the “**Disposal**”). The principal asset of the Disposal Group is the Shenzhen property, being a parcel of land located at Longhua District, Shenzhen, China. The final consideration for the Disposal was approximately RMB824,831,000, inclusive of Related Debts of approximately RMB374,980,000.

As the highest applicable percentage ratio calculated in accordance with the Listing Rules in respect of the Disposal is more than 25% but is less than 75%, the Disposal constitutes a major transaction of the Company. As ITG Holding is a controlling shareholder of the Company and the Purchaser is wholly owned by ITG Holding, the Disposal also constitutes a connected transaction of the Company. The Disposal was approved by independent shareholders at the extraordinary general meeting of the Company held on 12 February 2026, and completion of the Disposal has taken place on 19 May 2026. For further details, please refer to the Company’s announcements dated 7 January 2026, 12 February 2026 and 19 May 2026, and the Company’s circular dated 23 January 2026.

PUBLIC FLOAT AND CONTINUED SUSPENSION OF TRADING

Following the close of the mandatory general offer by CLSA Limited for and on behalf of Xinda Motors Co., Limited [信達汽車(香港)有限公司] to acquire all the issued shares of the Company (the “**Offer**”) in June 2025, 930,834,208 shares, representing approximately 9.29% of the total issued share capital of the Company, were held by the public (as defined under the Listing Rules).

At the request of the Company, trading in the shares on the Stock Exchange has been suspended with effect from 9:00 a.m. on 2 July 2025, being the trading day immediately after the close of the Offer. On 29 July 2025, the Company received a letter from the Stock Exchange setting out guidance for the resumption of trading in the shares of the Company (the “**Resumption Guidance**”). For further details of the Resumption Guidance, please refer to the announcement of the Company dated 1 August 2025.

On 18 September 2025, the Stock Exchange granted the Company a temporary waiver from strict compliance with the minimum public float requirement under the then Rules 8.08(1) and 13.32(1) of the Listing Rules for the period from 30 June 2025 to 31 December 2025. On 6 March 2026, the Stock Exchange granted the Company a further waiver from strict compliance with the minimum public float requirement under Rule 13.32B of the Listing Rules for the period from 1 January 2026 to 30 June 2026.

As stated above, the Company entered into the Placing Agreement with the Placing Agent on 30 June 2026. Assuming Placing Shares are fully placed, public shareholders will hold approximately 25.65% of the Company’s total issued Shares (as enlarged by the allotment and issue of the Placing Shares and assuming there will be no change to the total number of shares in issue from the date of this report to the completion of the Placing other than the issue of the Placing Shares). In view of the above placing plan, the Company has made a further application to the Stock Exchange for a waiver from strict compliance with the minimum public float requirement under Rule 13.32B of the Listing Rules pending restoration of public float. For further details, please refer to the announcements of the Company dated 19 September 2025, 13 March 2026 and 30 June 2026.

Further announcement(s) will be made by the Company regarding restoration of public float in the shares as and when appropriate in accordance with the Listing Rules.

CONTINUING CONNECTED TRANSACTIONS — PROPERTY LEASE AND SERVICES FRAMEWORK AGREEMENT

On 16 July 2026, the Company entered into a property lease and services framework agreement (the “**Property Lease and Services Framework Agreement**”) with ITG Holding, pursuant to which the ITG Holding Group agreed to lease certain properties owned by it and provide related property services to the Group for a term commencing from 16 July 2026 and ending on 15 July 2027 (both days inclusive).

ITG Holding is the controlling shareholder of the Company. Accordingly, ITG Holding is a connected person of the Company under Chapter 14A of the Listing Rules, and the transactions contemplated under the Property Lease and Services Framework Agreement constitute continuing connected transactions of the Company under the Listing Rules. For further details, please refer to the announcement of the Company dated 16 July 2026.

CORPORATE GOVERNANCE

The Group is committed to achieving high standards of corporate governance to safeguard the interests of Shareholders and to enhance corporate value. The Group also acknowledges the vital importance of good corporate governance to the success and sustainability of the Group.

The Company has adopted the Corporate Governance Code (the “**CG Code**”) contained in Appendix C1 to the Listing Rules as its corporate governance framework. So far as the Board is aware, during the six months ended 30 June 2026, the Company has complied with the code provisions set out in Part 2 of the CG Code.

The Company will periodically review and enhance its corporate governance practices to ensure that it will continue to comply with the requirements of the CG Code.

DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted a code of conduct regarding Directors’ securities transactions (the “**Securities Dealing Code**”) on terms no less exacting than the required standards set out in the Model Code as contained in Appendix C3 to the Listing Rules. In response to a specific enquiry by the Company, all existing Directors confirmed that they had complied with the Securities Dealing Code and the Model Code throughout the six months ended 30 June 2026.

CHANGE IN INFORMATION OF DIRECTORS

Changes in information of the Directors which are required to be disclosed under Rule 13.51B(1) of the Listing Rules are set out below:

- [1] Ms. YU Lijie was appointed as an executive Director on 6 January 2026. For details, please refer to the Company’s announcement dated 6 January 2026.
- [2] On 30 March 2026, Mr. SU Yi, an executive Director, was appointed as a member of the Environmental, Social and Governance Committee of the Company (the “**ESG Committee**”) in place of Mr. LUO Yaohuang, a vice president of the Company, who ceased to be a member of the ESG Committee on the same day. For details, please refer to the Company’s announcement dated 30 March 2026.
- [3] With effect from 30 March 2026, the remuneration of Mr. HUANG Junfeng, the chairman of the Board, was adjusted to RMB1,420,000 per annum.

OTHER INFORMATION

- (4) Mr. SHEN Jinjun, an independent non-executive Director, was appointed as an independent director, a member of the strategy committee and a member of the audit and risk control committee of FAW Jiefang Group Co., Ltd. (a company listed on the Shenzhen Stock Exchange, stock code: 000800.SZ) on 29 June 2026, and with effect from 6 July 2026, he has ceased to hold the position of honorary president of the Seventh Council of the China Automobile Dealers Association.

Save as disclosed above and elsewhere in this report, there have been no other changes to the biographical details of the Directors required to be disclosed pursuant to Rule 13.51B(1) of the Listing Rules since the 2025 Annual Report up to the date of this report.

INTERIM DIVIDEND

The Board did not recommend the distribution of an interim dividend for the six months ended 30 June 2026.

REVIEW OF INTERIM RESULTS

The audit committee of the Company (the “**Audit Committee**”) comprises three independent non-executive Directors, namely, Dr. TSUI Wai Ling Carlye (the chairman of the Audit Committee), Mr. SHEN Jinjun and Ms. YU Jianrong.

The Audit Committee has reviewed the unaudited condensed consolidated interim financial report for the six months ended 30 June 2026. KPMG, the Group’s external auditor, has carried out a review of the unaudited interim financial report for the six months ended 30 June 2026 in accordance with Hong Kong Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the HKICPA.

INDEPENDENT REVIEW REPORT

**Review report to the board of directors of
China ZhengTong Auto Services Holdings Limited**
(Incorporated in the Cayman Islands with limited liability)

INTRODUCTION

We have reviewed the interim financial report set out on pages 20 to 60 which comprises the consolidated statement of financial position of China ZhengTong Auto Services Holdings Limited (the “Company”) as of 30 June 2026, and the related consolidated statement of profit or loss, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the condensed consolidated cash flow statement for the six-month period then ended, and explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of an interim financial report to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34, *Interim financial reporting*, issued by the Hong Kong Institute of Certified Public Accountants. The directors are responsible for the preparation and presentation of this interim financial report in accordance with Hong Kong Accounting Standard 34.

Our responsibility is to express a conclusion, based on our review, on this interim financial report and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity* as issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial report consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial report as at 30 June 2026 is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34, *Interim financial reporting*.

NOTES TO THE UNAUDITED INTERIM FINANCIAL REPORT

1 GENERAL INFORMATION

China ZhengTong Auto Services Holdings Limited (the “Company”) was incorporated in the Cayman Islands on 9 July 2010 as an exempted company with limited liability under the Companies Law of the Cayman Islands. Its registered address is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman KY1-1111, Cayman Islands.

The Company and its subsidiaries (collectively, the “Group”) are principally engaged in 4S dealership business, automotive supply chain business and comprehensive properties business in the People’s Republic of China (the “PRC”).

2 BASIS OF PREPARATION

This interim financial report has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, including compliance with Hong Kong Accounting Standard (“HKAS”) 34, *Interim financial reporting*, issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”). It was authorised for issue on 28 August 2026.

The interim financial report has been prepared in accordance with the same accounting policies adopted in the 2025 annual financial statements, except for the accounting policy changes that are expected to be reflected in the 2026 annual financial statements. Details of any changes in accounting policies are set out in note 3.

The preparation of an interim financial report in conformity with HKAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year-to-date basis. Actual results may differ from these estimates.

This interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2025 annual financial statements. The condensed consolidated interim financial statements and the accompanying notes do not include all of the information required for a full set of financial statements prepared in accordance with HKFRS Accounting Standards.

The interim financial report is unaudited, but has been reviewed by KPMG in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the HKICPA. KPMG’s independent review report to the Board of Directors is included on page 19.

The financial information relating to the financial year ended 31 December 2025 that is included in the interim financial report as comparative information has been restated as described in note 2.1. The previously reported annual financial statements for the year ended 31 December 2025 are available in the Company’s registered office. The auditors have expressed an unqualified opinion on those financial statements in their report dated 30 March 2026.

2 BASIS OF PREPARATION [Continued]

The Group incurred a net loss of RMB1,049 million for the six months ended 30 June 2026 and had net current liabilities of RMB6,559 million as at 30 June 2026. The Group's liabilities included a sum of short-term and long-term loans and borrowings due to Xiamen ITG Holding Group Co., Ltd. ("ITG Holding") and its subsidiaries of RMB3,654 million and RMB1,603 million, respectively. Notwithstanding these conditions, the Company's condensed consolidated interim financial statements for the six months ended 30 June 2026 have been prepared on a going concern basis and the directors of the Company consider that there are no material uncertainties related to events or conditions which, individually or collectively, may cast significant doubt on the Group's ability to continue as a going concern. This is because, based on the cash flow projections for at least the next twelve months, the directors of the Company concluded that the Group will have adequate funds having considered the current available banking facilities as well as the financial support from ITG Holding, which has informed the Group that, on the basis that in compliant with regulatory regime applicable to state owned enterprises and after obtaining internal resolutions and approvals, it will provide such financial support to the Group as is necessary to enable the Group to continue operation as a going concern for at least the next twelve months.

2.1 Business combination under common control

On 12 March 2026, Xiamen ZhengTong Motors Group Co., Ltd. ("Xiamen ZhengTong", a wholly-owned subsidiary of the Company) acquired 100% of equity interest in Xiamen Xindeco ITG Automobile Group Co., Ltd. ("Xindeco ITG Automobile") from Xiamen Xindeco Co., Ltd. ("Xiamen Xindeco") with a total cash consideration of RMB624,795,000.

On the same day, Tongda Group (China) Co., Ltd. ("Tongda Group") and Rising Wave Development Limited ("Rising Wave"), both wholly-owned subsidiaries of the Company, acquired 100% of equity interest in ITG Auto (Thailand) Co., Ltd. ("ITG Auto (Thailand)") from Hong Kong Sindanol Limited ("Sindanol HK") and Xindeco Resources (Singapore) Pte. Ltd. ("Xindeco Resources") with a total cash consideration of RMB22,203,000.

RMB407,814,000 of the total consideration has been paid as of 30 June 2026, the remaining amount was recorded in trade and other payables.

As the Group, Xiamen ZhengTong, Tongda Group, Rising Wave, Xindeco ITG Automobile and ITG Auto (Thailand) are ultimately under common control of ITG Holding, the above acquisitions have been accounted for based on the principles of merge accounting.

The consolidated financial statements of the Group have been therefore prepared using the merger basis of accounting as if the current group structure had been in existence throughout the periods presented. The net assets of Xindeco ITG Automobile and ITG Auto (Thailand) have been consolidated using the existing book values from the perspective of controlling party. Consideration paid/payable by the Group is recorded in equity. Comparative amounts in the consolidated financial statements are presented as if the entities or businesses had been combined at the beginning of the comparative period unless the combining entities or businesses first came under common control at a later date.

2 BASIS OF PREPARATION (Continued)

2.1 Business combination under common control (Continued)

The consolidated statement of profit or loss and the consolidated statement of profit or loss and other comprehensive income include the results of combining entities or businesses from the earliest date presented or since the date when the combining entities or businesses first came under the common control, where this is a shorter period, regardless of the date of the common control combination. The consolidated statement of profit or loss and the consolidated statement of profit or loss and other comprehensive income also take into account the profit or loss attributable to the non-controlling interest recorded in the consolidated financial statements of the controlling party. The effects of all transactions between the combining entities or businesses, whether occurring before or after the common control combinations, are eliminated. The opening balance at 1 January 2025 have been restated, with consequential adjustments to comparative information for the consolidated statement of profit or loss and other comprehensive income for the six months ended 30 June 2025 and consolidated statement of financial position as at 31 December 2025 (see Note 24).

A uniform set of accounting policies is adopted when preparing the consolidated financial statements. The details of the restated balances have been disclosed in Note 24 to the interim financial report.

3 CHANGES IN ACCOUNTING POLICIES

The HKICPA has issued a number of amendments to HKFRS Accounting Standards that are first effective for the current accounting period. Of these, only the amendments to HKFRS 9, *Financial instruments* and HKFRS 7, *Financial instruments: Disclosures — Amendments to the classification and measurement of financial instruments*, are relevant to the Group's financial statements. The impacts of adopting these amendments are discussed below.

The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

Amendments to HKFRS 9, *Financial instruments* and HKFRS 7, *Financial instruments: Disclosures — Amendments to the classification and measurement of financial instruments*

The amendments cover three main aspects:

- The amendments clarify when a financial asset or a financial liability is recognised and derecognised. They also introduce an optional exception that permits an entity to derecognise a financial liability before the settlement date when the financial liability is settled in cash using an electronic payment system, provided that specific criteria are met.
- For the assessment of whether a financial asset has contractual cash flows that are solely payments of principal and interest on the principal amount outstanding, the amendments clarify the assessment of interest and introduce an additional test for the financial assets with contingent features, for example environmental, social or governance ("ESG")-linked features. The amendments also clarify the difference between financial assets with non-recourse features and contractually linked instruments which may then change the applicable assessments.
- The amendments introduce new disclosures for disposals of investments in equity instruments designated at FVOCI, and for financial instruments not measured at FVPL which contain contractual terms that could change the amount of contractual cash flows based on the occurrence or non-occurrence of a contingent event that does not relate directly to changes in basic lending risks and costs.

The above amendments have no impact on this interim financial report.

4 REVENUE

The Group is mainly engaged in sales of passenger motor vehicles, provision of facilitation service in relation to mortgage loans provided by third-party financial institutions to buyers of passenger motor vehicles, provision of after-sales services and logistics services. Revenue represents the sales of goods and services income rendered to customers.

The amount of each significant category of revenue recognised during the period is as follows:

	Six months ended 30 June	
	2026 RMB'000	2025 (Restated) RMB'000

(i) It mainly represents the interest expenses borne by the Group arising from discounting of bills issued to automobile manufacturers.

(ii) Employees of the Group's PRC subsidiaries are required to participate in defined contribution retirement schemes administered and operated by the local municipal governments where the subsidiaries are registered. The Group's PRC subsidiaries contribute funds which are calculated on certain percentages of the average employee salary as agreed by the respective local municipal government to the schemes to fund the retirement benefits of the employees. The Group remits all pension fund contributions to the respective tax bureau, which are responsible for the payment and liabilities relating to the pension funds.

The Group also operates a Mandatory Provident Fund Scheme (the "MPF scheme") under the Hong Kong Mandatory Provident Fund Schemes Ordinance for employees employed under the jurisdiction of the Hong Kong Employment Ordinance. The MPF scheme is a defined contribution retirement plan administered by independent trustees. Under the MPF scheme, the employer and its employees are each required to make contributions to the plan at 5% of the employees' relevant income, subject to a cap of monthly relevant income of HK\$30,000. Contributions to the plan vest immediately.

The Group's contributions made to the above defined contribution schemes are non-refundable and cannot be used to reduce the future or existing level of contribution of the Group should any forfeiture be resulted from the schemes.

The Group has no other material obligation for the payment of retirement benefits other than the annual contributions described above.

Six months ended 30 June		
	2026	2025 (Restated)
	RMB'000	RMB'000
Current tax:		
Provision for PRC income tax for the period	62,138	15,474
Deferred tax:		
Origination and reversal of temporary differences	(100,359)	(97,801)
	(38,221)	(82,327)

- (i) Pursuant to the rules and regulations of the Cayman Islands and the British Virgin Islands, the Group is not subject to any income tax in the Cayman Islands and the British Virgin Islands.
- (ii) No provision for Hong Kong Profits Tax was made for the Group's subsidiaries located in Hong Kong as these subsidiaries did not have assessable profits subject to Hong Kong Profits Tax during the period. The payments of dividends by Hong Kong companies are not subject to any Hong Kong withholding tax.
- (iii) The PRC subsidiaries of the Group are subject to PRC Corporate Income Tax rate of 25%, except for certain subsidiaries of the Group who fulfill the criteria required for preferential income tax rate granted to small and low profit-making enterprises in Chinese Mainland. These entities are subject to a preferential rate of 5%.
- (iv) Pursuant to the China Enterprise Income Tax Law ("EIT Law") and its relevant regulations, a 10% PRC withholding tax with the amount of RMB44,941,000 is charged against the Group's gain from disposal of subsidiaries incorporated in the PRC (note 23).

Taxation for the Group's PRC subsidiaries is calculated using the estimated annual effective rates of taxation that are expected to be applicable.

8 LOSS PER SHARE

(a) Basic loss per share

The calculation of basic loss per share for the six months ended 30 June 2026 was based on the loss attributable to ordinary shareholders of the Company of RMB1,172,225,000 (six months ended 30 June 2025: loss attributable to ordinary shareholders of the Company of RMB993,550,000, as restated) and the weighted average number of ordinary shares in issue during the six months ended 30 June 2026 of 9,999,630,944 shares (six months ended 30 June 2025: 4,367,979,834 shares).

(b) Diluted loss per share

There were no dilutive potential ordinary shares for the six months ended 30 June 2026, therefore, diluted loss per share is equal to basic loss per share.

9 SEGMENT REPORTING

The Group manages its businesses by divisions, which are organised by business lines and in a manner consistent with the way in which information is reported internally to the Group's most senior executive management for the purposes of resource allocation and performance assessment, the Group has identified the following three major operating segments:

(1) 4S dealership business

4S dealership business mainly includes sales of passenger motor vehicles, provision of related mortgage facilitation service, and after-sales services through the Group's network of 4S dealership in the PRC.

(2) Supply chain business

Supply chain business mainly includes provision of motor-related logistics services in the PRC.

(3) Comprehensive properties business

Comprehensive properties business mainly includes development and sales of properties in the PRC.

(a) Segment results, assets and liabilities

For the purposes of assessing segment performance and allocating resources between segments, the Group's chief operating decision maker monitors the results, assets and liabilities attributable to each reportable segment on the following bases:

- Revenue and expenses are allocated to the reportable segments with reference to sales generated by those segments and the expenses incurred by those segments or which otherwise arise from the depreciation or amortisation of assets attributable to those segments.
- The measure used for reporting segment profit is profit before taxation. To arrive at profit before taxation, the Group's earnings are adjusted for items not specifically attributed to individual segments, such as head office and corporate administration costs, other income and finance costs.
- Segment assets include all current and non-current assets with the exception of intangible assets, goodwill, deferred tax assets and unallocated head office assets. Segment liabilities include all current and non-current liabilities with the exception of income tax payables, deferred tax liabilities and unallocated head office liabilities.

9 SEGMENT REPORTING (Continued)

(a) Segment results, assets and liabilities (Continued)

- In addition to receiving segment information concerning profit before taxation, management is provided with segment information concerning revenue (including inter-segment sales), depreciation, amortisation and impairment losses and additions to non-current segment assets used by the segments in their operations.

10 PROPERTY, PLANT AND EQUIPMENT

During the six months ended 30 June 2026, the Group acquired property, plant and equipment with original costs of RMB208,763,000 in aggregate (six months ended 30 June 2025: RMB316,960,000, as restated). Items of property, plant and equipment with a net book value of RMB283,154,000 were disposed of during the six months ended 30 June 2026 (six months ended 30 June 2025: RMB122,134,000, as restated), resulting in net loss on disposal of RMB2,707,000 (six months ended 30 June 2025: net gain on disposal of RMB1,367,000, as restated).

During the six months ended 30 June 2026, in response to the tense market competition and the recent development in customer demand observed in automobile sector, the Group has decided to transform or close certain of its 4S stores. As a result, the carrying amount of property, plant and equipment with no practical utility in the future has been written down to zero, leading to a total impairment loss of RMB28,302,000 being recognised for these property, plant and equipment (six months ended 30 June 2025: impairment loss of RMB126,376,000, as restated).

11 RIGHT-OF-USE ASSETS

During the six months ended 30 June 2026, the Group entered into a number of lease agreements for use of buildings and land, and therefore recognised additions to right-of-use assets of RMB13,647,000 (six months ended 30 June 2025: RMB57,394,000, as restated).

The car dealerships arise from prior business combinations and relate to relationships with automakers, with an estimated useful life of 40 years. The fair value of the car dealerships as at the respective acquisition date was determined by using the multiple excess earning method.

The dealership operation rights arise from a prior business combination through an agreement on strategic operation management cooperation scheme, with an estimated useful life of 10 years. The fair value of the dealership operation rights as at the acquisition date was determined by using the multiple excess earning method.

12 INTANGIBLE ASSETS (Continued)

The amortisation charge for the period ended 30 June 2026 is included in administrative expenses in the consolidated statement of profit or loss.

Impairment testing of intangible assets — car dealerships/dealership operation rights and goodwill

Due to the impacts of macroeconomic environment changes, the intense competition in the automobile dealership industry and the recent development in customer demand observed in automobile sector, the selling price or gross profit margin of sales of certain passenger vehicles decreased continuously and has exceeded the management's prior forecast, as a result the operating results of certain stores of the Group were lower than expected. The Group's management performed an impairment assessment, assisted by an external valuer, to determine the recoverable amount of the cash generating units (CGUs) containing goodwill and/or intangible assets — car dealerships/dealership operation rights as at 30 June 2026. Based on the management's assessment result, the Group recognised impairment losses of goodwill and intangible assets — car dealerships/dealership operation rights of RMB15,431,000 and RMB72,885,000, respectively, for those underperforming CGUs in "Impairment losses on goodwill and intangible assets" for the six months ended 30 June 2026 (six months ended 30 June 2025: RMB39,790,000 and RMB75,210,000, as restated). Any adverse change in the assumptions used in the calculation of recoverable amount would result in further impairment losses.

The recoverable amounts of CGUs have been determined based on the value-in-use calculations using cash flow projections based on financial budgets approved by management covering a five-year period. Cash flows beyond the five-year period are extrapolated by using an estimated growth rate of 2.0% (2025: 2.0%, as restated) which is consistent with the forecasts included in industry reports. The pre-tax discount rate applied to the impairment test as at 30 June 2026 was within a range from 12% to 13% (31 December 2025: 12% to 14%, as restated) which reflected current market assessment of the time value of money and the risk specific to CGUs.

14 OTHER FINANCIAL ASSETS/(LIABILITIES) (Continued)

- (i) As at 30 June 2026, wealth management products included investment in wealth management products purchased from Western Trust Co., Ltd. ("Western Trust") of RMB41,319,000 (as at 31 December 2025: RMB42,246,000, as restated) and investments with banks in the PRC of RMB326,000 (as at 31 December 2025: RMB323,000, as restated).

The underlying assets of wealth management products purchased from Western Trust are a wide range of government and corporate bonds, bank deposits as well as money market funds, etc. The fair value of the Western Trust was determined with a method shown in note 25. An unrealised loss for the investment of RMB927,000 was recognised in other income for the six months ended 30 June 2026 (six months ended 30 June 2025: an unrealised loss of RMB112,000, as restated).

The remaining wealth management products represented the investments with banks. These investments with no guarantee of principal and interest were classified as FVPL. The fair value of wealth management products of investments with banks was determined with a method shown in note 25. During the six months ended 30 June 2026, the net realised/unrealised gain for these investments of RMB253,000 was recognised in other income in the consolidated statement of profit or loss (six months ended 30 June 2025: net realised/unrealised gain of RMB670,000, as restated).

- (ii) Equity investment in Dongfeng Logistics

Dongfeng Logistics is an unlisted entity incorporated in the PRC and is principally engaged in the provision of logistics services. As at 30 June 2026, the Group held 8.66% equity interest in Dongfeng Logistics and has recognised its interests in Dongfeng Logistics as a financial asset at fair value through profit or loss. According to the valuation report issued by an external valuer on 26 March 2026, the fair value of 8.66% equity investment in Dongfeng Logistics was RMB503,269,000 as at 31 December 2025, as restated. As the directors of the Company considered that there are no material changes in relation to the significant input for the measurement, the fair value of 8.66% equity investment in Dongfeng Logistics as at 30 June 2026 was assessed to be the same as those of 31 December 2025, i.e. RMB503,269,000, as restated.

15 INVENTORIES

- (a) Inventories in the consolidated statement of financial position comprise:

	At 30 June 2026 RMB'000	At 31 December 2025 (Restated) RMB'000

16 TRADE AND BILLS RECEIVABLES

As of the end of the reporting period, the ageing analysis of trade and bills receivables, based on the invoice date, is as follows:

	At 30 June 2026	At 31 December 2025 (Restated)
	RMB'000	RMB'000
Within 3 months	812,040	842,341
Over 3 months but within 1 year	8,831	12,313
Over 1 year	6,623	1,586
	827,494	856,240
Trade receivables	827,167	856,193
Less: loss allowance on trade receivables	(31)	(316)
	827,136	855,877
Bills receivables	358	363
Trade and bills receivables	827,494	856,240

All of the trade and bills receivables are expected to be recovered within one year.

Management has a credit policy in place and the exposure to these credit risks are monitored on an ongoing basis.

Credit risk in respect of trade and bills receivables is limited since credit sales are offered in rare cases subject to high level management's approval. Trade receivables balances mainly represent receivables from individual customers, who obtain mortgages from their financial institutions and used the drawn-down mortgage principal to settle the Group's trade receivables within one month when the mortgages were granted by their financial institutions, and warranty receivables from automobile manufacturers. For the receivables from automobile manufacturers, risk of default is considered low, as these are companies with good credit rating.

22 PERPETUAL BONDS (Continued)

Perpetual Bond 12

On 30 June 2026, ITG HK entered into written agreements and a written supplemental agreement with the Company, pursuant to which the existing unsecured short-term interest-bearing borrowing provided by ITG HK to the Company with a principal amount of RMB498,164,000 was converted into a perpetual bond with no fixed maturity ("Perpetual Bond 12") and is callable at the Company's option. Coupon interest of 4.3% per annum are paid annually in arrears and may be deferred at the discretion of the Company.

Pursuant to the terms of Perpetual Bond 12, the Company has no contractual obligation to repay the principal or to pay any coupon interest.

As the Perpetual Bonds 1 to 12 only impose contractual obligations on the Group to repay the principal or to pay any distributions under certain circumstances which are at the Group's discretion, they have in substance conferred upon the Group an unconditional right to avoid delivering cash or other financial asset to settle contractual obligations, and therefore do not meet the definition of a financial liability in accordance with HKAS 32 *Financial Instruments: Presentation*. As a result, Perpetual Bonds 1 to 12 are classified as equity and distributions, if and when declared, are treated as equity dividends.

Perpetual Bond 1, 2, 6, 8, 9 and 12 were recorded directly in equity attributable to equity shareholders of the Company. During the six months ended 30 June 2026, the profit attributable to the holders of Perpetual Bonds 1, 2, 6, 8, 9 and 12 based on the applicable coupon interest rate, amounted to RMB79,458,000 (six months ended 30 June 2025: RMB63,414,000, as restated), and RMB85,020,000 has been distributed to the relevant bond holders (six months ended 30 June 2025: RMB107,127,000, as restated).

Except for Perpetual Bond 1, 2, 6, 8, 9 and 12, the remaining Perpetual Bonds were issued by indirect wholly-owned subsidiaries of the Company to external third parties, which could not be treated as equity directly or indirectly attributable to the equity shareholders of the Company. Therefore, these Perpetual Bonds are classified within the non-controlling interests in the consolidated statement of financial position according to HKFRS 10, Consolidated Financial Statements. During the six months ended 30 June 2026, the profit attributable to the holders of these Perpetual Bonds based on the applicable coupon interest rate, amounted to RMB55,064,000 (six months ended 30 June 2025: RMB43,250,000, as restated), and RMB54,082,000 has been distributed to the relevant bond holders (six months ended 30 June 2025: RMB44,582,000, as restated).

25 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

Financial assets and liabilities measured at fair value

Fair value hierarchy

The fair value of the Group's financial instruments is categorised into the three-level fair value hierarchy as defined in HKFRS 13, *Fair Value measurement*. The level, into which a fair value measurement is classified, is determined with the reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.
- Level 3 valuations: Fair value measured using significant unobservable inputs.

The following table presents the Group's assets/(liabilities) that are measured at fair value.

During the six months ended 30 June 2026, there were no transfers between Level 1 and Level 2, or transfers into or out of Level 3 (six months ended 30 June 2025: nil, as restated). The Group's policy is to recognise transfers between levels of fair value hierarchy as at the end of the reporting period in which they occur.

25 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (Continued)

Financial assets and liabilities measured at fair value (Continued)

Fair value hierarchy (Continued)

(i) Valuation techniques and inputs used in Level 2 fair value measurements

The fair value of the forward contracts is determined by forward exchange rate and discounted cash flow method. The discount rate used is the risk-free rate.

The fair value of wealth management products of investment with banks in the PRC is determined by reference to quoted prices of instruments similar to the assets being valued, adjusted for factors unique to the assets being valued.

The fair value of the swap contracts is determined by discounted-cash flow method. Future cash flows are estimated based on forward interest rates (from observable yield curves at the end of the reporting period). The discount rate used is the risk-free rate.

(ii) Information about Level 3 fair value measurements

The fair value of wealth management products purchased from Western Trust is determined with reference to the net assets value report of the wealth management products as provided by the fund manager.

The fair value of equity investment in Dongfeng Logistics is determined with reference to the price/sales ratios of the comparable listed companies and adjusted for lack of marketability discount.

The fair value of the option contracts is determined by Black-Scholes model. The key parameters used include forward exchange rates (from observable forward exchange rate at the end of the reporting period), contracted exchange rates, discount rate, risk-free rate, time to maturity, and volatility.

Below is a summary of significant unobservable inputs to the valuation of the financial instruments together with an analysis for the relationship of unobservable inputs to the fair value measurements at the end of reporting period:

30 June 2026 and 31 December 2025

	Valuation techniques	Significant unobservable inputs	Relationship of unobservable inputs to the input
Wealth management products	Net assets value	Net assets value of the wealth management products	The fair value changes as the net assets value of the wealth management products changes
Equity investment in Dongfeng Logistics and other entity	Market approach	Price/sales ratio of the comparable listed companies Discounts for lack of marketability	The fair value increase/decrease as the price/sales ratio of the comparable listed companies increase/decrease and discounts for lack of marketability decrease/increase
Option contracts	Black-Scholes model	Volatility of the foreign exchange rate	The fair value increase/decrease as the volatility of the foreign exchange rate increase/decrease

27 CONTINGENT LIABILITIES

- (a) In 2018, Wuhan Zhengtong, a subsidiary of the Company, and Beijing Guangze Real Estate Development Co., Ltd. ("Beijing Guangze") entered into a general contract agreement (the "General Contractor Agreement") pursuant to which Wuhan Zhengtong engaged Beijing Guangze to undertake the development, establishment, re-establishment and expansion of 4S stores and relevant commercial projects owned by the Group. The contract consideration shall be utilized by Beijing Guangze as the general contractor for such costs as consultant fees for hiring professional service companies, approval and construction application fees, construction and installation fees and ancillary facilities fees. Details of the General Contractor Agreement had been disclosed in the Company's announcement dated 13 March 2018.

In July 2022, the Group received a payment request of RMB6 million from one of the sub-contractors that had been involved in certain 4S Stores and commercial projects (the "Subcontractor"), as Beijing Guangze failed to fulfil its obligations under the General Contractor Agreement.

In accordance with the PRC legal opinion obtained by the Company from an external legal advisor, Beijing Guangze is the primary obligor for the relevant construction payments taking into account such facts and circumstances among others (i) Beijing Guangze had undertaken its general contractor role for the projects since the establishment of relevant contracts in prior years and the Group had entrusted Beijing Guangze with the projects and (ii) the Group had already fulfilled its obligations including the payment made to Beijing Guangze in accordance with the General Contractor Agreement. The historical payments to Beijing Guangze in relation to the Subcontractor is assessed to be approximately RMB236 million.

While the Subcontractor has not initiated any formal legal proceedings against the Group in this connection and the future development cannot be estimated with certainty, the directors of the Company, having given due consideration to the legal advice and the relevant facts and circumstances, are of the opinion that it is not probable that the Group will be sued by the Subcontractor or need to make payments to the Subcontractor. Therefore, no provision has been made in respect of this matter as at 30 June 2026 (31 December 2025: nil, as restated).

27 CONTINGENT LIABILITIES [Continued]

- (b) In 2023, the Group was informed by receipt of two civil complaints that Wuhan Zhengtong has entered into certain agreements in 2016 to provide guarantees (the “Guarantee Contracts”) against two fixed assets mortgage loan contracts (the “Fixed Assets Loan Contracts”) entered into by Wuhan Economic and Technological Development Zone Branch of Hubei Bank Co., Ltd. (the “Hubei Bank”) with Beijing Guangze and Inner Mongolia Shengze Dingjie Automobile Trading Company Limited (the “Inner Mongolia Shengze”), respectively.

In March 2024, Wuhan Zhengtong received judgments in relation to aforementioned two civil lawsuits (the “First Instance Judgment”) from the Wuhan Intermediate People’s Court, pursuant to which i) the Guarantee Contracts were executed but are of no legal effect; and ii) Wuhan Zhengtong is obliged to bear half of the shortfalls, if any, when Hubei Bank has shortfalls to recover the debt owed to it, by collecting the proceeds of disposal of the collateral assets, for the failure of Beijing Guangze and Inner Mongolia Shengze to repay the debts.

On 15 November 2024, Wuhan Zhengtong received the second instance judgements in relation to aforementioned two civil lawsuits, pursuant to which the court had upheld the original judgment.

As at 30 June 2026, the outstanding debts in relation to Fixed Assets Loan Contracts amounted to approximately RMB553 million. According to the valuation report issued by an external valuer on 26 March 2026, the estimated net realisable amount of the corresponding collaterals, calculated as fair value less cost to sell, was RMB625 million as at 31 December 2025, as restated. As the directors of the Company considered that there are no material changes in relation to the significant input for the measurement of the collaterals, the estimated net realisable amount of the collaterals as at 30 June 2026 were assessed to be the same as those of 31 December 2025, i.e. RMB625 million, as restated.

In accordance with a PRC legal opinion obtained by the Company from an external legal advisor, the second instance judgment considered that Wuhan Zhengtong is ranked lower in the order of priority in meeting payment commitments, as there exist several collaterals and there are other defendants who are also guarantors. Pursuant to applicable laws and regulations, Hubei Bank shall have the right of priority to request debt settlement by such collaterals. The directors of the Company, having given due consideration of the legal advice and the relevant facts and circumstances including their understanding of the estimated net realisable amounts of the collaterals, are of the opinion that it is not probable that the Group will be required to make any payments. Therefore, no provision has been made in respect of this matter as at 30 June 2026 (31 December 2025: nil, as restated).

As at 30 June 2026, except for the aforementioned contingencies, the Group did not have any other material contingent liabilities.

29 NON-ADJUSTING EVENTS AFTER THE REPORTING PERIOD

On 30 June 2026, the Company and Fortune (HK) Securities Limited ("the Placing Agent") entered into the Placing Agreement, pursuant to which the Company agreed to appoint the Placing Agent, and the Placing Agent agreed to act as, the agent of the Company to procure, on a best efforts basis, not less than six placees to subscribe for up to 2,203,531,500 new Shares at the placing price of HK\$0.15 per placing shares upon the terms and subject to the conditions set out in the Placing Agreement.

The maximum of 2,203,531,500 placing shares represent: (a) approximately 22.00% of the total existing issued Shares as at 30 June 2026; and (b) approximately 18.03% of the total issued Shares as enlarged by the allotment and issue of 2,203,531,500 placing shares (assuming there will be no change to the total number of shares in issue from 30 June 2026 to the completion of the placing other than the issue by the Company of the placing shares).

The placing agreement has been approved by the Extraordinary General Meeting held on 10 August 2026. The board of directors of the Company has been granted a specific mandate to exercise all the powers of the Company to allot and issue the placing Shares, subject to and in accordance with the terms and conditions of the placing agreement.

30 POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS, AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE SIX MONTHS ENDED 30 JUNE 2026

A number of amendments and new standards are not yet mandatory for annual periods beginning 1 January 2026. Earlier application is permitted; however, the Group has not early adopted any new or amended standards in preparing this interim financial report.

The following updates the information provided in the last annual financial statements about the possible impacts of HKFRS 18 which may have a significant impact on the Group's consolidated financial statements when adopted.

HKFRS 18, *Presentation and disclosure in financial statements*

HKFRS 18 will replace HKAS 1, *Presentation of financial statements*, and is first effective for annual reporting periods beginning on or after 1 January 2027.

HKFRS 18 introduces new requirements for presentation and disclosure in financial statements, including new categories and defined subtotals in the statement of profit or loss, enhanced requirements for aggregation and disaggregation of information, and specific disclosures about management-defined performance measures. The Group is still in the process of assessing the expected impact that the initial application of HKFRS 18 will have on its consolidated financial statements.
